The Supplier shall ensure that each of the Insurances is effective no later than the Commencement Date.

- 1.3 The Insurances shall be taken out and maintained with insurers who are of good financial standing and of good repute in the international insurance market.
- 1.4 The Supplier shall ensure that the public and products liability policy shall contain an indemnity to principals clause under which FCDO shall be indemnified in respect of claims made against FCDO in respect of death or bodily injury or third party property damage arising out of or in connection with the Services and for which the Supplier is legally liable.

2. GENERAL OBLIGATIONS

- 2.1 Without limiting the other provisions of this Contract, the Supplier shall:
 - 2.1.1 take or procure the taking of all reasonable risk management and risk control measures in relation to the Services as it would be reasonable to expect of a prudent Contractor acting in accordance with Good Industry Practice, including the investigation and reports of relevant claims to insurers;
 - 2.1.2 promptly notify the insurers in writing of any relevant material fact under any Insurances of which the Supplier is or becomes aware; and
 - 2.1.3 hold all policies in respect of the Insurances and cause any insurance broker effecting the Insurances to hold any insurance slips and other evidence of placing cover representing any of the Insurances to which it is a party.

3. FAILURE TO INSURE

- 3.1 The Supplier shall not take any action or fail to take any action or (insofar as is reasonably within its power) permit anything to occur in relation to it which would entitle any insurer to refuse to pay any claim under any of the Insurances.
- 3.2 Where the Supplier has failed to purchase any of the Insurances or maintain any of the Insurances in full force and effect, FCDO may elect (but shall not be obliged) following written notice to the Supplier to purchase the relevant Insurances, and FCDO shall be entitled to recover the reasonable premium and other reasonable costs incurred in connection therewith as a debt due from the Supplier.

4. EVIDENCE OF POLICIES

- 4.1 The Supplier shall upon the Commencement Date and within 15 Working Days after the renewal of each of the Insurances, provide evidence, in a form satisfactory to FCDO, that the Insurances are in force and effect and meet in full the requirements of this Framework Schedule 2. 5. AGGREGATE LIMIT OF INDEMNITY

- 5.1 Where the minimum limit of indemnity required in relation to any of the Insurances is specified as being "in the aggregate":
 - 5.1.1 if a claim or claims which do not relate to this Contract are notified to the insurers which, given the nature of the allegations and/or the quantum claimed by the third party(ies), is likely to result in a claim or claims being paid by the insurers which could reduce the level of cover available below that minimum, the Supplier shall immediately submit to FCDO:
 - (a) details of the policy concerned; and
 - (b) its proposed solution for maintaining the minimum limit of indemnity specified; and

- 5.1.2 if and to the extent that the level of insurance cover available falls below that minimum because a claim or claims which do not relate to this Contract are paid by insurers, the Supplier shall:
- (a) ensure that the insurance cover is reinstated to maintain at all times the minimum limit of indemnity specified for claims relating to this Contract; or
 - (b) if the Supplier is or has reason to believe that it will be unable to ensure that insurance cover is reinstated to maintain at all times the minimum limit of indemnity specified, immediately submit to FCDO full details of the policy concerned and its proposed solution for maintaining the minimum limit of indemnity specified.

- 7.3 Where any Insurance requires payment of a premium, the Supplier shall be liable for and shall promptly pay such premium.
- 7.4 Where any Insurance is subject to an excess or deductible below which the indemnity from insurers is excluded, the Supplier shall be liable for such excess or deductible. APPENDIX B**FCDO Supply Partner Code of Conduct****Principles**

FCDO aims to create an inclusive culture of best practice with the delivery partners with whom it engages and which receive UK taxpayers' funds. All Supply Partners should adhere to the overarching principles of the Supply Partner Code of Conduct (hereafter "the Code").

Overarching Principles for Supply Partners

- ✓ **Act responsibly and with integrity**
- ✓ **Be transparent and accountable**
- ✓ **Seek to improve value for money**
- ✓ **Demonstrate commitment to poverty reduction and FCDO priorities¹**
- ✓ **Demonstrate commitment to wider HMG priorities²**

FCDO Supply Partner responsibilities

Supply Partners and their subcontractors (delivery chain partners) should ensure they have read and understood the Code and their required compliance level and seek clarification from FCDO where necessary. In particular, it is important that the Supply Partners and their subcontractors (delivery chain partners) understand any risks and have systems in place to manage them. The 3 compliance levels are:

Compliance Level 1 - Supply Partners with an individual contract value of £1m or above, or two or more contracts/grants with FCDO with a combined value of £5m or above;

Compliance Level 2 - Supply Partners with an individual contract value below £1m, or two or more contracts /grants with FCDO with a value of less than £5m;

Compliance Level 3 - Supply Partners with an individual Contract value, or component of a Contract/Grant, with a value below the EU contracting threshold. At this level Supply Partners are required to adhere to the overarching Code principles and recognise, mitigate and manage risks. These Supply Partners will not be monitored against the contractual KPIs.

Scope

This Code forms part of FCDO's standard contractual terms and conditions and full compliance and annual verification via a signed declaration, to be found at Annex 1b, is mandatory for contracted Supply Partners. Adherence to the Code at the appropriate level is also a requirement for FCDO direct and delivery chain Supply Partners in receipt of funding. FCDO will monitor Supply Partners in six priority areas as set out below using a set of Key Performance Indicators (KPIs) as referenced in Annex 1a and 1b.

1. Value for Money and Governance
Key Performance Indicators KPI 1 a - c

Value for Money and financial transparency is an essential requirement of all FCDO commissioned work. All Supply Partners must seek to maximise development results, whilst driving cost efficiency, throughout the life of commissioned programmes. This includes budgeting and pricing realistically and appropriately to reflect delivery requirements and levels of risk over the life of the programme. It also includes managing uncertainty and change to protect value in the often challenging environments that we work in.

Supply Partners must demonstrate that they are pursuing continuous improvement and applying stringent financial management and governance to reduce waste and improve efficiency in their internal operations and within the delivery chain. FCDO expects Supply Partners to demonstrate openness and honesty and to be realistic about capacity and capability at all times, accepting accountability and responsibility for performance along the full delivery chain, in both every-day and exceptional circumstances.

Specific requirements include:

- ✓ Provision of relevant VfM and governance policies and a description of how these are put into practice to meet FCDO requirements (e.g. Codes on fraud and corruption, due diligence);
- ✓ A transparent, open book approach, which enables scrutiny of value for money;
- ✓ Strict adherence to all UK and in-country government tax requirements;

¹ <https://www.gov.uk/government/organisations/department-for-international-development/about#priorities>

² <https://www.gov.uk/government/organisations/hm-treasury/about#priorities>

- ✓ Processes for timely identification and resolution of issues and for sharing lessons learned which might be requested by FCDO at any time.

2. Ethical Behaviour

Key Performance Indicators KPI 2 a- f

FCDO Supply Partners and their delivery chain partners act on behalf of the UK government and interact globally with country governments, other aid donors and their delivery partners, many stakeholders including citizens and directly and indirectly with aid beneficiaries. These interactions must therefore meet the highest standards of ethical and professional behaviour in order to uphold the reputation of the UK government.

Arrangements and relationships entered into, whether with or on behalf of FCDO, must be free from bias, conflict of interest or the undue influence of others. Particular care must be taken by Supply Partner and delivery chain staff who:

- a) are directly involved in the management of a programme or procurement of services; or
- b) who engage with i) frontline FCDO staff ii) other deliverers of aid iii) beneficiaries (of aid)

Where those in a) and b) could be susceptible to undue negative or detrimental influence.

Supply Partners and their delivery chain partners must declare to FCDO where there may be instances or allegations of previous unethical behaviour by an existing or potential staff member or where there is a known or suspected conflict of interest. Where a potential or existing staff member has been employed by FCDO or the Crown in the preceding two years Supply Partners and their delivery chain partner must provide proof of compliance with the HMG approval requirements under the Business Appointment Rules.

Supply Partners and their delivery chain partners must have the following policies and procedures in place:

- ✓ Development and proof of application and embedding of a Staff Recruitment, Management and Retention policy (which must address circumstances where there may be potential or actual conflict of interest and embedding of a Whistleblowing Policy)
- ✓ Ongoing monitoring of potential or existing personal, business or professional conflict of interest and their mitigation and management
- ✓ Ethical training for every staff member and staff updates in ethical working practices suitable to the development sector (e.g. UN Global Compact principles) including awareness of modern day slavery and human rights abuses
- ✓ Procedures setting out how, staff involved in FCDO funded business, can immediately report all suspicions or allegations of aid diversion, fraud, money laundering or counter terrorism finance to the FCDO Counter Fraud and Whistleblowing Unit (CFWU) at reportingconcerns@fcdo.gov.uk or on +44(0)1355 843747.

3. Transparency and Delivery Chain Management

Key Performance Indicators KPI 3 a – f

FCDO requires full delivery chain transparency from all Supply Partners. All direct Supply Partners and their delivery chain partners must adhere to wider HMG policy initiatives including the support and capacity building of micro, small and medium sized enterprises (MSMEs), prompt payment, adherence to human rights and modern slavery policies and support for economic growth in developing countries.

FCDO recognises the critical value that downstream delivery partners contribute. Direct Supply Partners must engage their delivery chain partners in a manner that is consistent with FCDO's treatment of its direct Supply Partners. This includes, but is not limited to: appropriate pricing of services; fiduciary and financial risk management processes; applying transparent and responsive measures where delivery chain partners underperform against the KPI areas; taking a zero tolerance approach to tax evasion, corruption, bribery and fraud in subsequent service delivery or in partnership agreements. Direct Supply Partners must cascade the principles of the Code throughout their delivery chain to ensure FCDO ethical behaviour standards are embedded and maintained.

Specific requirements for direct Supply Partners include:

- ✓ Provide assurance to FCDO that the policies and practices of their delivery chain Supply Partners and affiliates comply with the Code;
- ✓ Maintaining and sharing with FCDO up-to-date and accurate records of all downstream partners in receipt of FCDO funds and/or FCDO funded inventory or assets. This should map how funds flow from them to end beneficiaries and identify risks and potential risks along the delivery chain;
- ✓ Ensuring delivery chain partner employees are expressly notified of the FCDO 'reporting concerns' mail box³ found on FCDO's external website and of the circumstances in which this should be used;
- ✓ Publication of FCDO funding data in accordance with the International Aid Transparency Initiative (IATI)⁴
- ✓ Supply Partners shall adhere to HMG prompt payment policy and not use restrictive exclusivity agreements with sub-partners.

⁴ <http://www.aidtransparency.net/>

4. Environmental issues

Key Performance Indicators KPI 4 a – b

FCDO Supply Partners must be committed to high environmental standards, recognising that FCDO's activities may change the way people use and rely on the environment, or may affect or be affected by environmental conditions. Supply Partners must demonstrate they have taken sufficient steps to protect the local environment and community they work in, and to identify environmental risks that are imminent, significant or could cause harm or reputational damage to FCDO.

Commitment to environmental sustainability may be demonstrated by:

- ✓ Formal environmental safeguard policies in place;
- ✓ Publication of environmental performance reports on a regular basis
- ✓ Membership or signature of relevant environmental Codes, both directly and within the delivery chain such as conventions, standards or certification bodies (e.g. the Extractive Industries Transparency Initiative⁵).

5. Terrorism and Security

Key Performance Indicators KPI 5 a – d

FCDO Supply Partners must implement due diligence processes to provide assurance that UK Government funding is not used in any way that contravenes the provisions of the Terrorism Act 2000, and any subsequent regulations pursuant to this Act.

FCDO Supply Partners must maintain high levels of data security in accordance with the Data Protection Act 1998 and any subsequent regulations pursuant to this Act, or new Act and with the General Data Protection Regulation (Directive 95/46/EC).

Specific requirements:

- ✓ Development and proof of application and embedding of a comprehensive Terrorism and Security Policy
- ✓ Development and proof of application and embedding of personal data processing processes within a Data Protection Policy
- ✓ FCDO Supply Partners must safeguard the integrity and security of their IT and mobile communications systems in line with the HMG Cyber Essentials Scheme⁶. Award of the Cyber Essentials or Cyber Essential Plus badges would provide organisational evidence of meeting the UK Government-endorsed standard;
- ✓ All FCDO Supply Partners who manage aid programmes with a digital element must adhere to the global Principles for Digital Development⁷, which sets out best practice in technology-enabled programmes
- ✓ Ensure that FCDO funding is not linked to terrorist offences, terrorist activities or financing.

6. Safeguarding, Social Responsibility and Human Rights

Key Performance Indicators: KPI 6 a – d

Safeguarding, social responsibility and respect for human rights are central to FCDO's expectations of its Supply Partners. Supply Partners must ensure that robust procedures are adopted and maintained to eliminate the risk of poor human rights practices within complex delivery chain environments funded by FCDO. These practices include sexual exploitation, abuse and harassment; all forms of child abuse and inequality or discrimination on the basis of race, gender, age, religion, sexuality, culture or disability. Supply Partners must place an emphasis on the control of these and further unethical and illegal employment practices, such as modern day slavery, forced and child labour and other forms of exploitative and unethical treatment of workers and aid recipients. FCDO will expect a particular emphasis on the management of these issues in high risk fragile and conflict affected states (FCAS), with a focus on ensuring remedy and redress if things go wrong.

Specific requirements:

- ✓ Development and proof of application and embedding of a Safeguarding Policy;
- ✓ Delivery of Social Responsibility, Human Rights and Safeguarding training throughout the delivery chain;
- ✓ Compliance level 1 Supply Partners must be fully signed up to the UN Global Compact⁸;
- ✓ Practices in line with the International Labour Organisation (ILO) 138⁹ and the Ethical Trading Initiative (ETI) Base Code¹⁰ are to be encouraged throughout the delivery chain;
- ✓ Policies to embed good practice in line with the UN Global Compact Guiding Principles 1 & 2 on business and human rights throughout the delivery chain are required, as detailed in Annex 2;
- ✓ Compliance level 1 Supply Partners to submit a Statement of Compliance outlining how the organisation's business activities help to develop local markets and institutions and further how they contribute to social and environmental sustainability, whilst complying

Compliance KPIs and contractual checking mechanisms - FCDO Contracts

Maintaining standards of assurance and driving sustainable improvements, in connection with the Code's principles through Supply Partner relationships is a key focus for FCDO.

Supply Partner and delivery chain compliance checking processes will take place in accordance with the agreed compliance levels and the specific contractual clauses down the delivery chain, FCDO shall undertake compliance checks.

Where appropriate, a plan setting out the Code of Conduct delivery methodology for the Supply Partner arrangements during the contract term may be jointly developed with FCDO during Contract mobilisation.

UN Global Compact – Human Rights

Principle 1: businesses should support and respect the protection of internationally proclaimed Human Rights

Principle 2: businesses should ensure they are not complicit in Human Rights abuse

Organisations should do this by giving attention to vulnerable groups including women, children, people with disabilities, indigenous groups, migrant workers and older people.

Organisations should comply with all laws, honouring international standards and giving particular consideration to high risk areas with weak governance.

Examples of how suppliers and partners should do this are set out below:

In the workplace

- by providing safe and healthy working conditions
- by guaranteeing freedom of association
- by ensuring non-discrimination in personnel practices
- by ensuring that they do not use directly or indirectly forced labour or child labour
- by providing access to basic health, education and housing for the workers and their families, if these are not provided elsewhere
- by having an affirmative action programme to hire victims of domestic violence
- by making reasonable accommodations for all employees' religious observance and practices

In the community

- by preventing the forcible displacement of individuals, groups or communities
- by working to protect the economic livelihood of local communities
- by contributing to the public debate. Companies interact with all levels of government in the countries where they operate. They therefore have the right and responsibility to express their views on matters that affect their operations, employees, customers and the communities of which they are a part
- through differential pricing or small product packages create new markets that also enable the poor to gain access to goods and services that they otherwise could not afford
- by fostering opportunities for girls to be educated to empower them and also helps a company to have a broader and more skilled pool of workers in the future, and
- perhaps most importantly, a successful business which provides decent work, produces quality goods or services that improve lives, especially for the poor or other vulnerable groups, is an important contribution to sustainable development, including human rights
- If companies use security services to protect their operations, they must ensure that existing international guidelines and standards for the use of force are respected

1. Key programme information

1.1 Background

The Foreign, Commonwealth & Development Office (FCDO) in Somalia seeks to reduce current and future threats to UK interests, enable Somalis to lead safer, healthier, and less vulnerable lives, and support prosperity and reduce risks to stability across East Africa by pursuing, with our partners, a Somalia (including Somaliland) that is increasingly secure, resilient and stable.

The Business Case for the third phase of the Somalia Stability Fund outlines the importance of more inclusive political agreements at multiple levels of government and the need to address historical grievances that have undermined trust between elites and contributed to the ongoing democratic deficit in Somalia. It seeks to create the necessary space to support emerging democratic processes at the sub-national and national levels and will contribute towards more representative and effective local governance structures and invest in strengthening the social contract between citizens and the state to ensure that new institutions are more accountable. Key to any success, will be the need to work collaboratively with Somali authorities at federal, state and district levels, civil society actors and international partners.

1.2 SSF III Contract

The majority of the activity set out in the above Business Case will be delivered through a Fund Manager (FM)¹ who will oversee the delivery of the Somalia Stability Fund (hereafter also known as the programme, Contract or Fund). The FM will be required to manage a series of investments designed to address Somalia's core stability challenges and manage any associated risks. SSF III programme's activity will be underpinned by in-depth, long-term research commissioned by the Fund Manager (FM) through the programme.

The SSF III Contract will run for six years (anticipated to commence late 2022). The programme has been co-designed by contributing donors and will be co-funded by Denmark, Norway, Netherlands, Sweden, Germany, the United States Agency for International Development (USAID) and the EU Delegation to Somalia. The FCDO contribution will be up to £60m. Given wider uncertainty on donor resources at this stage and the opportunities for progress provided by the political context, the planned Contract value is up to £180m over the duration of the Contract, including possible extensions. The Fund Manager shall commit to being fully prepared to respond to any decision made by FCDO to scale up (increase) or scale down (decrease) the scope of the programme.

1.3 Contract extension

FCDO may, in consultation with the FM, extend the Contract beyond the initial end date (anticipated to be late 2028) by up to two periods of 12 months each. This would be subject to strong performance by the FM over the course of the Contract and availability of funding and will be executed as a Contract amendment.

2. The recipient & beneficiaries

The intended primary beneficiaries of SSF III are Somali citizens, in particular those systematically marginalised and excluded groups (localised minorities, displaced populations, youth and women). The programme will seek to provide opportunities for their increased participation in governance and peacebuilding processes. In addition, the programme will seek to strengthen a range of

¹ In this Terms of Reference, the term "Fund Manager" or "FM" should be considered to be synonymous with the term "Supplier" as defined in the FCDO Terms and Conditions.

institutions at Federal, Federal Member State (FMS), and District levels that are key to driving governance reform.

3. Objectives of the programme

3.1 Context

Somalia is one of the world's poorest and most fragile states and one of the most challenging operating environments in which FCDO works. Somalia sits at the bottom of most development league tables, suffers from widespread poverty and inequality, has very low human development indicators, endemic gender violence and discrimination, a persistent humanitarian crisis, a weak productive economy, a limited domestic budget, ongoing conflict, and violent insurgency. Over half the population live below the national poverty line, only 40% are literate, and nearly one in seven of Somalia's people are internally displaced due to conflict and climate shocks, fuelling humanitarian crises. While Somalia avoided the worst-case COVID-19 (C19) health scenarios, the economy has contracted significantly.²

In May 2022, Hassan Sheikh Mohamud was elected as President of the Federal Republic of Somalia. This followed a protracted political process that at times threatened to reverse some of the gains made in recent years. The new government has since set out a number of early priorities including security, political stability, reconciliation, economic development, progressing the constitutional review and strengthening the current humanitarian response.

While Somalia has stabilised and has avoided a return to widespread violent conflict, these gains are fragile. As a result of weak institutions and other external pressures, Somalia is also not on-track to make significant progress on at least 10 out of 17 of the Sustainable Development Goals³ and currently facing widespread drought and an ongoing insurgency.

Therefore, given this fragility, some localised violence in particular FMSs is entirely possible. If that happens, the work set out below would not be viable in those locations and the Fund would need to pivot to support violence de-escalation and mediation efforts. As such, the design of the Fund needs to be flexible and adaptive. As a multi-donor instrument that includes eight of the main donors to Somalia, SSF will seek to drive a coherent response and capitalise upon and inform collective diplomatic efforts to build peace and stability.

Agreements made in the early 2000s between political elites that successfully delivered initial political stability have not led to more inclusive or democratic governance and risk themselves contributing to longer term risks of instability. The current agreement is that powerful clans are apportioned power via a geographic division of spoils (through "the 4.5" power-sharing formula⁴) and that processes to distribute executive and legislative power take place every four years. However, this settlement has resulted in continued failure to hold direct elections at each level (local, state, federal) and move beyond clan selection processes towards one person one vote (OPOV) or to significantly progress the Constitutional Review.

Some elite actors also *benefit* from keeping Somalia in a "state of stable instability,"⁵ enabling them to control their access to rents and manipulate political transitions in their favour. Therefore, a move

² Ministry of Planning, Investment & Economic Development, Somalia Federal Government, Somalia Socio-Economic Impact Investment of C-19, March 2021. In 2020, the combination of C-19, locusts and flood caused the economy to contract by 1.5% (growth was previously forecast to be 3.2%).

³ United Nations, Sustainable Development Report Somalia Country Profile, <https://dashboards.sdgindex.org/profiles/som>

⁴ The 4.5 clan sharing formula emerged out of the Arta conference in 2000 that agreed future representation in Somalia's governance institutions as being equal across major clans (Hawiye, Dir, Darod and Digil Mirifle). Minority groups were collectively allocated 'half' or -0.5 - the number of seats of each of the major clans.

⁵ HMG, Joint Analysis of Conflict and Stability, June 2019

away from 4.5 goes against such elite interests as these threaten control of resources and rents. This contributes towards disincentives to move beyond clan selection processes in ‘electing’ political representatives. These selection processes are accompanied by episodic political crises as these actors jostle for power. In recent years, Somalia has witnessed a significant deterioration in trust and confidence between competing elites, resulting in an increasingly ‘zero-sum game’ approach to the 2022 federal election – which themselves were delayed from early 2021.

The process to agree on a new political settlement (which would ultimately be reflected in a new constitution), allowing competition between political parties rather than clans, has also been hindered by a failure to address the legacies of conflict. Somalia has yet to embark on any meaningful process to deliver the four components of a comprehensive transitional justice approach (truth-telling, justice, reparations, preventative institutional reform). As such, ongoing grievances regarding historical human rights violations (and probable crimes against humanity) and the misappropriation of land have created significant trust barriers between elites and low levels of trust between citizens and authorities.

Somalia is also a theatre for proxy conflict between competing powers in the wider region. Their agendas often seek to capitalise on internal fault lines, resulting in Somali political elites pulling further apart. This has added a layer of complexity to the history of direct external interventions in Somalia to address specific security or geopolitical interests.

However, these issues are not limited to the national level, and each FMS has numerous governance and reconciliation challenges of their own. In some ways, these mimic and have direct linkages to the issues at the national level and reiterate the importance of broadening the political settlement at all levels of government and addressing historical grievances. No single FMS has managed to complete the shift from clan-based selection processes to date, although Puntland has begun that process. Following a failed attempt in 2013, Puntland moved forward to deliver a successful pilot of local elections in late 2021. Since 2016, electoral processes in each of the FMSs (except Puntland) have been extremely divisive and subject to significant political and military interference from Mogadishu. Violence, or the threat of violence, has been used each time. Continued reliance on these processes and the series of crises they produce, pose a significant threat to Somalia’s longer-term stability. Therefore, Somalia’s transition to sustained peace is likely as dependent on successful ‘bottom-up’ approaches (i.e., support to District Council formation and sub-national democracy) to governance as it is on achieving a more progressive political settlement at the federal level.

Significant swathes of Somalia do not have a functioning local government at a more local level. Instead, power is dependent on *de facto* authorities, many of which are appointed directly by state or federal leaders. This authority (or its imposition) is, in some instances, contested violently, and political representation is often not reflective of local demographics with little or no space for women, youth or minority groups. Accountability of such structures is weak to non-existent. Areas in which District Councils are not present do not have a formal entry-point for the provision, coordination or regulation of services nor the systematic collection of local revenue. Against this backdrop, citizens have little (positive) experience of the state.

Within this landscape, groups at national, state, and local levels are systematically excluded and marginalised as a necessary part of this system. This systemic exclusion fuels conflict, grievance, and buoys Al Shabaab (AS). Indeed, AS now has a significant revenue base and is widely perceived as a capable provider in the provision of security and equitable service delivery. They are also often seen as a reasonably neutral, fair, and consistent mechanism for resolving disputes.

3.2 Programme objectives

The proposed third phase of SSF III will address the above structural drivers of instability, building on successes, failures, and lessons from its first two phases and learning from FCDO’s ‘Somalia

Forward' programme⁶ by taking a holistic approach to addressing instability in Somalia as a foundation for economic and social development and reducing humanitarian needs. The programme will seek to partner with government at the federal and state level to achieve the following impact and outcome statements:

Impact: Improved stability in Somalia through the increasingly inclusive distribution of power and resources, greater responsiveness and accountability of political actors to citizens, and acknowledgment and redress of historical human rights violations (HRVs).

Outcome 1: A wider set of elites agree on the structure of governance and power and resource sharing at local and state levels and address key grievances over land and dealing with the past.

Outcome 2: Public authorities at all levels are more accountable and are credibly and transparently appointed, building trust between state and citizens, especially excluded and marginalised groups.

4. Scope of this programme

4.1 Programme outputs

The Fund Manager will successfully manage the design, delivery, and evaluation of a series of investments designed to address Somalia's core stability challenges and manage any associated risks. The FM will also need to play a key role in convening the wider donor community on key stability challenges and effectively communicating key messages. The Fund Manager will be expected to establish and maintain partnerships with government at the federal and state level to enable progress on the outputs below. Where possible, SSF should seek to build clear synergies with key government priorities and relevant policy frameworks.

The outputs listed below are broadly defined, each with a 'menu' of options of potential investments, the viability of which will be assessed throughout the duration of the Contract. FCDO will work with the FM during the Inception Phase to develop a Results Framework alongside decisions on initial investments. A number of pieces of research were finalised in 2021, which provided foundational analysis and recommendations and can be accessed at the Somalia Stability Fund Knowledge Centre.⁷

4.2 Output 1 (Political settlement):

Political reconciliation processes at multiple levels result in agreements that establish the basis for a more progressive political settlement and a more sustainable federal model.

The focus under this output will be three-fold. Firstly, it will support the broadening of the political settlement to include a wider set of elites, including those previously excluded. Secondly, it will support the transition of political representation away from clan and towards a system of representation via political parties. Thirdly, it will support the reconciliation of political disputes or "fault lines" that exist within states (e.g. Jubbaland and Hirshabelle), as well as deal with the tensions between the FMS and FGS, ensuring coherence between these agreements, which intrinsically impact one another. The following list sets out a set of options for output 1 activities with investment decisions being determined by the political context.

- Building on the work of the Somalia Dialogue Platform, convene a series of sub-national (local, inter and intra state) and potentially federal political reconciliation processes (support to dialogue, options analysis, logistics).

⁶ <https://devtracker.fcdo.gov.uk/projects/GB-GOV-1-300490/documents>

⁷ <https://stabilityfund.so/knowledge-centre/>

- Support a political consensus to enable the establishment of a mechanism for dialogue between the FGS and FMS (e.g. inter-state commission envisaged in the provisional constitution) that enables progress on the constitutional review and, where appropriate, reflects and reinforces agreements derived from processes at the sub-national level.
- Securing agreement on an iterative mechanism to broker constitutional disputes, including support to a potential Constitutional Court.
- Potential support to analysis, process design, track 1.5/2 diplomacy efforts and cross-border programming to support constructive regional engagement in Somalia (based on evidence review commissioned under SSF II and further FCDO & Joint Donor Committee (JDC) discussions).
- As and when appropriate, support efforts to have agreements (i.e. distribution of powers, resource sharing arrangements and security provision) codified in legislation and, ultimately, brought together in the constitution and subsequently harmonised with state-level constitutions.
- Working closely with Public Resource Management in Somalia Programme (PREMIS) II and via the Inter-governmental Fiscal Forum, enable a shift towards a more inclusive elite bargain and agreement on power and resource sharing.

If wider instability emerges, this output will focus on securing shorter-term political mediation efforts at local, state, and federal levels, led primarily by the Somali Dialogue Platform.

4.3 Output 2 (Reconciliation):

Somalia implements a strategic approach to progressing social reconciliation on key issues (land, dealing with the past) lowering the barriers to a new political settlement being reached.

The focus under this output will be to reshape existing policy frameworks and their implementation to better deliver a comprehensive approach to transitional justice (i.e. truth-telling, justice, reparations and institutional reform to prevent reoccurrence) and management of land conflict. However, ambition on this output will need to be balanced by understanding the complexities of the context, the level of public demand and political will. Interventions, at least in the early years will likely focus on piloting and testing approaches. Significant research to better understand ways in which reconciliation programming on land and historical HRVs has been completed under SSF II and will provide options for programming activities which have a comparative evidence base and can demonstrate popular demand and legitimacy. Output 2 activities could include financial, technical and political support for the following:

- Support to the FGS on policy development for the National Reconciliation framework.
- Support to the design and implementation of national transitional justice processes to address historical grievances.
- Support to the development of national, state and local land governance reform efforts.

If wider instability emerges, activity under output 2 would pivot away from trying to address longer-term historical grievances on land and HRVs, towards shorter-term priorities around civil society support to violence de-escalation and social reconciliation at community level and engaging media platforms to amplify peace messaging and promote constructive spaces for citizen engagement.

4.4 Output 3 (Democratisation & local governance):

Population is increasingly represented by and can access services from sub-national and local entities and establish new democratic norms at all levels of government.

At the FMS level, transfers of power in most federal member states have been either violent, corrupt or imposed (or all three). Therefore, supporting the development of sub-national election systems will be key to building local stability. SSF will seek to ensure cross-learning between states on their democratisation pathways, rather than advocating for the roll-out from the FGS of a uniform model. Whilst it is not yet clear whether this will be possible to progress at the national level,

democratic gains may be more likely in some states where agreements at sub-clan level can be reached. If a more progressive national political settlement materialises, support could be extended to elections at the federal level. In addition, there are significant areas of the country that do not have formalised district governance systems in place at a local level, meaning that government remains largely invisible for much of the population. Supporting the rapid scale up of sustainable local governance systems will be essential in peacefully determining political representation at the district level and in developing a governance architecture for the eventual delivery of public services. Output 3 activities could include financial, technical and political support for the following:

- Development of a national framework on sub-national elections including strategic & operational plans, legal reviews & legislative drafting, capital and technical capacity building of Election Management Boards (EMBs); civic engagement and voter education; voter registration; election logistics, comparative lessons learning.
- District development plans/funds and community decision making on local public goods (including provision of local security), with implementation of peace dividends.
- Establishment and election of District Councils; community decision making on local public goods, implementation of peace dividends (e.g. small-scale infrastructure); development of District Development Plans and longer-term capacity building.
- In partnership with the UK-led Somalia Security and Justice Programme (Nabadgalenta), support the establishment of community security mechanisms to support District Council Formation (DCF) implementation and locally identified solutions to security and justice challenges.
- In partnership with Joint Programme on Local Governance (JPLG), set up and provide capacity building to District administrations and support the elections of District Councils.
- In partnership with PREMIS, provide support to local Public Financial Management (PFM) and Domestic Revenue Inception (DRM) systems at District level.

In the event that wider instability emerges, activity under output 3 would be limited. Activity would only be taken forward in states and districts which have retained a basic level of stability.

4.5 Output 4 (Social contract):

Enhance the accountability of governance institutions and promote citizen voice.

This strand will work with authorities at the district, state and possibly federal level as well as civil society, external oversight bodies, and political parties to enhance accountability and establish an imperative for these groups and institutions to represent the asks/interests of constituents. Output 4 activities could include financial, technical and political support for the following:

- Improved accountability of authorities at Federal, State and District levels through a combination of internal and external reforms and controls (in Parliament, State Assemblies, District Councils via oversight bodies, and through civil society coalitions).
- Support demand-side civil society activity on budget credibility and transparency.
- Develop the media sector and combat efforts to crack down on freedom of information, expression and assembly.
- Support forums and mechanisms for citizens to engage in and voice opinions on political processes and enhance government visibility to communities.
- Promote participation and voice of women and excluded communities and improve the legal and policy framework for greater participation of these groups in decision making and leadership.

In the event of wider instability, activity under output 4 would be limited in terms of working with authorities and would likely focus on strengthening civil society and supporting media freedoms.

4.6 Output 5 (Research):

Real-time analysis and stakeholder mapping undertaken to inform activities; iterative testing of assumptions informing pivots to approaches, complemented by rigorous and longer-term research in key gap areas; convening of regular policy dialogues amongst Somalia counterparts and civil society and the donor community informed by analytical findings from research and review of programming.

A significant volume of research is produced on Somalia, however much of this rarely informs programmatic modelling or meaningfully influences policy discussions. In addition, there are significant gaps in the academic literature on sub-national governance and reconciliation issues which further blocks programming innovation. Output 5 research areas could include:

- Via the Somalia Dialogue Platform produce stakeholder mapping and balanced, well cross-referenced and real time political analysis to inform and direct activities across all areas of the Fund.
- Through the Platform, support the continued convening of the international community (with key Somali stakeholders in order to inform fund strategy and more widely that of the donor community).
- Quarterly assumption testing and recommendations on shifts to approaches.
- Commission in-depth research on core identified gaps.

4.7 Linkages to other FCDO programmes

SSF has successfully built a strong brand across Somalia with a well-established presence in each of the FMSs as well as strong relationships with the Federal Government and civil society. This influence is key to building stability. This is evident given the level of additional donor financing to the Fund under previous phases, as well as its access to some of the most hard-to-reach areas across Somalia. This programme incorporates existing FCDO programmes working on inclusive politics at the national level (in particular Somalia Forward, with the current phase ending August 2022). A key component of this, the Somali Dialogue Platform will be retained in the next phase (FCDO has directly subcontracted a downstream partner to take forward this work, who will in-turn be transitioned over to the Fund Manager). SSF's efforts undertaken at District level to create new and more inclusive local administrations will be bolstered and complemented by the work undertaken by the FCDO's Nabadgalenta programme to develop more inclusive, accountable and effective security and justice institutions, and by the financial reform interventions of the second phase of the (PREMIS). The programme will also seek to complement work undertaken by the Conflict, Stability and Security fund (CSSF), particularly under the Early Recovery Initiative which focuses on stabilisation in "newly recovered areas". It will also need to engage and promote collaboration with wider relevant bilateral and multilateral programmes and initiatives e.g. the UN's Joint Programme on Local Governance and the work of the UN Peacebuilding Fund. SSF will make an important contribution to progress towards realising a portfolio approach in how the international community supports Somali stakeholders in working on more inclusive politics – defined by increasing coordination and active collaboration.

5. Fund Manager Responsibilities

The FM will be responsible for ensuring a Problem Driven Iterative and Adaptive (PDIA) approach is applied across the programme, putting analysis and evidence at the heart of its methodology and systematically understanding problems rather than immediately assuming solutions. The programme will develop robust research and monitoring, evaluation and learning mechanisms that will track key results, learning, risks and assumptions in real-time and shape delivery. The stronger link between development and diplomatic partners will be brought together via the JDC and the Senior Level Forum (SLF – an advisory body for SSF consisting of Ambassadors and Heads of Development Cooperation) which will enable effective management of political and reputational risks, as well as coherent and targeted messaging to Somali counterparts.

The FM will be responsible for the activities outlined in sections 5.1 to 5.9 below.

5.1 Operations and procedures

5.1.1 Administer the delivery of investments in line with the overarching Somalia Stability Fund III Strategy (to be agreed during the Inception Phase).

5.1.2 Create and maintain an Operations Manual and supporting documentation setting out Stability Fund procedures for financial management, due diligence, risk assessment and mitigation, project selection criteria, proposal formats, reporting, Monitoring, Learning and Evaluation (MEL) and audit according to FCDO requirements.

5.1.3 Establish project offices in Nairobi and Somalia (a fully operational office in Mogadishu and Nairobi and desk space in Baidoa, Dhusamareb, Garowe, Jowhar, and Kismayo) and appoint a team able to operate in potentially high-risk areas. The office in Nairobi should have suitable space to host donor meetings and have hybrid meeting facilities to facilitate team working across Somalia. The FM will be expected to host the FCDO-seconded Head and potentially a Deputy Head (funded by one of the SSF donors) of SSF on a full-time basis. FCDO/funding donor will be responsible for the duty of care of the Head and Deputy Head of SSF. Salaries and expenses for the Head and Deputy Head of SSF will be paid by FCDO/SSF donor. The successful Fund Manager will be required to liaise with FCDO ahead of and during Inception Phase to ensure the location and capacity of the Nairobi project office is suitable and meets UK security requirements.

5.1.4 Ensure a Short Term Technical Assistance pool is in place to provide analysis and strategic advisory support to the Fund.

5.1.5 Building on the successes of SSF I and SSF II⁸, design and ensure a robust Monitoring, Learning and Evaluation (MEL) system and communication strategy are in place. The FM will be handed over the current SSF website to continue its operation. The FM and FCDO will jointly determine the long-term supplier for the website hosting.

5.2 PDIA approach

5.3.1 Given the contextual uncertainty in Somalia, the FM will need to undertake a Problem Driven and Iterative Approach (PDIA). This will require the FM to ensure that the design and delivery of interventions are driven by evidence and adapt according to ongoing monitoring efforts. In the early years, there will be a greater focus on piloting approaches before potentially taking them to scale in the programme's later years.

5.3.2 The FM will also develop a set of output level theories of change that align with context. Choices over specific interventions will need to align with an output level theory of change and include the pre-identification of triggers for when activity should be paused, discontinued or alternative options should be considered. Ensuring the programme can benefit from real-time monitoring will be key to ensuring that interventions can be adjusted quickly in response to changing contextual factors and redesigned altogether if trigger points are reached. The detailed design of the PDIA approach for the programme will be completed during the Inception Phase, which will ensure this is systematically integrated across research, Monitoring, Evaluation, and Learning (MEL), risk, programme, and management teams.

5.3.3 The FM will need to combine the communications, research, evidence, learning, knowledge management, monitoring, and evaluation elements into a single framework to be managed by the FM. Critical to this approach will be adaptive management which will routinely use research and analysis to inform activities, test assumptions, closely monitor progress on outputs and outcomes to ensure they remain relevant and achieve the intended impact. The PDIA approach will ensure a

⁸ <https://stabilityfund.so/knowledge-centre/>

fast process for reviewing key elements of delivery and that actions and course corrections to programmes are implemented in real-time, and that a robust evidence base is built to explain these changes.

5.3 Project management

5.3.1 Jointly develop, procure, and manage projects (approved by the Head of SSF), including those that are high-risk and sensitive.

5.3.2 Perform a risk assessment and due diligence on all potential projects and partners and develop the capacity of present and future Somali implementing partners to implement the recommendations which arise proactively.

5.3.3 Performance management of SSF III implementing partners, closely monitoring delivery, and ensuring that lessons are learned to inform the project's future direction and the wider portfolio.

5.3.4 In conjunction with the JDC, encourage linkages across investments and coordination and collaboration across implementing partners. The FM will be required to identify and seize opportunities for coordination and collaboration with implementing partners and other programmes.

5.3.5 Facilitate verification of SSF III projects by FCDO's independent monitoring programme and provide recommendations for continual improvement of MEL.

5.3.6 Ensure the wider Fund Management Team builds technical capacity of staff, throughout the duration of the programme, including supporting relevant professional development opportunities for own staff and annual team events to reflect on learning and approach.

5.4 Financial management

5.4.1 Manage all financial aspects of the programme, except the role played by CAB. These include all budgets, disbursements, value for money tracking, assessments and reporting, accurate financial forecasting, contracting, verifications, transfers to local partners, and accounting of all project funds.

5.4.2 Inform the FCDO immediately upon any suspicion of fraud or corruption in SSF III projects.

5.5 Procurement

5.5.1 Manage all procurement aspects of the programme. This includes developing a procurement manual for approval by FCDO. The procurement process that must be in accordance with international best practices, suitable for the context and include approving and monitoring of procurement for all implementing partners. Whilst this should include provisions for single-source procurement, standard practice should be that the Fund runs competitive processes for the award of downstream contracts or accountable grants.

5.5.2 Manage the provision of technical assistance via the Short Term Technical Assistance Pool as approved by the Head of SSF.

5.6 Risk and results

5.6.1 The programme will have an 'eager' risk appetite (i.e. willing to accept most activities carrying a severe degree of residual risk) due to its engagement on some of the most politically sensitive issues critical to Somalia's stability. The FM will proactively maintain the programme's risk matrix. FCDO uses seven risk categories to support a consistent approach to identifying and assessing risk: Strategy and Context, Policy and Programme Delivery, Public Service Delivery and Operations, People, Financial and Fiduciary, Safeguarding and Reputational. The FM's initial risk

matrix provided (Appendix A to this ToR) will be refined and finalised during the Inception Phase. Effective management of risks including escalating where appropriate and reporting back to the Head of SSF, FCDO, and JDC will be one of the criteria for assessing the performance of the FM.

5.6.2 Ensure risk management is embedded in decision-making while maintaining a clear view of how threats and opportunities evolve and respond early where there is benefit in doing so.

5.6.3 Maintain the SSF III results framework, tracking quantitative and qualitative results aggregated across the portfolio by area and output.

5.6.4 The FM Team will develop a MEL strategy that fully supports the principles of flexible and adaptive programming and will be approved by the Head of SSF and the JDC. This will include a well-developed and aligned theory of change, strategy document, and overarching results framework, which will sit alongside a performance management framework to guide the programme's overall performance.

5.6.5 The FM will set up a Research, Monitoring, Learning, and Communications Management sub-team to design and deliver the MEL plan to operationalise the strategy. A key learning from the previous phase II is to ensure the MEL approach for a complex political programme is proportionate to the fund value and that a corresponding communication and dissemination plan is developed early and tested on a range of audiences. This Fund Manager sub-team will work closely with the FM senior leadership team and the FCDO to ensure the MEL framework developed during Inception is proportionate and relevant to the breadth and scope of the Fund's work.

5.7 Reporting

5.7.1 Throughout the contract, the FM will work directly with the Head of SSF on a daily basis. The FM will update the wider FCDO team monthly. While exact reporting requirements/formats will be agreed upon during the Inception Phase, monthly project management meetings with FCDO and quarterly reporting against approved work plans and budgets will be required. The FM will agree the format of the reports, including Inception, Quarterly, Annual and Project Completion with FCDO and JDC.

5.7.2 The FM will maintain an accurate and up-to-date asset register and report promptly any case of missing or damaged programme assets and will: (i) provide on a quarterly basis, updated asset register of all programme assets including missing or damaged programme assets, (ii) provide an asset disposal plan to be agreed with FCDO prior to the final 12 months of the programme, and (iii) effectively manage the disposal of the assets as per the agreed disposal plan to be completed before the closure date.

5.7.3 Two Joint Donor Committee meetings will be held per quarter, and a Senior Level Forum consisting of Ambassadors and Heads of Development Cooperation will meet at least quarterly. These will be chaired by the Head of SSF and be held in conjunction with senior FM colleagues. The FM will be expected to provide updates on progress against workplans, finances, risk, value for money and policy issues impacting the delivery of the programme during these meetings. FCDO and the JDC may request the FM to provide updates on additional matters from time-to-time.

5.8 The Somali Dialogue Platform

5.8.1 The Somali Dialogue Platform will play an important role in contributing to the delivery of SSF III, particularly elements of outputs 1 and 5. This will build upon its work to date on these issues, which have been supported by FCDO, USAID and Denmark. Moving forward, the Platform will be integrated within the structures of SSF III and it will play an important role in contributing to a shared SSF III results framework. Within SSF III, the Platform will maintain its own identity and will be empowered to deliver its contribution to the overall work of the programme. The Head of the Platform will report to the FCDO seconded Head of SSF and will be part of SSF's Management Team and will participate in the JDC and SLF. Building on current arrangements, the Head of the

Platform will also convene a Platform Donor Steering Committee (retained from the previous phase) that will meet on a quarterly basis (the FM may join those discussions as an observer). This will allow suitable time and space for the more detailed discussions on the work of the Platform to be undertaken directly between key Platform staff, the Head of SSF and the contributing SSF III donors. Any relevant decisions or issues will be shared with JDC as appropriate. Where decision making rests with JDC (e.g. sign off of annual work plan) then the Platform Steering Committee will make clear recommendations to the JDC.

5.8.2 The FM will be responsible for the renewal of the grant agreement for the service provider of the Platform (currently Rift Valley Institute (RVI)) and of its future management from 1st April 2023. In line with commercial good practice, this decision will be contingent on the continued high-level performance of the implementing partner, due diligence conducted by the FM, and ongoing market assessment. The funds for the grant to the Platform will be channelled through the FM, and the FM will be responsible for due diligence, providing assurance around key programme management compliance requirements, and financial management forecasts of RVI or future providers as with other downstream partners. The FM may also be asked to support the Platform on logistics for events.

5.8.3 It is expected that the programme will develop partnerships with the Somali Federal and State governments on key programming areas. The FM will be required to facilitate these discussions and negotiations and establish regular forums to discuss progress with the government at all levels. The FM should develop state strategies and have the capacity to help manage these relationships at the state and national levels.

5.9 Short Term Technical Assistance (STTA)

5.11.1 The Fund Manager will be responsible for managing a short-term technical assistance pool worth a maximum of 2.5% of the core-fund value. These advisors will be required to provide technical assistance on core SSF priorities e.g. political dialogue and mediation, transitional justice, land conflict, local governance, democratisation, and accountability. The FM will be responsible for allocating these advisers to appropriate fee bands according to their level of expertise and experience. The majority of these deployments will be short-term in nature. The FM must be able to source TA quickly through established networks, and appropriate sourcing and deployment approaches.

6. Project phases

6.1 Inception Phase

6.1.1 The programme will begin with a three-month Inception Phase. During the Inception Phase, the FM is required to put in place a fully staffed fund management team and establish a presence in Nairobi, Mogadishu and each FMS. The Inception Phase is also the period during which the detailed workplan and Outputs; Results Framework, MEL and Implementation Milestones will be agreed between FCDO and the FM.

6.1.2 The FM shall, prior to the end of the Inception Phase, deliver the following (“Inception Milestones”):

- FM Workshop
- Key meetings with the Joint Donor Committee and Senior Level Forum
- Final macro strategy (Somalia Stability Fund III Strategy) document
- Year 1 workplan for the Implementation Phase
- An updated programme Results Framework & Monitoring & Evaluation approach
- Performance Management Framework
- Value for Money (VfM) Approach
- Asset Register

- Risk Management approach & Risk Register
- Operational office in Nairobi, Mogadishu and desk-space agreed in Jowhar, Dhusamareb, Kismayo, Baidoa and Garowe
- Full staffing of all key positions for the Fund
- Transfer grant management of the Somali Dialogue Platform implemented by Rift Valley Institute to Fund Manager
- Inception report

6.1.3 Successful delivery of the Inception Milestones will be measured against the acceptance criteria set out in the Annex 1.

6.1.4 At the end of 3-month Inception Phase, the performance of the Contract will be reviewed and its feasibility determined.

6.1.5 There will be a validation workshop for FCDO and the FM at the end of the Inception Phase enabling a decision to move to the Implementation Phase.

6.1.6 The FM will be required to assume the management of the partner (Somali Dialogue Platform) which is largely contributing to Outputs 1 and 5 during the Inception Phase. This will require the award and management of a new accountable grant from 1st April, 2023.

6.1.7 FCDO will also share with FM the information from SSF II. The programme's Inception phase will include consolidation of research already commissioned, further scoping, researching, and developing stakeholder relationships.

6.1.8 The FM is expected to start work on the following cross-cutting strategies during the Inception Phase: *PDIA approach, gender equality and social inclusion (GESI) strategy, conflict sensitivity strategy, communications strategy and Civil Society Organisations (CSO) strategy*. The details of these, including the acceptance criteria will be agreed between the Parties during the Inception Phase, they will be added as Deliverables to the workplan to be completed, reviewed and approved by FCDO at the end of the second Quarter of the Contract.

6.2 Implementation Phase:

6.2.1 Following acceptance of the Inception Report and approval by the FCDO SRO, the programme will move into the Implementation Phase as per the approved FCDO Business Case. Quarterly, Annual, and Final Reports aligned with FCDO's annual review period will be used to assess the programme's performance. These should be strategic reports focusing on key achievements, challenges, and any proposed adjustments or solutions to address challenges or changes in the context. They should also include an annex with an assessment of progress against workplans (including updates on fraud and corruption issues, risk mitigation, communications, and gender).

6.2.2 The FM should also provide progress updates in advance of Annual Reviews of the FCDO SSF III programme, focused on logframe indicators.

6.3 Exit Phase

6.3.1 There will be a three-month Exit Phase before the contract ends to ensure a responsible programme exit including the hand-over of all technical and intellectual property, holding of dissemination events for research and learning and for the presentation of evaluation findings. The FM will deliver a Project Completion Report covering the results and lessons learned over the life of the Contract. The assets will be disposed in line with the UK asset disposal guidelines for any assets procured with the programme funds. The Exit Plan will detail the FM's approach to the contractual obligation for this phase of the Contract.

6.4 Review points

6.4.1 The Contract will have review points at the end of the Inception Phase (first three months of the Contract) and at 31 March 2024. Continuation of the Contract after these review points will be subject to satisfactory performance by the FM and availability of funds. Should a decision not to continue with the Programme be taken, FCDO will terminate the Contract in accordance with the relevant provisions of the Contract (e.g. Termination With Default of the Supplier or Termination Without Default of the Supplier).

6.4.2 The assessment of the Contract will be based on the FM's performance against the Performance Management Framework, which includes but is not limited to the Milestone and KPI methodologies (see section 7.2 and 7.3). Additional conditions that will determine the continuation of the Contract between review points include the availability of donor resources and opportunities and constraints of the political context. The FCDO will discuss with the FM its assessment of these conditions and build in time to discuss the implications ahead of the formal review point date being reached. FCDO Somalia will seek to align its assessment of these conditions with its Annual Review (AR) process for SSF III. The FM will be required to support these review processes.

7. Budget, Performance Management and Approach to Payment

7.1 Budget

7.1.1 This programme has a maximum budget of up to £180million from Contract commencement to the initial end date (anticipated to be late 2028). The budget will be made up of contributions from FCDO and other donors. FCDO has a confirmed budget of £60million over the duration of the Contract. The available budget is expected to vary over the term of the Contract as donor contributions are confirmed and, where necessary, to respond to the changing political context. FCDO will communicate any anticipated changes to the budget to the FM as early as possible. In response to any changes to the budget, the FM will be required to produce a revised workplan and Pro Forma reflecting the new value of available funding and, if applicable, the change in the %FM cost for approval by FCDO. The changes will be agreed between the Parties through the Variation process.

7.1.2 The maximum budget of up to £180m includes both fund management and core-fund costs. The FM must not exceed the maximum % of FM costs as proposed in the FM's Tender, which must not exceed 15% of the core-fund value. FM costs will be reconciled quarterly to ensure compliance. The budget planning for the Contract term (excluding possible extensions) should be based on the £60m confirmed funding from the FCDO, this includes %FM cost. Any increase in the available funding that results in the change of the %FM cost, in line with the table below, will require FM to propose the methodology for the reconciliation of the % FM for the relevant range over the duration of the Contract. This may require retrospective adjustment where the FM may be required to identify savings to achieve the maximum %FM.

Available Funds
£60m
over £60m and up to £79,999,999m
over £70m and up to £99,999,999m
over £100m and up to £119,999,999m
over £120m and up to £139,999,999m
over £140m and up to £159,999,999m
over £160m and up to £180m

For example, should the available funds increase to £61m, the FM will be required to propose how the FM intends to achieve the % of the FM set for that range (over £60m and up to £79,999,999m) by the end of Contract. The FM must submit its proposal for the FCDO's approval in a format and to a deadline agreed between the Parties. There is an expectation that the FM will demonstrate value for money and identify savings and efficiencies in its approach to FM as the value of available funds increases. The same process would take place if the available funding further increased to, for example, £128m in which case the %FM cost for the range £120m - £139,999,999m would apply.

7.1.3 In line with the Open book principle, FCDO intend to apply the principles of open book contract management set out in Procurement Policy Note 05/16 (<https://www.gov.uk/government/publications/procurement-policy-note-0516-open-book-contact-management>), or any other replacement guidance or policy issued from time to time, to this Contract. The FM will be responsible for demonstration of their compliance with the Profit Margin set out in the Pricing Schedule (Pro Forma).

7.2 Key Performance Indicators (KPIs)

7.2.1 The Contract Management Key Performance Indicators (CM KPIs) will measure the performance of the team (quality and timeliness of reporting including financial reporting); appropriate and effective identification and management of risks; accurate and timely submission of forecasting and invoices; the appropriate level of expertise/skill level of personnel allocated to project; and the extent to which the FM is responsive and flexible to FCDO and stakeholder needs and continuous improvement and innovation.

CM KPIs are individually weighted (Annex 2) and will be used to monitor performance during the Implementation Phase. FCDO may, at its sole discretion, further refine these KPIs during the Inception Phase in consultation with the FM.

On a quarterly basis, the FM will be required to provide evidence of achievement against each of the CM KPIs to FCDO. FCDO and FM will meet to moderate scores based on the supporting evidence. Approval by FCDO's SRO will trigger payment for the FM commensurate with the overall score achieved.

Achievement of the CM KPIs will be measured as shown below:

Maximum Score	Score Definition
6	Evidence of exceeding FCDO expectation
5	Proactive and innovative, delivering with superior efficiency and effectiveness above Contractual expectations.
4	Delivery criteria being efficiently and effectively met in line with Contractual and FCDO expectations.
3	Most delivery criteria are being met efficiently and effectively. Few areas for improvement.

2	Some delivery criteria being met, however, significant performance concerns and improvements needed.
1	Serious delivery failure and under performance. Immediate and major changes needed.

7.2.2 Three Transparency Key Performance Indicators (T-KPIs) agreed between the Parties will be published quarterly in line with the government's transparency agenda. These should be the three most relevant to demonstrating whether the contract delivers its objectives. The Parties may agree to use the performance against the Milestones and selected CM KPIs for publications or decide to create alternative T-KPIs. The FM should ensure these are captured in the Performance Framework and collect data that allows regular monitoring and measurement of progress. An additional Social Value KPI (SV-KPI) may be added to the Transparency Report during the Contract term to reflect FCDO commitment to the delivery of the Social Value through their Contracts.

7.3 Payment Methodology

7.3.1 During the Inception Phase, FCDO will adopt a Milestone-based payment approach as follows:

- The FM's Fees for Inception Phase will be linked to the performance of the Contract that will be measured against the successful delivery of the Inception Milestones.
- The payment for each of the Inception Milestones listed at paragraph 6.1.2, will be made on the acceptance of their delivery by FCDO following their assessment against the criteria as set out in Annex 1. No payments will be made in advance of the Milestone completion.
- Unless completed and approved before, the Milestones acceptance will take place at the end of the Inception Phase. The expectation is that all Milestones are completed on time and to the required high-quality standards. The FM must inform FCDO as soon as possible if it anticipates missing the deadlines for any Milestones. In this circumstance, the FM will provide to the FCDO a justification for the anticipated delay in delivery and propose a new deadline for FCDO's consideration. FCDO may, as its sole discretion, agree to extend the deadline for completion of a Milestone – this approval will be provided in writing and will not be unreasonably withheld. In such a scenario, the payment will be made in the next invoicing period following the completion of the Milestone and its acceptance by FCDO. Severe delays to one or more Inception Milestone will trigger a contract performance review and may result in the termination of the Contract in line with clause 44 (Termination with Default of the Supplier).
- The FM's expenses (including but not limited to travel, subsistence, accommodation, office costs) and any core-fund costs, e.g. STTA or additional services moved forward from the Implementation Phase, will be paid monthly in arrears. The expenses shall be based on actuals, with the Price Schedule (Pro Forma) unit rates as a ceiling (provided they are in line with the FCDO's Cost Eligibility Guidance). The costs of STTA and other services delivered by the downstream partners must be agreed with FCDO in advance and reflect the rates in the Price Schedule (Pro Forma).

7.3.2 During the Implementation Phase, FCDO will adopt a hybrid payment approach based on the achievement on the Implementation Phase Milestones and successful delivery against the Workplan by the implementing partners.

- 100% FM Fees will be linked to the performance of the Contract that will be measured against the satisfactory completion of Implementation Milestones (50%) and meeting the Contract Management KPIs (50%).

- Implementation Milestones for the first year of the Contract shall be proposed by the FM during the Inception Phase in discussion with the Head of SSF and formally agreed with FCDO. They must measure progress towards the outputs in the logframe and should be designed in the format set out at Annex 3, which includes some examples. The Parties shall agree the % of FM Fees at risk attached to each Milestone (totalling 50% of FM fees) taking into account a number of factors, including relative importance, complexity of delivery, anticipated timeframes etc. Thereafter, Implementation Milestones shall be reviewed quarterly. The process will be repeated at the beginning of each year of Implementation.
- Unless completed and approved before, the Milestones acceptance will take place at the end of the Quarter. The expectation is that all Milestones are completed on time and to the required high-quality standards. The FM must inform FCDO as soon as possible if it anticipates missing the deadlines for any Milestones. In this circumstance, the FM will provide to the FCDO a justification for the anticipated delay in delivery and propose a new deadline for FCDO's consideration. FCDO may, as its sole discretion, agree to extend the deadline for completion of a Milestone – this approval will be provided in writing and will not be unreasonably withheld. In such a scenario, the payment will be made in the next invoicing period following their completion and its acceptance by FCDO. Any further delays will result in non-payment of the % fee at risk originally associated with a delayed Milestone.
- The remaining 50% of the FM's fees will be linked to the FM's performance against the CM KPIs. FCDO will review the FM's performance against the CM KPIs quarterly. Payment of FM fees linked to CM KPIs will be based on a score of an aggregate of 3.5 or above for the Contract Management KPIs. An overall score of less than 3.5 will result in the deduction of from the next invoice, in line with the methodology stated below:

Weighted total score ranges	Payment amount
3.5+	100%
2.8 - 3.4	85%
2.0 - 2.7	65%
1 - 1.9	50%

- FM will implement a fee retention model, and ensure quarterly invoices reflect this methodology. FM will clearly mark on the invoice(s) the fees retained against unfinished Milestones.
- FM's Expenses (including but not limited to travel, subsistence, accommodation, office costs), as well as all core-fund costs shall be paid monthly in arrears and shall be based on actuals, with the Price Schedule unit rates as a ceiling (provided they are in line with the FCDO's Cost Eligibility Guidance). The FM will be required to provide evidence that it has disbursed the core-funds in accordance with the requirements below.

The FM should disburse core-funds to downstream partners on the basis of the achievement of workplan Deliverables. These Deliverables should link to the Implementation Milestones and therefore to the achievement of the proposed Outputs. The FM must ensure appropriate measures are in place to ensure downstream partners achieve these Deliverables, including withholding future payments to downstream partners until previous Deliverables have been achieved and making receipt of future grants subject to achievement of these Deliverables. FCDO acknowledges that from time-to-time payment in advance may be required for core-fund costs. FCDO will consider requests for payment in advance for core-fund costs only and decisions will be subject to the FM

satisfying the FCDO that sufficient measures are in place to ensure the achievement of Deliverables.

7.4 Use of Crown Agents bank to manage pooled funds

FCDO will use Crown Agents Bank (CAB) to manage the budget for SSF III, including the pooled donor funds, through its existing third-party contract. This is a pre-existing arrangement, and costs for its operation are met centrally by FCDO and will not be charged to the FM.

The FM should consider opening a dedicated bank account for the core-fund element of the work. The core-fund is defined as the value of the Contract minus the FM cost but inclusive of the Short Term Technical Assistance (STTA).

CAB will make disbursements to the FM for downstream partners' activity costs on instructions from FCDO, with approval of the named head or the FCDO Senior Responsible Owner (SRO). The FM's fees and expenses will be reimbursed by CAB on FCDO's instructions in line with the Contract Terms and Conditions and payment methodology set out in section 7.3.

7.5 Independent third-party monitoring

7.5.1 FCDO will separately contract an organisation to conduct third-party monitoring (3PM) of its programmes in Somalia. This 3PM will cover the SSF FM. The SSF FM is expected to work effectively with the third-party monitor. The FM will need to consider how best to include this independent 3PM in the overall MEL strategy.

7.6 External audit & Due diligence

7.6.1 Through funds within the Stability Fund, the FM shall contract an annual independent audit of the FM and core-fund expenditure. The FM will agree on the TOR for this audit with the FCDO ahead of procurement and take the advice of FCDO Somalia with regards to any existing arrangements in place for the procurement of external auditors.

7.6.2 As part of the procurement process, the FM will be responsible for carrying out due diligence checks on any sub-contracted implementing partners before the award of contract to ensure close fiduciary control. The FM will be responsible for satisfying itself that the risk of financing the sub-contractor is sufficiently low or manageable and submit this in writing to FCDO prior to contract award. This will include setting out a delivery chain map and proactively identify and manage associated risks (and providing regular updates to FCDO and JDC).

8. Governance/ Management Structures

8.1 Core Staff positions

8.1.1 The SSF III Leadership Team will comprise of the following key positions. The FM may propose (subject to FCDO's approval) additional roles, including innovative ideas for a lean and streamlined team that can efficiently deliver the programme.

Please note, key responsibilities highlighted are not exhaustive and have been used as a guide for bidders.

In addition to the roles above, the Fund Manager should appoint Federal Member State SSF Coordinators (Garowe, Jowhar, Dhusamareb, Kismayo, and Baidoa). The mandatory requirements for those roles include the ability to speak fluent Somali and the right to work in their respective duty station. Collectively, these positions will engage closely with the FCDO delivery team.

8.2 Roles & responsibilities

SSF III will be headed by a seconded FCDO member of staff that will oversee the strategic direction of the Fund and day-to-day delivery. A Deputy Head of SSF, funded by one of the other SSF donors, may also be recruited. The FM and FCDO will agree to the composition of a Senior Leadership Team at the start of the Inception Phase. The Senior Leadership Team will include the Head of the Somali Dialogue Platform. The Senior Leadership Team (SLT) will report to the Joint Donor Committee twice per quarter to update on fund progress and reach a consensus on key decisions. On a quarterly basis, Senior Level Forum (SLF) comprising Ambassadors and Heads of Development Cooperation, along with other invited senior level guests as relevant, will meet to provide advice to the JDC on strategic direction and to agree any high-level diplomatic engagement on particular issues. This will also provide an opportunity for the JDC and SSF Senior Leadership team to highlight any emerging risks or opportunities to the SLF and highlight potential for complementary senior diplomatic level engagement in support of SSF objectives.

8.3 The Joint Donor Committee

Representatives from each of the Somalia Stability Fund donors will sit on the Joint Donor Committee. It will meet twice per quarter in-person in Nairobi and will be chaired by the Head of SSF. The FM will also attend Joint Donor Committee meetings. The mandate of the JDC will include:

- Overall oversight of SSF III.
- Input and approval of SSF's annual workplan and budget. This will set out the broad areas of delivery and detail how these contribute to the wider strategy and align with the agreed Results Framework.
- A forum for agreeing wider donor approaches to key stability challenges and how these might be collectively addressed, informed by SSF analysis and programming.
- On a more routine basis, the JDC will undertake a review of overall fund performance, including delivery, risk management, and financial spend.
- Proactively reviewing (and at times input to the commissioning of) the findings from monitoring, evaluation and learning processes. The JDC will input into discussions about the implications of MEL findings for fund strategy as part of a commitment to meaningfully integrating a Problem Driven and Iterative Approach.
- Monitor operational and financial progress and receive and approve SSF reporting.
- Approve investments that may be determined as being novel or contentious.
- Discuss and agree on any structural changes to SSF.

8.4 Platform Steering Committee

The Head of SSF will report to the Joint Donor Committee accounting for work across the Fund, including the contribution from the Platform. The Head of the Platform will participate in JDC meetings. In addition to the JDC, the Head of the Platform will also engage with a separate Platform Donor Steering Committee. This will enable direct interaction between the Head of the Platform and interested / relevant donors for the Platform and allow for more detailed discussions as required. The Head of SSF will also participate in the Platform Donor Steering Committee. At the end of the first year these governance arrangements will be reviewed and potentially revised if required.

9. Competencies expected of the Fund Manager

FCDO will require the services of an experienced FM to lead the design and delivery across all the five outputs of work (political settlement, reconciliation, democratisation, local governance, social contract, and research). The FM will lead on implementing the SSF for six years on behalf of the Joint Donor Committee, which will likely include the following donors: Denmark, Netherlands, Germany, Norway, Sweden, EU, and USAID. FCDO will remain as the lead donor and be responsible for the day-to-day contract management with the private sector provider. The FCDO will sign the relevant formal agreements with respective donors and ensure all programme management, delivery risk, and financial management asks from the different donors are streamlined under the Fund.

The FM will need to field a team of international and national experts, using a model based on the likelihood that security concerns will make long-term deployment of international experts in Mogadishu and other locations in Somalia difficult. The FM will need to demonstrate strong capability in:

- Understanding and addressing conflict (including practical application of conflict sensitivity) and supporting governance reforms in Fragile and Conflict-Affected States (FCAS) contexts, including political dialogue and mediation; supporting reconciliation processes, managing land conflict and implementing transitional justice processes; establishing and capacity building local government; supporting sub-national (and potentially federal) electoral processes (legislative reform; voter registration; election operations and logistics; civic and voter education); and implementing demand and supply-side accountability interventions.
- Designing and implementing interventions that address exclusion and inequalities with a particular emphasis on understanding and responding to the needs of women, marginalised groups and youth.
- Ensuring strategy design and implementation is informed by a wide range of Somali voices and viewpoints.
- Political stakeholder engagement, management, and influence.
- Effective coordination and collaboration with government stakeholders, civil society and the wider donor/UN system.
- Effective commissioning of high-quality and targeted research and analysis
- Effective support and capacity building of local CSOs and research organisations.
- The timely access to high quality, cost-effective and professional technical consultancy services (via the Short-Term Technical Assistance pool). Particular attention should be given to the ability of rapidly mobilising high-quality personnel in response to requests for services.
- Through the use of political economy analysis, the application of a PDIA approach to ensure a flexible approach to programme design, management, delivery, monitoring, and evaluation.
- Delivering high levels of customer engagement, responsiveness, accountability, service delivery, and value for money, as well as effective mechanisms for all aspects of Human Resources (HR) management (both international and local staff), including effective duty of care in hostile environments and dealing with poor performance. Organisations should have

a track record in delivering conflict, stability or security-related programmes for Her Majesty's government (HMG) or similar entities in fragile and conflict-affected states.

- Providing operational support services, including local procurement of accommodation, material and services; the ability, where necessary, to coordinate with security staff, establishing safe and secure operating bases; experience of recruiting and managing local staff (including interpreters) and ensuring that they and any related equipment is safely operated, maintained and accounted for; and the ability to demonstrate appropriate cultural awareness, sensitivity, and a partnership approach, adapting concepts and materials to local needs and audiences.

10. Duty of Care Arrangements

All FM personnel (including their employees, sub-contractors, or agents) engaged under the Contract will come under the duty of care of the lead FM. The FM is responsible for the safety and well-being of their personnel and any third parties affected by their activities, including appropriate security arrangements. The FM will also be responsible for providing suitable security arrangements for their domestic and business property. FCDO will share available information with the FM on security status and developments in-country where appropriate. A copy of the Duty of Care overall Project Summary Risk Assessment Matrix will be provided by FCDO (Appendix A). However, the FM is also expected to monitor this to the best of their ability. Travel advice is also available on the FCDO website (<https://www.gov.uk/foreign-travel-advice>), and the FM must ensure they (and their personnel) are up to date with the latest situation.

The FM must set out the duty of care arrangements for country visits or field-based activities for their staff and downstream partners. The FM will be responsible for all their in-country arrangements, including travel and accommodation and arrangements for meetings.

The FM is responsible for ensuring appropriate arrangements, processes and procedures for their personnel, considering the environment they will be working in, and the level of risk involved in the delivery of the contract. The FM must ensure their personnel receives the required training before deployment (where applicable).

The FM must comply with the general responsibilities and duties under relevant health and safety law, including appropriate risk assessments, adequate information, instruction, training and supervision, and proper emergency procedures. These responsibilities must be applied in the context of the specific requirements the FM has been contracted to deliver (if successful in being awarded the contract).

FCDO will not award a contract to a FM who cannot demonstrate they are willing to accept and have the capability to manage their duty of care responsibilities.

11. Conflict, Gender and Disability Sensitivity

The FM will adopt a conflict-sensitive approach and should demonstrate its understanding of the Somalia context, including conflict dynamics, challenges around inclusion, the political economy and the nature of the current political settlement. This contextual understanding should inform the design of the intervention, and the FM must monitor the impact of conflict dynamics to ensure the intervention does no harm, avoids unintended negative impacts and maximises positive outcomes.

Programme interventions should strive for gender and disability equity, promoting equality and inclusion for women, excluded groups, and persons with disabilities. Result Framework indicators will be established to measure performance on these.

Notwithstanding the direct contractual relationship, the FM will have with FCDO, the FM will report to and work under the auspices of the Head of SSF and the Joint Donor Committee. The Head of

SSF will provide the direction to enable the FM to solicit, assess and develop proposals with potential partners.

In terms of the delivery of output 1 and elements of output 5 (work on the political settlement, stakeholder mapping, and ongoing political analysis), this work, to date, has been delivered through the Somali Dialogue Platform delivered by RVI. Recognising the niche skillset required to deliver on this high profile, high risk, and sensitive nature of work and the significant resources (staff time and funds) have been invested to date to shape the nature of this work to ensure it can deliver on objectives, it is anticipated that this will be maintained throughout the duration of the contract. As a result, despite being under the direct management of the FM, these outputs will continue to be shaped by direct and close engagement with the FCDO team in consultation with the JDC. This will include pre-identifying the implementing partner through an Accountable Grant agreement to ensure continuity. In line with commercial good practice, this decision will be contingent on the continued high-level performance of the implementing partner, due diligence conducted by the FM and ongoing market assessment.

12. UK Aid Branding

FCDO has a duty to show UK taxpayers where their money is being spent, its impact, and the results achieved. All announcements and information given to the media by the supplier must therefore be pre-agreed with FCDO media and communications team and other SSF donors; there must be 'no surprises'. The supplier is required to work with FCDO communications team to 'launch' new projects, agreeing timescales, tactics (press notices, events, etc.), and messages. The supplier is required to give appropriate recognition to the provision of funding including grants by FCDO in any other press notices or other contact with the media, provide FCDO with a range of photographs and video to publicise the project. "FCDO", "UK aid", or variants of, must not be used by suppliers in any publicity without prior consent, and FCDO has the right to veto any media or communications activity proposed by the supplier. Full guidance on Branding is available at [UK aid - standards for using the logo - GOV.UK \(www.gov.uk\)](https://www.gov.uk/guidance/uk-aid-standards-for-using-the-logo)

13. Modern Slavery

The HMG Modern Slavery Statement sets out how UK Government departments must take action to ensure modern slavery risks are identified and managed in government supply chains. The FCDO Supply Partner Code of Conduct sets out the expectation for all supply partners to have full awareness of the International Labour Organisation (ILO).

14. Transparency Requirements

FCDO requires suppliers receiving and managing funds, to release open data on how the programme funds have been spent, in a common, standard, re-usable format. This level of information is required from immediate sub-contractors, sub-agencies and partners. It is a contractual requirement for all Suppliers to comply with this, and to ensure they have the appropriate tools to enable routine financial reporting, publishing of accurate data and providing evidence of this – further IATI information at <http://www.aidtransparency.net/>

15. Counter Terrorism

FCDO requires suppliers to put systems in place that enable transparency and accountability and full compliance with counter terrorist financing rules. Any concerns about diversion of funds or terrorist financial risks will be escalated to FCDO immediately.

16. Safeguarding

FCDO requires assurances regarding protection from violence, exploitation and abuse through involvement, directly or indirectly, with FCDO suppliers and programmes. This includes sexual exploitation and abuse but should also be understood as all forms of physical or emotional violence or abuse and financial exploitation. During programme inception the FCDO will carry out a due diligence assessment for first tier suppliers that includes a review of safeguarding policies. The supplier will be responsible for due diligence assessments of downstream partners including assessing their safeguarding policies, escalating any concerns and working with downstream partners to remedy any deficiencies
