SCHEDULE 4.1 – SUPPLIER SOLUTION

1. PURPOSE

1.1 This Schedule contains the Supplier Solution for the purpose of this Agreement.

1.2 The Supplier Solution is not exhaustive of the Supplier's technical solution for this Agreement, other aspects of which are set out in the relevant other parts of this Agreement.

2. STRUCTURE

2.1 The Schedule is structured as follows:

2.1.1 Solution overview (Appendix 1);

2.1.2 Technical solution (Appendix 2); and

2.1.3 Training and migration (Appendix 3).

3. INTERPRETATION

3.1 The Supplier Solution has been prepared by the Supplier and is operational in nature. As a consequence, at the Effective Date not all capitalised terms used in the Supplier Solution are defined in Schedule 1 (Definitions) or in Schedule 2.1 (RTO System Requirements). Accordingly, for the purpose of interpretation and subject to Clause 1.4 of this Agreement:

3.1.1 capitalised terms used in the Supplier Solution but not defined in Schedule 1 (Definitions) or in Schedule 2.1 (RTO System Requirements) shall be construed in a reasonable and "common sense" manner having regard to the existing definitions in Schedule 1 (Definitions) and in Schedule 2.1 (RTO System Requirements), the relevant requirements set out in this Agreement and the nature of the relevant obligations; and

3.1.2 unless the context requires otherwise, un-capitalised terms used in the Supplier Solution shall have the same meaning as the equivalent defined term in Schedule 1 (Definitions) or in Schedule 2.1 (RTO System Requirements).
