1 COST CAPTURE DATA REQUIREMENTS

1.1 Clients Requirements

1.1.1 This annex explains the *Client's* requirements in relation to the capture and reporting of all the *Contractor's* actual cost and revenue incurred in providing the services.

1.1.2 The *Contractor* shall maintain and submit a Contractor's works cost report on a monthly basis to the *Client* showing the *Contractor's* monthly and cumulative actual cost for the *Service Period.*

1.1.3 The *Contractor* shall submit reports electronically using a format specified in appendix B (Area 10 M&R Scope Annex 10 Appendix B Cost Capture Report) or otherwise specified. Reports must only be sent to the *Client* mailbox: CostCaptureMailbox@highwaysengland.gov.uk.

1.1.4 The *Contractor* shall give open access to the *Contractor's* costing system to the *Client,* as is necessary for the *Client* to verify the accuracy of the data being reported.

1.1.5 The cost capture requirements do not preclude any other separate requirements that may be needed.

1.1.6 The *Client* reserves the right to adjust the cost capture report (found in Appendix B) accordingly during the period of the contract of which the *Contractor* must make the adjustments in a reasonable amount of time agreed between both parties.

1.2 Item Breakdown Structure

1.2.1 The *Contractor* shall capture its actual cost against the items in Table 2.1.2 against each sub asset type.

~~1.2.1~~1.2.2 The *Contractor* shall capture its actual units of activity against the items in Table 2.1.2 for each sub asset type at the predefined unit of measure outlined in table 2.1.2 (where prescribed). The *Client* reserves the right to change the unit of measure throughout the duration of the contract,

1.3 Reporting By Route and Network

1.3.1 The *Contractor* shall capture general or non-route specific actual costs and units of activity separately for all items and distribute them appropriately over relevant items and routes in accordance with their item inventory content if applicable.

1.3.2 The *Contractor* shall capture its actual cost against the prescribed route locations as Table 2.1.3.

~~1.3.2~~1.3.3 The *Contractor* shall capture its actual units of activity against the prescribed route locations as Table 2.1.3.

~~1.3.3~~1.3.4 The *Contractor* shall agree with the *Client* changes to the prescribed route in Table 2.1.3, if it is deemed necessary.

~~1.3.4~~1.3.5 The *Contractor* shall capture Deliver Severe Weather costs, (Table 2.1.2) actual costs separately and distribute them appropriately over routes in accordance with their Item inventory content to provide a cost for each prescribed route location.

1.4 Item Coverage

1.4.1 The item coverage for each item must be referenced back to the Service Information and other relevant contract including the Cyclical and Reactive Maintenance Delivery Plan and the Severe Weather Plan and the Incident Response Plan documents.

1.4.2 The *Contractor* shall allocate its actual costs against the following cost headings:

- Staff
- Labour
- Equipment
- Material
- Subcontract
- Overheads

1.4.3 The *Contractor* shall reconcile notional rates with its actual costs annually. The *Contractor* shall correct any under or over reporting of actual cost by adjusting future rates.

2 COST BREAKDOWN DATA COMPONENTS FUNCTION

2.1.1 The *Contractor* shall allocate Defined Cost and actual units of activity assessed through the Schedule of Cost Components under the cost headings under the relevant cost headings found in section 1.4.2.

2.1.2 The cost capture activities that are required are outlined in Table 2.1.2 below.

2.1.3 A summary of the route locations to be reported on can be found in Table 2.1.3.
