

BACKGROUND

In April 15 the MOD signed a contract with Leidos Europe Ltd to provide the procurement and inventory management of commodity items (as well as the storage and distribution services) historically provided in-house by the Logistic Commodities and Services Operating Centre. Leidos, working with the MOD, will transform the way these services are delivered to ensure requirements continue to be met whilst providing best value for money for the department. The organisation delivering these services is known as Team Leidos.

FUTURE ARRANGEMENTS

Team Leidos would like to make interested suppliers aware that it requires support to USS Ultrasound scanning devices, with a view to potentially awarding Contract that will commence in early 2018. The devices are located in different units throughout the MoD including both UK and abroad.

KEY USER REQUIREMENT

The requirement is to service 33 Ultrasound scanning devices, Model General Electric Logiqe and Venue. The potential Contract would include servicing, repair, spares and consumables.

PROCESS

Team Leidos wishes to stimulate interest, information and views across the market for the support of this requirement via this Request for Information (RFI) together with other companies whom Leidos believes may be able to provide useful intelligence on our requirement. To aid your consideration a sample list of our current requirement can be provided on request by E-Mail using the point(s) of contact within this bulletin.

Team Leidos is seeking information / views and would be grateful if you could answer the following questions: -

Company Capabilities

- *Does your organisation currently service these products in the UK?*
- *Are you OEM trained to service these devices?*
- *Do you provide OEM parts for these devices?*
- *What is your experience in servicing these devices*
