1.2 The Insurances shall be:

- 1.2.1 maintained in accordance with Good Industry Practice;
- 1.2.2 (so far as is reasonably practicable) on terms no less favourable than those generally available to a prudent contractor in respect of risks insured in the international insurance market from time to time;
- 1.2.3 taken out and maintained with insurers of good financial standing and good repute in the international insurance market; and
- 1.2.4 maintained for at least six (6) years after the End Date.

1.3 The Supplier shall ensure that the public and products liability policy contain an indemnity to principals clause under which the Relevant Authority shall be indemnified in respect of claims made against the Relevant Authority in respect of death or bodily injury or third party property damage arising out of or in connection with the Deliverables and for which the Supplier is legally liable.

2. How to manage the insurance

2.1 Without limiting the other provisions of this Contract, the Supplier shall:

- 2.1.1 take or procure the taking of all reasonable risk management and risk control measures in relation to Deliverables as it would be reasonable to expect of a prudent contractor acting in accordance with Good Industry Practice, including the investigation and reports of relevant claims to insurers;
- 2.1.2 promptly notify the insurers in writing of any relevant material fact under any Insurances of which the Supplier is or becomes aware; and

evidence of placing cover representing any of the Insurances to which it is a party.

3. What happens if you aren't insured

3.1 The Supplier shall not take any action or fail to take any action or (insofar as is reasonably within its power) permit anything to occur in relation to it which would entitle any insurer to refuse to pay any claim under any of the Insurances.

3.2 Where the Supplier has failed to purchase or maintain any of the Insurances in full force and effect, the Relevant Authority may elect (but shall not be obliged) following written notice to the Supplier to purchase the relevant Insurances and recover the reasonable premium and other reasonable costs incurred in connection therewith as a debt due from the Supplier.

4. Evidence of insurance you must provide

4.1 The Supplier shall upon the Start Date and within 15 Working Days after the renewal of each of the Insurances, provide evidence, in a form satisfactory to the Relevant Authority, that the Insurances are in force and effect and meet in full the requirements of this Schedule.

5. Making sure you are insured to the required amount

5.1 The Supplier shall ensure that any Insurances which are stated to have a minimum limit "in the aggregate" are maintained at all times for the minimum limit of indemnity specified in this Contract and if any claims are made which do not relate to this Contract then the Supplier shall notify the Relevant Authority and provide details of its proposed solution for maintaining the minimum limit of indemnity.

6. Cancelled Insurance

6.1 The Supplier shall notify the Relevant Authority in writing at least five (5) Working Days prior to the cancellation, suspension, termination or nonrenewal of any of the Insurances.

6.2 The Supplier shall ensure that nothing is done which would entitle the relevant insurer to cancel, rescind or suspend any insurance or cover, or to treat any insurance, cover or claim as voided in whole or part. The Supplier shall use all reasonable endeavours to notify the Relevant Authority (subject to third party confidentiality obligations) as soon as practicable when it becomes aware of any relevant fact, circumstance or matter which has caused, or is reasonably likely to provide grounds to, the relevant insurer to give notice to cancel, rescind, suspend or void any insurance, or any cover or claim under any insurance in whole or in part.

7. Insurance claims

7.1 The Supplier shall promptly notify to insurers any matter arising from, or in relation to, the Deliverables, or each Contract for which it may be entitled to

In the event that the Relevant Authority receives a claim relating to or arising out of a Contract or the Deliverables, the Supplier shall co-operate with the Relevant Authority and assist it in dealing with such claims including without limitation providing information and documentation in a timely manner.

- 7.2 Except where the Relevant Authority is the claimant party, the Supplier shall give the Relevant Authority notice within twenty (20) Working Days after any insurance claim in excess of 10% of the sum required to be insured pursuant to Paragraph 5.1 relating to or arising out of the provision of the Deliverables or this Contract on any of the Insurances or which, but for the application of the applicable policy excess, would be made on any of the Insurances and (if required by the Relevant Authority) full details of the incident giving rise to the claim.
- 7.3 Where any Insurance requires payment of a premium, the Supplier shall be liable for and shall promptly pay such premium.
- 7.4 Where any Insurance is subject to an excess or deductible below which the indemnity from insurers is excluded, the Supplier shall be liable for such excess or deductible. The Supplier shall not be entitled to recover from the Relevant Authority any sum paid by way of excess or deductible under the Insurances whether under the terms of this Contract or otherwise.

Acas evaluation portfolio review (Ref. Acas27356)

Research specification

Introduction to Acas

At Acas, our purpose is clear. We exist to make working life better for everyone by promoting healthy working relationships and addressing disputes in the workplace, with a specific focus on reducing the cost of conflict.

Acas provides a variety of services including free online and telephone advice services and a mixture of free and paid for training and support for managers and organisations on employment relations and individual staff management issues. We also have statutory duties to provide conciliation in individual disputes between employees and employers before they reach employment tribunal claims, and in collective employment disputes between employers and groups of employees.

By 2025, our ambition is to:

- grow our reach and access
- resolve disputes more quickly and effectively
- forge consensus on the future of work
- embrace difference, increase inclusion and create fairness

Context to the research

Acas has conducted periodic evaluations of its services for many years. These typically include large scale surveys of participants and beneficiaries of our services, in depth qualitative interviews and case studies of individuals or organisations (see: <https://www.acas.org.uk/about-us/evaluations>).

They have proved extremely useful in assessing the performance of our services, understanding the perspectives of recipients and how services could be improved. We are currently developing our organisational strategy for 2025-2030. This creates an opportune moment for us to review our evaluation portfolio to develop ideas on how we might assess impact, improve the robustness of our methods and secure greater value for money. This supports wider Civil Service aims of ensuring optimal methods for evaluation are used across government departments and civil service organisations and is helped by the work of the Cabinet Office/HMT Evaluation Taskforce.

The selected supplier will have expert knowledge of Magenta/Green Book compliant approaches to evaluation, wide expertise and insight into evaluation design for complex business and individual support services, and be familiar with the latest techniques in evaluation. They will need expertise in advising on suitable business datasets for evaluation purposes and familiarity with the employment, HR and employment relations landscape in the UK.

Research aims

The principal aim of the research is to review Acas's evaluation portfolio, understand the strengths and limitations of the most recent evaluations across each of our activities, consider options for using different data sources, the needs of Acas internal customers and users of evaluations and to make recommendations for a future programme of work with indicative cost options. We wish recommendations to be Magenta Book compliant and harness recent relevant innovations in evaluation methodology. The research findings will be used to inform our future evaluation programme design.

Acas has conducted ten evaluations of our core products and services since 2016, plus earlier evaluations of a revision to one of our Codes of Practice and our e-learning. Several economic impact assessments (of all Acas services) have also been published, most recently in 2020. These are all listed in the Appendix A.

The project is required to answer the following research questions:

1) What are the most appropriate evaluation designs for evaluating each of Acas major service areas? Services in scope include: individual conciliation services (EC and conciliation in Tribunal applications); collective conciliation; certificate in workplace mediation; codes of practice; our helpline and advisory support; advice on our website, and; a range of free and paid for training products delivered across a variety of channels e.g. face-to-face, webinar, e-learning. We would be interested in options for combining evaluations of multiple services if appropriate.

Although Acas's existing economic impact assessments (EIAs) are *not* directly in scope for review as part of this work, we are nevertheless interested in understanding how our various evaluation designs can best inform and support robust future EIA designs, since our EIAs draw heavily on data generated by our evaluations.

2) What potential is there for evaluation designs to assess the impact of services? For example, our recent evaluations have not

sought to assess longer-term impact on individuals or organisations from accessing Acas paid for or free training services.

3) What is the potential to use secondary sources of data such as matched business datasets to assist in attribution of causality? We are particularly interested in the possibility of sourcing and/or constructing counterfactuals to enable more robust assessment of our activities. We have experimented with using RCTs in service delivery settings and would be open to further adoption of these where appropriate, together with quasi-experimental approaches and suitable alternatives. We also want to know about any changes to Acas MI data collection that would be needed to enable more effective evaluation.

4) How frequently should evaluations be conducted? What potential, if any, is there for rolling modular data collection? How can we build in rapid, independently gathered feedback from beneficiaries?

5) What are the estimated costs for the different elements of any proposed evaluation programme? Higher, medium and lower options are required based on the contractor's intelligence on evaluation market prices.

6) What would an overarching evaluation framework based on a Theory of Change look like for Acas composite services? This would be used to frame future evaluation designs.

Budget and methodology

The total budget for the project is a maximum of £60,000 excl VAT.

An approach for conducting the work is outlined below. We welcome suggestions for any alternative approaches that will deliver the same outcome while achieving the same or improved value for money.

Desk review

The most recent relevant example of evaluations for each of our main products and services is listed in Annex A below. Review of any further evaluations is at the contractor's discretion – all are publicly available on our current and archived websites. The contractor will be required to review the selected evaluations to develop their assessment of the strengths and limitations of designs and methods used and to draw on their wider knowledge of evaluation design practices and methods to identify opportunities and make recommendations to improve the quality of Acas evaluation activity, based on evaluation best practice.

We encourage the contractor to examine publicly available evaluation designs for similar portfolios of interventions to Acas on the Evaluation

Taskforce Evaluation Registry and identify any approaches that may be applicable. We also expect the contractor to undertake scoping of relevant data sources, including secondary business datasets.

We can provide wider information to the successful bidder on our operational delivery and strategy to aid better understanding of our services. This includes briefing from our research team on previous approaches taken to evaluation and the kind of MI collected through our systems. We will share the findings from our recently commissioned Product Review of Acas paid for and free training services which outlines the evaluation need in that area.

Qualitative interviews

We will supply the contractor with contact details for ~15 internal customers/stakeholders for Acas evaluations. We wish the contractor to conduct individual online MS Teams interviews with each person for up to 1 hour each. The purpose of each interview will be to understand each interviewee's needs of Acas evaluations, what they have found valuable in evaluations to date and their ideas and suggestions for future improvement, including identification of data gaps.

Analysis

We wish the contractor to integrate the findings of the interviews and their desk review in their analysis. We want the contractor to use their analysis of our evaluations, opportunities to use secondary business datasets, review of publicly available evaluations, qualitative research and expert knowledge to answer the research questions above.
