

This drawing is to be read in conjunction with all other relevant Specialist drawings, details and the relevant Health and Safety Plan (as appropriate.).

DO NOT set out from this drawing. Check all dimensions and consult Engineer if any queries arise. Do not scale from drawings.

All dimensions to be checked on site. All details and dimensions relating the sub-contractors or suppliers work must be checked and agreed between the subcontractors or supplier and the general contractor.

Works to comply with current Codes of Practice, Eurocode, British Standards and Building Regulations.

Contractor to provide all necessary vertical and lateral restraint strapping in order to comply with The Building Regulations.

Temporary Stability - Contractor to provide all necessary temporary propping to safely undertake the works.

Roof and Trimming - Design of roof structure, trimmers and connections to be prepared by suitably qualified persons prior to construction.

Party Wall - Works come under the Party Wall Etc. Act 1996. All appropriate notices and awards should be issued prior to work taking place.

Existing Site Plan
1:100

- Installation of heavy beams - Mechanical aids should be employed if required when installing beams.
- Temporary Support - The contractor is to provide all necessary temporary propping to safely undertake the work and maintain structural stability, including sides of excavations for sub structure and retaining elements.
- Confirmation of Structural Layout- The assumptions made within the calculations and drawing should be confirmed on site, prior to commencement of works. Any discrepancies should be discussed with Structural Engineer, in order to check calculations.
- Working at height - Suitable scaffold to be provided in order to carry out works safely.
- Asbestos - Any suspected Asbestos containing materials should be tested and removed by specialist contractors in accordance with HSE guidance.
