--	--	--	-------------------------	--	--	--

The Service Credits for both Table A and Table B, other than the Service Credits for SL18 (Variations) and SL20 (penetration testing), shall be calculated for each applicable Service Line on the basis of the following formula:

$$SC = C \times W$$

Where

SC is the Service Credit payable;

C is the Charges payable by the Buyer in the relevant Measurement Period for the relevant Service Line in respect of which Service Credits are payable; and

W is the relevant Weighting, expressed as a percentage.

All Service Credits in a month, other than the Service Credits for SL18 (Variations) and SL20 (penetration testing), are accumulated and subject to the Monthly Service Credit Cap.

Worked example

In a given month of 30 days, the Supplier operates a Service Line for which the Call Off Contract Charges are £100,000 per day or £3,000,000 for the month.

During two weeks of the month, (the “**Affected Weeks**”), ■■■% of calls were abandoned by Customers (SL5). The Service Credits payable in respect of each week is:

Call-Off Schedule 14 (Service Levels)

Call-Off Ref:

Crown Copyright 2018

$$£100,000 \times 7 \times \blacksquare\% = £3,150$$

For the two Affected Weeks weeks, the total Service Credit is:

$$£3,150 \times 2 = £6,300$$

During the Affected Weeks, only $\blacksquare\%$ of calls were answered within 60 seconds of the call being presented to the ACD (SL4). The Service Credit payable in respect of each week is:

$$£100,000 \times 7 \times \blacksquare\% = £5,250$$

For the two Affected Weeks, the total Service Credit is:

$$£5,250 \times 2 = £10,500$$

On ten days during the two Affected Weeks, the Net Available Hours (Inbound) per FTE Agent (SL2) was $\blacksquare\%$, as was the Net Available Hours (Outbound) per Agent (SL2A).

For SL2, the Service Credit payable in respect of each day is:

$$£100,000 \times \blacksquare\% = £250$$

For the 10 days, the total Service Credit is:

$$£250 \times 10 = £2,500$$

For SL2A, the Service Credit payable in respect of each day is:

$$£100,000 \times \blacksquare\% = £250$$

For the 10 days, the total Service Credit is:

$$£250 \times 10 = £2,500$$

Call-Off Schedule 14 (Service Levels)

Call-Off Ref:

Crown Copyright 2018

In addition, the Billable Hours for one of the Affected Week (SL3) was ■■■% of the Net Available Hours ordered by the Buyer (SL3)

The Service Credit for that week is:

$$£100,000 \times 7 \text{ days} \times \text{■■■}\% = £5250$$

During that month, Platform Stability (SL12) was ■■■%.

The Service Credit for that month is £3,000,000 x ■■■% = £22,500

The total Service Credit payable is:

Service Level	Amount
SL2	£2,500
SL2A	£2,500
SL3	£5,250
SL4	£10,500
SL5	£6,000
SL12	£22,500
Total	£49,250

Call-Off Schedule 14 (Service Levels)

Call-Off Ref:

Crown Copyright 2018

Percentage of invoice	1.64%
-----------------------	-------

The Service Credits for SL18 (Variations) and SL20 (Penetration Testing) shall be payable in accordance with the following formula:

SC = the smaller of:

CSC; or

RSC

Where:

CSC is the Service Credit payable for the SL using the formula:

$$\text{CSC} = \text{C} \times \text{W}$$

Where:

C is the Charges payable by the Buyer in the relevant Measurement Period; and

W is the relevant Weighting, expressed as a percentage.

RSC is residual service credits, calculated using the following formula:

$$\text{RSC} = \text{ASC} - \text{LSC}$$

Where:

Call-Off Schedule 14 (Service Levels)
Call-Off Ref:
Crown Copyright 2018

ASC is the available Service Credits, ie, 10% of the Charges payable by the Buyer in the relevant Measurement Period; and

LSC is the levied Service Credits, ie, those Service Credits actually levied by the Buyer in respect of the months making up the relevant Measurement Period.

Worked examples

The Supplier fails to complete [REDACTED] penetration test in the first year of the Contract. During that period it had levied Charges of £100m and had incurred Service Credits of £6m.

In that case:

CSC = £750,000;

RSC = £4m; and

SC = £750,000.

The Supplier fails to complete [REDACTED] penetration test in the first year of the Contract. During that period it had levied Charges of £100m and had incurred Service Credits of £9.5m.

In that case:

CSC = £750,000;

RSC = £500,000; and

SC = £500,000.

Annex 3: Calculation methodology for Financial Indicators

~~[Guidance: Amend this section as appropriate to reflect the calculation methodology for those Financial Indicators that are selected for inclusion in Paragraph 5.1 of this Schedule]~~

The Supplier shall ensure that it uses the following general and specific methodologies for calculating the Financial Indicators against the Financial Target Thresholds:

General methodology

- 1 **Terminology:** The terms referred to in this Annex are those used by UK companies in their financial statements. Where the entity is not a UK company, the corresponding items should be used even if the terminology is slightly different (for example a charity would refer to a surplus or deficit rather than a profit or loss).
- 2 **Groups:** Where the entity is the holding company of a group and prepares consolidated financial statements, the consolidated figures should be used.
- 3 **Foreign currency conversion:** Figures denominated in foreign currencies should be converted at the exchange rate in force at the relevant date for which the Financial Indicator is being calculated.
- 4 **Treatment of non-underlying items:** Financial Indicators should be based on the figures in the financial statements before adjusting for non-underlying items.

Specific Methodology

Financial Indicator	Specific Methodology
4 [Operating Margin]	[The elements used to calculate the Operating Margin should be shown on the face of the Income Statement in a standard set of financial statements. Figures for Operating Profit and Revenue should exclude the entity's share of the results of any joint ventures or Associates. Where an entity has an operating loss (i.e. where the operating profit is negative), Operating Profit should be taken to be zero.]
2 [Free Cash Flow to Net Debt Ratio]	["Free Cash Flow" = Net Cash Flow from Operating Activities — Capital Expenditure "Capital Expenditure" = Purchase of property, plant & equipment + purchase of intangible assets

Net Cash Flow from Operating Activities: This should be stated after deduction of interest and tax paid. Capital expenditure: The elements of capital expenditure may be described slightly differently but will be found under ‘Cash flows from investing activities’ in the Statement of Cash Flows; they should be limited to the purchase of fixed assets (including intangible assets) for the business and exclude acquisitions. The figure should be shown gross without any deduction for any proceeds of sale of fixed assets. Net Debt: The elements of Net Debt may also be described slightly differently and should be found either on the face of the Balance Sheet or in the relevant note to the financial statements. All interest bearing liabilities (other than retirement benefit obligations) should be treated as borrowings as should, where disclosed, any liabilities (less any assets) in respect of any hedges designated as linked to borrowings (but not non-designated hedges). In many cases there may be no such balances, in particular where an entity is not a member of a group or is itself the ultimate holding company of the group. Contingent liabilities assumed in support of Group Undertakings are shown in the Contingent Liabilities note in a standard set of financial statements. They include guarantees and security given in support of the borrowings of other group companies, often as part of group borrowing arrangements.  - 5.2.2 it shall not be affected by any dissolution, amalgamation, reconstruction, reorganisation, change in status, function, control or ownership, insolvency, liquidation, administration, appointment of a receiver, voluntary arrangement, any legal limitation or other incapacity, of the Supplier, the Beneficiary, the Guarantor or any other person;

- 5.4 The Beneficiary shall not be obliged before taking steps to enforce this Deed of Guarantee against the Guarantor to obtain judgment against the Supplier or the Guarantor or any third party in any court, or to make or file any claim in a bankruptcy or liquidation of the Supplier or any third party, or to take any action whatsoever against the Supplier or the Guarantor or any third party or to resort to any other security or guarantee or other means of payment. - 5.5 The Beneficiary's rights under this Deed of Guarantee are cumulative and not exclusive of any rights provided by law and may be exercised from time to time and as often as the Beneficiary deems expedient.
- 5.6 Any waiver by the Beneficiary of any terms of this Deed of Guarantee, or of any Guaranteed Obligations shall only be effective if given in writing and then only for the purpose and upon the terms and conditions, if any, on which it is given.

- 7.1.1 of subrogation and indemnity;
- 7.1.2 to take the benefit of, share in or enforce any security or other guarantee or indemnity for the Supplier's obligations; and
