- F3.12 If the rights and obligations under the Contract are assigned, novated or otherwise disposed of pursuant to clause F3.10 to a body which is not a Contracting Authority or if there is a change in the legal status of the Authority such that it ceases to be a

Contracting Authority (in the remainder of this clause both such bodies being referred to as the “**Transferee**”):

- (a) the rights of termination of the Authority in clauses H1 and H2 are available to the Supplier in respect of the Transferee; and

If a resolution cannot be reached, the matter shall be dealt with under the Dispute Resolution procedure detailed in clause I2 (Dispute Resolution).

F4.4 A Change takes effect only when it is recorded in a CCN validly executed by both Parties.

F4.5 The Supplier is deemed to warrant and represent that the CNN has been executed by a duly authorised representative of the Supplier in addition to the warranties and representations set out in clause G2.

F4.6 Clauses F4.4 and F4.5 may be varied in an emergency if it is not practicable to obtain the Authorised Representative's approval within the time necessary to make the Change in order to address the emergency. In an emergency, Changes may be approved by a different representative of the Authority. However, the Authorised Representative may review such a Change and require a CCN to be entered into on a retrospective basis which may itself vary the emergency Change.

F4.7 No amendment to this Contract shall be binding unless in writing and signed by the Authorised Representatives of the Authority and the Supplier.

- 12.8 Relief from liability for the Affected Party under this clause 12 ends as soon as the Force Majeure Event no longer causes the Affected Party to be unable to comply with

its obligations under the Contract and is not dependent on the serving of a notice under clause I2.7.

7.14 CYP's rehabilitation and resettlement goals are enhanced and supported through a Temporary Release programme.

7.15 Where accountability for aspects of delivery of the plan falls to other agencies the Supplier shall use their best endeavours to ensure that those agencies fulfil their obligations.

7.16 The Supplier should seek opportunities with local training contractors, employers and the voluntary sector to provide services to CYP while in custody which will prepare them for their resettlement into the community.

7.17 Possible Transitions to another secure establishment within the YSE or the young adult estate should be identified early so that plans can be made in consultation with the young person and relevant Stakeholders and actions taken in an appropriate timescale

7.18 When transfer to hospital under the Mental Health Act 1983 is deemed appropriate, plans for transfer can be made supported by Healthcare.

7.19 The Supplier shall work with the YCS Placement service to plan for those CYP that due to age and length of sentence will be required to Transition into the young person or adult estate. in order to ensure the child is suitably prepared for an adult establishment.

7.20 Transfers will be managed in accordance with the *YCS Placement Review Guidance 2017*

7.21 The Supplier shall have effective strategic relationships with senior leaders in local authorities who are involved in CYP's resettlement to improve their outcomes after release.

7.22 Plans for CYP shall take account of, and actively promote and encourage, opportunities for Temporary Release to support their resettlement goals.

7.23 The Supplier shall have strategies and policies in place to promote the use of mobility/Temporary Release, building links with the local community and the young person's family and carers. Temporary Release activities shall support resettlement goals.

8. Interventions

Purpose

8.1 Suppliers shall work together within a framework for integrated Care (SECURE STAIRS) approach to meet the CYP's assessed needs as identified though their Formulation plan. Interventions and services will address offending behaviour, promote resilience and desistance, and address behaviours that cause young people or others distress or harm. They should be sequenced to allow for the situation.

8.2 The Authority expects compliance with the Children's Homes (England) Regulations, 2015 in regard to Standard 7: The children's views, wishes and feelings, specifically **7.2 (e)**.

Standard	7. The children's views, wishes and feelings
7.2(e)	2. The children's views, wishes and feelings standard is that children receive care from staff who— (e) ensure that the views of each relevant person are taken into account, so far as reasonably practicable, before making a decision about the care or welfare of a child.

Outcome Fourteen

8.3 The Supplier shall have access to a suite of Interventions supported by Healthcare to deliver to young people, irrespective of custodial status, which promotes positive desistance factors and are specific to their individual assessed risks and needs to address their offending behaviour, risk of re-offending and behaviours that cause them or others distress or harm.

Service Requirements

8.4 The Supplier shall ensure that the Interventions they offer are evidenced based and capable of addressing, the identified needs of this cohort. The child's Formulation/Intervention plan will be used to identify and plan for a child's needs and situation and sequenced appropriately.

8.5 It is a priority for the Youth Justice system that the risk of offending and reoffending by CYP be reduced. The Authority recognises, however, that this system aim cannot be delivered unless CYP are safe and their wellbeing cared for; the young person's most pressing and relevant needs must be met to be able to meet the system aim.

8.6 The Supplier shall engage young people in Interventions that are child-focused and are delivered with fidelity by people with appropriate skills and experience. Evaluation of effectiveness should be part of the Intervention being delivered.

8.7 Interventions shall be delivered flexibly where possible but need to ensure that Interventions to meet healthcare needs are enabled to better support on an individual basis in order for CYP to participate more fully in the home and education programme. (Note the evidence base shows that mental health interventions should not be completed just prior to a child going to bed).

8.8 The Supplier should be able to evidence the progress being made by individual CYP within any given Intervention.

Outcome Fifteen

8.9 Interventions shall be based on the principles of best and effective practice in addressing offending behaviour in young people.

Service Requirements

8.10 The Supplier shall regularly analyse the offending behaviour needs of the cohort and shall demonstrate a robust rationale for the selection and sequence of Interventions to meet them.

8.11 Suppliers shall have in place a framework for monitoring and evaluating the effectiveness of Interventions and the impact on CYP post-release. This should inform future Intervention planning and delivery.

8.12 The programme of Interventions available at the SCH will be shared with the YCS Placements Service and the needs analysis will be kept up to date and developed in line with any emerging and effective practice and research.

8.13 The Supplier is encouraged to share Interventions where there is evidence of effectiveness in achieving their intended outcomes via the Youth Justice Resource Hub.

SCHEDULE 2 – PAYMENT SCHEDULE

This section outlines the financial framework for the provision of remand and sentenced places to the Authority in Secure Children's Homes (SCH) for the term of the contract. The section describes:

1. Pricing mechanism
2. Payment mechanism
3. Information to support payment
4. Information to support annual service review
5. Financial audit.

The overriding principles of the pricing and payment mechanisms are that both parties should use their best endeavours to fulfil their financial obligations and ensure that the financial arrangements:

- achieve full cost transparency;
- are auditable
- support the achievement for Value for Money;
- are simple to understand and to operate;
- ensure that SCHs can recover the full economic cost of delivering the Service Specification

The Authority, reserves the right to reduce the amount of Guaranteed Block Bed Nights in the event:

- demand decreases;
- pressures on budget; or
- costs increase over and above those allowed for in this Schedule 2

1. Pricing mechanism

1.1 Basic price

The price that the Authority will pay for each place will reflect the cost to deliver the services specified in the Service Specification in Schedule 1. The price for the first year of the contract will be firm. Year two price may where indicated be subject to indexation on the Indexation Review Date.

The price per bed night that the SCHs charge will be linked to:

- The Authority's share of the full economic cost of the SCH based on the number of beds that are being offered to the YCS

- The additional costs of any Authority specific services that will be delivered as part of the Service Specification

Based on the Price Template (as at Annex B to this Schedule), the SCH and the Authority will agree two prices:

- *a Guaranteed Block Bed Night Price:* The Authority Guaranteed Block Bed Night Price will be based on the full economic cost for the number of places the SCH will make available to the Authority for the contract period and which the Authority will guarantee to pay for 100% of places irrespective of occupancy, subject to clause 2.2.
- *a Spot Bed Night Price:* This will be based on the full economic cost for the number of places the SCH can make available to the Authority for the contract period, for use on an ad-hoc basis. The Authority will only pay for these places on a bed night basis if they are actually used. There is no guarantee that the Authority will fill these places.

1.2 Price variations

The Price may vary with a change to service levels (as outlined below) or bed numbers. Any changes to the agreed Price for a guaranteed or spot place will need to be transparent. Any changes made would be managed through Clause F4 Contract Change processes.

1.2.1 Price varying with service levels:

The Price agreed at the start of the contract will be the Price needed to deliver the Service Specification and any specialist and enhanced services agreed between the Authority and the Supplier as part of the contract. Over the course of the contract, there may be a need for the Authority to vary the level of service. Reasons for this may include:

- Changes to legislation that impact on SCH services and require increased costs
- The Authority wishing to purchase new levels of enhanced or specialist services
- The Authority developing new requirements that impact on SCHs providing care to children and young people given custody.

If the Authority wishes to alter the Service Specification or Price the SCH will submit a new Guaranteed Block Bed Night Price to the Authority with a breakdown of how the additional cost has been determined. The SCH must be able to demonstrate how the new price links to the full economic cost. Once a new price has been agreed, the Guaranteed Block Bed Night Price will come into effect.

1.2.2 Price varying with volume:

The bed numbers agreed at the start of the contract may need to be changed, for example, based on expansions to the numbers of beds available or demand. This mechanism would only be used where the Authority intends to make a permanent decision about the contracted number of beds and therefore the Authority will give 3 months' notice as a minimum and limit the number of adjustments to once per rolling year.

1.2.3 Additional Price varying with needs:

The Authority recognises there are a very small number of young people in custody whose needs are so complex that the standard provision of services may be insufficient to meet their needs.

The YCS has set up a Critical Case Panel with responsibility for identifying young people who have acute, complex needs and for determining how best to care for them while they are in the Youth Secure Estate.

1.3 Indexation

1.3 Annual Financial Review

The pricing elements set out in this Schedule 2 (Payment Mechanism) may, where indicated, be subject to indexation on the Indexation Review Date in accordance with this paragraph 1.3. The first Indexation Review Date will be on 01 April 2019 and annually thereafter.

Annual indexation is not automatic. The Contractor shall provide clear documentary evidence of any price increases that it incurs.

Total staff costs (salary and non-salary) and total non-staffing costs (as per the price template at Annex B of this Schedule) shall be indexed in accordance with the following indices:

Staff Costs	:	AWE-K5DL	:	Average Weekly Earnings Index,
Non-Staff Costs	:	CPI-D7BT	:	Consumer Price Index.

2. Payment mechanism

The payment mechanism specifies how the Authority will pay for the Services that are provided at the Price agreed in the pricing mechanism.

The payment mechanism will be split into 3 modules and are described in the sections below:

- i) Basic payment mechanism
- ii) Payment based on availability of places
- iii) Payment based on performance

The timeframes for invoicing and payment and when each module is applied is described in Section 3 below.

2.1 Basic Payment Mechanism

The first part of the payment mechanism is the calculation of the monthly payment. The amount is calculated as:

- “Guaranteed Block Bed Night Price” x “Guaranteed Block Bed Nights” x the number of days in the month
- Plus “Spot Bed Night Prices” x the “number of Spot Bed Nights used”

Spot Bed Nights can only be charged if the number of beds used on a particular night exceeds the number of Guaranteed Block Bed Nights purchased.

i.e. if a Young Person is admitted to the SCH under a Spot Bed Night, they will move to a Guaranteed Block Bed Night place by default as soon as one becomes free later in their placement.

The payment may then be adjusted based on 2 further criteria:

- Adjustment for Guaranteed Block Bed Nights that were not available – the invoice would also need to include reductions in payments for Unavailable Guaranteed Block Bed Night places within that period. Payment is linked to the number of Guaranteed Block Bed Nights that are actually available to the Authority for use, based on the definitions of when a place is deemed to be physically unavailable as per clause 2.2 below.
- Adjustment for performance - the level of performance achieved by the SCH in each quarter may lead to a reduction in payment, as outlined at clause 2.3 below.

Such deductions would be captured and recorded on the deductions template found at Annex C to this Schedule 2.

2.2 Payment based on physical availability of places

The SCH will declare to the Authority, as soon as reasonably practical, any Guaranteed Block Bed Nights where bedrooms were deemed unavailable according to the availability criteria at 2.2.1.

2.2.1 Availability criteria

The Authority will not pay the Guaranteed Block Bed Night Price where a place, or a number of places, are deemed to be unavailable, based on the below criteria. This will be when a Young Person cannot be placed in the bed within the SCH (and no alternative place is found at the SCHs own cost) or has to be removed from the SCH and placed elsewhere in the following circumstances:

- 1) Children at risk or placement unsafe: The Authority reserve the right to remove an individual or all the young people placed by the Authority in the SCH, in circumstances

where the Authority has assessed that the children are at risk or the placement is unsafe. Where:

- i) continuing registration as a Children's Home is in doubt or a decision to suspend registration is pending
 - ii) licensing as a secure unit is in doubt or a decision to suspend the licence is pending
 - iii) there is the consideration of the imposition of conditions on licensing that would impact on the SCH's ability to deliver the Service Specification
 - iv) if registration or licence are cancelled or conditions are imposed that limit the Authority's ability to place a Young Person (for example issues identified during an Inspection give the Authority sufficient cause for concern to remove young people from the unit).
 - v) where the Authority has reasonably deemed Young People to be at risk and has suspended placements and/or removed Young People from the establishment
- 2) Room is physically unavailable due to damage: If the room is unavailable because of a need for repairs or damage or does not comply with Schedule 1 section 6.37 and 6.38, the SCH should endeavour to find alternative secure accommodation for the Young Person within the Home at its own cost.
 - 3) Refusal of a placement by the Supplier. Should the Supplier refuse placement under a Guaranteed Block Bed Night for any reason and where the occupancy of Guaranteed Block Bed Nights at the SCH is below [redacted] for the full month preceding the month in which refusal takes place, the Guaranteed Block Bed Night shall be deemed unavailable, for the purposes of payment under this clause 2.2, until the next placement is accepted into the SCH. Occupancy rates are worked out according to the below calculation:
 - "The number of Guaranteed Block Bed Nights *used* in the month" / ("The number of Guaranteed Block Bed Nights at the SCH" x "The number of days in the month")%
 - 4) Room not declared available to the YCS under the daily unlock report: SCHs will be responsible for informing the Authority on a daily basis the number of Guaranteed Block Bed Night places that are available and the number of places which are not available. If a guaranteed place is vacant but not declared available to the YCS (and the error is not picked up, resulting in non-placement by the Authority that day), it will be considered unavailable and not paid for. The onus is on the SCHs to declare available beds.
 - 5) The Room is deemed an Unavailable Guaranteed Block Bed Night by virtue of it being utilised as a Welfare Ad hoc Bed Night in accordance with clause B7.
 -

2.2.2 *Adjustment to payment for places that were not available*

- The adjustment to payment will depend on the number of places that were unavailable. For example it could range from one Young Person being unreasonably refused or all places being unavailable if the SCH lost their licence and all children were removed. The payment adjustment for the first case is described below:
- Monthly basic payment
- Less "Guaranteed Block Bed Night Price for one place" x "The number of Guaranteed Block Bed Nights declared as unavailable"

2.3 Payment based on performance

The Authority will not pay the full Guaranteed Block Bed Night Price where the Service Specification is not being provided to the basic standard defined in Schedule 1 and in accordance with the performance framework.

2.3.1 Performance against Contract Delivery Indicators

A performance management framework has been designed for this contract and is fully detailed in Schedule 7 (Performance Management Framework). An SCH's performance will be measured and scored against a number of Contract Delivery Indicators for the contract on a monthly basis. Thresholds have been set for underperformance and should an SCH's monthly performance score breach the relevant threshold then a performance deduction (financial) will be applicable.

The deduction will be limited to [redacted] of the monthly payment for Guaranteed Block Bed Night places applicable to the relevant month. Any financial deduction would be made from payment due to the SCH for the invoice submitted for the following month.

The calculation for payment for underperformance is:

- "Invoice value for the month x [redacted]"

3. Information to support monthly payment

As at Clause C2 of the contract, the Supplier must submit invoices in accordance with the procedure described below:

- (a) The SCH will submit the monthly invoice template, found at Annex 1, to the Authority within 10 working days of the end of the relevant month. The monthly invoice will detail:
 - (i) Guaranteed block bed nights
 - (ii) Spot bed nights
 - (iv) Any other adjustments (include description)
 - (v) Availability deductions
 - (vi) Performance deductions
- (b) Any clarifications to the invoice required by the Authority will be provided by the SCH within 5 working days of the request
- (c) The Authority will certify and pay the amount stated on the invoice within 30 days of the receipt of the monthly invoice by the Authority.
- (d) Any payments to the SCH due to adjustments to the invoice will be made within 30 days of the adjustment. Any change to the payments due to the Authority will be made by a subtraction to the subsequent invoice.
- (e) Late payment of the invoice will result in an additional interest payment by the Authority's at the prescribed rate set out in Clause C2.14. Similarly, any adjustment to subsequent invoices for overpayment by the Authority will also reflect an interest payment by the SCH. The interest will be charged at the rate prescribed in the contract.
-

4. Financial audit

4.1 Financial Assurance

As a user of public money, the Authority has a duty to account for the money it spends and to ensure that value for money is being achieved. The Authority has asked SCHs to:

- (a) project costs and price for the contract period (or as long as budgets can be determined) in the financial submission for the ITT
- (b) run an open-book accounting and allow an audit of costs and price at key points during the contract by the Authority.
- (c) ensure that the Price reflects the full economic cost of Guaranteed Block Bed Nights.

4.2 Full Economic Cost

Where, in the Authority's reasonable opinion, it determines that the Supplier is recovering more than the full economic cost of providing the Services it reserves the right to:

1. make such adjustment to the Price as it reasonably considers are necessary to reduce the amount paid to the Supplier so as to reduce the Supplier's level of recovery to its full economic cost (including reducing future payments to account of part recovery of costs above the full economic cost);
2. terminate this Agreement in which case termination shall be treated as if this Agreement had been terminated pursuant to Clause H4.

SCHEDULE 7 – PERFORMANCE MANAGEMENT FRAMEWORK

1. Overview of the performance management framework

1.1 This schedule describes the method by which the Authority will measure and manage the delivery of the services provided by SCH.

The performance measurement framework will operate continuously throughout the year through a combination of assurance monitoring reviews, self-reporting, quarterly performance reviews and contract review meetings.

1.2 The Supplier will be expected to engage in the below performance related meetings as a minimum and comply with Schedule 1 section 3.6 (SCH Manager or suitable representative to attend):

Assurance Meeting	Responsible to attend	Frequency
Joint SCH Managers Meeting/SCH Working Group	All Registered Managers	Every six months
YCS Joint Review Meetings	Individual SCH Registered Manager	Ad hoc basis (on reasonable notice from the Authority)
MoJ/YCS Contract/Joint Review Meetings	Individual SCH Registered Manager	Every six months in alternation with the above 6 monthly Joint SCH Managers Meeting, or risk based and scheduled as and when required.
YCS Assurance Reviews	Individual SCH Registered Manager	Risk based and scheduled as and when required
Healthcare Partnership Board	Individual SCH Registered Manager	Every six months or risk based and scheduled as and when required
NHS England Contract Review Meetings	Individual SCH Registered Manager	Every three months

1.3 The Terms of Reference (as may be varied from time to time) for the YCS lead Contract Review Meetings, SCH Managers Meetings and Joint Review Meetings are to be complied with (see Appendix B).

2. Approach

2.1 The Authority requires that SCHs deliver the full range of services described in the Schedule 1 specification and the Authority will collect a range of data over the life of the contract to assist in measuring performance against the specification. SCHs are required to

report regular performance data such as the Authority consider necessary and this performance data will be used to look for areas of concern to help shape and improve performance.

2.2 Not all of the data that the Authority will choose to collect will provide a straightforward measure of non-compliance with contractual requirements. Instead it may be used to prompt further discussion and investigation.

2.3 However, there are a number of areas of the service specified which can be clearly expressed as performance targets. These targets and measures (Contract Delivery Indicators) have been identified and are detailed at Appendix A. The Authority requires SCHs to measure themselves against these targets in a robust and auditable fashion and report their performance against these targets on a monthly basis.

2.4 These are not the most important areas of the service being provided nor are they the only areas to be measured. However, they do form a set of clearly measurable targets which can give an indication of basic performance. In addition, poor performance against these targets will result in performance remedies being applied to ensure contract compliance.

2.5 Throughout the contract period the Authority, through its contract managers and service assurance monitors, will be evaluating the performance of the SCH through visits, meetings and analysis of performance data collected both as part of the CDIs and other generic data.

2.6 Because the evaluation of performance will be on a continual basis, poor performance should come to light at an early stage and not be an issue that is discovered at the end of each performance quarter. Where poor performance is discovered the Authority will work closely with the SCH to improve performance on an urgent basis.

3. Contract Compliance Performance Mechanism

3.1 Contract compliance measures

There are CDI measures of compliance against the contract as detailed at Appendix A. Each measure is linked to an output from the service specification and has a target against which performance will be measured. Failure to reach the target will attract performance deduction points, the level of which will vary depending on the degree (percentage) of failure against the relevant target.

The Authority will review performance against these CDIs on a quarterly basis and depending on the overall total of performance deduction points awarded, remedial action may be required.
