This section sets out the Authority's requirements.

1. OVERVIEW

- 1.1 The supply, delivery and installation of one (1) High-plex Multiplex Spatial Biology Imager before 28th March 2024.
- 1.2 The High-plex Multiplex Spatial Biology Imager would be of a size that fits on a laboratory bench with width 130cm, depth 75cm and height 65cm.
- 1.3 Training of four (4) APHA staff on the Equipment shall be provided within eight (8) weeks of installation.
- 1.4 The Supplier is certified to ISO9001 or an equivalent standard and shall maintain the certification for the contract duration.

2 SCOPE OF THE REQUIREMENT

- 2.1 The main application of the Equipment shall be for the spatial proteomic analysis of samples for the improvement of animal health and disease control, particularly control of infectious diseases of livestock.
- 2.2 The main application of the Equipment shall be for the spatial proteomic analysis of samples for the improvement of animal health and disease control, particularly control of infectious diseases of livestock.
- 2.3 The Equipment shall meet the following requirements:
 - 2.3.1 Allow quantitative detection of ~100 protein biomarkers to phenotype cell populations at the single cell level to enable precise identification and characterisation of individual cells within complex tissue. A minimum of 60 markers detection is required, ideally higher, without carry over of detection occurring between cycles.
 - 2.3.2 Quantify high-plex marker detection at single cell resolution. A minimum resolution of 260nm/pixel is required.
 - 2.3.3 Have a high dynamic range to enable detection of both high and low expressing proteins. A minimum dynamic range of 5 logs is required.
 - 2.3.4 Be able to detect proteins mRNA and protein biomarkers in the same sample.

- 2.3.5 Have a gentle enough staining process to allow sample conservation; that allows the reuse of same samples for additional protein detections and other applications. The ability to store for long periods (e.g. up to two (2) years) and reuse sample would be an advantage.
- 2.3.6 Be compatible with detection of protein and RNA markers in fresh frozen or fixed samples (for example, FFPE, PFA), and in both tissue sections and adherent cell suspensions.
- 2.3.7 Be able to process fresh frozen samples from animals infected with pathogens that require category 3 level biocontainment. For example, this may be achieved either by the samples being imaged in an enclosed slide/system or the system is compatible for operation within a microbiological safety cabinet. Alternatively, a pre-processing procedure of slides with fresh frozen samples that is compatible with chemicals that have the potential to inactivate pathogens within the sample, such as acetone or ethanol.
- 2.3.8 Be fully automated for setup, quality control and image acquisition.
- 2.3.9 Have an imaging speed that enables efficient panel optimisation and data generation.
- 2.3.10 Be intuitive and easy to use, with relevant prompts and warnings, for operation, maintenance, image visualisation and data analysis.
- 2.3.11 Be compatible with open-source reagents and customisable antibody panels.
- 2.3.12 Have no requirement for proprietary labelling of antibodies.
- 2.3.13 Shall include scanning / acquisition computer hardware suitable for the operation of the Equipment.
- 2.3.14 Shall include acquisition and image visualisation software with at least one software licence.
- 2.3.15 Shall include analysis hardware and software and at least one licence. Analysis software must allow cell segmentation, cell phenotyping, unsupervised cell clustering and visualisation of high dimensional datasets (e.g. tSNE, UMAP, heatmap), as well as cell neighbourhood, and cell distance analysis. The file output must be compatible with other common high-plex spatial biology image analysis software such as Visiopharm, Halo and QuPath.
- 2.3.16 Shall be supplied with a method that enables handling and storage of the large data files generated, e.g. data storage drives or cloud storage. Any additional requirements for further storage and processing and analysis of ongoing large data files must be detailed.

2.3.17 Be compatible with 240V UK electricity supply and be supplied with a UK 3 pin plug.

2.3.18 Shall have a supply of spares that continue to be available for purchase for at least seven (7) years post installation.

11 PERFORMANCE MANAGEMENT FRAMEWORK (including Key Performance Indicators – KPIs)

11.1 As part of APHA's continuous drive to improve the performance of all contracts, this Performance Management Framework will be used to monitor, measure and control all aspects of the Supplier's performance of contract responsibilities under the Contract.

11.2 The purpose of this Performance Management Framework is to set out the obligations on the Supplier, to outline how the Supplier's performance will be evaluated and to detail the sanctions for performance failure. The Supplier is responsible for the performance of any sub-contractors.

11.3 Key Performance Indicators (KPIs) are essential to align Supplier performance with the requirements of the Authority and to do so in a fair and practical way. KPIs must be realistic, achievable, and set to indicate where the service is failing if they are not achieved. Without the additional use of Service Credits, failure to meet KPIs will strain the relationship as delivery falls short of agreed performance standards.

11.4 The use of a strong Service Credit regime accompanied by a proactive approach to correcting failures and addressing their cause improves the relationship and enables a partnership rather than a confrontational style of working. Its focus is on managing and improving service. It is not about taking cost out of the service.

11.5 The Authority shall review performance against KPI's and, if appropriate, instigate meetings and work closely with the Supplier to agree action plans. The Authority expects the Supplier to agree and implement these plans. If this does not happen, only then shall service credit principles be applied.

11.6 KPIs are set out at Annex A.

12 Service Credit Principles

12.1 Service credits sit within the wider service management approach being pursued by the Supplier and the Authority. Use of service credits does not preclude any other remedy for failure of performance available to the Authority under the terms and conditions of the contract.

12.2 The service credit regime shall be instigated on each occasion where there is a service failure (i.e. where it is recognised by the Authority that the standards have fallen below the minimum). Failure to meet a KPI may also give rise to a remediation plan.

- KPIs with a service credit rating of 1 will have a service credit of 3% of the invoice amount for the monthly monitoring period, applied for each KPI failure.

12.3 The Authority has full and complete discretion on whether to claim all, part or none of a service credit to which it is due.

12.4 Service credits claimed shall be paid to APHA as a credit note within one (1) month following the date at which the service credits were applied.

12.5 The full, agreed service credit regime will operate from the initial delivery date until the end of the Contract Period. The KPIs may be adjusted to ensure that they are appropriate and achievable.

Annex A – Key Performance Indicators

3.1 The Order Form is an offer by the Authority to purchase the Deliverables subject to and in accordance with the terms and conditions of the Contract.

3.2 The Supplier is deemed to accept the offer in the Order Form when the Authority receives a copy of the Order Form signed by the Supplier.

3.3 The Supplier warrants and represents that its Tender Submission and all statements made and documents submitted as part of the procurement of Deliverables are and remain true and accurate.

4. What needs to be delivered

4.1 All Deliverables

(a) The Supplier must provide Deliverables: (i) in accordance with the Specification and Tender Submission; (ii) to a professional standard; (iii) using all reasonable skill and care; (iv) using Good Industry Practice; (v) using its own policies, processes and internal quality control measures as long as they don't conflict with the Contract; (vi) in accordance with such policies and procedures of the Authority (as amended from time to time) that may be specified in the Contract (vii) on the dates agreed; and (viii) in compliance with all applicable Law.

(b) Without prejudice to the Specification the Supplier must provide Deliverables with a warranty of at least 90 days (or longer where the Supplier offers a longer warranty period to the Authority) from Delivery against all obvious damage or defects.

4.2 Goods clauses

(a) All Goods Delivered must be capable of meeting the requirements set out in the Specification and be either (i) new and of recent origin, (ii) reused or (iii) recycled.

The Supplier must take back any primary packaging where it is possible to do so. Packaging must be 100% re-usable, recyclable or compostable, use recycled content where reasonably practicable and support the Government's commitment to eliminate single use plastic.

- (h) All Deliveries must have a delivery note attached that specifies the order number, type, quantity of Goods, contact and details of traceability through the supply chain.

Goods must be disposed of in line with the waste management hierarchy as set out in Law. The Supplier will provide evidence and transparency of the items and routes used for disposal to the Authority on request.

If the Authority gives less than 14 calendar days' notice then it will pay the Supplier's reasonable and proven costs already incurred on the cancelled order as long as the Supplier takes all reasonable steps to minimise these costs.
- (l) The Supplier must at its own cost repair, replace, refund or substitute (at the Authority's option and request) any Goods that the Authority rejects because they don't conform with clause 4.2. If the Supplier doesn't do this it will pay the Authority's costs including repair or re-supply by a third party.
- (m) The Authority will not be liable for any actions, claims, costs and expenses incurred by the Supplier or any third party during Delivery of the Goods unless and to the extent that it is caused by negligence or other wrongful act of the Authority or its servant or agent. If the Authority suffers or incurs any damage or injury (whether fatal or otherwise) occurring in the course of Delivery or installation then the Supplier shall indemnify from all losses, damages, costs or expenses (including professional fees and fines) which arise as a result of or in connection with such damage or injury where it is attributable to any act or omission of the Supplier or, where related to the Contract, any of its subcontractors or suppliers.

The Authority cannot terminate the Contract where the Supplier has not paid a minor tax or social security contribution.

31.2 Where the Supplier or any Supplier Staff are liable to be taxed or to pay National Insurance contributions in the UK relating to payment received under this Contract, the Supplier must both:

- (a) comply with the Income Tax (Earnings and Pensions) Act 2003 and all other statutes and regulations relating to income tax, the Social Security Contributions and Benefits Act 1992 (including IR35) and National Insurance contributions;
- (b) indemnify the Authority against any Income Tax, National Insurance and social security contributions and any other liability, deduction, contribution, assessment or claim arising from or made during or after the Term in connection with the provision of the Deliverables by the Supplier or any of the Supplier Staff.

31.3 If any of the Supplier Staff are Workers who receive payment relating to the Deliverables, then the Supplier must ensure that its contract with the Worker contains the following requirements:

- (a) the Authority may, at any time during the term of the Contract, request that the Worker provides information which demonstrates they comply with clause 31.2, or why those requirements do not apply, the Authority can specify the information the Worker must provide and the deadline for responding;

- (b) the Worker's contract may be terminated at the Authority's request if the Worker fails to provide the information requested by the Authority within the time specified by the Authority;
- (c) the Worker's contract may be terminated at the Authority's request if the Worker provides information which the Authority considers isn't good enough to demonstrate how it complies with clause 31.2 or confirms that the Worker is not complying with those requirements;
- (d) the Authority may supply any information they receive from the Worker to HMRC for revenue collection and management.

32. Publicity

32.1 The Supplier and any subcontractor shall not make any press announcements or publicise this Contract or its contents in any way; without the prior written consent of the Authority.

32.2 Each Party acknowledges to the other that nothing in this Contract either expressly or by implication constitutes an endorsement of any products or services of the other Party and each Party agrees not to conduct itself in such a way as to imply or express any such approval or endorsement.

33. Conflict of interest

33.1 The Supplier must take action to ensure that neither the Supplier nor the Supplier Staff are placed in the position of an actual or potential conflict between the financial or personal duties of the Supplier or the Supplier Staff and the duties owed to the Authority under the Contract, in the reasonable opinion of the Authority.

33.2 The Supplier must promptly notify and provide details to the Authority if a conflict of interest happens or is expected to happen.

33.3 The Authority can terminate its Contract immediately by giving notice in writing to the Supplier or take any steps it thinks are necessary where there is or may be an actual or potential conflict of interest.

34. Reporting a breach of the contract

34.1 As soon as it is aware of it the Supplier and Supplier Staff must report to the Authority any actual or suspected breach of Law or breach of its obligations under the Contract.

34.2 Where an actual or suspected breach is notified to the Authority under clause 34.1, the Supplier will take such action to remedy any breach as the Authority may reasonably require. Where the breach is material, the Authority has the right to terminate under clause 11.4.

34.3 The Supplier must not retaliate against any of the Supplier Staff who in good faith reports a breach listed in clause 34.1.

35. Resolving disputes

35.1 If there is a dispute between the Parties, their senior representatives who have authority to settle the dispute will, within 28 days of a written request from the other Party, meet in good faith to resolve the dispute.

35.2 If the dispute is not resolved at that meeting, the Parties can attempt to settle it by mediation using the Centre for Effective Dispute Resolution (CEDR) Model Mediation Procedure current at the time of the dispute. If the Parties cannot agree on a mediator, the mediator will be nominated by CEDR. If either Party does not wish to use, or continue to use mediation, or mediation does not resolve the dispute, the dispute must be resolved using clauses 35.3 to 35.5.

35.3 Unless the Authority refers the dispute to arbitration using clause 35.4, the Parties irrevocably agree that the courts of England and Wales have the exclusive jurisdiction to:

- (a) determine the dispute;
- (b) grant interim remedies;
- (c) grant any other provisional or protective relief.

35.4 The Supplier agrees that the Authority has the exclusive right to refer any dispute to be finally resolved by arbitration under the London Court of International Arbitration Rules current at the time of the dispute. There will be only one arbitrator. The seat or legal place of the arbitration will be London and the proceedings will be in English.

35.5 The Authority has the right to refer a dispute to arbitration even if the Supplier has started or has attempted to start court proceedings under clause 35.3, unless the Authority has agreed to the court proceedings or participated in them. Even if court proceedings have started, the Parties must do everything necessary to ensure that the court proceedings are stayed in favour of any arbitration proceedings if they are started under clause 35.4.

35.6 The Supplier cannot suspend the performance of the Contract during any dispute.

35.7 The provisions of this clause 35 are without prejudice to the Authority's right to terminate or suspend the Contract under clause 11.
