Schedule 1

The Specification

1. Introduction

- 1.1 The Authority is seeking to appoint a Contractor to deliver a programme of professional supervision to a minimum of 2,000 school leaders experiencing mental health and wellbeing challenges meeting the eligibility criteria (see section 7.1) The service shall be delivered, as a minimum, through facilitated virtual or telephone-based peer support and one to one counselling.
- 1.2 This is an opportunity to support the mental health and wellbeing needs of school leaders across England, and to contribute to the development, delivery and evaluation of an ambitious government support programme.

2. Background

- 2.1 Focusing on improving the mental health and wellbeing of school leaders supports the Department's Teacher Recruitment and Retention Strategy, which sets out the vital importance of fostering supportive school cultures. Improving staff wellbeing is a crucial element of the commitment to recruit and retain more teachers, as well as supporting teacher quality. The Department is committed to taking a whole school approach to mental health and wellbeing, and to ensure that staff wellbeing policy is integrated within schools' culture. This is why we have worked in partnership with the education sector and mental health experts to inform and deliver commitments to protect and promote school staff mental health and wellbeing. These include publishing the first ever Education Staff Wellbeing Charter in May 2021. The charter sets out the actions that government and other organisations, including Ofsted, will take to improve wellbeing of staff in schools.
- 2.2 The Department recognises the pressure that staff, especially school leaders, have been under during the pandemic. The sector has expressed concerns about increasing senior leader stress: 77% of senior leaders described themselves as stressed in the 2020 Education Support Teacher Wellbeing Index, up from 75% in 2017¹. Evidence of the negative impact of COVID-19 on the mental health and wellbeing of senior staff is also emerging with 37% headteachers reporting that they are suffering from persistent burnout.²
- 2.3 In terms of access to provision for mental health and wellbeing support, the Teacher Wellbeing Index 2020 cited that 17% of education professionals do not speak to anyone about work-related stress and only 8% have access to supervision. 20% of professionals report there are no forms of mental health support available at their school/college (this includes forms of support such as encouragement to speak to line managers or union officials).
- 2.4 This clear need for dedicated mental health and wellbeing support for school leaders and gaps in provision underpins the government's response. This was why the Department took decisive action to launch a pilot support programme from July 2020 to March 2021, to provide online peer-support and telephone supervision from experts to over 225 school leaders. Following the completion of the pilot, to maintain support, the Department provided additional funding to extend the programme to August 21, enabling an additional 160 school leaders to benefit.
- 2.5 The Department is now seeking to appoint a Contractor to deliver a longer-term and larger programme of professional supervision in the form of a virtual peer to peer

support and one to one counselling to school leaders (deputy headteachers and above) working at state funded primary and secondary schools in England. We expect the successful Contractor to prioritise those without access to existing support through an EAP or equivalent to direct support where it is most needed.

3. Purpose

- 3.1 The primary purpose is to offer a programme of support to school leaders, to help meet their mental health and wellbeing needs, in support of the Department's COVID-19 response.

4. Programme objectives

- 4.1 i) To help prevent the onset of mental health difficulties, by taking action to support the wellbeing of school leaders in England, affected by the pressures caused by COVID-19 in schools and in support of the Department's COVID-19 response.
- 4.2 ii) To support school leaders experiencing mental health difficulties who do not have access to independent support by plugging the gap in provision.
- 4.3 iii) To increase the evidence base on the impact and value for money of professional supervision and wellbeing support for school leaders and learn lessons to inform future policy and interventions by government and within schools.
