UK Shared Business Services Ltd changed its name from RCUK Shared Services Centre Ltd in March 2013.

Our Customers

Section 4 – Specification

Background Introduction

The Office of Manpower Economics (OME) provides support for all the independent Pay Review Bodies. In supporting these bodies, one of OME's key functions is to provide high quality research-based technical advice drawing on economic, pay, labour market, statistical and other technical data. More information about the OME, the bodies it supports, and the research it undertakes, can be found on its website:

<https://www.gov.uk/government/organisations/office-of-manpower-economics/about>

STRB provides independent advice to the Prime Minister and the Secretary of State for Education on the pay and conditions of teachers in England and Wales. In reaching its recommendations, STRB received evidence from a range of consultees and conducts its own analysis and research on issues relating to the school workforce, including in relation to pay, recruitment and retention.

Aim

The STRB would like to collect survey evidence directly from teachers to complement the wider evidence it receives. It has designed a set of questions that it would like to be included in a survey of teachers in England (and Wales).

It requires that the survey gains responses from at least 1000 teachers in a sample that is representative of the wider school workforce profile in England (and Wales). This means the survey should include teachers of all levels of seniority, coverage across the whole of England, a range of different school types (e.g. academies / non-academies) and be reflective of the percentage of schools eligible for free school meals.

The survey responses should be able to be broken down by key variables, for example phase of school (primary / secondary) and seniority of teacher (senior leader / classroom teacher). The data should also be linked to wider school characteristics to give background demographics of the respondents, for example including school type, region, free school meals eligibility of their school and gender.

The results of the survey should be given to the STRB in a dataset that allows detailed tabulations.

Objectives

The objectives of this exercise are to:

- Collect data from at least 1000 teachers relating to question set provided in this specification.
- Provide associated socio-demographic and related school data such that the data can be broken down by such variables.
- Provide OME with a detailed dataset and a selection of tabulations
- Provide OME with documentation outlining the technical approach to the survey

The questions to be asked in the survey are:

(1) What are the most important factors which attracted you into teaching?

- Pay

- Working with young people
- Making a difference
- Holidays
- Pension
- Hours
- Other (please specify)

[Ranking required]

(2) Retention

Are you considering leaving teaching within the next academic year? [Single choice response options required]

- If Yes, what is your main reason for leaving [Drop list of options plus one 'other' open response option required]
- If yes, what will you do instead? [Drop list of options plus one 'other' open response option required]

(3) Agreement with engagement statements:

- I am satisfied with my job at this school
- I am well supported by management to do my job
- I am kept well informed about what is happening at this school
- There is good support from colleagues for new staff at this school
- The school provides appropriately for my professional development
- The process of annual performance review in my school provides a fair assessment of my contribution as a teacher

[Grid indicating how strongly you agree/disagree with each statement]

(4) Teachers' pay

- Teaching provides benefits which (partly) compensate for a lower salary compared to other professions
- My salary compares well to what I could earn outside teaching
- Additional responsibilities are fairly rewarded in my school

[Grid indicating how strongly you agree/disagree with each statement]

Deliverables and research milestones

The deliverables required are:

- By the end of May 2018, a dataset and associated deliverable as set out above

Project management

The chosen contractor will agree with the OME:

- detailed arrangements for the management of the Project including regular telephone/emailed updates and, as necessary, occasional progress meetings to discuss emerging findings;
- detailed timings for the stages of the Project;

Data quality standards required

Data and analysis used and provided should be as up to date and robust as possible, and the outputs should include clear documentation of the approach used, including any noteworthy strengths and weaknesses.

Ownership and Publication

The Office of Manpower Economics will own all deliverables produced under the contract and will be free to use these as it wishes. OME may cite the survey results in review body reports on its website within Gov.uk at a time to be decided by the STRB secretariat team.

Terms and Conditions

Bidders are to note that any requested modifications to the Contracting Authority Terms and Conditions on the grounds of statutory and legal matters only, shall be raised as a formal clarification during the permitted clarification period.

Section 5 – Evaluation model

The evaluation model below shall be used for this ITQ, which will be determined to two decimal places.

Where a question is 'for information only' it will not be scored.

The evaluation team may comprise staff from UK SBS, and the Contracting Authority ----- and any specific external stakeholders the Contracting Authority deems required. After evaluation the scores will be finalised by performing a calculation to identify (at question level) the mean average of all evaluators (Example – a question is scored by three evaluators and judged as scoring 5, 5 and 6. These scores will be added together and divided by the number of evaluators to produce the final score of 5.33 ($5+5+6 = 16 \div 3 = 5.33$))

Pass / fail criteria		
Questionnaire	Q No.	Question subject
Commercial	SEL1.2	Employment breaches/ Equality
Commercial	FOI1.1	Freedom of Information Exemptions
Commercial	AW1.1	Form of Bid
Commercial	AW1.3	Certificate of Bona Fide Bid
Commercial	AW3.1	Validation check
Commercial	SEL3.12	Cyber Essentials
Commercial	SEL3.13	General Data Protection Regulations (GDPR)
Commercial	AW4.1	Contract Terms
Price	AW5.3	Maximum Budget
Quality	AW6.1	Compliance to the Specification
Commercial	SEL3.11	Compliance to Section 54 of the Modern Slavery Act
-	-	Invitation to Quote – received on time within e-sourcing tool

Scoring criteria			
Evaluation Justification Statement			
In consideration of this particular requirement the Contracting Authority has decided to evaluate Potential Providers by adopting the weightings/scoring mechanism detailed within this ITQ. The Contracting Authority considers these weightings to be in line with existing best practice for a requirement of this type.			
Questionnaire	Q No.	Question subject	Maximum Marks
Price	AW5.2	Price	10%
Quality	PROJ1.1	Understanding the requirement	10%
Quality	PROJ1.2	Methodology	60%
Quality	PROJ1.3	Expertise of Project Team	20%

Evaluation of criteria

Non-Price elements

Each question will be judged on a score from 0 to 100, which shall be subjected to a multiplier to reflect the percentage of the evaluation criteria allocated to that question.

Where an evaluation criterion is worth 20% then the 0-100 score achieved will be multiplied by 20%.

Example if a Bidder scores 60 from the available 100 points this will equate to 12% by using the following calculation:

$$\text{Score} = \{\text{weighting percentage}\} \times \{\text{bidder's score}\} = 20\% \times 60 = 12$$

The same logic will be applied to groups of questions which equate to a single evaluation criterion.

The 0-100 score shall be based on (unless otherwise stated within the question):

0	The Question is not answered or the response is completely unacceptable.
10	Extremely poor response – they have completely missed the point of the question.
20	Very poor response and not wholly acceptable. Requires major revision to the response to make it acceptable. Only partially answers the requirement, with major deficiencies and little relevant detail proposed.
40	Poor response only partially satisfying the selection question requirements with deficiencies apparent. Some useful evidence provided but response falls well short of expectations. Low probability of being a capable supplier.
60	Response is acceptable but remains basic and could have been expanded upon. Response is sufficient but does not inspire.
80	Good response which describes their capabilities in detail which provides high levels of assurance consistent with a quality provider. The response includes a full description of techniques and measurements currently employed.
100	Response is exceptional and clearly demonstrates they are capable of meeting the requirement. No significant weaknesses noted. The response is compelling in its description of techniques and measurements currently employed, providing full assurance consistent with a quality provider.

All questions will be scored based on the above mechanism. Please be aware that the final score returned may be different as there may be multiple evaluators and their individual scores will be averaged (mean) to determine your final score.

Example

Evaluator 1 scored your bid as 60

Evaluator 2 scored your bid as 60

Evaluator 3 scored your bid as 40

Evaluator 4 scored your bid as 40

Your final score will $(60+60+40+40) \div 4 = 50$

Price elements will be judged on the following criteria.

The lowest price for a response which meets the pass criteria shall score 100. All other bids shall be scored on a pro rata basis in relation to the lowest price. The score is then subject to a multiplier to reflect the percentage value of the price criterion.

For example - Bid 1 £100,000 scores 100.

Bid 2 £120,000 differential of £20,000 or 20% remove 20% from price scores 80

Bid 3 £150,000 differential £50,000 remove 50% from price scores 50.

Bid 4 £175,000 differential £75,000 remove 75% from price scores 25.

Bid 5 £200,000 differential £100,000 remove 100% from price scores 0.

Bid 6 £300,000 differential £200,000 remove 100% from price scores 0.

Where the scoring criterion is worth 50% then the 0-100 score achieved will be multiplied by 50.

In the example if a supplier scores 80 from the available 100 points this will equate to 40% by using the following calculation: Score/Total Points multiplied by 50 ($80/100 \times 50 = 40$)

The lowest score possible is 0 even if the price submitted is more than 100% greater than the lowest price.

Section 6 – Evaluation questionnaire

Bidders should note that the evaluation questionnaire is located within the **e-sourcing questionnaire**.

Guidance on completion of the questionnaire is available at <http://www.uksbs.co.uk/services/procure/Pages/supplier.aspx>

PLEASE NOTE THE QUESTIONS ARE NOT NUMBERED SEQUENTIALLY

You should note that we will release the answer to the question to all Bidders and where we suspect the question contains confidential information we may modify the content of the question to protect the anonymity of the Bidder or their proposed solution
- 7.6 Do answer the question, it is not enough simply to cross-reference to a 'policy', web page or another part of your Bid, the evaluation team have limited time to assess bids and if they can't find the answer, they can't score it.
- 7.7 Do consider who who the Contracting Authority is and what they want – a generic answer does not necessarily meet every Contracting Authority's needs.

For these purposes, the Contracting Authority may disclose within Government any of the Bidders documentation/information (including any that the Bidder considers to be confidential and/or commercially sensitive such as specific bid information) submitted by the Bidder to the Contracting Authority during this Procurement. The information will not be disclosed outside Government. Bidders taking part in this ITQ consent to these terms as part of the competition process.

- 7.41 The Government is introducing its new Government Security Classifications (GSC) classification scheme on the 2nd April 2014 to replace the current Government Protective Marking System (GPMS). A key aspect of this is the reduction in the number of security classifications used. All Bidders are encouraged to make themselves aware of the changes and identify any potential impacts in their Bid, as the protective marking and applicable protection of any material passed to, or generated by, you during the procurement process or pursuant to any Contract awarded to you as a result of this tender process will be subject to the new GSC . The link below to the Gov.uk website provides information on the new GSC:

<https://www.gov.uk/government/publications/government-security-classifications>
