1. Background

Briefly justify why support is required:

The current process for creating, monitoring and maintaining Public Registers is under increased pressure due to:

- Rising complaint levels
- The request for an action plan from the Office for Environmental Protection (OEP)
- Change in Directors

There is a request for a proposed plan of action with delivery expected by qtr. 4 2024.

2. Statement of services

Objectives and outcomes to be achieved

State and describe the aims of the engagement:

To fulfil this requirement a discovery exercise is proposed to:

- Complete a discovery assessment to review and map current processes, systems, data flows, and escalation routes, (identifying regulation requirements), for Public Registers.
- Provide a list of options to resolve the back log, and identify (where possible), automated technical solutions to simplify, address and resolve both current and foreseen issues.
- Look to use existing solutions if pragmatic and viable i.e., on-line service.

- Create a timely and pragmatic plan.

Outcomes:

A plan to identify:

- Increased efficiency through streamlining process and data flows.
- Opportunities to reduce resource profile to create, monitor, and maintain Public Registers.
- A path to a reduction in complaint levels.

Scope

Define the scope of the services:

- Engage multiple directorates to map current processes, systems and data required for Public Registers
 - Directorates include COO, Environment & Business, Operations as a minimum
 - Consider and incorporate plans where appropriate from each directorate into wider pragmatic plan.
- Acquire and review relevant documentation
- Identify current pain points and opportunities for business, process, technological improvement and efficiency, along with their positives, negatives, risks and implications.
- Trade-offs or tensions should be identified as part of identifying potential options for change. These will be documented as part of the final recommendations.

Assumptions and dependencies

Provide further description of the assumptions and dependencies:

- GDPR data sharing protocols are agreed and signed off.
- Common workspace environment required so that Methods consultants can access Environment Agency data from their Methods devices, this will enable them to work with datasets using specific analytics tools
- Methods will have timely access to data
- Defined EA decision-making contacts
- Access to technical expertise from Environment Agency (systems and processes)

Risk management

Provide further details of any foreseen risks with this project and how they could be mitigated:

- Capacity in Environment Agency project delivery teams to support and engage with the Delivery Partner. Active participation outside of the core Public Registers team will be required from System Owners. The quality of outcomes may be impacted by a lack of active engagement, stakeholders need to be identified early and brought into project team.
- Single Point of Failure within the COO team – it is a small team with limited resources. We will agree internal protocols so that the Delivery Partner is not adversely affected by unplanned absences, as far as possible. We will need a point of contact in the absence of the Programme Manager and minimum monthly and ad hoc meetings with the SRO.
- EA internal communication and change management plans are sufficient to encourage engagement.

Deliverables

Deliverable	Success Criteria	Milestone / Date	Owner (who in the delivery team?)
Project Stage A			
Service Delivery Document (SDD)	<ul style="list-style-type: none"> Approach to delivery defined by Methods and signed off by client 	10/09/2023	Delivery Manager
Final report	<ul style="list-style-type: none"> Detailed report containing maps for processes, data, and systems relating to public registers, relevant to identified problems and pain points Maps must identify pain points and opportunities to streamline processes to increase efficiency and reduce complaints <ul style="list-style-type: none"> Opportunities must consider technological landscape and/or (where possible) identify automated technical solutions to pain points Options appraisal and final recommendations 	04/11/2023	Delivery Manager
Internal Capability Development Outcomes			
Social Value Outcomes			

Limitations on scope and change control

Unless instructions to the Supplier are later amended in writing, the work undertaken will be restricted to that set out above. In providing the services detailed above, the Supplier will be acting in reliance on information provided by the Business Area.

The Project Engagement Letter is the agreed contract of work between the Defra Group Business Area and the Supplier and can be varied under the change control process. Any changes to timescales, scope and costs will require approval by DgC.

3. Delivery team

Name	Role (link to stage/s resource will work on)	Grade	Daily rate	# of days	Cost

Name	Role (link to stage/s resource will work on)	Grade	Daily rate	# of days	Cost

Total resource Total days* Engagement Length**	
*Total days worked across all resources **Total working days in engagement	

4. Fees

Defra Group will reimburse the Supplier for approved work done according to the table below. The total fees for the scope of work detailed in this Engagement Letter will be £52,970, excluding expenses and VAT.

Stage	Cost	Due (link to milestone dates)
A		
Final Report	£52,970	04/11/23
Expenses		
Up to and not exceeding £3500 (if required) not included in total	£3500	04/11/23
Grand total	£52,970	04/11/23

Business Area considerations:

- Are the costs and fees appropriate (costs linked to deliverables, rates and drive value for money)?

Expenses statement

Defra Group overarching contract rates include expenses for any travel to/from any UK location defined by the Business Area as the base office for the work. Only expenses for travel at the Business Area's request from this base can be charged. If appropriate, define permissible expenses to be charged. Up to not exceeding £3,500 for co-location days, a separate purchase order to be raised when necessary.

Payment

The Supplier should invoice fees monthly in arrears. Defra Group will reimburse fees monthly on confirmation of approval of work delivered by the Business Area. The Supplier will keep an accurate

record of time spent by staff in providing the services and provide this information and supporting narrative, if requested.

5. Governance and reporting

As part of the Call-Off Contract, the Supplier and Business Area agree to provide reporting on the following:

- Completion of the time tracker on a monthly basis, to track days worked by our consultants;

Key Performance Indicators

KPI	KPI Requirement	Description	Reporting Frequency	Who Measures	Method of Measurement	Performance Target
1.	Availability of Methods	Methods named delivery contact or delegate will respond to client correspondence within 24 hours.	Ongoing for duration of DPEL	EA Programme Manager with Methods Engagement Lead	Escalation from client team if expected behaviour is not demonstrated	90% response rate within 24 hours.
2.	Regular checkpoints provided by Methods	Weekly reporting to ascertain delivery progress, key risks/concerns	Weekly	EA Programme Manager with Methods Engagement Lead	Regular project meetings	Measured against DPEL deliverables.
3	Delivery of agreed deliverables do not exceed agreed baseline dates outside of tolerance	Baselined plans detail agreed delivery dates, these will not be exceeded above tolerance without agreement between all parties	Weekly	EA Programme Manager with Methods Engagement Lead	Regular project meetings	Measured against DPEL deliverables.

Feedback and satisfaction

Defra Group reserves the right to hold review meetings during the assignment, discussing what went well, opportunities for improvement on future assignments and similar. This will incorporate any 'Show and Tell' documentation or transferable products that have been produced.

A post-engagement quality review of the engagement will be arranged where the Business Area rates the services provided.

Non-disclosure agreements

6. Exit management

The agreed actions and deliverables by the Supplier for when the contract ends are as follows:

Describe what the supplier will produce upon existing the project engagement:

Notice period

The nature of these engagements require that Defra Group have the ability to terminate an engagement with notice. Defra Group's termination rights for this engagement are marked below.

The minimum notice period for termination is 5 working days regardless of engagement duration.

1. Business Area identifies a potential need for delivery support, initiates a conversation with DgC, confirms which approvals are required for an engagement to occur, e.g. Consultancy Governance Board if over £100k or DgC Corporate Services Delivery Board if under £100k.
2. Request Form completed by Business Area and submitted to DgC at:
[REDACTED]
3. The form is reviewed by the DgC team around which resource route is most appropriate (e.g. Lots 1/2/3) and may request additional information/edits from the Business Area if required.
4. Lot / Supplier is selected and briefed on the request by DgC, then introduced to the requesting Business Area for further discussion and confirmation of work to be delivered
5. A Project Engagement Letter is completed by the Business Area with input from the Supplier (with supporting proposals as appropriate) and then finally agreed between the two parties, including evidence of all required approvals either being in place or being progressed (e.g. PO) and forwarded to the DgC for review by the Consultancy Governance Board (CGB). Approval states are:

Approval state	Definition	Permissions
Full approval	<ul style="list-style-type: none"> ▪ DPEL agreed ▪ DPEL signed: Supplier, Dept and CO ▪ Purchase Order number 	<ul style="list-style-type: none"> ▪ Work can start ▪ Supplier can invoice for work
