

# POWERMMASTER

## POP-UP ELECTRICAL SUPPLIES AT A VERY COMPETITIVE PRICE

Housed in a heavy-duty galvanised steel chamber, each PowerMaster can provide up to 4x 16amp sockets, up to 2x 32amp sockets or 1x 63amp socket.

When not in use, the electrical enclosure is folded into the below-ground housing, which has walk-over and drive-over capabilities.

### Product Details:

- IP44 or IP67 socket outlets available
- 110V / 230V / 400V
- Lockable socket outlets available
- Water resistant electrical housing
- Built-in overload and fault current protection
- kWh metering available
- Lock down lid facility
- Drain holes allow rain water to drain away from the unit

### Ideal uses include:

- Town centres and street markets
- Temporary hospitality areas
- Depots
- Railway sidings
- Lorry parks and car parks
- Boat yards
- Farms
- Events and showgrounds
