- 3.1.3 The Buyer shall not be entitled to request a Benchmark Review during the first six (6) Month period from the Contract Commencement Date or at intervals of less than twelve (12) Months after any previous Benchmark Review.

If amendments are suggested then the benchmarker must produce an amended draft plan and this Paragraph 3.2.3 shall apply to any amended draft plan.
- 3.2.4 Once both Parties have approved the draft plan then they will notify the benchmarker. No Party may unreasonably withhold or delay its Approval of the draft plan.

  - the contractual terms and business environment under which the Comparable Rates are being provided (including the scale and geographical spread of the customers);
  - (b) exchange rates;

#### 3.3 Benchmarking Report

- 3.3.1 For the purposes of this Schedule "**Benchmarking Report**" shall mean the report produced by the benchmarker following the Benchmark Review and as further described in this Schedule;
- 3.3.2 The benchmarker shall prepare a Benchmarking Report and deliver it to the Buyer, at the time specified in the plan Approved pursuant to Paragraph 3.2.3, setting out its findings. Those findings shall be required to:

## Call-Off Schedule 20 (Call-Off Specification)

This Schedule sets out the characteristics of the Deliverables that the Supplier will be required to make to the Buyers under this Call-Off Contract

#### DGFS LEASE CAR CONTRACT 2020 - BACKGROUND & REQUIREMENT OVERVIEW

#### Background

The contracted services are to be provided to the Environment Agency (EA) as the Contracting Body, and as fleet lead in the form of DGFS to Defra for those organisations that have similar requirements. DGFS provides a wide range of fleet services to the Defra Group and will facilitate the implementation of specific, agreed fleet requirements for each body, using approved suppliers to ensure a fully integrated fleet solution. DGFS will act as a single point of contact to support all fleet supply and management requirements and will provide additional support as needed on fleet specific issues and policies.

This contract will allow full access to Defra Group partners and incorporate their lease vehicle needs throughout its active life. The service provided to each will be consistent and standardised, with the possible exception of Incident Management, which due to variable insurance provision may require bespoke solutions. Defra works with 33 agencies and public bodies (please refer to <a href="https://www.gov.uk/government/organisations#department-for-environment-food-rural-affairs">https://www.gov.uk/government/organisations#department-for-environment-food-rural-affairs</a> for current list of Defra Agencies and Bodies). The Environment Agency accounts for over 85% of this fleet.

#### **Required Deliverable: Optional Incident Management services**

There are currently a number of different lease car schemes operating across Defra Group that generally, have two differing components (essential job need with limited choice and legacy scheme with wider choice) along with a very small number of leased commercial vehicles. Proposed changes to the current scheme are likely to see a more unified and simple scheme, with a much reduced choice of vehicles. The majority of car leases operate on a 48-month term though this can be reviewed from time to time to ensure optimisation of the replacement term of vehicles.

#### Required Deliverable: Occasional reviews of suitability of 48-month term.

Vehicles are sourced through either the CCS vehicle purchase framework RM6060, or the CCS e-auction process and further competition discount leveraging.

All schemes require employees to meet specific criteria and require authorising managers to

review the eligibility criteria to determine if an employee's role meets the requirements for a

lease car to be provided for business use. The current scheme provides drivers with a choice of vehicle from a group of the best performing small, medium and large cars that are selected on the basis of their low environmental impact, operational effectiveness and costs. Employees currently pay a range of contributions, although the new scheme will have a more consistent personal contribution based upon private use (2/7th model).

DEFRA partners operate variations on these two schemes and eligibility but are largely eAuction sourced vehicles of varying sizes. Further details of the current Defra Group Fleet Profile are included in **Appendix 1**.

#### Requirement

The Scope of the Framework Contract and the required Deliverables for Lot 1 are as stated in the ITT "Specification" **(Schedule 1)**.

#### An overview of the key and additional deliverables includes:

- Provision of full 24/7 Driver Support Helpline
- Provision of a dedicated customer service team for Defra to support all customer service and account management requirements. This should specifically include the capability to assist drivers with selecting appropriate electric vehicles, understanding requirements for ordering electric cars, understanding the public charging network and associated need for charge point installation
- Provision of Driver Portal for automated vehicle selection and ordering
- Driver Portal must be capable of including driver contributions and net BiK tax costs
- Ability to provide automated payroll reporting for driver contributions
- Salary Sacrifice capability for ULEV's

#### **Fleet Services Vision**

In order to tackle the climate emergency, the EA (and on behalf of Defra) wants to be a class leading sustainable fleet that minimises its impact on the environment and people by reducing its emissions and leading by example. The EA will put the environment at the centre of all that it does and ensure its fleet is an aspiration to others, using commercial expertise to deliver an excellent service to partners and customers alike.

The EA will achieve this while putting people at the heart of its work, being pioneers of innovative and inventive fleet sustainability solutions, being visible and transparent, and working in partnership with others. The EA will maximise the effectiveness of its suppliers, positively influencing sustainable procurement across its supply chain in line with its values and will be agile in its service delivery ensuring it offers best value for money.

This vision will ensure the EA positively impacts people by being a safer, leaner, greener fleet management leader. The supplier of lease cars to DGFS will be expected to support this vision through their own actions and activities and should have challenging targets in their own corporate area.

## Required Deliverable: Supplier to share its targets with DGFS in support of this vision and regularly report on progress against these.

#### Fleet Sustainability Strategy

"eMission2030" is the EA's sustainability strategy and is built upon its corporate ambition to be a net carbon zero organisation by 2030 and to be a zero-carbon emitting organisation by 2050. It outlines the commitments the EA will achieve to address the urgency and scale of the climate, environmental and social issues currently faced in its operations and supply chain. The <u>UN Sustainable Development</u> <u>Goals</u> were used as a framework for its development but most importantly it has also been developed with direct input from staff, suppliers, partners and peers.

Successfully meeting the "eMission 2030" commitments will be reliant upon on an open, transparent and partnership approach with suppliers to work on the risks, opportunities and solutions together.

"eMission 2030" is broken down into 4 priority areas:

- Responding to the climate emergency
- Reducing and optimising use of resources
- Benefiting people and communities
- Deliver environmental net gain

Each priority area has three commitments beneath it stating what the EA is going to achieve. In addition, there is a suite of milestone targets that demonstrate how the EA will make progress against these commitments over the 10-year strategy period. It is important to note that these four priority areas are not independent of each other. They all interact and rely on each other to successfully achieve in full. For instance, the EA cannot achieve its net zero carbon ambition without reducing its resource consumption or delivering environmental net gain.

Under the climate emergency the EA is addressing not just its carbon impact, but also its need to be resilient to the already unavoidable impacts of climate change. The EA is committed to achieving net zero carbon in its operations and supply chains by 2030. It will reduce the amount of carbon it emits in line with the Paris Agreement to limit warming to 1.5°C. This means that by 2030, the EA will aim to balance the carbon emissions it produces with those it takes out of the atmosphere so that it is no longer contributing to climate change. The EA will achieve this through a two-stage approach, the first of which is a 45% reduction which this contract will need to help the EA achieve. The next stage is to balance the remaining emissions through investing in programmes and projects that absorb/sequester carbon from the atmosphere. This could be in its own work or via externally certified projects.

A carbon reduction target will be set for this contract, which will need to be met as part of the contract performance. This target will include the whole lifecycle of services provided, in addition to the supplier's direct operations, for example maintenance, repair and breakdown.

The supplier will need to demonstrate throughout the life of this contract that they are addressing and working on these issues and will be asked as part of the tender how they will contribute to meeting them. The successful contracted supplier will be

expected to put a plan in place a delivery plan within 3 months of the contract award date.

The supplier must commit to the following:

- Understand the EA eMission 2030 commitments, their importance and how they link to the delivery of the services under this contract
- Actively work with the EA to achieve the commitments
- Actively work with the EA to meet its process as it evolves and becomes established
- Be open and transparent with the EA about the social and environmental impacts of the work delivered under this contract, the risks and opportunities and work to address these
- Provide the EA with relevant data, evidence and examples to demonstrate the progress being made
- Carry out valid carbon reduction activity throughout the life of the contract. This might include areas such as energy use, travel and resource consumption
- Provide detail relating to the profile of the supplier's own fleet and their subcontractors including average CO2 and future electrification plans
- Share, communicate and promote best practice, lessons learned and new innovations in all areas that are relevant to this contract
- Consider and reduce the environmental impacts of the products and service over the whole lifecycle to take into account the impacts outside of their direct operation including; design, raw materials, manufacture, in use including servicing and maintenance and end of life disposal
- Communicate the EA's sustainability requirements throughout the supplier's supply chain, partners and wider organisation

The EA's ambition to deliver environmental net gain links to the <u>Government 25 Year</u> <u>Environment Plan</u> which sets out what the Government intends do to improve the environment, within a generation.

The EA will only purchase products and services that are the most environmentally responsible throughout their lifecycle. The Supplier may be asked to provide a supply chain map of the products and services offered as part of this contract. This includes any significant subcontractors.

The Supplier is responsible for ensuring that all parties working under this contract are aware of, compliant with and competent to be able to deliver the sustainability

requirements listed in this document. The Supplier must monitor and ensure ongoing competence and compliance with this throughout the life of the framework.

## Required Deliverable: Supplier to provide detailed plan on how it will meet these requirements.

#### Fleet Sustainability Targets

As fleet emissions make up a significant contribution (circa 9%) to the organisation's corporate emission profile, changes to the profile of the fleet can make a significant reduction in future emissions. In order to ensure the EA operates the lowest emitting, most sustainable fleet possible it will continue to transform its fleet by setting the following targets for the car fleet.

At least 50% of the lease car fleet will need to be ultra-low emission (50g/Km CO2) by April 2022 with all becoming ultra-low emitting by April 2023 (this will exceed the targets set by central government for 25% of cars to be ultra-low emitting by 2022). The ambition is for the lease car fleet to be zero carbon tail-pipe emitting by 2025.

## PLEASE REFER TO APPENDICES 2 AND 3 FOR SIGHT OF THE FLEET AND SUSTAINABILITY STRATEGIES.

Required Deliverable: Supplier to draw up a plan with DGFS to meet these targets (by year-end?)

#### **Customer Experience**

Underpinning the Requirement and Strategy support as highlighted above is the requirement for a partner who can also provide an industry leading customer service experience in all aspects of delivery of this contract. This includes taking the employee on the road to electric journey, supporting them all of the way from selection and ordering their electric car, arranging installation of home charging, use and access of the public charging network, support with service and maintenance arrangements and also emergency support in the event of a breakdown or simply running out of charge.

From a fleet management services perspective, the supplier also needs to be able to demonstrate that it is a pioneer in the provision of leadership for sustainability and mobility solutions and be able to provide all of the relevant Management Information and Business Intelligence to measure, monitor and report on progress.

## Required Deliverables: Documented procedures to provide the required support.

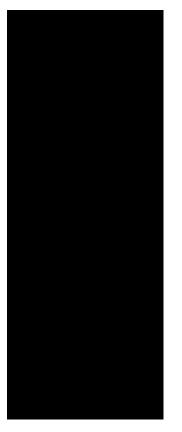

#### Provision of MI on progress.

#### Equality, Diversity and Inclusivity

The successful partner must be capable of adopting the EA's aims and ambitions for Equality, Diversity and Inclusivity (EDI) and evidence their approach in this area. The EA believes that diversity is as important to the workplace as it is in the natural environment. Diversity in this context means differences visible and non-visible, differences of background, socio-economic group, personality, caring responsibilities and work-style, as much as the more overt differences of the nine protected characteristics listed in the Equality Act 2010: age, disability, gender reassignment, race, religion or belief, sex (gender), sexual orientation, marriage & civil partnership, and pregnancy & maternity. To fulfil the EA vision of a better environment for present and future generations, it will develop an organisation where all employees are actively supported in giving their best contribution to the EA's aims and objectives. This means attracting, developing and retaining people from all parts of the community, valuing the differing skills and abilities of all its employees, and responding flexibly to the needs of individuals in achieving organisational goals. Please refer to **Appendix 4** for full details of this policy.

Required Deliverable: Supplier to provide details of how it will comply with the requirements in Joint Schedule 5 Clause 3 and details of its reporting against these.

  - 9.14.6 in the event of damage to any Equipment the Supplier must forward an invoice to the Buyer within twenty-one (21) days following the Return Date. In the case of dispute the Buyer will notify the Supplier of what is in dispute within twenty-one (21) days of receipt of invoice or pay the invoice in accordance with the payment terms. Any such dispute must be resolved in accordance with Clause 34 of the Core Terms.

#### **10 TERMINATION OF A LEASE**

- 10.1 Without affecting any other right or remedy available to them, the Supplier can terminate the hire of any piece of Equipment with immediate effect by giving written notice to the Buyer if:
  - 10.1.1 the Buyer fails to pay any amount due under this Call-Off Contract on the due date for payment and remains in Default not less than 40 Working Days after being notified in writing to make such payment;
  - 10.1.2 there is a material default of any other term of these Lease Terms by the Buyer which is irremediable or (if such breach is remediable) fails to remedy that breach within a period of 30 Working Days after being notified in writing to do so; or
  - 10.1.3 there is a consistent repeated failure by the Buyer to comply with any of the terms of the Call-Off Contract in such a manner as to reasonably justify the opinion that its conduct is inconsistent with them having the intention or ability to give effect to the terms of the Call-Off Contract.
- 10.2 The hire of a piece of Equipment terminates automatically if a Total Loss occurs in relation to the Equipment.
- 10.3 At any time, the Buyer can terminate the hire of any piece of Equipment by giving 10 days' written notice to the Supplier.

#### 11 CONSEQUENCES OF EXPIRY OR TERMINATION

#### Payment for Early Termination

11.1 In any rolling 12 month period, the Buyer can terminate the hire of up to 10% of the cumulative number of pieces of Equipment using the payment terms in paragraph 11.2. Termination of Equipment above this 10% cap will revert to the calculation as detailed in paragraph 11.3

11.2 Where paragraph 11.1 applies and the Equipment is a passenger motor vehicle or a light commercial vehicle up to 3.5 tonnes that has not been subject to conversion, the standard early termination charges apply and the Supplier must invoice the Buyer as appropriate within twenty one (21) days following the termination.

The following table indicates the number of Month's rental that the Supplier can invoice to the Buyer as a result of the lease of a piece of Equipment being terminated early based on the length of the Equipment lease and at which point during the Lease Period the lease of the Equipment is early terminated.

YEAR OF		3.3 SCHE	DULED LEASE PERIOD	LED LEASE PERIOD		
TERMIN ATION	3.4 2 YEARS	3.5 3 YEARS	3.6 4 YEARS	3.7 5 YEARS		
YEAR 1	2 months	5 months	6 months	7 months		
YEAR 2	1 month	3 months	4 months	5 months		
YEAR 3		1 month	2 months	3 months		
YEAR 4			1 month	2 months		
YEAR 5				1 month		

**11.3** Where paragraph 11.1 applies and the Equipment is a converted vehicle or a commercial vehicle over 3.5 tonnes, the early termination charges will be calculated in accordance with this paragraph 11.3. Following the termination of Vehicle hire the Customer will immediately return the Vehicles to HCVS and pay to HCVS the Balancing Payment, which shall be calculated by comparing the total amount, in respect of the Vehicle:

11.3.1 received by the Supplier from Rentals and the net proceeds of sale, disposal or re-hire of the Vehicle or if the Vehicle is not sold within a reasonable timeframe, the expected net proceeds of sale, according to CAP Black Book, and in the case of Total Loss, any insurance monies;

#### WITH

11.3.2 amounts incurred by the Supplier in providing the Vehicle to the Customer including the purchase price of the Vehicle, maintenance and depreciation; interest and cost of funds; vehicle tax; MOT cost; the estimated cost of any missed scheduled servicing; any loss arising from an increase in VAT from the time the Vehicle was purchased to the time the Vehicle is sold and any third party costs, and to the extent that the total in clause 11.3.2 exceeds the total in clause 11.3.1, the Buyer will compensate the Supplier by paying (on demand) the difference to HCVS.

11.4 Where paragraph 11.1 applies or where the lease of a piece of Equipment is terminated for any other reason (including Total Loss but excluding termination pursuant to Clause 10 of the Core Terms) the Buyer must, within thirty one (31) days of the termination pay the Supplier the Termination Sum by way of agreed liquidated damages.

11.5 The Supplier agrees that any payments made pursuant to paragraphs 11.2, 11.3 or 11.4 above is the Suppliers sole and exclusive remedy in respect of the termination which resulted in the payment of money as provided for in those paragraphs.

#### **12.THE OWNER**

- **12.1** If the Owner and the Supplier are not the same person:
  - **12.1.1** the Owner can enforce paragraphs 6.1, 7.1, 9, 10 and 11;
  - **12.1.2** the Buyer consents to the Supplier and Principal's agency relationship;

**12.1.3** for the purpose of securing funding for the purchase of Equipment to lease to the Buyer, the Buyer consents to the Supplier, without the Buyer's approval, assigning, novating, charging, Sub-Contracting or otherwise disposing of or creating any trust in relation to any or all of its rights, obligations or liabilities under this Call Off Contract, to, or in favour of, the Principal.

#### 1. DEFINITIONS USED IN THE CONTRACT

1.1 Interpret this Contract using Joint Schedule 1 (Definitions).

#### 2. HOW THE CONTRACT WORKS

- 2.1 The Supplier is eligible for the award of Call-Off Contracts during the Framework Contract Period.
- 2.2 CCS doesn't guarantee the Supplier any exclusivity, quantity or value of work under the Framework Contract.
- 2.3 CCS has paid one penny to the Supplier legally to form the Framework Contract. The Supplier acknowledges this payment.
- 2.4 If the Buyer decides to buy Deliverables under the Framework Contract it must use Framework Schedule 7 (Call-Off Award Procedure) and must state its requirements using Framework Schedule 6 (Order Form Template and Call-Off Schedules). If allowed by the Regulations, the Buyer can:
  - makes changes to Framework Schedule 6 (Order Form Template and Call-Off Schedules)
  - create new Call-Off Schedules
  - exclude optional template Call-Off Schedules
  - use Special Terms in the Order Form to add or change terms
- 2.5 Each Call-Off Contract:
  - is a separate Contract from the Framework Contract
  - is between a Supplier and a Buyer
  - includes Core Terms, Schedules and any other changes or items in the completed Order Form
  - survives the termination of the Framework Contract
- 2.6 Where the Supplier is approached by an eligible buyer requesting Deliverables or substantially similar goods or services, the Supplier must tell them about this Framework

Contract before accepting their order. The Supplier will promptly notify CCS if the eligible buyer won't use this Framework Contract.

- 2.7 The Supplier acknowledges it has all the information required to perform its obligations under each Contract before entering into a Contract. When information is provided by a Relevant Authority no warranty of its accuracy is given to the Supplier.
- 2.8 The Supplier won't be excused from any obligation, or be entitled to additional Costs or Charges because it failed to either:
  - verify the accuracy of the Due Diligence Information
  - properly perform its own adequate checks

2.9 CCS and the Buyer won't be liable for errors, omissions or misrepresentation of any information.

2.10 The Supplier warrants and represents that all statements made and documents submitted as part of the procurement of Deliverables are and remain true and accurate.

#### 3. WHAT NEEDS TO BE DELIVERED

#### 3.1 All deliverables

- 3.1.1 The Supplier must provide Deliverables:

  - to a professional standard
  - using reasonable skill and care
  - using Good Industry Practice
  - using its own policies, processes and internal quality control measures as long as they don't conflict with the Contract
  - on the dates agreed
  - that comply with Law

3.1.2 The Supplier must provide Deliverables with a warranty of at least 90 days from Delivery against all obvious defects.<sup>2</sup>

#### 3.2 Goods clauses<sup>3</sup>

- 3.2.1 All Goods delivered must be new, or as new if recycled, unused and of recent origin.
- 3.2.2 All manufacturer warranties covering the Goods must be assignable to the Buyer on request and for free.
- 3.2.3 The Supplier transfers ownership of the Goods on Delivery or payment for those Goods, whichever is earlier.
- 3.2.4 Risk in the Goods transfers to the Buyer on Delivery of the Goods, but remains with the Supplier if the Buyer notices damage following Delivery and lets the Supplier know within 3 Working Days of Delivery.
- 3.2.5 The Supplier warrants that it has full and unrestricted ownership of the Goods at the time of transfer of ownership.
- 3.2.6 The Supplier must deliver the Goods on the date and to the specified location during the Buyer's working hours.
- 3.2.7 The Supplier must provide sufficient packaging for the Goods to reach the point of Delivery safely and undamaged.

<sup>&</sup>lt;sup>3</sup> See Addendum to Core Terms, page 2

Framework Ref: RM6096 Vehicle Lease, Fleet Management and Flexible Rental Solutions Project Version: v1.0

- 3.2.9 The Supplier must provide all tools, information and instructions the Buyer needs to make use of the Goods.
- 3.2.10 The Supplier must indemnify the Buyer against the costs of any Recall of the Goods and give notice of actual or anticipated action about the Recall of the Goods.
- 3.2.11 The Buyer can cancel any order or part order of Goods which has not been Delivered. If the Buyer gives less than 14 days' notice then it will pay the Supplier's reasonable and proven costs already incurred on the cancelled order as long as the Supplier takes all reasonable steps to minimise these costs.
- 3.2.12 The Supplier must at its own cost repair, replace, refund or substitute (at the Buyer's option and request) any Goods that the Buyer rejects because they don't conform with Clause 3. #### 3.3 Services clauses

- 3.3.1 Late Delivery of the Services will be a Default of a Call-Off Contract.
- 3.3.2 The Supplier must co-operate with the Buyer and third party suppliers on all aspects connected with the Delivery of the Services and ensure that Supplier Staff comply with any reasonable instructions.

- 3.3.6 The Supplier must ensure all Services, and anything used to Deliver the Services, are of good quality and free from defects.
- 3.3.7 The Buyer is entitled to withhold payment for partially or undelivered Services, but doing so does not stop it from using its other rights under the Contract.

#### 4 PRICING AND PAYMENTS

- 4.1 In exchange for the Deliverables, the Supplier must invoice the Buyer for the Charges in the Order Form.
- 4.2 CCS must invoice the Supplier for the Management Charge and the Supplier must pay it using the process in Framework Schedule 5 (Management Charges and Information).

  - require the Supplier to replace its existing commercial terms with the more favourable terms offered for the relevant items
  - enter into a direct agreement with that Subcontractor or third party for the relevant item
- 4.9 If CCS or the Buyer uses Clause 4.8 then the Framework Prices (and where applicable, the Charges) must be reduced by an agreed amount by using the Variation Procedure.
- 4.10 CCS and the Buyer's right to enter into a direct agreement for the supply of the relevant items is subject to both:
  - the relevant item being made available to the Supplier if required to provide the Deliverables
  - any reduction in the Framework Prices (and where applicable, the Charges) excludes any unavoidable costs that must be paid by the Supplier for the substituted item, including any licence fees or early termination charges
- 4.11 The Supplier has no right of set-off, counterclaim, discount or abatement unless they're ordered to do so by a court.

  - the Supplier is entitled to reasonable and proven additional expenses and to relief from Delay Payments, liability and Deduction under this Contract
  - the Supplier is entitled to additional time needed to make the Delivery

#### 9. INTELLECTUAL PROPERTY RIGHTS (IPRS)

<sup>&</sup>lt;sup>4</sup> See Addendum to Core Terms, page 2 Framework Ref: RM6096 Vehicle Lease, Fleet Management and Flexible Rental Solutions Project Version: v1.0 Model Version: v3.2

- 9.1 Each Party keeps ownership of its own Existing IPRs. The Supplier gives the Buyer a nonexclusive, perpetual, royalty-free, irrevocable, transferable worldwide licence to use, change and sub-license the Supplier's Existing IPR to enable it to both:
  - receive and use the Deliverables
  - make use of the deliverables provided by a Replacement Supplier
- 9.2 Any New IPR created under a Contract is owned by the Buyer. The Buyer gives the Supplier a licence to use any Existing IPRs and New IPRs for the purpose of fulfilling its obligations during the Contract Period.
- 9.3 Where a Party acquires ownership of IPRs incorrectly under this Contract it must do everything reasonably necessary to complete a transfer assigning them in writing to the other Party on request and at its own cost.
- 9.4 Neither Party has the right to use the other Party's IPRs, including any use of the other Party's names, logos or trademarks, except as provided in Clause 9 or otherwise agreed in writing.

- 10.4.4 When the Relevant Authority receives a requested Rectification Plan it can either:
  - reject the Rectification Plan or revised Rectification Plan, giving reasons
  - accept the Rectification Plan or revised Rectification Plan (without limiting its rights) and the Supplier must immediately start work on the actions in the Rectification Plan at its own cost, unless agreed otherwise by the Parties

- 10.5.2 The Buyer's payment obligations under the terminated Contract stop immediately.
- 10.5.3 Accumulated rights of the Parties are not affected.

- 10.5.5 The Supplier must promptly return any of CCS or the Buyer's property provided under the terminated Contract.
- 10.5.6 The Supplier must, at no cost to CCS or the Buyer, co-operate fully in the handover and reprocurement (including to a Replacement Supplier).
- 10.5.7 The following Clauses survive the termination of each Contract: 3.2.10, 6, 7.2, 9, 11, 14, 15, 16, 17, 18, 34, 35 and any Clauses and Schedules which are expressly or by implication intended to continue.

#### 10.6 When the supplier can end the contract

- 10.6.1 The Supplier can issue a Reminder Notice if the Buyer does not pay an undisputed invoice on time. - 10.6.2 If a Supplier terminates a Call-Off Contract under Clause 10.6.1:

- a Subcontractor or its Affiliates embarrasses or brings into disrepute or diminishes the public trust in the Relevant Authority

#### 10.8 Partially ending and suspending the contract

10.8.1 Where CCS has the right to terminate the Framework Contract it can suspend the Supplier's ability to accept Orders (for any period) and the Supplier cannot enter into any new Call-Off Contracts during this period. If this happens, the Supplier must still meet its obligations under any existing Call-Off Contracts that have already been signed.

10.8.2 Where CCS has the right to terminate a Framework Contract it is entitled to terminate all or part of it.

- 10.8.3 Where the Buyer has the right to terminate a Call-Off Contract it can terminate or suspend (for any period), all or part of it. If the Buyer suspends a Contract it can provide the Deliverables itself or buy them from a third party.
- 10.8.4 The Relevant Authority can only partially terminate or suspend a Contract if the remaining parts of that Contract can still be used to effectively deliver the intended purpose.
- 10.8.5 The Parties must agree any necessary Variation required by Clause 10.8 using the Variation Procedure, but the Supplier may not either:
  - reject the Variation

 Framework Ref: RM6096 Vehicle Lease, Fleet Management and Flexible Rental Solutions
