[Link back to slide 1](#)

Behind the passenger seat

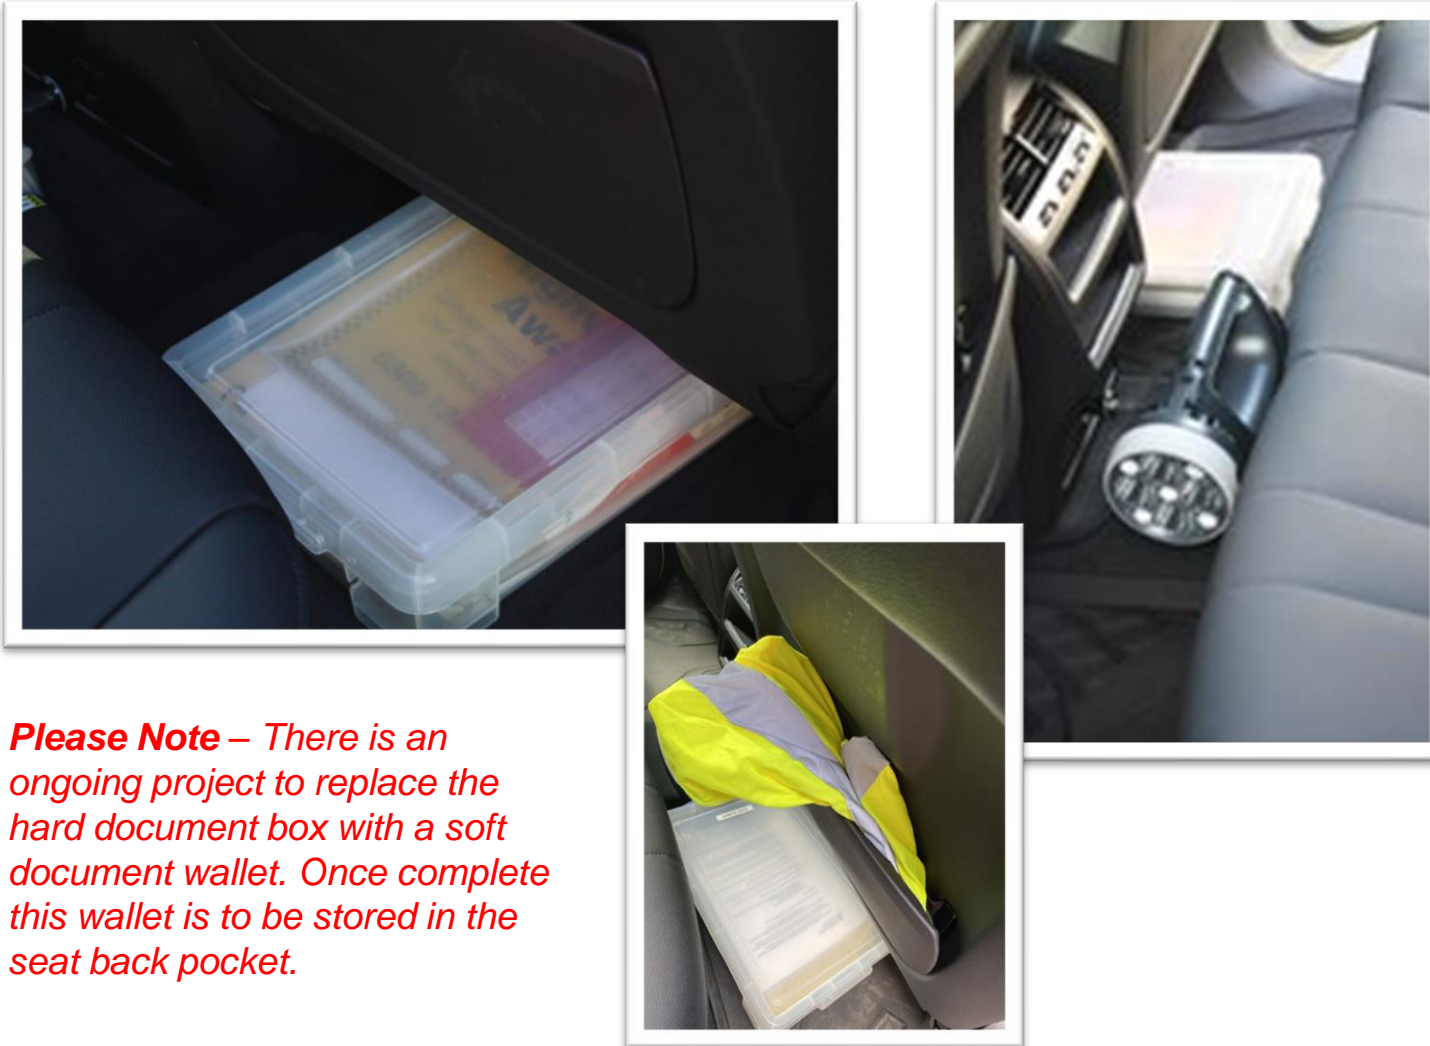

- AED Defibrillator
- Ready Rescue Kit (defibrillator)
- Resuscitation Aid

Please note: the internal grill is smaller in the BMW and when testing the bracket and defib in this vehicle, it showed that when fitted, it impeded vision through the rear view mirror. With approval from Neil Tyson it was approved that in this vehicle only, the defib would be housed in the passenger seat pocket.
