

6b) Provide a team structure (with brief synopsis) including positions, resource grade and interfaces with key sub-consultants. Outline key personnel and staff roles, accountabilities, responsibilities and points of liaison with TfL.

Appendix 6b

6c) Team Structure and Resource Schedule

Describe how the core team will be fully integrated with the wider TfL project team and other consultants to ensure that all deliverables are produced in a “joined up” manner. Provide details for continuity of outputs and robust succession planning in the event of staffing changes.

Appendix 6c

7a) Health and Safety

Provide details of how you assess your suppliers' H&S capabilities focusing on H&S organisational capability and the delivery team's H&S competencies. This should cover both initial supplier selection and how you will ensure their continued H&S competence for the duration of the contract.

7 b) Health and Safety

Describe how you will implement the Principal Designer role for this contract, and include details of your systems and processes for discharging the duties as defined in the CDM 2015 Regulations.

Appendix 7b

7.c) Health and Safety

Identify what you perceive as the top five H&S hazards and associated risks for this contract. For each, describe how you will:

- Control the risks;
- Communicate the risk assessment to those affected;
- and • Ensure control measures are effectively implemented
