

THE AUTHORITY'S CONTRACTUAL ASSUMPTIONS

This Contract is based on the following assumptions:

1. **Scope elements:** The summary of Amphora 2 equipment can be found in Annex K
2. **GFA:** The following conditions shall apply to all GFA specified in Annex I:
 - i) The Authority shall be responsible for making available to the Contractor the Government Furnished Assets (GFA) which are clearly defined by description, and quantity, in Annex I to the Contract. Transportation to and from the Contractors premises shall be the responsibility of the Authority unless explicitly stated otherwise.
 - ii) Following the expiration or termination of the Contract all GFA shall be made freely available to the Authority or the Authority's nominated representative, in accordance with Annex D 2.6.2.
 - iii) The floor space outlined in the "GFX Storage Requirement" section of Annex I assumes the ability to vertically stack ISO containers therefore increasing the overall storage volume.
3. **Document revisions:** Where no revision is detailed next to any Authority document references (e.g. DEFCONs, Def Stans, JSPs etc.) then the publicly available revision that applied at the date of **Contract Signature Date** shall apply.
4. **Statement of Requirement (SOR):** The SOR Annex A-D are the documents specifying the high level requirements of Amphora 2.
5. **Codification:** The Authority will sponsor Contractor's requests for codification by confirming to the UKNCB that the Contractor has a valid contract for Authority equipment and that the Contractor is funded for the individual item codification costs. The Contractor will be charged for the individual item codification costs incurred by the UKNCB.
6. **IT access/services:** The Authority will sponsor Contractor's requests for IT access/services by confirming to the relevant body that Contractor has a valid requirement for the IT access/services. The Authority will provide access to any Authority specific software systems e.g. JAMES Land, SS3 etc. at no cost to the Contractor. The Contractor will provide their own hardware and manpower.
7. **Equipment Collection:** The Authority shall arrange for the delivery/collection of any Amphora equipment to the Contractor (unless otherwise agreed) to allow the Contractor to perform the Contractor's work under the Contract.
8. **Spares:** All spares prices shall be reviewed and updated on an annual basis. Where the Contractor becomes aware of a discrepancy between the contracted price and their current QDC worked up price, they shall notify the Authority providing evidence for their claim. This applies where both the price has either increased or decreased.

- 9 Training Costs:** Training Costs, unless otherwise noted, are exclusive of travel and subsistence costs. Once the specific location of the training is known, a price for travel and subsistence shall be included on a TAF.
- 10 FRACAS/DRACAS:** With reference to DRACAS/FRACAS, one Equipment Failure Report (EFR) will be received each week (52 per annum). Two hours has been allocated to each EFR to record on DRACAS/FRACAS.
