accordance with Regulation 72(9) of the Public Contracts Regulations 2015 ("PCR 2015");

- A3-6-2 Where it considers that the Supplier has at the time of the award of the Contract been in one of the situations referred to in Regulation 57(1) of the PCR 2015, including as a result of the application of regulation 57(2), and should therefore have been excluded from the procurement procedure;

- A3-6-6 Such termination shall be effective immediately or at such later date as is specified in the notice. During the period of notice the Contracting Authority may direct the Supplier to perform all or any of the work under the Contract. - B4-13-1 if the Supplier in its performance of the Contract does not at any time need to engage a subcontractor; or

- B4-13-2 if the volumes of invoices processed by the Supplier in its performance of the Contract falls below the above required standard, due to the volumes of

invoices processed by the Supplier, being particularly high or particularly low as measurement by percentage may distort the true picture. For the avoidance of doubt, the Contracting Authority reserves the right at any time in considering the Suppliers submission or information secured via access to any national data base, to seek further explanation or declaration from the Supplier to ensure that payments meet the required obligations placed upon the Contracting Authority.

B4-14 The Supplier shall without reservation assist the Contracting Authority to the reasonable extent as is requested, to assist the Contracting Authority to secure these assurances during the Contract.

B4-15 In situations that the Contracting Authority is making payments to the Supplier without an Invoice, the absence of an invoice (e.g. timesheet submissions for services) does not waiver any obligation regarding payments made to the Suppliers subcontractors or supply chain.

Annex A – Specification (as advertised)**1. Background**

a. The aim of the SSPP Challenge is to deliver plastic packaging that has positive sustainable environmental benefits and is economically viable, compared with current systems, in both the short and long-term, by encouraging and sponsoring innovation in:

- new, recyclable materials;
- new consumer-friendly packaging, with improved functionality and sustainability;
- new/improved recycling technologies and processes to recover packaging after use;
- new/improved supply chain and business models based on the above;
- improved understanding of environmental impacts of existing and new plastics used in packaging;
- improved understanding of consumer and other value chain member requirements and behaviours.

b. The SSPP Challenge objectives are aligned to the wider objectives of the Innovation Strategy, which are to boost productivity, create good jobs and increase the earning power of people throughout the UK with investment in skills, industries and infrastructure. In addition to economic benefit the Challenge will also aim to deliver a better environmental and social return than that of the current plastic packaging system.

c. The aims and objectives of the Challenge will not be achieved if the Challenge does not engage and communicate with people and organisations involved in the plastic packaging value chain such as raw material suppliers, converters, goods manufacturers, brands, retailers, purchasers, consumers, and recyclers of plastic packaging as well as other relevant influencers. The engagement will seek people's involvement in the Challenge as beneficiaries of grant funding, beneficiaries of the knowledge and innovations that result, co-investors and supporters, all of whom are stakeholders to some degree in the Challenge.

d. To these ends, the Smart Sustainable Plastic Packaging (SSPP) Challenge has a requirement for ready access to SSPP sector-specific communications and engagement expertise, together with an understanding of sustainability and circularity in the sustainable plastic packaging supply chain (diagram at Annex A), and its incorporation into engagement planning and execution for the SSPP Challenge. The supplier will be required to work alongside the UKRI Communications Business Partner allocated to the Challenge in the planning and development of communication and engagement activities and products. The supplier may be an individual or company. If the latter, the organization must be able to provide consistent advice irrespective of the staff members engaged and project manage any tasks that are undertaken by more than one member of company staff. It is anticipated that expert advice will be available to the Challenge as required, but on average one day per week.

2. Aims and Objectives of the Project

e. The aim is to use the expertise of the supplier to effectively target, by identifying suitable channels and methods, the delivering of various communication and engagement plans and products in support of the Challenge including, but not limited to:

- The development and periodic review of a communication plan for the post-competition phase of the SSPP Challenge targeting the sectors and stakeholders affected by SSPP activities and key influencers to increase the likelihood that the Challenge achievements have the intended impact and duration.
- The development of targeted communication pieces, e.g. social media posts, messages, stories, case studies, news items, as part of implementing the communication plan,

especially the final competition announcements.

- Incorporating sector-specific knowledge into the stakeholder engagement plan and events and meetings.
- The development of targeted events, especially the announcement of competition winners and major developments funded by SSPP.

3. Suggested Methodology

f. This is intended to be a call-off contract with a maximum liability set as above. Accordingly, the supplier should expect to quote a daily rate for effort in terms of a Professional Working Day (PWD) (8 hours excluding breaks). Tasking on deliverables will be determined by the Challenge Director, who will also act as the 'line manager'. Timesheets will be authorized by SSPP Programme Manager or Project Manager.

g. The supplier must offer (Essential Requirement) – evidence of competencies must be offered in the tender submission:

- A highly developed cross sectoral understanding of the circular plastic packaging supply chain within the UK, the numerous sector stakeholders, and the communications channels most suitable for each stakeholder group. Evidence offered may reference the SSPP supply chain (Annex A).
- An understanding of the WRAP Plastic Pact, its targets and an appreciation of the implications for the supply chain.

h. The supplier should offer (Desirable Requirements) – evidence of competencies in these areas must be offered in the tender submission:

- An understanding of the government communications ecosystem.
- An appreciation of the key influencers in the plastic packaging environment and the environmental concerns around plastic packaging.
- An understanding of sustainability and the factors that are considered including carbon emissions (net zero).
- Background in relevant large processing infrastructure and/or operations, e.g. polymer or packaging manufacture, plastics recycling, large retailer (Grocery or FMCG).

Nature of Expertise

i. **Expert(s) Specification** – evidence of expertise and competencies must be offered in the tender submission:

- Significant expertise in communications in an area or several areas related to the plastic production, plastics packaging, consumer and waste management sectors, e.g. producers, manufacturers, converters, retailers, consumer groups and the waste management sector.
- Ability to work in an agile and flexible manner, capable of identifying the right approach to the challenge in hand and translating that approach into effective delivery.
- Ability to develop quickly effective working relationships and influence with senior and executive people across the breadth of the Challenge stakeholders, academia, industry and government.

- Excellent written and oral communication skills, together with competence using Microsoft Office suite and SharePoint.

4. Deliverables and project plan deadlines

j. Set Deliverables in conjunction with UKRI staff (above threshold to be agreed with Challenge Director prior to delivery):

- Review of existing engagement and communication plans to identify relevant channels, messages, timing and content to increase the likelihood that the Challenge achievements have the intended impact and duration. - Identification and preparation of social media messages and platforms for their use (At least one during the duration of the contract and up to a maximum of 28 times, ie twice per month) (Estimated effort by appropriate expert 1 PWD on each occasion).

k. Optional Deliverables (to be agreed with Challenge Director prior to delivery):

- Development of engagement and communication plans to identify relevant channels, messages, timing and content to increase the likelihood that the Challenge achievements have the intended impact and duration. (Estimated effort by appropriate expert 5 PWD on each occasion).
- Ad hoc tasks where expert advice is required, such as:
 - Preparation of a response to an event (positive or adverse).
 - Support to the Challenge Director at key stakeholder meetings, presentations, or addresses.
 - Meetings with editors or influencers to gain SSPP access or publication.
