The risk in any over-delivered Goods shall remain with the Contractor unless they are accepted by the Authority.

If the Contractor fails to deliver the Goods or Services or conduct the Works within the time promised or specified in the Specification, the Authority is released from any obligation to accept and pay for the Goods, Services or Works, as applicable, and may terminate the Contract, in either case without prejudice to any other rights and remedies of the Authority.

- B5.2 If the Authority has been informed in writing of the despatch of the Goods and, having been placed in transit, the Goods are not delivered to the Premises on the due date for delivery, the Authority shall, within 10 Working Days of the notified date of delivery, give notice to the Contractor that the Goods have not been delivered and may request the Contractor to deliver substitute Goods free of charge within the timescales specified by the Authority or terminate the Contract in accordance with clause B3.10.

The Authority shall be entitled to dispose of any packaging materials which have not been collected by the Contractor within those 10 Working Days or such other period specified by the Authority for collection. The Contractor shall be responsible for the payment of any costs incurred by the Authority in connection with its collection and disposal of that packaging material.
- B6.5 The Contractor shall:
- (a) use packaging capable of easy recovery for further use or recycling. Packaging materials shall be easily separable by hand into recyclable parts consisting of one material (e.g. cardboard, paper, plastic, textile);

- (c) make maximum use of materials taken from renewable sources, if recycled materials are not suitable or not readily available;
- (d) if using wooden pallets or timber derived products for the packaging and supply of Goods, comply with the UK timber procurement policy and the provisions in clause D5;

The evidence should provide proof of compliance with BS EN 13430 on recyclability or BS EN 13429 on reusability, or equivalent.

B8.3 All of the Contractor's Equipment brought onto the Premises or an AURN Site shall be at the Contractor's own risk and the Authority shall have no liability for any loss of or damage to any of the Contractor's Equipment unless the Contractor is able to demonstrate that such loss or damage was caused or contributed to by the Authority's Default. The Contractor shall provide for the haulage or carriage thereof to the Premises and the removal of the Contractor's Equipment when no longer required at its sole cost.

B8.4 Unless otherwise agreed, Contractor's Equipment brought onto the Premises or an AURN Site will remain the property of the Contractor.

B8.5 If the cost of any Contractor's Equipment is reimbursed to the Contractor such Contractor's Equipment shall be the property of the Authority and shall on request be delivered to the Authority as directed by the Authority. The Contractor will keep a full and accurate inventory of such Contractor's Equipment and will deliver that inventory to the Authority on request and on completion of the Services.

If any Sub-Contractor or supplier does not allow the Authority access to the records then the Authority shall have no obligation to pay any claim or invoice made by the Contractor on the basis of such documents or work carried out by the Sub-Contractor or supplier.

F4.4 If the Authority has consented to the award of a Sub-Contract, the Contractor shall ensure that:

- F4.11 Any change in the legal status of the Authority such that it ceases to be a Contracting Authority shall not, subject to clause F4.12, affect the validity of the Contract and the Contract shall bind and inure to the benefit of any successor body to the Authority.
- F4.12 If the rights and obligations under the Contract are assigned, novated or otherwise disposed of pursuant to clause F4.10 to a body which is not a Contracting Authority or if there is a change in the legal status of the Authority such that it ceases to be a Contracting Authority (in the remainder of this clause both such bodies being referred to as the "**Transferee**"):
- (a) the rights of termination of the Authority in clauses H1 and H2 shall be available to the Contractor in respect of the Transferee; and
 - (b) the Transferee shall only be able to assign, novate or otherwise dispose of its rights and obligations under the Contract or any part thereof with the prior consent in writing of the Contractor.
- F4.13 The Authority may disclose to any Transferee any Confidential Information of the Contractor which relates to the performance of the Contractor's obligations under the Contract. In such circumstances the Authority shall authorise the Transferee to use such Confidential Information only for purposes relating to the performance of the Contractor's obligations under the Contract and for no other purpose and shall take all reasonable steps to ensure that the Transferee gives a confidentiality undertaking in relation to such Confidential Information.

F4.14 Each Party shall at its own cost and expense carry out, or use all reasonable endeavours to ensure the carrying out of, whatever further actions (including the execution of further documents) the other Party reasonably requires from time to time for the purpose of giving that other Party the full benefit of the provisions of the Contract.

F5 Waiver

F5.1 The failure of either Party to insist upon strict performance of any provision of the Contract, or the failure of either Party to exercise, or any delay in exercising, any right or remedy shall not constitute a waiver of that right or remedy and shall not cause a diminution of the obligations established by the Contract.

F5.2 No waiver shall be effective unless it is expressly stated to be a waiver and communicated to the other Party in writing in accordance with clause A4 (Notices and Communications).

F5.3 A waiver of any right or remedy arising from a breach of the Contract shall not constitute a waiver of any right or remedy arising from any other or subsequent breach of the Contract.

F6 Variation

F6.1 If, after the Commencement Date, the Authority's requirements change, the Authority may request a Variation subject to the terms of this clause F6.

F6.2 The Authority may request a Variation by notifying the Contractor in writing of the Variation and giving the Contractor sufficient information to assess the extent of the Variation and consider whether any change to the Price is required in order to implement the Variation within a reasonable time limit specified by the Authority. If the Contractor accepts the Variation it shall confirm it in writing.

F6.3 If the Contractor is unable to accept the Variation or where the Parties are unable to agree a change to the Price, the Authority may:

- (a) allow the Contractor to fulfil its obligations under the Contract without the Variation to the Specification; or
- (b) terminate the Contract immediately except where the Contractor has already delivered all or part of the Services or Works or where the Contractor can show evidence of substantial work being carried out to fulfil the requirements of the Specification; and in such case the Parties shall attempt to agree upon a resolution to the matter. If a resolution cannot be reached, the matter shall be dealt with under the Dispute Resolution procedure detailed in clause I2 (Dispute Resolution).

F6.4 No Variation will take effect unless and until it is recorded in a validly executed CCN. Execution of a CNN shall be made via electronic signature as described in clause 1.2 of Section 1 of the Contract.

F6.5 A CCN takes effect on the date on which both Parties communicate acceptance of the CCN via Bravo and, on the date it communicates its acceptance of the CCN in this way, the Contractor shall be deemed to warrant and represent that the CNN has been executed by a duly authorised representative of the Contractor in addition to the warranties and representations set out in clause G2.

F6.6 The provisions of clauses F6.4 and F6.5 may be varied in an emergency if it is not practicable to obtain the Authorised Representative's approval within the time necessary to make the Variation in order to address the emergency. In an emergency, Variations may be

approved by a different representative of the Authority. However, the Authorised Representative shall have the right to review such a Variation and require a CCN to be entered into on a retrospective basis which may itself vary the emergency Variation.

F7 Severability

F7.1 If any provision of the Contract which is not of a fundamental nature is held invalid, illegal or unenforceable for any reason by any court of competent jurisdiction, such provision shall be severed and the remainder of the provisions of the Contract shall continue in full force and effect as if the Contract had been executed with the invalid, illegal or unenforceable provision eliminated.

F8 Remedies Cumulative

F8.1 Except as expressly provided in the Contract all remedies available to either Party for breach of the Contract are cumulative and may be exercised concurrently or separately, and the exercise of any one remedy shall not be deemed an election of such remedy to the exclusion of other remedies.

F9 Entire Agreement

F9.1 The Contract constitutes the entire agreement between the Parties in respect of the matters dealt with therein. The Contract supersedes all prior negotiations between the Parties and all representations and undertakings made by one Party to the other, whether written or oral, except that this clause shall not exclude liability in respect of any fraudulent misrepresentation.

I2 Dispute Resolution

I2.1 The Parties shall attempt in good faith to negotiate a settlement to any dispute between them arising out of or in connection with the Contract within 20 Working Days of either Party notifying the other of the dispute and such efforts shall involve the escalation of the dispute to the finance director of the Contractor and the commercial director of the Authority.

I2.2 Nothing in this dispute resolution procedure shall prevent the Parties from seeking from any court of competent jurisdiction an interim order restraining the other Party from doing any act or compelling the other Party to do any act.

I2.3 If the dispute cannot be resolved by the Parties pursuant to clause I2.1 either Party may refer it to mediation pursuant to the procedure set out in clause I2.5.

I2.4 The obligations of the Parties under the Contract shall not cease, or be suspended or delayed by the reference of a dispute to mediation (or arbitration) and the Contractor and the Staff shall comply fully with the requirements of the Contract at all times.

- (e) failing agreement, either of the Parties may invite the Mediator to provide a non-binding but informative written opinion. Such an opinion shall be provided on a without prejudice basis and shall not be used in evidence in any proceedings relating to the Contract without the prior written consent of both Parties; and
- (f) if the Parties fail to reach agreement within 60 Working Days of the Mediator being appointed, or such longer period as may be agreed by the Parties, then any dispute or difference between them may be referred to the Courts unless the dispute is referred to arbitration pursuant to the procedures set out in clause I2.6.

1. PROJECT DESCRIPTION

Under a grant agreement dated 9 August 2017, NERC, acting through NCAS has provided a £4.3 million research grant for a new network to support long-term atmospheric observation facilities for air quality, public health and greenhouse gas research in the UK.

Under a collaboration agreement dated 27 October 2017, separate shares of the total grant funding were distributed by the University of York to a series of partner universities, including the Contractor to establish three urban air pollution observation “supersite” facilities in Manchester, Birmingham and London. The Contractor will use its share of the grant funding to establish the London Air Quality Monitoring Supersite at Honor Oak Park in London.

The Authority operates air quality monitoring equipment nationally as part of the AURN which includes ALN. Additionally, the PCN is operated by the Environment Agency.

The ALN is a subset of the AURN comprising sixteen monitoring stations across London. Operation and management of certain equipment on the ALN (comprising the CMCU) is covered by an existing contract between the Environment Agency and Kings College London dated August 2016 (ending in 2019) (contract reference: 23101) (the **ALN Contract**).

Support for and maintenance of the PCN (including insurance for fire, theft and accidental damage) is covered by an existing contract between the Authority and NPL Management Limited dated June 2015 (ending June 2018) (contract reference: 21636) (the **PCN Contract**).

This project is a partnership project between the Authority and the Contractor to aid the establishment of the London Air Quality Monitoring Supersite.

Under this Contract, the Authority appoints the Contractor to move and upgrade or replace certain existing Authority-owned scientific equipment from two ALN sites and install it at the London supersite as well as to procure and install a new TC there.

The London Air Quality Monitoring Supersite will provide an additional urban background site for the AURN which will strengthen the available evidence over the next few years available to both central and local Government and directly support delivery of the NO₂ Reduction Plans which have been part of several judicial reviews.

The project will enhance the Authority’s analytical capability whilst building improved monitoring capability for future research.

2. OBJECTIVE

The Contractor will carry out the activities at Section 3 below to facilitate the creation of the London Air Quality Monitoring Supersite.

3. ACTIVITIES AND OUTPUTS

As soon as reasonably practicable on commencement of the Contract, the Contractor will:

- Purchase a new particulate monitor, install and integrate it into the AURN network at the new London Air Quality Monitoring Supersite at Honor Oak Park site whilst de-affiliating and disposing of the existing particulate monitor from the London Harrow Site.
- Collect equipment located on the PCN (listed in table 1) from the North Kensington Site and move it to the new London Air Quality Monitoring Supersite at Honor Oak Park.
- Upgrade the ACSM (incl return shipping to the US) to PM2.5 lens and capture vaporiser detector to bring it in line with new instruments purchased and make it more applicable for measuring AEI.
- Buy and install a new TC to measure total carbon in PM2.5 for assessment of AEI at the London Air Quality Monitoring Supersite.
- Prior to installing any equipment or beginning construction of the Equipment Housing, finalise the draft plans for the Equipment Housing detailed at Figure 3 and obtain approval from the Environment Agency and other National Network Contractors (National Physics Laboratory) that these meet the standards set out in the PCN and ALN contracts.
- Construct housing for the newly installed equipment, in accordance with the draft drawings at Figure 3 and any further instructions from the Authority, at the London Air Quality Monitoring Supersite and install the Equipment in the Equipment Housing. Works must include carrying out and quality assuring all ground works (plinth construction), electrical and water connection (to a standard required for equipment to function) so that they are suitable for AURN purposes and provide evidence of that quality assurance to the Authority in writing.
- Obtain approval from Environment Agency and the other National Network contractors (Ricardo-EE and Bureau Veritas and NPL) to be evidenced in writing that all equipment has been moved and installed at the London Air Quality Monitoring Supersite in a way which meets AURN and PCN standards.
- Record in writing what quality assurance, including (as a minimum) equipment checks for damage, functionality, performance prior to the move and following installation at the new site. This should meet as a minimum all requirements set out in existing contracts including the PCN Contract (between the Environment Agency and National Physics Laboratory) and the ALN Contract (between EA and Kings College London).
- Use the Equipment when in situ for the delivery of the ALN and PCN Contracts.
- Use the TC to measure total carbon in PM2.5 complimenting and supporting statutory measurements of the PM2.5 AEI.

5. RESOURCES

Dr David Green will oversee the management of the site installation, movement of equipment, purchasing the TC and Palas Fidas 200E and subcontracting any ESU work required under this Contract. Dr Green is considered Key Personnel for the purposes of the Contract.

6. SUSTAINABILITY

The equipment being refurbished and purchased and relocated to the London Supersite is expected to be in place for a number of years. The management of equipment in that falls under the Automatic London Network and the Particle Concentration & Number Contract will be managed by the EA under those respective contracts.

This new facility will provide considerable added research value and strengthen the Authority's Statutory monitoring network for years to come, establishing a significant future scientific capability.

7. PROJECT RISKS AND DEPENDENCIES

The Contractor has drawn up a risk register at Annex 1 to this Specification which identifies key risks which could affect delivery under this Contract and who is responsible for managing this risk. The risk register will be reviewed by the contractor as appropriate. A Risk Management Plan will be maintained for individual key risks by the appropriate person and organisation, which will ensure the risk is managed between reviews.

8. OWNERSHIP/ MAINTENANCE/ INSURANCE

The Authority will continue with the same ownership arrangements for all the equipment that is managed and maintained under the PCN and ALN contracts.

Maintenance and repairs of equipment included under the PCN and ALN contracts will continue in accordance with conditions specified within those respective contracts for the duration of those contracts and subsequent arrangements.

The TC purchased by the Authority for the London Supersite will not be integrated into a formal national network. The Authority requires open access to the data it generates for the duration of the Contract. At end of that arrangement the equipment will have depreciated in value and the Authority intends to gift all of the equipment detailed in Figure 1 to Kings College or NCAS for ongoing research use.

Title to the TC belongs to the Authority for the duration of the Contract. However, maintenance and repairs for the TC will not be the responsibility of the Authority. KCL will include the TC on their insurance cover for the duration of the Contract. This insurance cover will include repairs and if necessary, replacement to damage outside the standard operating procedures.

The Contractor will allow unrestricted access to the Equipment by the Authority, NERC, Collaborating Partners under the Agreement R19185 dated 27 October 2017 and any other parties as agreed by mutual consent between the Authority and the Contractor.

The Authority has the right to appoint third party contractors to access the equipment as required and the Contractor will grant reasonable access as required.

On expiry or termination of the Contract, the Contractor must, at its own expense, comply with such instructions as the Authority may provide with regard to any relocation of or transfer of title to and ongoing insurance of the Equipment as well as the ongoing ownership and control of Intellectual Property Rights in results generated by the equipment in Figure 1.
