IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the Official Journal of the European Union in the cases listed below

- Extreme urgency brought about by events unforeseeable for the contracting authority and in accordance with the strict conditions stated in the directive

Explanation:

Following recent research, the intention of the NHS was to start using azithromycin and dexamethasone for the treatment of Covid-19, which presents a serious threat to public health, and to use local 'business as usual' stocks to do this. If these 'business as usual' stocks are used for the treatment of Covid-19 and are not replenished as soon as possible, there will be none left to treat either Covid-9 patients or patients presenting with the other conditions that these medicines would normally be used for. A competitive procedure was launched by the contracting authority in may to procure additional stocks but provision has to be made in the interim hence the direct award of contracts to procure these medicinal products.
