If the Supplier does not become compliant within the required time then the Buyer shall have the right to obtain an independent audit against these standards in whole or in part.
- If, as a result of any such independent audit as described in Paragraph the Supplier is found to be non-compliant with the principles and practices of ISO/IEC 27001 and/or, where relevant, the Security Policy then the Supplier shall, at its own expense, undertake those actions required in order to achieve the necessary compliance and shall reimburse in full the costs incurred by the Buyer in obtaining such audit.

50

- reasonably, may specify by written notice to the Supplier;
- (d) prevent a further Breach of Security or any potential or attempted Breach of Security in the future exploiting the same root cause failure; and
- (e) supply any requested data to the Buyer (or the Computer Emergency Response Team for UK Government ("GovCertUK")) on the Buyer's request within two (2) Working Days and without charge (where such requests are reasonably related to a possible incident or compromise); and

- 7.3 In the event that any action is taken in response to a Breach of Security or potential or attempted Breach of Security that demonstrates non-compliance of the ISMS with the Security Policy (where relevant) or the requirements of this Schedule, then any required change to the ISMS shall be at no cost to the Buyer.

 - 8.2.2 Microsoft's 'Security Bulletin Severity Rating System' ratings 'Critical', 'Important', and the two remaining levels ('Moderate' and 'Low') respectively.
- The Supplier shall procure the application of security patches to vulnerabilities within a maximum period from the public release of such patches with those vulnerabilities categorised as 'Critical' within 14 days of release, 'Important' within 30 days of release and all 'Other' within 60 Working Days of release, except where:
 - the Supplier can demonstrate that a vulnerability is not exploitable within the context of any Service (e.g. because it resides in a

RM6126 - Research & Insights DPS Project Version: v1.0

- software component which is not running in the service) provided vulnerabilities which the Supplier asserts cannot be exploited within the context of a Service must be remedied by the Supplier within the above timescales if the vulnerability becomes exploitable within the context of the Service;
- the application of a 'Critical' or 'Important' security patch adversely affects the Supplier's ability to deliver the Services in which case the Supplier shall be granted an extension to such timescales of 5 days, provided the Supplier had followed and continues to follow the security patch test plan agreed with the Buyer; or
- 8.3.3 the Buyer agrees a different maximum period after a case-by-case consultation with the Supplier under the processes defined in the ISMS.
- The Specification and Mobilisation Plan (if applicable) shall include provisions for major version upgrades of all COTS Software to be upgraded within 6 Months of the release of the latest version, such that it is no more than one major version level below the latest release (normally codified as running software no older than the 'n-1 version') throughout the Term unless:
 - 8.4.1 where upgrading such COTS Software reduces the level of mitigations for known threats, vulnerabilities or exploitation techniques, provided always that such upgrade is made within 12 Months of release of the latest version; or

Part B - Annex 1:

Baseline security requirements

0. Handling Classified information

The Supplier shall not handle Buyer information classified SECRET or TOP SECRET except if there is a specific requirement and in this case prior to receipt of such information the Supplier shall seek additional specific guidance from the Buyer.

1. End user devices

- 1.1 When Government Data resides on a mobile, removable or physically uncontrolled device it must be stored encrypted using a product or system component which has been formally assured through a recognised certification process of the National Cyber Security Centre ("NCSC") to at least Foundation Grade, for example, under the NCSC Commercial Product Assurance scheme ("CPA").
- 1.2 Devices used to access or manage Government Data and services must be under the management authority of Buyer or Supplier and have a minimum set of security policy configuration enforced. These devices must be placed into a 'known good' state prior to being provisioned into the management authority of the Buyer. Unless otherwise agreed with the Buyer in writing, all Supplier devices are expected to meet the set of security requirements set out in the End User Devices Security Guidance (https://www.ncsc.gov.uk/guidance/end-user-device-security). Where the guidance highlights shortcomings in a particular platform the Supplier may wish to use, then these should be discussed with the Buyer and a joint decision shall be taken on whether the residual risks are acceptable. Where the Supplier wishes to deviate from the NCSC guidance, then this should be agreed in writing on a case by case basis with the Buyer.

2. Data Processing, Storage, Management and Destruction

- 2.1 The Supplier and Buyer recognise the need for the Buyer's information to be safeguarded under the UK Data Protection regime or a similar regime. To that end, the Supplier must be able to state to the Buyer the physical locations in which data may be stored, processed and managed from, and what legal and regulatory frameworks Government Data will be subject to at all times.
- 2.2 The Supplier shall agree any change in location of data storage, processing and administration with the Buyer in accordance with Clause 14 (Data protection).

2.3 The Supplier shall:

- 2.3.1 provide the Buyer with all Government Data on demand in an agreed open format;
- 2.3.2 have documented processes to guarantee availability of Government Data in the event of the Supplier ceasing to trade;
- 2.3.3 securely destroy all media that has held Government Data at the end of life of that media in line with Good Industry Practice; and
- 2.3.4 securely erase any or all Government Data held by the Supplier when requested to do so by the Buyer.

3. Ensuring secure communications

- 3.1 The Buyer requires that any Government Data transmitted over any public network (including the Internet, mobile networks or un-protected enterprise network) or to a mobile device must be encrypted using a product or system component which has been formally assured through a certification process recognised by NCSC, to at least Foundation Grade, for example, under CPA.
- 3.2 The Buyer requires that the configuration and use of all networking equipment to provide the Services, including those that are located in secure physical locations, are at least compliant with Good Industry Practice.

4. Security by design

- 4.1 The Supplier shall apply the 'principle of least privilege' (the practice of limiting systems, processes and user access to the minimum possible level) to the design and configuration of IT systems which will process or store Government Data.
- 4.2 When designing and configuring the ICT Environment (to the extent that the ICT Environment is within the control of the Supplier) the Supplier shall follow Good Industry Practice and seek guidance from recognised security professionals with the appropriate skills and/or NCSC certification (https://www.ncsc.gov.uk/section/products-services/ncsc-certification) for all bespoke or complex components of the ICT Environment (to the extent that the ICT Environment is within the control of the Supplier).

5. Security of Supplier Staff

- 5.1 Supplier Staff shall be subject to pre-employment checks that include, as a minimum: identity, unspent criminal convictions and right to work.
- The Supplier shall agree on a case by case basis Supplier Staff roles which require specific government clearances (such as 'SC') including system administrators with privileged access to IT systems which store or process Government Data.

RM6126 - Research & Insights DPS

Order Ref:

Crown Copyright 2021

- The Supplier shall prevent Supplier Staff who are unable to obtain the required security clearances from accessing systems which store, process, or are used to manage Government Data except where agreed with the Buyer in writing.
- All Supplier Staff that have the ability to access Government Data or systems holding Government Data shall undergo regular training on secure information management principles. Unless otherwise agreed with the Buyer in writing, this training must be undertaken annually.
- 5.5 Where the Supplier or Subcontractors grants increased ICT privileges or access rights to Supplier Staff, those Supplier Staff shall be granted only those permissions necessary for them to carry out their duties. When staff no longer need elevated privileges or leave the organisation, their access rights shall be revoked within one (1) Working Day.

6. Restricting and monitoring access

6.1 The Supplier shall operate an access control regime to ensure all users and administrators of the ICT Environment (to the extent that the ICT Environment is within the control of the Supplier) are uniquely identified and authenticated when accessing or administering the Services. Applying the 'principle of least privilege', users and administrators shall be allowed access only to those parts of the ICT Environment that they require. The Supplier shall retain an audit record of accesses.

7. Audit

- 7.1 The Supplier shall collect audit records which relate to security events in the systems or that would support the analysis of potential and actual compromises. In order to facilitate effective monitoring and forensic readiness such Supplier audit records should (as a minimum) include:
 - 7.1.1 Logs to facilitate the identification of the specific asset which makes every outbound request external to the ICT Environment (to the extent that the ICT Environment is within the control of the Supplier). To the extent the design of the Deliverables allows such logs shall include those from DHCP servers, HTTP/HTTPS proxy servers, firewalls and routers.
 - 7.1.2 Security events generated in the ICT Environment (to the extent that the ICT Environment is within the control of the Supplier) and shall include: privileged account log-on and log-off events, the start and termination of remote access sessions, security alerts from desktops and server operating systems and security alerts from third party security software.
- 7.2 The Supplier and the Buyer shall work together to establish any additional audit and monitoring requirements for the ICT Environment.
- 7.3 The Supplier shall retain audit records collected in compliance with this Paragraph 7 for a period of at least 6 Months.

Part B - Annex 2 - Security Management Plan

Security Management Plan Education Outcomes Panel Study-C (EOPS-C)

Order Ref:

Crown Copyright 2021

Overview

This document outlines the Security Management Plan for the Education Outcomes Panel Study-C (EOPS-C) study, funded by the Department for Education (DfE). DfE are acting as Data Controllers.

Anna Freud and the key subcontractors (Ipsos and UCL) will follow their information security policies throughout the delivery of the study to ensure that they act in accordance with the GDPR as data processors. Anna Freud will manage and review that the subcontractors are abiding by these standards.

In particular:

- They will not process any personal data without documented instructions from DfE
- They will review the security obligations expected by DfE and will implement all measures possible
- They will ensure that all staff, subcontractors and freelancers working on the project have signed confidentiality agreements
- They will notify DfE of any subcontractors they intend to use before using them. They will only use subcontractors who can show they follow appropriate security requirements as required
- They will fully co-operate with DfE to facilitate any audits or inspections as appropriate
- They will assist DfE fully with regard to data subjects' right to access their data
- They will notify DfE of any personal data breaches without undue delay.

Anna Freud and the key subcontractors will hold all data on secure servers in line with their Information Security policy. Personal data are held in secure folders with access limited to those named in a project specific Data Security Plan. Access to National Pupil Database (NPD) data supplied by DfE will be further restricted to those named in agreement with DfE.

When data is transferred from the data processors to DfE it will be done so via a secure data sharing platform such as Galaxkey. It will be held in a secure area as such as the Pupil Data Repository (PDR).

Ipsos will collect names, telephone numbers and email addresses etc. in the data collection instrument itself. Therefore, survey responses will sit alongside contact information in the raw data. Ipsos have secure systems and procedures that reflect this fact. For analysis, the data will be pseudonymised - personal contact information will be stored separately to the survey responses. Participants'

58

Order Ref:

personal details are used only for contacting them and linking the data, and they will not be included in the dataset that is used for the aggregated statistical analysis.

Any data that is linked to administrative data will be pseudonymised and deposited in the ONS Secure Research Service for analysis.

Organisational Roles

Anna Freud

Anna Freud play the key role in the analysis and reporting on EOPS-C. Anna Freud will not receive the personal identifiers that are needed for contacting participants, rather they will analyse pseudonymised study datasets for analysis and reporting purposes. NPD variables of interest for analysis (e.g. ethnicity, FSM eligibility) will be appended to the dataset that is transferred from Ipsos to Anna Freud for reporting purposes.

All Anna Freud staff working on EOPS-C either have dual employment contracts with both UCL and Anna Freud or have honorary contracts with UCL and full access to UCL systems. As such, Anna Freud staff will access EOPS-C study datasets via UCL's Data Safe Haven. Drafting and refining of outputs will take place on Anna Freud systems, but this will only include aggregated summary data.

The Head of IT, Head of IG and the project leads will be responsible for ensuring that the requirements detailed within this plan are met.

Ipsos

Ipsos have a key role in sampling and data collection. For sampling, Ipsos will process personal data from the National Pupil Database (NPD) in order to contact potential participants.

- A bespoke anonymised NPD extract will be sent via a secure electronic portal from DfE directly to Ipsos, to select the sample members.
- Ipsos will send back to DfE the Pupil Reference Numbers (PRN) for the selected sample members.
- DfE transfer to Ipsos via a secure electronic portal the contact information for selected sample members, as well a small number of variables needed for fieldwork monitoring.
- Ipsos will collect primary study data from participants (children, parents/carers, teachers) via different modes of survey.

Order Ref:

Crown Copyright 2021

- Ipsos will carry out data management and conduct some limited analysis (e.g. of response and non-response).
- At the end of each wave of data collection Ipsos will securely transfer the pseudonymised dataset to UCL into UCL's Data Safe Haven, ready for analysis by Anna Freud and UCL staff.
- Personal identifiable information will be transferred from Ipsos to DfE for the purposes of linking the study survey data to DfE administrative data, such as the NPD. This data linking would be conducted by DfE staff in a secure digital environment. The linked data would then be anonymised, used for DfE analysis, and potentially deposited in a Trusted Research Environment for further external analysis.

Note, updated NPD information about the selected sample may be transferred to Ipsos in later years of the study. For instance, this will include updated contact information to assist with tracing study members who move, and updates to FSM eligibility for analysis purposes.

Ipsos will also use approved 3rd party suppliers (e.g. sending of text messages and for the Iris sub study) who will process limited personal data.

UCL

Together with Anna Freud, UCL staff will analyse pseudonymised study data for analysis and reporting purposes. They will not receive the direct identifiers that are needed for contacting participants. NPD variables of interest for analysis (e.g. ethnicity, FSM eligibility) will be appended to the dataset that is transferred from Ipsos to UCL for reporting purposes.

Organisational Data Security Controls

Anna Freud

Anna Freud has several organisational and technical controls in place to ensure data is managed in accordance with our data protection obligations

Organisational controls include ensuring we have adequate staff training and knowledge and clear policies and procedures.

Technical Controls include the below:

- Role Based Access Control Policy
- Password policy that ensures best industry practice is followed

RM6126 - Research & Insights DPS

Order Ref:

- Multi Factor Authentication is implemented for all access
- Cryptography appropriate levels of encryption for data in transit or at rest
- Strict Physical and Environment security procedures in place
- Annual Penetration tests are completed
- Cloud security principles in line with NCSC principles
- Security Controls include but are not limited to:
- Boundary protection
- Intrusion detection
- Patching within 2 weeks of patches being released

The only personal data that will be collected, processed and stored on Anna Freud systems relate to the participation and advisory elements of the project. This activity will include seeking the views of representative of different groups (children and young people, parents/carers and teachers) on the design and delivery of the researchers. These representatives will be recruited through existing networks (e.g. Anna Freud Young Champions) and through callouts via social media and other participation networks. These consultations will help inform the priorities and direction of EOPS-C. Anna Freud will recruit to these reference groups through their own recruitment channels; they will not be using the NPD data share to reach participants. They will receive no DfE data for this activity and the only data transferred back to DfE will be in the form of aggregated summary data written up into a report. Anna Freud will collect personal information from advisory group members (names, contact details, views and suggestions about the research), which will be collected and stored on Anna Freud approved systems. These have been assessed and approved for use for this project. Only approved members of the research team will have access. No identifiable data will be shared.

Ipsos

Ipsos has highly robust data protection and security processes in place, for data collection, storage and transfer (outlined in detail in the Data Protection and DPIA forms) such as:

- A dedicated team led by their Data Protection Officer
- Policies to ensure a robust environment for storing, accessing and processing data
- A Business Continuity Planning Policy containing an IT disaster recovery plan and data backups.

Ipsos' online platform is hosted by Rackspace, a managed hosting facility.

Rackspace holds ISO 27001 certification and undergoes an annual ISAE 3402 Type II

(SOC1, SOC2, and SOC3) audit. The servers and network infrastructure are physically located in the UK, with critical hardware and software functionality monitored around the clock. Rackspace guarantees hardware recovery within four hours in case of failures. The platform benefits from Rackspace's Fanatical Support Option, which includes Zero Downtime Network and robust system security. Rackspace's Proactive Network Management methodology continuously monitors and optimizes the network topology and configuration in real-time, based on route efficiency and end-user performance, ensuring the fastest and most reliable network connections. This approach maintains low overall network utilisation and provides resilience against major Internet routing issues. Security is strictly enforced with monitored access to all data centres using key card protocols, biometric scanning, and continuous surveillance. Access is restricted to authorised data centre personnel only, who undergo thorough background checks before employment. Data is backed up daily, ensuring full recoverability in the unlikely event of a system breakdown, thereby preventing any service loss or impact on critical reporting timelines. Their Dimensions platform (the software used to script and run surveys) has redundancy across two separate data centres.

All interviewer tablets are equipped with whole disk encryption and require operating system authentication via user IDs and passwords. In the event of theft or loss, data on the device is safeguarded against unauthorized access through encryption of all storage space. This ensures the protection of data collected in the Computer Assisted Personal Interviewing module and via the Electronic Contact Sheet.

Interviewers are trained in data security and instructed to store all fieldwork materials securely. This includes address listings (used for contact and tracing, containing case ID and address details but not participant names), maps (to locate addresses within a sample point, marked with dots and case ID numbers), and advance mailings.

Ipsos employs HTTPS connections for secure, fully encrypted online data collection via Dimensions, hosted at Rackspace. Access to questionnaires and data in Dimensions is password protected and limited to a small number of online operations staff and IT systems administrators, with strict control measures in place. The site is configured to prevent robots from indexing, and monitoring intrusion detection is used for servers and services.

UCL

UCL has a stringent data protection policy that outlines the safeguarding of personal data processed by its staff and ensures compliance with data protection legislation. This policy describes how UCL adheres to the data protection principles

and rights of data subjects in accordance with the General Data Protection Regulation (GDPR) (EU) 2016/679. All research team members who process personal data are required to comply with this policy. UCL's IT systems are protected by high standards of data security, and UCL's Data Safe Haven is certified to the ISO27001 information security standard and conforms to NHS Digital's Information Governance Toolkit. The data is stored, processed, and managed within the security of the system, using a walled garden approach. Access to the UCL Data Safe Haven is provided through a DSH secure account, which provides access only to the data the researcher has been authorised to access. The data cannot be extracted from the DSH account, and any outputs are checked before being exported out of the secure environment.

PROJECT MANAGEMENT

The Supplier and the Buyer shall each appoint a Project Manager for the purposes of this Contract through whom the provision of the Services and the Deliverables shall be managed day-to-day.

The Parties shall ensure that appropriate resource is made available on a regular basis such that the aims, objectives and specific provisions of this Contract can be fully realised.

Without prejudice to paragraph 4 below, the Parties agree to operate the boards specified as set out in the Annex to this Schedule.

Role of the Supplier Contract Manager

The Supplier's Contract Manager shall be:

the primary point of contact to receive communication from the Buyer and will also be the person primarily responsible for providing information to the Buyer;

able to delegate his position to another person at the Supplier but must inform the Buyer before proceeding with the delegation and it will be the delegated person's responsibility to fulfil the Contract Manager's responsibilities and obligations;

able to cancel any delegation and recommence the position himself; and

replaced only after the Buyer has received notification of the proposed change.

The Buyer may provide revised instructions to the Supplier's Contract Manager in regards to the Contract and it will be the Supplier's Contract Manager's responsibility to ensure the information is provided to the Supplier and the actions implemented.

ROLE OF THE OPERATIONAL BOARD

The Operational Board shall be established by the Buyer for the purposes of this Contract on which the Supplier and the Buyer shall be represented.

The Operational Board members, frequency and location of board meetings and planned start date by which the board shall be established are set out in the Order Form.

In the event that either Party wishes to replace any of its appointed board members, that Party shall notify the other in writing for approval by the other Party (such approval not to be unreasonably withheld or delayed). Each Buyer board member shall have at all times a counterpart Supplier board member of equivalent seniority and expertise.

Each Party shall ensure that its board members shall make all reasonable efforts to attend board meetings at which that board member's attendance is required. If any board member is not able to attend a board meeting, that person shall use all reasonable endeavours to ensure that a delegate attends the Operational Board meeting in his/her place (wherever possible) and that the delegate is properly briefed and prepared and that he/she is debriefed by such delegate after the board meeting.

The purpose of the Operational Board meetings will be to review the Supplier's performance under this Contract. The agenda for each meeting shall be set by the Buyer and communicated to the Supplier in advance of that meeting.

Contract Risk Management

Both Parties shall pro-actively manage risks attributed to them under the terms of this Order Contract.

The Supplier shall develop, operate, maintain and amend, as agreed with the Buyer, processes for:

the identification and management of risks;

Core Terms - DPS

1. Definitions used in the contract

Interpret this Contract using Joint Schedule 1 (Definitions).

How the contract works

- 2.1 The Supplier is eligible for the award of Order Contracts during the DPS Contract Period.
- 2.2 CCS does not guarantee the Supplier any exclusivity, quantity or value of work under the DPS Contract.
- 2.3 CCS has paid one penny to the Supplier legally to form the DPS Contract. The Supplier acknowledges this payment.
- 2.4 If the Buyer decides to buy Deliverables under the DPS Contract it must use DPS Schedule 7 (Order Procedure) and must state its requirements using DPS Schedule 6 (Order Form Template and Order Schedules). If allowed by the Regulations, the Buyer can:
 - (a) make changes to DPS Schedule 6 (Order Form Template and Order Schedules);
 - (b) create new Order Schedules;
 - (c) exclude optional template Order Schedules; and/or
 - (d) use Special Terms in the Order Form to add or change terms.
- 2.5 Each Order Contract:
 - (a) is a separate Contract from the DPS Contract;
 - (b) is between a Supplier and a Buyer;
 - (c) includes Core Terms, Schedules and any other changes or items in the completed Order Form; and (d) survives the termination of the DPS Contract.
 - 2.6 Where the Supplier is approached by any Other Contracting Authority requesting Deliverables or substantially similar goods or services, the Supplier must tell them about this DPS Contract before accepting their order.

RM6126 - Research & Insights DPS

- 2.7 The Supplier acknowledges it has all the information required to perform its obligations under each Contract before entering into a Contract. When information is provided by a Relevant Authority no warranty of its accuracy is given to the Supplier.
- 2.8 The Supplier will not be excused from any obligation, or be entitled to additional Costs or Charges because it failed to either:
 - (a) verify the accuracy of the Due Diligence Information; or (b) properly perform its own adequate checks.
- 2.9 CCS and the Buyer will not be liable for errors, omissions or misrepresentation of any information.
- 2.10 The Supplier warrants and represents that all statements made and documents submitted as part of the procurement of Deliverables are and remain true and accurate.
- 2.11 An Order Contract can only be created using the electronic procedures described in the FTS Notice as required by the Regulations.
- 2.12 A Supplier can only receive Orders under the DPS Contract while it meets the basic access requirements for the DPS stated in the FTS Notice. CCS can audit whether a Supplier meets the basic access requirements at any point during the DPS Contract Period.

What needs to be delivered

All deliverables

- 3.1.1 The Supplier must provide Deliverables:
 - (a) that comply with the Specification, the DPS Application and, in relation to an Order Contract, the Order Tender (if there is one);
 - (b) to a professional standard;
 - (c) using reasonable skill and care; (d) using Good Industry Practice;

RM6126 - Research & Insights DPS

- (e) using its own policies, processes and internal quality control measures as long as they do not conflict with the Contract; (f) on the dates agreed; and (g) that comply with Law.
- 3.1.2 The Supplier must provide Deliverables with a warranty of at least 90 days from Delivery against all obvious defects.

Goods clauses

- 3.2.1 All Goods delivered must be new, or as new if recycled, unused and of recent origin.
- 3.2.2 All manufacturer warranties covering the Goods must be assignable to the Buyer on request and for free.
- 3.2.3 The Supplier transfers ownership of the Goods on Delivery or payment for those Goods, whichever is earlier.
- 3.2.4 Risk in the Goods transfers to the Buyer on Delivery of the Goods, but remains with the Supplier if the Buyer notices damage following Delivery and lets the Supplier know within 3 Working Days of Delivery.
- 3.2.5 The Supplier warrants that it has full and unrestricted ownership of the Goods at the time of transfer of ownership.
- 3.2.6 The Supplier must deliver the Goods on the date and to the specified location during the Buyer's working hours.
- 3.2.7 The Supplier must provide sufficient packaging for the Goods to reach the point of Delivery safely and undamaged.
- 3.2.8 All deliveries must have a delivery note attached that specifies the order number, type and quantity of Goods.

- 3.2.9 The Supplier must provide all tools, information and instructions the Buyer needs to make use of the Goods.
- 3.2.10 The Supplier must indemnify the Buyer against the costs of any Recall of the Goods and give notice of actual or anticipated action about the Recall of the Goods.
- 3.2.11 The Buyer can cancel any order or part order of Goods which has not been Delivered. If the Buyer gives less than 14 days notice then it will pay the Supplier's reasonable and proven costs already incurred on the cancelled order as long as the Supplier takes all reasonable steps to minimise these costs.
- 3.2.12 The Supplier must at its own cost repair, replace, refund or substitute (at the Buyer's option and request) any Goods that the Buyer rejects because they do not conform with Clause 3. If the Supplier does not do this it will pay the Buyer's costs including repair or re-supply by a third party.

Services clauses

- 3.3.1 Late Delivery of the Services will be a Default of an Order Contract.
- 3.3.2 The Supplier must co-operate with the Buyer and third party suppliers on all aspects connected with the Delivery of the Services and ensure that Supplier Staff comply with any reasonable instructions.
- 3.3.3 The Supplier must at its own risk and expense provide all Supplier Equipment required to Deliver the Services.
- 3.3.4 The Supplier must allocate sufficient resources and appropriate expertise to each Contract.
- 3.3.5 The Supplier must take all reasonable care to ensure performance does not disrupt the Buyer's operations, employees or other contractors.

RM6126 - Research & Insights DPS

- 3.3.6 The Supplier must ensure all Services, and anything used to Deliver the Services, are of good quality and free from defects.
- 3.3.7 The Buyer is entitled to withhold payment for partially or undelivered Services, but doing so does not stop it from using its other rights under the Contract.

Pricing and payments

- 4.1 In exchange for the Deliverables, the Supplier must invoice the Buyer for the Charges in the Order Form.
- 4.2 CCS must invoice the Supplier for the Management Levy and the Supplier must pay it using the process in DPS Schedule 5 (Management Levy and Information).
- 4.3 All Charges and the Management Levy:
 - (a) exclude VAT, which is payable on provision of a valid VAT invoice; and (b) include all costs connected with the Supply of Deliverables.
- 4.4 The Buyer must pay the Supplier the Charges within 30 days of receipt by the Buyer of a valid, undisputed invoice, in cleared funds using the payment method and details stated in the Order Form.
- 4.5 A Supplier invoice is only valid if it:
 - (a) includes all appropriate references including the Contract reference number and other details reasonably requested by the Buyer;
 - (b) includes a detailed breakdown of Delivered Deliverables and Milestone(s) (if any); and
 - (c) does not include any Management Levy (the Supplier must not charge the Buyer in any way for the Management Levy).
 - 4.6 The Buyer must accept and process for payment an undisputed Electronic Invoice received from the Supplier.

RM6126 - Research & Insights DPS

- 4.7 The Buyer may retain or set-off payment of any amount owed to it by the Supplier if notice and reasons are provided.
- 4.8 The Supplier must ensure that all Subcontractors are paid, in full, within 30 days of receipt of a valid, undisputed invoice. If this does not happen, CCS or the Buyer can publish the details of the late payment or non-payment.
- 4.9 If CCS or the Buyer can get more favourable commercial terms for the supply at cost of any materials, goods or services used by the Supplier to provide the Deliverables, then CCS or the Buyer may require the Supplier to replace its existing commercial terms with the more favourable terms offered for the relevant items.
- 4.10 If CCS or the Buyer uses Clause 4.9 then the DPS Pricing (and where applicable, the Charges) must be reduced by an agreed amount by using the Variation Procedure.
- 4.11 The Supplier has no right of set-off, counterclaim, discount or abatement unless they are ordered to do so by a court.

The buyer's obligations to the supplier

 - (a) tell the Relevant Authority and give reasons;
 - (b) propose corrective action; and
 - (c) provide a deadline for completing the corrective action.
- 6.7 The Supplier must provide CCS with a Self Audit Certificate supported by an audit report at the end of each Contract Year. The report must contain:
 - (a) the methodology of the review;

- 7.4 The Supplier must provide a list of Supplier Staff needing to access the Buyer's Premises and say why access is required.
- 7.5 The Supplier indemnifies CCS and the Buyer against all claims brought by any person employed by the Supplier caused by an act or omission of the Supplier or any Supplier Staff.

- 8.6 If the Supplier becomes aware of a representation or warranty that becomes untrue or misleading, it must immediately notify CCS and every Buyer.
- 8.7 All third party warranties and indemnities covering the Deliverables must be assigned for the Buyer's benefit by the Supplier.

Intellectual Property Rights (IPRs)

- 9.1 Each Party keeps ownership of its own Existing IPRs. The Supplier gives the Buyer a non-exclusive, perpetual, royalty-free, irrevocable, transferable worldwide licence to use, change and sub-license the Supplier's Existing IPR to enable it to both:
 - (a) receive and use the Deliverables; and
 - (b) make use of the deliverables provided by a Replacement Supplier.

- 9.2 Any New IPR created under a Contract is owned by the Buyer. The Buyer gives the Supplier a licence to use any Existing IPRs and New IPRs for the purpose of fulfilling its obligations during the Contract Period.
- 9.3 Where a Party acquires ownership of IPRs incorrectly under this Contract it must do everything reasonably necessary to complete a transfer assigning them in writing to the other Party on request and at its own cost.
- 9.4 Neither Party has the right to use the other Party's IPRs, including any use of the other Party's names, logos or trademarks, except as provided in Clause 9 or otherwise agreed in writing.
- 9.5 If there is an IPR Claim, the Supplier indemnifies CCS and each Buyer against all losses, damages, costs or expenses (including professional fees and fines) incurred as a result.
- 9.6 If an IPR Claim is made or anticipated the Supplier must at its own expense and the Buyer's sole option, either:
 - (a) obtain for CCS and the Buyer the rights in Clause 9.1 and 9.2 without infringing any third party IPR; or
 - (b) replace or modify the relevant item with substitutes that do not infringe IPR without adversely affecting the functionality or performance of the Deliverables.
- 9.7 In spite of any other provisions of a Contract and for the avoidance of doubt, award of a Contract by the Buyer and placement of any contract task under it does not constitute an authorisation by the Crown under Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949. The Supplier acknowledges that any authorisation by the Buyer under its statutory powers must be expressly provided in writing, with reference to the acts authorised and the specific IPR involved.
