Erection of Sports Equipment Storage Building, Woodside, Lymington SO41 8FP

Lymington & Pennington Town Council invites tenders from suitably experienced building contractors to erect a single-storey storage building serving Woodside Sports Pavilion. The proposed building, roof form and materials will reflect the pavilion to present a co-ordinated aesthetic to the parks facilities.

Please quote for the erection of the Storage building based on the following. (To match existing pavilion building)

- Walls to comprise Douglas Fir feather edge boarding, 200mm x 12-2mm, clear preservative treated, over red brick plinth.
- Marley Eternit 'Rivendale' fibre cement slate
- Roller shutter door- black
- Concrete slab – 100mm ground bearing slab, concrete mix over 1200 gauge polythene DPM
- Tarmac path leading to building
- LED strip lighting – contractors design
- Security lighting on PIR Control.

Additional inclusions within quote

- Proposed method statement
- Proposed program of works
- Plans & illustrations showing design proposal
- Supplier's lead time

Submission of Design and Tender

- The designs and tender should be submitted to the council offices by 8th February 2019

Site is located at Woodside
Park, Rookes Lane,
Lymington, Hampshire,
SO41 8FP
