<p>Do not scale this drawing.</p> <p>Notes:</p> <ol style="list-style-type: none"> The information contained within this Transformation As-Built Model (TAM) files were provided by the London Legacy Development Corporation (LLDC) and collated by Atkins. All As-built records provided by LLDC and used within the TAM are shown in LC810-TAM-APK-Z-REG-0001. Atkins do not take any responsibility for the accuracy of the information provided within this model. The information contained within this model has been collated based on transformation as-built model files only. No as-built information from pre-transformation works has been included as part of this model but should be reviewed prior to undertaking any design work. Information provided within this model is indicative (for information only) and users should refer to the relevant as-built information (including Olympic Games model) prior to undertaking any design/construction work. The location, depths, sizes, services/utilities etc. design/construction or design/construction information may differ from the actual situation on site. Users shall verify all information from the relationship on or use of this document or the information contained in it. All abandoned services have been collated based on information provided by others. Where conflicting or unclear information has been received regarding the abandonment or retention of services, the services have been shown as live. Services should be verified as abandoned by a competent person before any construction work commences. The red-line boundary shows the extents of the transformation as-built model. It is likely that information shown outside of this boundary may contain anomalies or have missing information. Foul Water Network shown within the Gainsborough Sports Pitch has been assumed abandoned. Services should be verified as abandoned by a competent contractor where required before undertaking any design/construction works. Glebeham Manor is currently under construction and as such all services shown for this area when works have been completed. A combination of Olympic Park As-Built CAD records and Ordnance Survey information has been used to generate background information. Where conflicts have arisen precedence has been given to the as-built records. Atkins takes no responsibility for any inaccuracies that may arise present within the background model. 				<p>Copyright Olympic Delivery Authority ("ODA"), 2007. All rights reserved.
