Objectives

Background

The UK Government's food and drink promotional activity overseas is led by the GREAT campaign team in the Department for Environment, Food and Rural Affairs (Defra) and delivered in partnership with the Department of International Trade (DIT).

The campaign objectives are to:

1. Increase awareness and positive perceptions of UK food and drink among consumer and trade audiences in key international markets – leading to an increase in purchase intent.
2. Support DIT food and drink export objectives through collaborative development of promotional initiatives that convert to export leads/wins/expansions.

In Autumn 2021 Defra commissioned Kantar Public to conduct a baseline study of knowledge, attitudes and current purchasing intentions and behaviour in relation to a number of UK food and drink categories in nine markets. The markets covered were four established markets of USA, China, Japan and UAE and five European markets; France, Germany, Spain, Netherlands and Belgium. In each country, two studies were undertaken: one among a representative sample of the general public and one among a sample of managers / owners of businesses in the hospitality trade.

The insights gained from the baseline research have proved valuable in developing and confirming strategy.

Through 2022, the focus on the GREAT Food and Drink campaign has been on the established markets. A variety of marketing activities have taken place and in particular are planned for the first quarter of 2023. At the end of that activity Defra wish to return to the established markets for the first post wave in the study and measure shifts in knowledge, attitudes and purchasing intentions and behaviours since the baseline.

Research Objectives

The objectives for the post wave are to update measurements of:

- Perceptions of UK food and drink, including overall food and drink culture, as well as key product categories e.g. spirits, meat, seafood, cheese
- Existing awareness of the UK's food and drink offer in-market

- Levels of current purchase intent for UK food and drink and relevant motivations and drivers to purchase.

The markets to be covered are:

- China
- Japan
- UAE (Dubai)
- USA
- Saudi Arabia

Research method

Summary of approach

A consistent approach with that used in 2021 will be taken:

- The general population will be surveyed online via the Kantar international omnibus using the Kantar Profiles network
- Hospitality trade decision-makers will be interviewed by telephone using international fieldwork specialist RONIN.

General population

The following sample size and structure is provided by the omnibus and matches that provided for the 2021 baseline research.

	Sample size	Age range	Languages
Chinese mainland	1000	16-44	Mandarin
Japan	1000	16-64	Japanese
United Arab Emirates - Dubai and Abu Dhabi only	700	16-54	Arabic
United States	1000	18-64	English
Saudi Arabia	1000	16-54*	Arabic

* To discuss age range required. Unlikely to impact cost

In each market where the omnibus generally surveys those aged 16+ we will limit our interviews to those aged 18+ for those questions about alcoholic drinks. This will result in a small reduction in sample size.

Food & drink decision-makers

As with 2021, we will conduct telephone interviews among managers/owners of small businesses in the hospitality industry, sourced via a commercially available sample of telephone numbers.

We will buy sample lists in each country of telephone numbers of businesses within relevant industry classifications, using an agreed and standardised definition of hospitality in each country, ensuring comparability of the sample across countries and using the same definitions of size (at least 5 employees) and sector in each country as 2021.

	Sample size	Size & sectors	Languages
Chinese mainland	100	5 or more employees, hospitality	Mandarin
Japan	100	5 or more employees, hospitality	Japanese
United Arab Emirates - Dubai and Abu Dhabi only	100	5 or more employees, hospitality	Arabic
United States	100	5 or more employees, hospitality	English
Saudi Arabia	100	5 or more employees, hospitality	Arabic

Questionnaire design

We have based our quota at this stage on a questionnaire largely similar to that of 2021 but allowing for 10% of changes, hence some translation, fresh scripting and DP time. If there are no changes there will be a slight reduction in costs.

Last year the consumer questionnaire took less time than had been assumed at the costing stage but the trade questionnaire longer (20 minutes instead of the originally anticipated 10 minutes).

Deliverables

Project outputs

We are at this stage assuming similar outputs to last year:

A set of global data tables in Excel for each audience (general population and trade) showing results 'at a glance' across each of the 4 or 5 markets

One set of data tables for the general population survey and one for the trade survey per country, showing results for each country broken down by up to three pages of key demographics

An updated version of the Food & Drink Data PowerPoint report covering both general population data and business decision-maker results.

- The 2021 deck will be updated to remove the European markets and add the 2023 data alongside the 2021 data for each country covered (with Saudi Arabia added if included)
- Based on 2021, this deck will be c.200 charts

Insight Reports for each country. These will follow a similar format to 2021 and will include a review of progress since 2021 but also an updated summary of the position for UK Food & Drink in that country and therefore recommendations for the strategy going forward. To make these as informed as possible it would be helpful if we could have sight of the strategies each market has been working to to date.

For the Data Report, we will update one country first and have assumed up to two rounds of feedback on format. We will then proceed to populate the other countries using the same format. If format is later changed there may be an impact on costs

We have assumed one round of feedback on each draft Insight Report, with a second round on Conclusion/Recommendations only.

We have assumed Defra will want the Power BI database updated and Saudi Arabia added.

General Project Management

As in 2021, we would suggest a weekly status sheet and call (call can be replaced by email on weeks where there is little to discuss) to ensure the project runs smoothly and to time, and that both parties are aware well in advance of upcoming requirements and timeframes.

Timing

Project timeline

We propose the following timings for this research, which assume acceptance of the proposal (this or a revised version) by end of January 2023. These timings can be amended in relation to the end of activity and to accommodate any specific deadlines Defra may have. Note we need to consider the impact of Easter in some markets and the best timing for the general population omnibus.

3. How the Contract works

3.1 The Order Form is an offer by the Authority to purchase the Deliverables subject to and in accordance with the terms and conditions of the Contract.

3.2 The Supplier is deemed to accept the offer in the Order Form when the Authority receives a copy of the Order Form signed by the Supplier.

3.3 The Supplier warrants and represents that its Tender Submission and all statements made and documents submitted as part of the procurement of Deliverables are and remain true and accurate.

4. What needs to be delivered

4.1 All Deliverables

(a) The Supplier must provide Deliverables: (i) in accordance with the Specification and Tender Submission; (ii) to a professional standard; (iii) using all reasonable skill and care; (iv) using Good Industry Practice; (v) using its own policies, processes and internal quality control measures as long as they don't conflict with the Contract; (vi) in accordance with such policies and procedures of the Authority (as amended from time to time) that may be specified in the Contract (vii) on the dates agreed; and (viii) in compliance with all applicable Law.

(b) Without prejudice to the Specification the Supplier must provide Deliverables with a warranty of at least 90 days (or longer where the Supplier offers a longer warranty period to the Authority) from Delivery against all obvious damage or defects.

4.2 Goods clauses

(a) All Goods Delivered must be capable of meeting the requirements set out in the Specification and be either (i) new and of recent origin, (ii) reused or (iii) recycled.

(b) All manufacturer warranties covering the Goods will be assigned to the Authority on request and for free.

(c) The Supplier transfers ownership of the Goods on completion of Delivery (including off-loading and stacking) or payment for those Goods, whichever is earlier.

(d) Risk in the Goods transfers to the Authority on Delivery but remains with the Supplier if the Authority notices any damage or defect following Delivery and lets the Supplier know within three Working Days of Delivery.

(e) The Supplier must have full and unrestricted ownership of the Goods at the time of transfer of ownership.

(f) The Supplier must Deliver the Goods on the date and to the specified location during the Authority's working hours.

(g) The Supplier, its subcontractor(s) and supply chain must minimise packaging used whilst providing sufficient packaging for the Goods to reach the point of Delivery safely and undamaged. The Supplier must take back any primary packaging where it is possible to do so. Packaging must be 100% re-usable, recyclable or compostable, use recycled content where reasonably practicable and support the Government's commitment to eliminate single use plastic.

(h) All Deliveries must have a delivery note attached that specifies the order number, type, quantity of Goods, contact and details of traceability through the supply chain.

(i) The Supplier must provide all tools, information and instructions the Authority needs to make use of the Goods. This will include, where appropriate, any operation manuals which, unless specified otherwise, will be written in English and provided in electronic form.

(j) The Supplier will notify the Authority of any request that Goods are returned to it or the manufacturer after the discovery of safety issues or defects that might endanger health or hinder performance and shall indemnify the Authority against the costs arising as a result of any such request. Goods must be disposed of in line with the waste management hierarchy as set out in Law. The Supplier will provide evidence and transparency of the items and routes used for disposal to the Authority on request.

(k) The Authority can cancel any order or part order of Goods which have not been Delivered. If the Authority gives less than 14 calendar days' notice then it will pay the Supplier's reasonable and proven costs already incurred on the cancelled order as long as the Supplier takes all reasonable steps to minimise these costs.

(l) The Supplier must at its own cost repair, replace, refund or substitute (at the Authority's option and request) any Goods that the Authority rejects because they don't conform with clause 4.2. If the Supplier doesn't do this it will pay the Authority's costs including repair or re-supply by a third party.

(m) The Authority will not be liable for any actions, claims, costs and expenses incurred by the Supplier or any third party during Delivery of the Goods unless and to the extent that it is caused by negligence or other wrongful act of the Authority or its servant or agent. If the Authority suffers or incurs any damage or injury (whether fatal or otherwise) occurring in the course of Delivery or installation then the Supplier shall indemnify from all losses, damages, costs or expenses (including professional fees and fines) which arise as a result of or in connection with such damage or injury where it is attributable to any act or omission of the Supplier or, where related to the Contract, any of its subcontractors or suppliers.

4.3 Services clauses

- (a) Late delivery of the Services will be a breach of the Contract.
- (b) The Supplier must co-operate with the Authority and third party suppliers on all aspects connected with the delivery of the Services and ensure that Supplier Staff comply with any reasonable instructions including any security requirements.
- (c) The Authority must provide the Supplier Staff with reasonable access to its premises at such reasonable times agreed with the Authority for the purpose of supplying the Services.
- (d) The Supplier must at its own risk and expense provide all equipment required to deliver the Services. Any equipment provided by the Authority to the Supplier for supplying the Services remains the property of the Authority and is to be returned to the Authority on expiry or termination of the Contract.
- (e) The Supplier must allocate sufficient resources and appropriate expertise to the Contract.
- (f) The Supplier must take all reasonable care to ensure performance does not disrupt the Authority's operations, employees or other contractors.
- (g) On completion of the Services, the Supplier is responsible for leaving the Authority's premises in a clean, safe and tidy condition and making good any damage that it has caused to the Authority's premises or property, other than fair wear and tear and any pre-existing cleanliness, safety or tidiness issue at the Authority's premises that existed before the commencement of the Term.
- (h) The Supplier must ensure all Services, and anything used to deliver the Services, are of the required quality and free from damage or defects.
- (i) The Authority is entitled to withhold payment for partially or undelivered Services or for Services which are not delivered in accordance with the Contract but doing so does not stop it from using its other rights under the Contract.

5. Pricing and payments

5.1 In exchange for the Deliverables delivered, the Supplier shall be entitled to invoice the Authority for the charges in Annex 3. The Supplier shall raise invoices promptly and in any event within 90 days from when the charges are due.

5.2 All Charges:

- (a) exclude VAT, which is payable on provision of a valid VAT invoice and charged at the prevailing rate;

5.3 The Authority must pay the Supplier the charges within 30 days of receipt by the Authority of a valid, undisputed invoice, in cleared funds to the Supplier's account stated in the Order Form.

Details of the Authority's requirements for a valid invoice at the Start Date are set out in Annex 3.

5.5 If there is a dispute between the Parties as to the amount invoiced, the Authority shall pay the undisputed amount. The Supplier shall not suspend the provision of the Deliverables unless the Supplier is entitled to terminate the Contract for a failure to pay undisputed sums in accordance with clause 11.6. Any disputed amounts shall be resolved through the dispute resolution procedure detailed in clause 35.

5.6 If any sum of money is recoverable from or payable by the Supplier under the Contract (including any sum which the Supplier is liable to pay to the Authority in respect of any breach of the Contract), that sum may be deducted unilaterally by the Authority from any sum then due, or which may become due, to the Supplier under the Contract or under any other agreement or contract with the Authority. The Supplier shall not be entitled to assert any credit, set-off or counterclaim against the Authority in order to justify withholding payment of any such amount in whole or in part.

5.7 The Supplier must ensure that its subcontractors and supply chain are paid, in full, within 30 days of receipt of a valid, undisputed invoice. If this doesn't happen, the Authority can publish the details of the late payment or non-payment.

6. The Authority's obligations to the Supplier

6.1 If the Supplier fails to comply with the Contract as a result of an Authority Cause:

- (a) the Authority cannot terminate the Contract under clause 11 on account of the failure to comply, provided this will not prejudice the Authority's right to terminate for another cause that may exist at the same time;
- (b) the Supplier will be relieved from liability for the performance of its obligations under the Contract to the extent that it is prevented from performing them by the Authority Cause and will be entitled to such reasonable and proven additional expenses that arise as a direct result of the Authority Cause;
- (c) the Supplier is entitled to any additional time needed to deliver the Deliverables as a direct result of the Authority's Cause;

(d) the Supplier cannot suspend the ongoing supply of Deliverables.

(a) as to the financial stability of the Supplier such that it may impact on the continued performance of the Contract; or

(b) as to the sustainability or health and safety conduct of the Supplier, subcontractors and supply chain in the performance of the Contract;

then the Authority may:

(i) require that the Supplier provide to the Authority (for its approval) a plan setting out how the Supplier will ensure continued performance of the Contract (in the case of (a)) or improve its sustainability conduct or performance (in the case of (b)) and the Supplier will make changes to such plan as reasonably required by the Authority and once it is agreed then the Supplier shall act in accordance with such plan and report to the Authority on demand
