Requirement

This contract is between Defra, Marine Scotland and the Marine Biological Association of the United Kingdom (MBA), the purpose of which is to provide access to datasets via an on-line catalogue of both metadata and data via the DASSH and MEDIN web sites, and the National Biodiversity Network (NBN) Gateway. DASSH is an initiative of the Marine Biological Association (MBA), which shall be partially funded by the Department for the Environment, Food and Rural Affairs (Defra) and the Scottish Government. DASSH works with the Marine Environmental Data and Information Network (MEDIN) and collaborates with existing marine Data Archive Centres (DACs) to develop and comply with national and international metadata and data standards including the INSPIRE Directive (2007/2/EC).

Data Standards and Specifications Scope

The MEDIN data guidelines are designed to allow the supply and transfer of data in a standard format, simplifying the collection, storage and exchange of data and reducing the overall cost of data ingestion for the MEDIN DACs. DASSH will develop automated procedures, tools and workflows to facilitate the ingestion, management and publication of marine biological data, simplifying and reducing the resource requirements for those stakeholders and partners wishing to interact with DASSH, either as data suppliers or consumers. In addition, DASSH will continue to promote MEDIN standards and guidelines to those groups that are currently under-represented within MEDIN, including industry, commercial and academic sectors.

Outputs

The continued development and maintenance of tools to facilitate the ingestion of data supplied in-line with the approved MEDIN data specifications. The tools will improve the speed and volume of data that can be archived within MEDIN DACs. Improvement in the engagement with commercial and academic partners to adopt MEDIN data specifications and metadata standards. An increase in the volume of data and metadata available through the MEDIN portal, NBN Gateway and DASSH Website:

<http://www.dassh.ac.uk/data/qa.html>.

Additionally, Defra aim to improve and augment the DASSH offering, by delivering the following additional activities.

Objective 6 - Implementation of additional data ingestion processes for eDNA derived occurrence data

eDNA data represents an emerging mechanism for the quantification of marine biodiversity. Additional pipelines, tools and standards will be needed to ensure the seamless adoption of eDNA-derived occurrence data in the UK marine data infrastructure.

Through our role as the UK node of OBIS, the MBA Data Team and DASSH have already been involved in the trialling of standards for the integration of eDNA-derived data into traditionally captured occurrence data.

This activity will operationalise the capture, storage and publication of eDNA derived data into the core DASSH infrastructure whilst ensuring transparency in the provenance of the data, promoting end-user confidence.

The DASSH team will work alongside the relevant HBDSEG bodies and initiatives to ensure open and accessible eDNA derived data is available in support of cost effective marine monitoring.

Deliverable: eDNA datasets in DASSH and published methodology and data schema.

Objective 7 - Catalogue of biodiversity Citizen Science initiatives published on the DASSH website

Citizen Science (CS) data represents an underutilised resource in the context of UK marine monitoring. Data are often collected in non-standard formats and held in data silos with limited or restricted access. To better understand the Citizen Science (CS) landscape and ensure greater visibility of not only the data but the issues around full interoperability, DASSH will produce an online catalogue of CS schemes operational in UK waters. Additionally, we will progress initial discussions with the [South West Marine Ecosystems](#) team to capture and publish the contextual, narrative biodiversity information from their annual reporting scheme in a standardised and accessible manner, available alongside the quantified DASSH occurrence data.

Deliverable: Online CS data catalogue

Deliverable: Narrative, contextual biodiversity information linked to DASSH data published online.

Objective 8 - Inclusion of habitat data in the DASSH view and download service

The current DASSH online data view and download service only plots point-based species and habitats data. In order to ensure the broadest quantity of data can be accessed as easily as possible and to meet the recommendations of the [NatureScot review of marine biodiversity data](#) we will improve the current tool to allow the display and download of polygon-based habitat data using Open Geospatial Consortium (OGC) standards for maximum data interoperability.

Deliverable: DASSH online mapper to provide polygon-based view and download service.

3. How the Contract works

3.1 The Order Form is an offer by the Authority to purchase the Deliverables subject to and in accordance with the terms and conditions of the Contract.

3.2 The Supplier is deemed to accept the offer in the Order Form when the Authority receives a copy of the Order Form signed by the Supplier.

3.3 The Supplier warrants and represents that its Tender Submission and all statements made and documents submitted as part of the procurement of Deliverables are and remain true and accurate.

4. What needs to be delivered

4.1 All Deliverables

(a) The Supplier must provide Deliverables: (i) in accordance with the Specification and Tender Submission; (ii) to a professional standard; (iii) using all reasonable skill and care; (iv) using Good Industry Practice; (v) using its own policies, processes and internal quality control measures as long as they don't conflict with the Contract; (vi) in accordance with such policies and procedures of the Authority (as amended from time to time) that may be specified in the Contract (vii) on the dates agreed; and (viii) in compliance with all applicable Law.

(b) Without prejudice to the Specification the Supplier must provide Deliverables with a warranty of at least 90 days (or longer where the Supplier offers a longer warranty period to the Authority) from Delivery against all obvious damage or defects.

4.2 Goods clauses

- (a) All Goods Delivered must be capable of meeting the requirements set out in the Specification and be either (i) new and of recent origin, (ii) reused or (iii) recycled.
- (b) All manufacturer warranties covering the Goods will be assigned to the Authority on request and for free.
- (c) The Supplier transfers ownership of the Goods on completion of Delivery (including off-loading and stacking) or payment for those Goods, whichever is earlier.
- (d) Risk in the Goods transfers to the Authority on Delivery but remains with the Supplier if the Authority notices any damage or defect following Delivery and lets the Supplier know within three Working Days of Delivery.
- (e) The Supplier must have full and unrestricted ownership of the Goods at the time of transfer of ownership.
- (f) The Supplier must Deliver the Goods on the date and to the specified location during the Authority's working hours.
- (g) The Supplier, its subcontractor(s) and supply chain must minimise packaging used whilst providing sufficient packaging for the Goods to reach the point of Delivery safely and undamaged. The Supplier must take back any primary packaging where it is possible to do so. Packaging must be 100% re-usable, recyclable or compostable, use recycled content where reasonably practicable and support the Government's commitment to eliminate single use plastic.
- (h) All Deliveries must have a delivery note attached that specifies the order number, type, quantity of Goods, contact and details of traceability through the supply chain.
- (i) The Supplier must provide all tools, information and instructions the Authority needs to make use of the Goods. This will include, where appropriate, any operation manuals which, unless specified otherwise, will be written in English and provided in electronic form.
- (j) The Supplier will notify the Authority of any request that Goods are returned to it or the manufacturer after the discovery of safety issues or defects that might endanger health or hinder performance and shall indemnify the Authority against the costs arising as a result of any such request. Goods must be disposed of in line with the waste management hierarchy as set out in Law. The Supplier will provide evidence and transparency of the items and routes used for disposal to the Authority on request.

(k) The Authority can cancel any order or part order of Goods which have not been Delivered. If the Authority gives less than 14 calendar days' notice then it will pay the Supplier's reasonable and proven costs already incurred on the cancelled order as long as the Supplier takes all reasonable steps to minimise these costs.

(l) The Supplier must at its own cost repair, replace, refund or substitute (at the Authority's option and request) any Goods that the Authority rejects because they don't conform with clause 4.2. If the Supplier doesn't do this it will pay the Authority's costs including repair or re-supply by a third party.

(m) The Authority will not be liable for any actions, claims, costs and expenses incurred by the Supplier or any third party during Delivery of the Goods unless and to the extent that it is caused by negligence or other wrongful act of the Authority or its servant or agent. If the Authority suffers or incurs any damage or injury (whether fatal or otherwise) occurring in the course of Delivery or installation then the Supplier shall indemnify from all losses, damages, costs or expenses (including professional fees and fines) which arise as a result of or in connection with such damage or injury where it is attributable to any act or omission of the Supplier or, where related to the Contract, any of its subcontractors or suppliers.

4.3 Services clauses

(a) Late delivery of the Services will be a breach of the Contract.

(b) The Supplier must co-operate with the Authority and third party suppliers on all aspects connected with the delivery of the Services and ensure that Supplier Staff comply with any reasonable instructions including any security requirements.

(c) The Authority must provide the Supplier Staff with reasonable access to its premises at such reasonable times agreed with the Authority for the purpose of supplying the Services.

(d) The Supplier must at its own risk and expense provide all equipment required to deliver the Services. (f) The Supplier must take all reasonable care to ensure performance does not disrupt the Authority's operations, employees or other contractors.

(g) On completion of the Services, the Supplier is responsible for leaving the Authority's premises in a clean, safe and tidy condition and making good any damage that it has caused to the Authority's premises or property, other than fair

wear and tear and any pre-existing cleanliness, safety or tidiness issue at the Authority's premises that existed before the commencement of the Term.

(h) The Supplier must ensure all Services, and anything used to deliver the Services, are of the required quality and free from damage or defects.

(i) The Authority is entitled to withhold payment for partially or undelivered Services or for Services which are not delivered in accordance with the Contract but doing so does not stop it from using its other rights under the Contract.

5. Pricing and payments

5.5 If there is a dispute between the Parties as to the amount invoiced, the Authority shall pay the undisputed amount. The Supplier shall not suspend the provision of the Deliverables unless the Supplier is entitled to terminate the Contract for a failure to pay undisputed sums in accordance with clause 11.6. Any disputed amounts shall be resolved through the dispute resolution procedure detailed in clause 35.

5.6 If any sum of money is recoverable from or payable by the Supplier under the Contract (including any sum which the Supplier is liable to pay to the Authority in respect of any breach of the Contract), that sum may be deducted unilaterally by the Authority from any sum then due, or which may become due, to the Supplier under the Contract or under any other agreement or contract with the Authority. The Supplier

shall not be entitled to assert any credit, set-off or counterclaim against the Authority in order to justify withholding payment of any such amount in whole or in part.

6. The Authority's obligations to the Supplier

6.1 If the Supplier fails to comply with the Contract as a result of an Authority Cause:

- (b) as to the sustainability or health and safety conduct of the Supplier, subcontractors and supply chain in the performance of the Contract;

then the Authority may:

(i) require that the Supplier provide to the Authority (for its approval) a plan setting out how the Supplier will ensure continued performance of the Contract (in the case of (a)) or improve its sustainability conduct or performance (in the case of (b)) and the Supplier will make changes to such plan as reasonably required by the Authority and once it is agreed then the Supplier shall act in accordance with such plan and report to the Authority on demand

(ii) if the Supplier fails to provide a plan or fails to agree any changes which are requested by the Authority or materially fails to implement or provide updates on progress with the plan, terminate the Contract immediately for material breach (or on such date as the Authority notifies).
