Failure to both "attach" and "upload" for each document will result in documents not being submitted. Please note the submit button will still function irrespective of whether documents are attached or not.

All uploaded files will then be listed below the "Uploaded Files" section. A file will have only been successful if it highlights green and populates under this section.

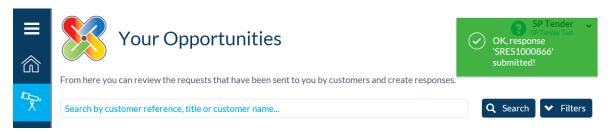

If after you have selected the "Upload Files" button and your document gets a red bar across the document name then this file has **<u>NOT</u>** uploaded and therefore it will not have been uploaded or submitted.

Suppliers will have to try variations in re-uploading this – files size, file type, length of file name etc. as there is a problem with the document. Normally the error occurs due to the file name being too long.
