1.8 EVALUATION OF QUOTATION

KBC does not bind itself to accept any or the lowest quotation. Nothing contained in this ITQ is intended to create a contract between the Bidder and the KBC.

Any Contract awarded as a result of this procurement will be awarded on a mixture of quality and cost basis and the offer that provides the best value for money to KBC.

Based on the information provided by Bidders, each compliant submission will be evaluated on a weighted combination of Quality and Price, with Quality being the primary consideration as follows:

Quality Questions at 60% + Pricing at 40% = 100%

SCORE	CRITERIA TO AWARD SCORE
4	The Bidder's response enables the evaluator to have a comprehensive understanding of how the requirement will be met. The evaluator can clearly identify comprehensive evidence that the response given will deliver all stated requirements. The response also demonstrates how relevant added value will be provided.
3	The Bidder's response enables the evaluator to have a comprehensive understanding of how the requirement will be met. The evaluator can clearly identify comprehensive evidence that the response given will deliver all stated requirements.
2	The Bidder's response enables the evaluator to have an understanding of how the requirement will be met. The evaluator can identify sufficient evidence that the response given will deliver most of the stated requirements. The response may have either raised a concern, several small issues, or is inconsistent in some aspects.
1	The Bidder's response <u>does not</u> enable the evaluator to have an understanding of how the requirement will be met. The evaluator <u>cannot</u> clearly identify that the response given will deliver most of the stated requirements due to insufficient evidence and/ or the Bidder only demonstrating a limited understanding.
0	The evaluator believes that the Bidder has failed to either answer the question or provide a relevant response.

Pricing breakdown must be clearly set out in Part 4 (Quotation Response).

The lowest quoted price(s) will be allocated maximum marks, and corresponding rates will be awarded marks in proportion to the lowest submitted price.

For Example:

The total price figure will be converted into points by applying the formula:

Lowest price bid divided by Bidder's price multiplied by 100%

For example, if the Bidder's price is £100, and this is also the lowest price, the calculation is $100 \div 100 \times 100\% = 100\%$ of the available weighting 100

A bid of £200 would be calculated as $100 \div 200 \times 100\% = 50\%$ of the available weighting.

1.9 INSURANCE

The Bidder must already have, or can commit to obtain, prior to the commencement of the Contract; the levels of insurance cover indicated in Part 4 and provide evidence of such insurance certificates on request.

KBC reserve the right to exclude any Quotation Response that is unable to provide the requisite insurance.
