6. PAYMENT

6.1	Call Off Contract Charges (including any applicable discount(s), but excluding VAT): The standard fee for the MSc Real Estate is currently REDACTED for students commencing the programme in 2019/20. This is due to rise to REDACTED in 2020/21 and REDACTED in 2021/22. Due to the significant number of students the VOA expects to sponsor (up to 15 as advised in the specification) UCEM is pleased to offer a 10% discount on the standard fee rate, which would mean a fee per student of: REDACTED for those starting in 2019/20; REDACTED for those starting in 2020/21; REDACTED for those starting in 2021/22. The fees include the provision of material for all modules, access to the VLE, academic support, the Library Service and Student Services, including the Student Advice Team and the Careers Service. All module material is provided online, and this includes relevant text books in the form of an 'e-book' for students to download to their electronic device. From 2020/21 UCEM's assessment model will be changing so that students who fail a module at their first attempt will be eligible for a free resit shortly after they get their results. Where a student is unable to pass the resit they will need to repeat the whole module at the next available opportunity, in which case an additional module retake fee will apply. The fee if the whole module (one eighth of the course fee) has to be retaken is normally 50% of the standard module fee. It is noted that there remains a possibility during the lifetime of the contract that the postgraduate route through the Chartered Surveyor apprenticeship standard will be approved for delivery by the Institute for Apprenticeships and Technical Education. In this case UCEM would expect to deliver the MSc Real Estate as part of this apprenticeship to eligible candidates based in England, if requested by VOA. Those in Wales would continue to study the standalone MSc Real Estate as the apprenticeship standards do not apply to any parts of the UK apart from England. As the apprenticeship standard is expected to include a number of additional elements the fee would be higher than that for the MSc. These elements are likely to include: • End point assessment (RICS APC) • Professional practice workshops • Regular progress reviews conducted by dedicated Apprenticeship Outcomes Officers • Use of the OneFile system for monitoring and tracking apprentices' progress and achievement • Apprenticeship management and administration UCEM's standard fee has not yet been confirmed as it will be impacted by the funding cap set by the IfATE, but at this stage is expected to be in the region of REDACTED per apprentice. As with the MSc, UCEM would be prepared to offer VOA a fee discount for a cohort of 10-15 starts No VAT is chargeable for the supply of this service.

Successful Tenderers will initially be required to provide information so that they may be adopted onto the current system and, when the SAP Ariba P2P system is deployed, will then need to register on the Ariba Network in order to transfer over to the VOA SAP Ariba system and ensure that they will continue to be able to receive purchases orders and issue invoices.

- (a) at the Customer's option, give the Supplier the opportunity (at the Supplier's expense) to remedy the Default together with any damage resulting from such Default (where such Default is capable of remedy) or to supply Replacement Goods and/or Services and carry out any other necessary work to ensure that the terms of this Call Off Contract are fulfilled, in accordance with the Customer's instructions;

- (b) carry out, at the Supplier's expense, any work necessary to make the provision of the Goods and/or Services comply with this Call Off Contract;
- (c) if the Default is a material Default that is capable of remedy (and for these purposes a material Default may be a single material Default or a number of Defaults or repeated Defaults - whether of the same or different obligations and regardless of whether such Defaults are remedied - which taken together constitute a material Default):
 - (i) instruct the Supplier to comply with the Rectification Plan Process;

 - (iii) without terminating or suspending the whole of this Call Off Contract, terminate or suspend this Call Off Contract in respect of part of the provision of the Goods and/or Services only (whereupon the relevant provisions of Clause 44 (Partial Termination, Suspension and Partial Suspension) shall apply) and step-in to itself supply or procure a third party to supply (in whole or in part) such part of the Good and/or Services;

38.1.2 Where the Customer exercises any of its step-in rights under Clauses 38.1.1(c)(ii) or 38.1.1(c)(iii), the Customer shall have the right to charge the Supplier for and the Supplier shall on demand pay any costs reasonably incurred by the Customer (including any reasonable administration costs) in respect of the supply of any part of the Goods and/or Services by the Customer or a third party and provided that the Customer uses its reasonable endeavours to mitigate any additional expenditure in obtaining Replacement Goods and/or Replacement Goods and/or Services.

38.2.1 Where the Customer has instructed the Supplier to comply with the Rectification Plan Process pursuant to Clause 38.1.1(c)(i):

- (a) the Supplier shall submit a draft Rectification Plan to the Customer for it to review as soon as possible and in any event within 10 (ten) Working Days (or such other period as may be agreed between the Parties) from the date of Customer's instructions. The Supplier shall submit a draft Rectification Plan even if the Supplier disputes that it is responsible for the Default giving rise to the Customer's request for a draft Rectification Plan.
- (b) the draft Rectification Plan shall set out:
 - (i) full details of the Default that has occurred, including a cause analysis;
 - (ii) the actual or anticipated effect of the Default; and

- (iii) the steps which the Supplier proposes to take to rectify the Default (if applicable) and to prevent such Default from recurring, including timescales for such steps and for the rectification of the Default (where applicable).
- 38.2.2 The Supplier shall promptly provide to the Customer any further documentation that the Customer requires to assess the Supplier's root cause analysis. If the Parties do not agree on the root cause set out in the draft Rectification Plan, either Party may refer the matter to be determined by an expert in accordance with paragraph 5 of this Call Off Schedule 11 (Dispute Resolution Procedure).
- 38.2.3 The Customer may reject the draft Rectification Plan by notice to the Supplier if, acting reasonably, it considers that the draft Rectification Plan is inadequate, for example because the draft Rectification Plan:
 - (a) is insufficiently detailed to be capable of proper evaluation;
 - (b) will take too long to complete;
 - (c) will not prevent reoccurrence of the Default; and/or
 - (d) will rectify the Default but in a manner which is unacceptable to the Customer.
- 38.2.4 The Customer shall notify the Supplier whether it consents to the draft Rectification Plan as soon as reasonably practicable. If the Customer rejects the draft Rectification Plan, the Customer shall give reasons for its decision and the Supplier shall take the reasons into account in the preparation of a revised Rectification Plan. The Supplier shall submit the revised draft of the Rectification Plan to the Customer for review within five (5) Working Days (or such other period as agreed between the Parties) of the Customer's notice rejecting the first draft.
- 38.2.5 If the Customer consents to the Rectification Plan, the Supplier shall immediately start work on the actions set out in the Rectification Plan.

 - 39.1.3 comply with its obligations under this Call Off Contract,
- (each a "Supplier Non-Performance"),

and can demonstrate that the Supplier Non-Performance would not have occurred but for a Customer Cause, then (subject to the Supplier fulfilling its obligations in Clause 17 (Supplier Notification of Customer Cause)):

- (a) the Supplier shall not be treated as being in breach of this Call Off Contract to the extent the Supplier can demonstrate that the Supplier Non-Performance was caused by the Customer Cause;
- (b) the Customer shall not be entitled to exercise any rights that may arise as a result of that Supplier Non-Performance to terminate

this Call Off Contract pursuant to Clause 41 (Customer Termination Rights) except Clause 41.7 (Termination Without Cause);

- (c) where the Supplier Non-Performance constitutes the failure to Achieve a Milestone by its Milestone Date:
 - (i) the Milestone Date shall be postponed by a period equal to the period of Delay that the Supplier can demonstrate was caused by the Customer Cause;
 - (ii) if the Customer, acting reasonably, considers it appropriate, the Implementation Plan shall be amended to reflect any consequential revisions required to subsequent Milestone Dates resulting from the Customer Cause;
 - (iii) if failure to Achieve a Milestone attracts a Delay Payment, the Supplier shall have no liability to pay any such Delay Payment associated with the Milestone to the extent that the Supplier can demonstrate that such failure was caused by the Customer Cause.

39.2 In order to claim any of the rights and/or relief referred to in Clause 39.1, the Supplier shall:

39.2.1 comply with its obligations under Clause 17 (Notification of Customer Cause); and

39.2.2 within ten (10) Working Days of becoming aware that a Customer Cause has caused, or is likely to cause, a Supplier Non-Performance, give the Customer notice (a “**Relief Notice**”) setting out details of:

- (a) the Supplier Non-Performance;
- (b) the Customer Cause and its effect on the Supplier’s ability to meet its obligations under this Call Off Contract; and
- (c) the relief claimed by the Supplier.

39.3 Following the receipt of a Relief Notice, the Customer shall as soon as reasonably practicable consider the nature of the Supplier Non-Performance and the alleged Customer Cause and whether it agrees with the Supplier’s assessment set out in the Relief Notice as to the effect of the relevant Customer Cause and its entitlement to relief, consulting with the Supplier where necessary.

39.4 Without prejudice to Clauses 8.7 (Continuing obligation to provide the Services) and 9.11 (Continuing obligation to provide the Goods), if a Dispute arises as to:

39.4.1 whether a Supplier Non-Performance would not have occurred but for a Customer Cause; and/or

39.4.2 the nature and/or extent of the relief claimed by the Supplier,

either Party may refer the Dispute to the Dispute Resolution Procedure. Pending the resolution of the Dispute, both Parties shall continue to resolve the causes of, and mitigate the effects of, the Supplier Non-Performance.

- 39.5 Any Variation that is required to the Implementation Plan or to the Call Off Contract Charges pursuant to Clause 39 shall be implemented in accordance with the Variation Procedure.

40. FORCE MAJEURE

- 40.1 Subject to the remainder of Clause 40 (and, in relation to the Supplier, subject to its compliance with any obligations in Clause 15 (Business Continuity and Disaster Recovery)), a Party may claim relief under Clause 40 from liability for failure to meet its obligations under this Call Off Contract for as long as and only to the extent that the performance of those obligations is directly affected by a Force Majeure Event. Any failure or delay by the Supplier in performing its obligations under this Call Off Contract which results from a failure or delay by an agent, Sub-Contractor or supplier shall be regarded as due to a Force Majeure Event only if that agent, Sub-Contractor or supplier is itself impeded by a Force Majeure Event from complying with an obligation to the Supplier.
- 40.2 The Affected Party shall as soon as reasonably practicable issue a Force Majeure Notice, which shall include details of the Force Majeure Event, its effect on the obligations of the Affected Party and any action the Affected Party proposes to take to mitigate its effect.
- 40.3 If the Supplier is the Affected Party, it shall not be entitled to claim relief under Clause 40 to the extent that consequences of the relevant Force Majeure Event:
- 40.3.1 are capable of being mitigated by any of the provision of any Goods and/or Services, including any BCDR Goods and/or Services, but the Supplier has failed to do so; and/or
 - 40.3.2 should have been foreseen and prevented or avoided by a prudent provider of goods and/or services similar to the Goods and/or Services, operating to the standards required by this Call Off Contract.
- 40.4 Subject to Clause 40.5, as soon as practicable after the Affected Party issues the Force Majeure Notice, and at regular intervals thereafter, the Parties shall consult in good faith and use reasonable endeavours to agree any steps to be taken and an appropriate timetable in which those steps should be taken, to enable continued provision of the Goods and/or Services affected by the Force Majeure Event.
- 40.5 The Parties shall at all times following the occurrence of a Force Majeure Event and during its subsistence use their respective reasonable endeavours to prevent and mitigate the effects of the Force Majeure Event. Where the Supplier is the Affected Party, it shall take all steps in accordance with Good Industry Practice to overcome or minimise the consequences of the Force Majeure Event.
- 40.6 Where, as a result of a Force Majeure Event:
- 40.6.1 an Affected Party fails to perform its obligations in accordance with this Call Off Contract, then during the continuance of the Force Majeure Event:
 - (a) the other Party shall not be entitled to exercise any rights to terminate this Call Off Contract in whole or in part as a result of such failure unless the provision of the Goods and/or Services is materially impacted by a Force Majeure Event which endures for a continuous period of more than ninety (90) days; and

- (b) the Supplier shall not be liable for any Default and the Customer shall not be liable for any Customer Cause arising as a result of such failure;
- 40.6.2 the Supplier fails to perform its obligations in accordance with this Call Off Contract:
 - (a) the Customer shall not be entitled:
 - (i) during the continuance of the Force Majeure Event to exercise its step-in rights under Clause 38.1.1(b) and 38.1.1(c) (Customer Remedies for Default) as a result of such failure; and
 - (ii) to receive Delay Payments pursuant to Clause 6.4 (Delay Payments) to the extent that the Achievement of any Milestone is affected by the Force Majeure Event; and
 - (b) the Supplier shall be entitled to receive payment of the Call Off Contract Charges (or a proportional payment of them) only to the extent that the Goods and/or Services (or part of the Goods and/or Services) continue to be provided in accordance with the terms of this Call Off Contract during the occurrence of the Force Majeure Event.
- 40.7 The Affected Party shall notify the other Party as soon as practicable after the Force Majeure Event ceases or no longer causes the Affected Party to be unable to comply with its obligations under this Call Off Contract.
- 40.8 Relief from liability for the Affected Party under Clause 40 shall end as soon as the Force Majeure Event no longer causes the Affected Party to be unable to comply with its obligations under this Call Off Contract and shall not be dependent on the serving of notice under Clause 40.7.

10.3 The Supplier shall procure the application of security patches to vulnerabilities in the Information System within a maximum period from the public release of such patches with those vulnerabilities categorised as 'Critical' within 7 days of release, 'Important' within 30 days of release and all 'Other' within 60 Working Days of release, except where:

10.3.1 the Supplier can demonstrate that a vulnerability in the Information System is not exploitable within the context of the Services (e.g. because it resides in a software component which is not running in the service) provided vulnerabilities which the Supplier asserts cannot be exploited within the context of the Services must be remedied by the Supplier within the above timescales if the vulnerability becomes exploitable within the context of the Services;

10.3.2 the application of a 'Critical' or 'Important' security patch adversely affects the Supplier's ability to deliver the Services in which case the Supplier shall be granted an extension to such timescales of 5 days, provided the Supplier had followed and continues to follow the security patch test plan agreed with the Customer; or

10.3.3 the Customer agrees a different maximum period after a case-by-case consultation with the Supplier under the processes defined in the Information Risk Management Documentation.

10.4 The Information Risk Management Documentation shall include provisions for major version upgrades of all Supplier Software and Third Party Software which are COTS Products to be kept up to date such that all Supplier Software and Third Party Software which are COTS

Products are always in mainstream support throughout the Framework Period unless otherwise agreed by the Customer in writing.

The Supplier shall assert, and evidence compliance, of the Service Supplied under the Contract against the Data Security Outcomes defined at Annex 1. The Security Policy describes the required security outcomes which the service shall need to achieve, in order to provide the Contracting Authority with the assurance and confidence that the Security Risk is being appropriately managed.

The Supplier shall also be cognisant of the need to support the Contracting Authorities compliance with EU data protection legislation throughout the life of the Contract.

1.2 Handling, Processing and Storage of OFFICIAL-SENSITIVE information

Where the Supplier is going to handle, process and store OFFICIAL-SENSITIVE information, the Supplier shall implement additional measures to secure data of this type throughout the lifecycle of the Contract. The measures defined herein are in addition to the Supplier delivering a Service where the residual risk associated with the Service Supplied under the Contract is acceptable to the Contracting Authority. For a Supplier Service to handle OFFICIAL-SENSITIVE data the residual risk associated with the additional measures defined below shall be considered acceptable to the Contracting Authority. The additional measures have been cross referenced to the relevant Security Principle headline defined within the Security Policy.

Serial	Security Principle Headline	Additional Measures
1.	Asset Protection and Resilience	The Supplier shall provide evidence that the infrastructure devices storing any bulk Customer data shall not be directly accessible from a device hosted on the internet. The Supplier shall assure the protection afforded to bulk data addresses the NCSC guidance https://www.ncsc.gov.uk/guidance/protecting-bulk-personal-data-introduction
2.	Governance	The Supplier shall provide evidence of robust handling processes throughout the lifecycle of all information held on the system which conforms to the definition of personal data defined within the Data Protection Act 1998 or other UK regulatory requirements. The robust handling procedures will need to specify the procedural measures implemented to ensure: • There are clearly defined roles associated with any access to bulk Customer data. • Where a role is identified as having access to bulk Customer data there shall be defined responsibilities which detail any actions which can be performed in support of maintaining Service availability. • There shall be a process defined which authorises Supplier staff to be able access to bulk Customer data for

		purposes of delivering and maintaining the Service availability. - Any individual being given access to bulk Customer data is aware of the HMG requirements for data protection. - The Supplier nominates an individual within its organisation who is independent from the programme delivery team and is responsible for ensuring the enforcement of the measures defined above.
3.	Operational security	This Supplier incident reporting process shall include reporting security incidents to the Data Controller and ICO The supplier shall agree with the Customer triggers and timescales for sharing such incidents with service Contracting Authority (s) which have compromised OFFICIAL-SENSITIVE data. The Supplier shall publish and agreed with the Customer the content and format of security incident notifications for sharing information involving OFFICIAL SENSITIVE. The Supplier shall agree with the Customer a restricted distribution group with individuals who have a “need to know” for incident involving OFFICIAL SENSITIVE data.

Data sanitisation - retention period	The Suppliers shall inform Contracting Authority's how long it will take to securely erase Contracting Authority data (including from any backups) from the Services.

			Data sanitisation - Contracting Authority on-boarding and off-boarding	The Supplier shall securely erase Contracting Authority data when components are moved or re-provisioned, upon request by the Contracting Authority or when the Contracting Authority leaves the service. The Supplier shall sanitise media in accordance with NCSC guidance https://www.ncsc.gov.uk/guidance/secure-sanitisation-storage-media
		Once equipment used to deliver the service reaches the end of its useful life it should be disposed of in a way that does not compromise the security of the service or Contracting Authority's data	Equipment Disposal	All equipment potentially holding Contracting Authority data, credentials, or configuration information for the service shall be identified. Storage media which has held Contracting Authority data shall be appropriately sanitised or securely destroyed at the end of its lifecycle. Accounts or credentials specific to the redundant equipment are revoked.
		The service shall have the ability to operate normally in the event of failures, incidents or attacks	Physical resilience and availability	The Supplier shall clearly articulate the availability capabilities and commitments of the service. The service has adequate resiliency measures in place.

3	Separation between tenants	Separation should exist between Contracting Authority (s) of a service to prevent a malicious or compromised Contracting Authority from affecting the confidentiality, integrity or availability of another Contracting Authority of the service.	The Contracting Authority should be informed of any other Contracting Authority they share the platform or service with Separation between Contracting Authority (s) shall be enforced at all points within the service where the service is exposed to Contracting Authority (s). One Contracting Authority shall not be able to affect the confidentiality, integrity or availability of another Contracting Authority.
---	-----------------------------------	--	---

4	Governance	The Supplier has a security governance framework that co-ordinates and directs the provider's overall approach to the management of ICT systems, services and information.	IA Risk Management Processes	A clearly identified, and named, board representative (or a person with the direct delegated authority of) shall be responsible for the security of the cloud service. This is typically someone with the title Chief Security Officer, Chief Information Officer or Chief Technical Officer. The Supplier's security governance framework is formally documented, as are policies governing key aspects of information security relating to the service. Information security is incorporated into the Supplier's financial and operational risk reporting mechanisms for the service. The Supplier has defined roles and responsibilities for information security within the service and allocated them to named individuals. This includes a named individual with responsibility for managing the security aspects of the service. The Supplier has processes in place to identify and ensure compliance with applicable legal and regulatory requirements relating to the service.
			IA Organisational Maturity	The Supplier can demonstrate a sufficient degree of IA Maturity.

5	Operational security	The Supplier has processes and procedures in place to ensure the operational security of the service.	Configuration and change management	The status, location and configuration of service components (including hardware and software components) shall be tracked to ensure they can be effectively managed and remain securely configured. Changes to the service shall be assessed for potential security impact. They shall be managed and tracked through to completion.
			Vulnerability management	Potential new threats, vulnerabilities or exploitation techniques which could affect the service are assessed and corrective action is taken.

--	--	--

Protective monitoring	The service shall collect data events from all relevant Contractor devices to support effective identification that all implementation objectives are operating effectively. There shall be effective automated analysis systems in place, supported by adequately trained staff, which identify and prioritise indications in the data that may be related to malicious activities. The Supplier shall provide Contracting Authority's with alerts resulting from protective monitoring which impact the implementation objectives within 24 hours. NCSC Security Operation Centre provides recommended Good Practice for the implementation of a protective monitoring solution.
-----------------------	---

-	-		Incident management	A defined process and contact route shall exist for reporting of security incidents by Contracting Authority (s) and external entities. A definition of a security incident shall be published for the service and the triggers and timescales for sharing such incidents with service Contracting Authority (s). The risks to the Supplier from Sub-Contractors and delivery partners shall be regularly assessed and appropriate security controls implemented. The Supplier shall monitor its potential Sub-Contractor's compliance with security requirements

				and initiate remedial action where necessary. The Supplier's procurement process shall ensure that following contract termination all assets are returned, removed (or appropriately destroyed) and any Sub-Contractors' access rights to the Supplier's internal systems or information are removed. The Supplier shall categorise each Sub-Contractor as one of the following: Type 1 - access to aggregated Contracting Authority Consumer data Type 2 – access to limited number (less than 10) individual Contracting Authority Consumer records Type 3 – access to only part of an individual Contracting Authority Consumer records Type 4 – no access to Contracting Authority Consumer records
9	Contracting Authority management	The Contracting Authority should be provided with tools to enable them to securely manage their service.	Authentication of Contracting Authority to management interfaces	Only properly authorised individuals from the Contracting Authority organisation can authenticate to, and access management tools for the service. Only authorised individuals from the Contracting Authority are able to perform actions affecting the service through support channels

			Separation of Contracting Authority within management interfaces	No other Contracting Authority service consumer can access management tools for the service. The contracting shall be able to constrain permissions granted to authorised individuals from the Contracting Authority to perform actions affecting the service.
			Secure Contracting Authority Service Change Authorisation	A Supplier support procedures shall identify when a support action is security related (such as altering a user's access permissions, or changing user credentials) and ensure appropriate authorisation is in place for this change.
10	Identity and Authentication	Contracting Authority and Supplier access to all service interfaces should be constrained to authenticated and authorised individuals.		The Supplier shall implement controls which provide confidence that a user has authorisation to access a specific interface.
11	External interface protection	All external interfaces of the service should be identified and have appropriate protections to defend against attacks through them.		The service controls and protects access to elements of the service by Contracting Authority (s) and outsiders.

12	Secure service administration	The methods used by the Supplier's administrators to manage the operational service (monitor system health, apply patches, update configuration etc.) should be designed to mitigate any risk of exploitation which could undermine the security of the service.		The networks and devices used to perform administration /management of the service shall be appropriate to protect the Contracting Authority 's data End user devices used for administration shall be enterprise managed assets and shall be securely configured. CESG's EUD Security Guidance provides recommended good practice for configuration of a range of different end user device platforms which can be used to inform the configuration of these devices. NCSC guidance on implementation of system administration architectures provides best practice.
13	Audit information for tenants	Contracting Authority (s) should be provided with the audit records they need in order to monitor access to their service and the data held within it.		Audit information shall be retained for a minimum of two years or until the Contracting Authority leaves the service. The audit information shall be accessible online for a minimum of six months from the point of event collection. The Supplier shall make tenants aware of: The audit information that will be provided. There is also assessed to be a risk from an integrity perspective of these data sets and user access controls need to be put in place to ensure that there are strict control over who is able to access these. This intent should be satisfied by the Supplier of the System adequately applying the controls from a competent supplier who has been certified under an appropriate security governance regime; ISO27001, Cyber Essential or equivalent standard, and putting additional controls around any potential download and transmission of aggregated data from The Information System. In addition, a robust Protective Monitoring regime should be in place to detect any attempt to download data and export it.
- 1.4. In addition, the programme will implement appropriate and proportionate controls to maintain the integrity and accuracy of data help on the service and supporting systems. Good practice and proportionate baseline security controls will be implemented including the segregation of roles and access to update/amend data.
