To the extent permitted by the time for compliance under the Act or the Regulations, the Authority shall consult the Contractor where the Authority is considering the disclosure of Information under the Act or the Regulations and, in any event, shall provide prior notification to the Contractor of any decision to disclose the Information. The Contractor acknowledges and accepts that their representations on disclosure during consultation may not be determinative and that the decision whether to disclose Information in order to comply with the Act or the Regulations is a matter in which the Authority shall exercise its own discretion, subject always to the provisions of the Act or the Regulations.

- (2) where reasonably practicable, and if requested by the Contractor within 10 Business Days of such notification, (at the Contractor's own risk and expense and subject to any reasonable controls specified by the Authority) afford the Contractor the facility to (i) inspect the Contractor Deliverable or consignment and/or (ii) obtain a sample thereof for validation or testing purposes.
- (3) at its discretion, provide the Contractor with a sample of the Contractor Deliverable or consignment for validation or testing purposes by the Contractor (at the Contractor's own risk and expense);
- (4) give the Contractor a further 20 Business Days or such other reasonable period agreed by the Authority, from the date of the inspection at 30.c.(2).(i) or the provision of a sample at 30.c.(2).(ii), to comment on whether the Contractor Deliverable or consignment meets the definition of Counterfeit Materiel; and
- (5) determine, on the balance of probabilities and strictly on the evidence available to it at the time, whether the Contractor Deliverable or consignment meets the definition of Counterfeit Materiel.

d. Where the Authority has determined that the Contractor Deliverable, part or consignment of Contractor Deliverables contain Counterfeit Materiel then it may reject the Contractor Deliverable, part or consignment under 30.a and 30.b (Rejection), and provide written notification to the Contractor of the rejection.

e. In addition to its rights under 30.a and 30.b (Rejection), where the Authority has determined that any Contractor Deliverable or consignment of Contractor Deliverables contains Counterfeit Materiel, it shall be entitled to:

- (1) retain any Counterfeit Materiel; and/or
- (2) retain the whole or any part of such Contractor Deliverable or consignment where it is not possible to separate the Counterfeit Materiel from the rest of the Contractor Deliverable, or consignment; and such retention shall not constitute acceptance under Condition 29 (Acceptance).

f. Where the Authority intends to exercise its rights under clause 30.e, the Contractor may, subject to the agreement of the Authority (and at the Contractor's own risk and expense and subject to any reasonable controls and timeframe agreed), arrange for:

- (1) the separation of Counterfeit Materiel from any Contractor Deliverable or part of a Contractor Deliverable; and/or
- (2) the removal of any Contractor Deliverable or part of a Contractor Deliverable that the Authority is reasonably satisfied does not contain Counterfeit Materiel.

g. In respect of any Contractor Deliverable, consignment or part thereof that is retained in accordance with clause 30.e, including where the Authority permits the Contractor to remove non-Counterfeit Materiel under clause 30.f but the Contractor fails to do so within the period agreed and subject to clause 30.k, the Authority shall be entitled to exercise any, all, or any combination of, the following rights:

- (1) to dispose of it responsibly, and in a manner that does not permit its reintroduction into the supply chain or market;
- (2) to pass it to a relevant investigatory or regulatory authority;
- (3) to retain conduct or have conducted further testing including destructive testing, for further investigatory, regulatory or risk management purposes. Results from any such tests shall, at the discretion of the Authority, be shared with the Contractor; and/or
- (4) to recover the appropriate, attributable, and reasonable costs incurred by the Authority in respect of testing, storage, access, and/or disposal of it from the Contractor;

and exercise of the rights granted at clauses 30.g.(1) to 30.g.(3) shall not constitute acceptance under Condition 29 (Acceptance).

h. Any scrap or other disposal payment received by the Authority shall be off set against any amount due to the Authority under clause 30.g.(4). If the value of the scrap or other disposal payment exceeds the amount due

to the Authority under clause 30.g.(4) then the balance shall accrue to the Contractor.

i. The Authority shall not use a retained Contract Deliverable or consignment other than as permitted in clauses 30.c – 30.k.

j. The Authority may report a discovery of Counterfeit Materiel and disclose information necessary for the identification of similar materiel and its possible sources.

k. The Contractor shall not be entitled to any payment or compensation from the Authority as a result of the Authority exercising the rights set out in clauses 30.c – 30.k except:

(1) in relation to the balance that may accrue to the Contractor in accordance with clause 30.h; or

(2) where it has been determined in accordance with Condition 40 (Dispute Resolution) that the Authority has made an incorrect determination in accordance with clause 30.c.(5). In such circumstances the Authority shall reimburse the Contractors reasonable costs of complying with clause 30.c.

31.Diversion Orders

a. The Authority shall notify the Contractor at the earliest practicable opportunity if it becomes aware that a Contractor Deliverable is likely to be subject to a Diversion Order.

b. The Authority may issue a Diversion Order for the urgent delivery of the Contractor Deliverables identified in it. These Contractor Deliverables are to be delivered by the Contractor using the quickest means available as agreed by the Authority.

c. The Authority reserves the right to cancel the Diversion Order.

d. If the terms of the Diversion Order are unclear, the Contractor shall immediately contact the Representative of the Authority who issued it for clarification and/or further instruction.

e. If the Diversion Order increases the quantity of Contractor Deliverables beyond the scope of the Contract, it is to be returned immediately to the Authority's Commercial Officer with an appropriate explanation.

f. The Contractor shall be entitled to reasonable additional delivery and packaging costs incurred in complying with the Diversion Order or cancellation. Claims are to be submitted by the Contractor to the Authority's Commercial Officer together with applicable receipts and agreed as an amendment to the Contract in accordance with Condition 6 (Formal Amendments to the Contract). The Contractor shall comply with the requirements of the Diversion Order upon receipt of the Diversion Order.

32.Self-to-Self Delivery

Where it is stated in Schedule 3 (Contract Data Sheet) that any Contractor Deliverable is to be Delivered by the Contractor to their own premises, or to those of a Subcontractor ('self-to-self delivery'), the risk in such a Contractor Deliverable shall remain vested in the Contractor until such time as it is handed over to the Authority. Licences and Intellectual Property

33.Import and Export Licences

a. If, in the performance of the Contract, the Contractor needs to import into the UK or export out of the UK anything not supplied by or on behalf of the Authority and for which a UK import or export licence is required, the responsibility for applying for the licence shall rest with the Contractor. The Authority shall provide the Contractor with sufficient information, certification, documentation and other reasonable assistance in obtaining any necessary UK import or export licence.

b. When an export licence or import licence or authorisation either singularly or in combination is required from a foreign government for the performance of the Contract, the Contractor shall as soon as reasonably practicable consult with the Authority on the licence requirements. Where the Contractor is the applicant for the licence or authorisation the Contractor shall:

(1) ensure that when end use or end user restrictions, or both, apply to all or part of any Contractor Deliverable (which for the purposes of this Condition shall also include information, technical data and software), the Contractor, unless otherwise agreed with the Authority, shall identify in the application:

(a) the end user as: His Britannic Majesty's Government of the United Kingdom of Great Britain and Northern Ireland (hereinafter "HM Government"); and

(b) the end use as: For the Purposes of HM Government; and

(2) include in the submission for the licence or authorisation a statement that "information on the status of processing this application may be shared with the Ministry of Defence of the United Kingdom".

c. If the Contractor or any Subcontractor in the performance of the Contract needs to export materiel not previously supplied by or on behalf of the Authority for which an export licence or import licence or authorisation from a foreign government is required, the responsibility for instituting expeditious action to apply for and obtain the licence shall rest with the Contractor or that Subcontractor. For the purposes of this Condition materiel shall mean information, technical data and items, including Contractor Deliverables, components of Contractor Deliverables and software.

d. Where the Contract performance requires the export of materiel for which a foreign export licence or import licence or authorisation is required, the Contractor shall include the dependencies for the export licence or import licence or authorisation application, grant and maintenance in the Contract risk register and in the risk management plan for the Contract, with appropriate review points. Where there is no requirement under the Contract for a risk management plan the Contractor shall submit this information to the Authority's representative.

e. During the term of the Contract and for a period of up to 2 years from completion of the Contract, the Authority may make a written request to the Contractor to seek a variation to the conditions to a foreign export licence or import licence or authorisation to enable the Authority to re-export or re-transfer a licensed or

authorised item or licensed or authorised information from the UK to a non-licensed or unauthorised third party. If the Authority makes such a request it will consult with the Contractor before making a determination of whether the Authority or the Contractor is best placed in all the circumstance to make the request. Where, subsequent to such consultation the Authority notifies the Contractor that the Contractor is best placed to make such request:

- (1) the Contractor shall, or procure that the Contractor's Subcontractor shall, expeditiously consider whether or not there is any reason why it should object to making the request and, where it has no objection, file an application to seek a variation of the applicable export licence or import licence or authorisation in accordance with the procedures of the licensing authority. Where the Contractor has an objection, the Parties shall meet within five (5) working days to resolve the issue and should they fail the matter shall be escalated to an appropriate level within both Parties' organisations, to include their respective export licensing subject matter experts; and
 - (2) the Authority shall provide sufficient information, certification, documentation and other reasonable assistance as may be necessary to support the application for the requested variation.
- f. Where the Authority determines that it is best placed to make such request the Contractor shall provide sufficient information, certification, documentation and other reasonable assistance as may be necessary to support the Authority to make the application for the requested variation.
- g. Where the Authority invokes clause 33.e or 33.f the Authority will pay the Contractor a fair and reasonable charge for this service based on the cost of providing it.
- h. Where the Contractor subcontracts work under the Contract, which is likely to be subject to foreign export control, import control or both the Contractor shall use reasonable endeavours to incorporate in each subcontract equivalent obligations to those set out in this Condition. Where it is not possible to include equivalent terms to those set out in this Condition, the Contractor shall report that fact and the circumstances to the Authority.
- i. Without prejudice to HM Government's position on the validity of any claim by a foreign government to extra-territoriality, the Authority shall provide the Contractor with sufficient information, certification, documentation and other reasonable assistance to facilitate the granting of export licences or import licences or authorisations by a foreign Government in respect of the performance of the Contract.
- j. The Authority shall provide such assistance as the Contractor may reasonably require in obtaining any UK export licences necessary for the performance of the Contract.
- k. The Contractor shall use reasonable endeavours to identify whether any Contractor Deliverable is subject to:

- (1) a non-UK export licence, authorisation or exemption; or
- (2) any other related transfer or export control,

that imposes or will impose end use, end user or re-transfer or re-export restrictions, or restrictions on disclosure to individuals based upon their nationality. This does not include the Intellectual Property-specific restrictions of the type referred to in Condition 34 (Third Party Intellectual Property – Rights and Restrictions).

l. If at any time during the term of the Contract the Contractor becomes aware that all or any part of the Contractor Deliverables are subject to clause 33.k.(1) or 33.k.(2), they shall notify the Authority of this as soon as reasonably practicable by providing details in the DEFFORM 528 or other mutually agreed alternative format. Such notification shall be no later than thirty (30) days of knowledge of any affected Contractor Deliverable and in any event such notification shall be not less than thirty (30) days prior to delivery of the Contractor Deliverables.

m. If the information to be provided under clause 33.l has been provided previously to the Authority by the Contractor under the Contract, the Contractor may satisfy these requirements by giving details of the previous notification and confirming they remain valid and satisfy the provisions of clause 33.l.

n. During the term of the Contract, the Contractor shall notify the Authority as soon as reasonably practicable of any changes in the information notified previously under clauses 33.l or 33.m of which they become or are aware that would affect the Authority's ability to use, disclose, re-transfer or re-export an item or part of it as is referred to in those clauses by issuing an updated DEFFORM 528 to the Authority.

o. For a period of up to 2 years from completion of the Contract and in response to a specific request by the Authority, the Contractor shall notify the Authority as soon as reasonably practicable of any changes in the information notified previously under clause 33.l or 33.m of which they become aware that would affect the Authority's ability to use, disclose, re-transfer or re-export an item or part of it as is referred to in those clauses by issuing an updated DEFFORM 528 to the Authority.

p. Where following receipt of materiel from a Subcontractor or any of their other suppliers restrictions are notified to the Contractor by that Subcontractor, supplier or other third party or are identified by the Contractor, the Contractor shall immediately inform the Authority by issuing an updated DEFFORM 528. Within [X] days of such notification, the Contractor shall propose to the Authority actions to mitigate the impact of such restrictions. Such proposals may include, where appropriate, mutually supported attempts to obtain removal or modification to the restrictions or to obtain appropriate authorisations from the relevant foreign government. The Authority shall notify the contractor within [X] days of receipt of a proposal whether it is acceptable and where appropriate the Contract shall be modified in accordance with its terms to implement the proposal.

q. If the restrictions prevent the Contractor from performing their obligations under the Contract and have not been removed, modified or otherwise satisfactorily managed within a reasonable time, the Authority may at its absolute discretion elect to amend the contract in accordance with Condition 6 or as otherwise may be provided by the Contract, or to terminate the Contract. Except as set out in clause 33.r, in the event of termination in these circumstances termination shall be on fair and reasonable terms having regard to all the circumstances including payments already made and that would otherwise be due under the Contract, costs incurred by the Contractor and benefits received by the Authority. The Parties, acting in good faith, will use all reasonable endeavours to

agree such fair and reasonable terms failing which either Party may refer the matter to dispute resolution in accordance with the provisions in the Contract.

r. In the event that the restrictions notified to the Authority pursuant to clause 33.l were known or ought reasonably have been known by the Contractor (but were not disclosed) at contract award or if restrictions notified to the Authority pursuant to clauses 33.n or 33.p were known or ought reasonably to have been known by the Contractor at the date of submission of the most recent DEFFORM 528 submitted to the Authority in accordance with clause 33.l, termination under clause 33.q will be in accordance with Condition 43 (Material Breach) and the provisions of clause 33.v will not apply.

s. The Authority shall use reasonable endeavours to identify any export control restrictions applying to materiel to be provided to the Contractor as Government Furnished Assets (GFA). Where the Authority is to provide materiel necessary to enable the Contractor to perform the Contract or in respect of which the Services are to be provided, and that materiel is subject to a non-UK export licence, authorisation, exemption or other related transfer or export control as described in the provisions of clause 32.k, the Authority shall provide a completed DEFFORM 528 or will provide a new or updated DEFFORM 528 to the Contractor within thirty (30) days of the date of knowledge and in any case not later than thirty (30) days prior to the delivery of such materiel to the Contractor.

t. In the event that the Authority becomes aware that the DEFFORM 528 disclosure was incomplete or inaccurate or in the event additional such materiel is identified then the Authority shall provide, as soon as reasonably practicable a new or revised DEFFORM 528. In the event that the Authority becomes aware that a prior disclosure included in DEFFORM 528 submitted to the Contractor was incomplete or inaccurate less than thirty (30) days prior to the delivery to the Contractor of any material to which the updated or new disclosure relates, the Parties will meet as soon as reasonably practicable to discuss how to mitigate the impact of the incomplete or inaccurate disclosure.

u. Where:

- (1) restrictions are advised by the Authority to the Contractor in a DEFFORM 528 provided pursuant to clauses 33.s or 33.t or both; or
- (2) any of the information provided by the Authority in any DEFFORM 528 proves to be incorrect or inaccurate;

the Authority and the Contractor shall act promptly to mitigate the impact of such restrictions or incorrect or inaccurate information. Such mitigation shall include, where appropriate, mutually supported attempts to obtain removal or modification to the restrictions or to obtain appropriate authorisations from the relevant foreign government. If the restrictions or incorrect or inaccurate information adversely affect the ability of the Contractor to perform their obligations under the Contract, the matter shall be handled under the terms of Condition 6 (Formal Amendments to the Contract) or as may otherwise be provided by the Contract as appropriate and if no alternative solution satisfies the essential terms of the Contract and the restrictions have not been removed, modified or otherwise satisfactorily managed within a reasonable time the Authority may terminate the Contract. Termination under these circumstances will be under the terms of Condition 42 (Termination for Convenience) and as referenced in the Contract.

v. Pending agreement of any amendment of the Contract as set out in clause 33.q or 33.u, provided the Contractor takes such steps as are reasonable to mitigate the impact, the Contractor shall be relieved from their obligations to perform those elements of the Contract directly affected by the restrictions or provision of incorrect or incomplete information.

34. Third Party Intellectual Property – Rights and Restrictions

a. The Contractor and, where applicable any Subcontractor, shall promptly notify the Authority as soon as they become aware of:

- (1) any invention or design the subject of patent or registered Design Rights (or application thereof) owned by a third party which appears to be relevant to the performance of the Contract or to use by the Authority of anything required to be done or delivered under the Contract;
- (2) any restriction as to disclosure or use, or obligation to make payments in respect of any other intellectual property (including technical Information) required for the purposes of the Contract or subsequent use by the Authority of anything delivered under the Contract and, where appropriate, the notification shall include such Information as is required by Section 2 of the Defence Contracts Act 1958;
- (3) any allegation of infringement of intellectual property rights made against the Contractor and which pertains to the performance of the Contract or subsequent use by the Authority of anything required to be done or delivered under the Contract.

clause 34.a does not apply in respect of Contractor Deliverables normally available from the Contractor as a Commercial Off The Shelf (COTS) item or service.

b. If the Information required under clause 34.a has been notified previously, the Contractor may meet their obligations by giving details of the previous notification.

c. For COTS Contractor Deliverables patents and registered designs in the UK, in respect of any question arising (by way of an allegation made to the Authority or Contractor, or otherwise) that the manufacture or provision under the Contract of Contractor Deliverables normally available from the Contractor as a COTS item or service is an infringement of a UK patent or registered design not owned or controlled by the Contractor or the Authority, the Contractor shall, subject to the agreement of the third party owning such patent or registered design, be given exclusive conduct of any and all negotiations for the settlement of any claim or the conduct of any litigation arising out of such question. The Contractor shall indemnify the Authority, its officers, agents and

employees against any liability and cost arising from such allegation. This Condition shall not apply if:

- (1) the Authority has made or makes an admission of any sort relevant to such question;
- (2) the Authority has entered or enters into any discussions on such question with any third party without the prior written agreement of the Contractor;
- (3) the Authority has entered or enters into negotiations in respect of any relevant claim for compensation in respect of Crown Use under Section 55 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949;
- (4) legal proceedings have been commenced against the Authority or the Contractor in respect of Crown Use, but only to the extent of such Crown Use that has been properly authorised.

d. The indemnity in clause 34.c does not extend to use by the Authority of anything supplied under the Contract where that use was not reasonably foreseeable at the time of the Contract.

e. In the event that the Authority has entered into negotiation in respect of a claim for compensation, or legal proceedings in respect of the Crown Use have commenced, the Authority shall forthwith authorise the Contractor for the purposes of performing the Contract (but not otherwise) to utilise a relevant invention or design in accordance with Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949 and to use any model, document or information relating to any such invention or design which may be required for that purpose.

f. For all other Contractor Deliverables patents and registered designs in the UK, if a relevant invention or design has been notified to the Authority by the Contractor prior to the Effective Date of Contract, then unless it has been otherwise agreed, under the provisions of Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949, the Contractor is hereby authorised to utilise that invention or design, notwithstanding the fact that it is the subject of a UK Patent or UK Registered Design, for the purpose of performing the Contract.

g. If, under clause 34.a, a relevant invention or design is notified to the Authority by the Contractor after the Effective Date of Contract, then:

- (1) if the owner (or its exclusive licensee) takes or threatens in writing to take any relevant action against the Contractor, the Authority shall issue to the Contractor a written authorisation in accordance with the provisions of Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949, and
- (2) in any event, unless the Contractor and the Authority can agree an alternative course of action, the Authority shall not unreasonably delay the issue of a written authorisation in accordance with the provisions of Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949.

h. The Authority shall assume all liability and shall indemnify the Contractor, their officers, agents and employees against liability, including the Contractor's costs, as a result of infringement by the Contractor or their suppliers of any patent, utility model, registered design or like protection outside the United Kingdom in the performance of the Contract when such infringement arises from or is incurred by reason of the Contractor following any specification, statement of work or instruction in the Contract or using, keeping or disposing of any item given by the Authority for the purpose of the Contract in accordance with the Contract.

i. The Contractor shall assume all liability and shall indemnify the Authority, its officers, agents and employees against liability, including the Authority's costs, as a result of infringement by the Contractor or their suppliers of any patent, utility model, registered design or like protection outside the UK in the performance of the Contract when such infringement arises from or is incurred otherwise than by reason of the Contractor following any specification, statement of work or instruction in the Contract or using, keeping or disposing of any item given by the Authority for the purpose of the Contract in accordance with the Contract.

j. The Contractor shall not be entitled to any reimbursement of any royalty, licence fee or similar expense incurred in respect of anything to be done under the Contract, where:

- (1) a relevant discharge has been given under Section 2 of the Defence Contracts Act 1958, or relevant authorisation in accordance with Sections 55 or 57 of the Patents Act 1977, Section 12 of the Registered Designs Act 1949 or Section 240 of the Copyright, Designs and Patents Act 1988 in respect of any intellectual property; or
- (2) any obligation to make payments for intellectual property has not been promptly notified to the Authority under clause 34.a.

k. Where authorisation is given by the Authority under clause 34.e, 34.f or 34.g, to the extent permitted by Section 57 of the Patents Act 1977, Section 12 of the Registered Designs Act 1949 or Section 240 of the Copyright, Designs and Patents Act 1988, the Contractor shall also be:

- (1) released from payment whether by way of royalties, licence fees or similar expenses in respect of the Contractor's use of the relevant invention or design, or the use of any relevant model, document or information for the purpose of performing the Contract; and
- (2) authorised to use any model, document or information relating to any such invention or design which may be required for that purpose.

l. The Contractor shall assume all liability and indemnify the Authority and its officers, agents and employees against liability, including costs as a result of:

- (1) infringement or alleged infringement by the Contractor or their suppliers of any copyright, database right, Design Right or the like protection in any part of the world in respect of any item to be supplied under the Contract or otherwise in the performance of the Contract;
- (2) misuse of any confidential information, trade secret or the like by the Contractor in performing the Contract;

- (3) provision to the Authority of any Information or material which the Contractor does not have the right to provide for the purpose of the Contract.
- m. The Authority shall assume all liability and indemnify the Contractor, their officers, agents and employees against liability, including costs as a result of:
- (1) infringement or alleged infringement by the Contractor or their suppliers of any copyright, database right, Design Right or the like protection in any part of the world in respect of any item provided by the Authority for the purpose of the Contract but only to the extent that the item is used for the purpose of the Contract;
 - (2) alleged misuse of any confidential Information, trade secret or the like by the Contractor as a result of use of Information provided by the Authority for the purposes of the Contract, but only to the extent that Contractor's use of that Information is for the purposes intended when it was disclosed by the Authority.
- n. The general authorisation and indemnity is:
- (1) clauses 34.a – 34.m represents the total liability of each Party to the other under the Contract in respect of any infringement or alleged infringement of patent or other Intellectual Property Right (IPR) owned by a third party;
 - (2) neither Party shall be liable, one to the other, for any consequential loss or damage arising as a result, directly or indirectly, of a claim for infringement or alleged infringement of any patent or other IPR owned by a third party;
 - (3) a Party against whom a claim is made or action brought, shall promptly notify the other Party in writing if such claim or action appears to relate to an infringement which is the subject of an indemnity or authorisation given under this Condition by such other Party. The notification shall include particulars of the demands, damages and liabilities claimed or made of which the notifying Party has notice;
 - (4) the Party benefiting from the indemnity or authorisation shall allow the other Party, at its own expense, to conduct any negotiations for the settlement of the same, and any litigation that may arise therefrom and shall provide such information as the other Party may reasonably require;
 - (5) following a notification under clause 34.n.(3), the Party notified shall advise the other Party in writing within thirty (30) Business Days whether or not it is assuming conduct of the negotiations or litigation. In that case the Party against whom a claim is made or action brought shall not make any statement which might be prejudicial to the settlement or defence of such a claim without the written consent of the other Party;
 - (6) the Party conducting negotiations for the settlement of a claim or any related litigation shall, if requested, keep the other Party fully informed of the conduct and progress of such negotiations.
- o. If at any time a claim or allegation of infringement arises in respect of copyright, database right, Design Right or breach of confidence as a result of the provision of any Contractor Deliverable by the Contractor to the Authority, the Contractor may at their own expense replace the item with an item of equivalent functionality and performance so as to avoid infringement or breach. The Parties will co-operate with one another to mitigate any claim or damage which may arise from use of third party IPR.
- p. Nothing in Condition 34 shall be taken as an authorisation or promise of an authorisation under Section 240 of the Copyright, Designs and Patents Act 1988.
- q. Notwithstanding any other provisions of the Contract and for the avoidance of doubt, award of the Contract by the Authority and placement of any contract task under it does not constitute an authorisation by the Crown under Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949. The Contractor acknowledges that any such authorisation by the Authority under its statutory powers must be expressly provided in writing, with reference to the acts authorised and the specific intellectual property involved.
- Notification of Intellectual Property Rights (IPR) Restrictions**
- r. Where any of the conditions listed below (1 to 3) have been added to the Conditions of the Contract as project specific DEFCONs at Clause 45, or where required by Clauses 34.a. - 34.q., the Contractor warrants and confirms that all Intellectual Property Rights restrictions and associated export restrictions relating to the use or disclosure of the Contractor Deliverables that are notifiable under those Conditions, or of which the Contractor is or should reasonably be aware as at Effective Date of Contract, are disclosed in Schedule 10 (Notification of Intellectual Property Rights (IPR) Restrictions).

- t. Any amendment to Schedule 10 shall be made in accordance with Condition 6.

Pricing and Payment

35.Contract Price

- a. The Contractor shall provide the Contractor Deliverables to the Authority at the Contract Price. The Contract Price shall be a Firm Price unless otherwise stated in Schedule 3 (Contract Data Sheet).
- b. Subject to clause 35.a the Contract Price shall be inclusive of any UK custom and excise or other duty payable. The Contractor shall not make any claim for drawback of UK import duty on any part of the Contract Deliverables supplied which may be for shipment outside of the UK.

36.Payment and Recovery of Sums Due

- a. Payment for Contractor Deliverables will be made by electronic transfer and prior to submitting any claims for payment under clause 36.b the Contractor will be required to register their details (Supplier on-boarding) on the Contracting, Purchasing and Finance (CP&F) electronic procurement tool.
- b. Where the Contractor submits an invoice to the Authority in accordance with clause 36.a, the Authority will consider and verify that invoice in a timely fashion.
- c. The Authority shall pay the Contractor any sums due under such an invoice no later than a period of 30 days from the date on which the Authority has determined that the invoice is valid and undisputed.
- d. Where the Authority fails to comply with clause 36.a and there is undue delay in considering and verifying the invoice, the invoice shall be regarded as valid and undisputed for the purpose of clause 36.c after a reasonable time has passed.
- e. The approval for payment of a valid and undisputed invoice by the Authority shall not be construed as acceptance by the Authority of the performance of the Contractor's obligations nor as a waiver of its rights and remedies under the Contract.
- f. Without prejudice to any other right or remedy, the Authority reserves the right to set off any amount owing at any time from the Contractor to the Authority against any amount payable by the Authority to the Contractor under the Contract or under any other contract with the Authority, or with any other Government Department.

37. Value Added Tax

- a. The Contract Price excludes any UK output Value Added Tax (VAT) and any similar EU (or non-EU) taxes chargeable on the supply of Contractor Deliverables by the Contractor to the Authority.
- b. If the Contractor is required by UK VAT law to be registered for UK VAT (or has registered voluntarily) in respect of their business activities at the time of any supply, and the circumstances of any supply are such that the Contractor is liable to pay the tax due to HM Revenue and Customs (HMRC), the Authority shall pay to the Contractor in addition to the Contract Price (or any other sum due to the Contractor) a sum equal to the output VAT chargeable on the tax value of the supply of Contractor Deliverables, and all other payments under the Contract according to the law at the relevant tax point.
- c. The Contractor is responsible for the determination of VAT liability. The Contractor shall consult their Client Relationship Manager or the HMRC Enquiries Desk (and not the Authority's Representative (Commercial)) in cases of doubt. The Contractor shall notify the Authority's Representative (Commercial) of the Authority's VAT liability under the Contract, and any changes to it, within twenty (20) Business Days of becoming aware the liability is other than at the standard rate of VAT. In the event of any doubt about the applicability of the tax in such cases, the Authority may require the Contractor to obtain, and pass to the Authority, a formal ruling from HMRC. The Contractor shall comply promptly with any such requirement. Where the Contractor obtains a ruling from HMRC, they shall supply a copy to the Authority within three (3) Business Days of receiving that ruling unless they propose to challenge the ruling. Where the Contractor challenges the ruling they shall supply to the Authority a copy of any final decisions issued by HMRC on completion of the challenge within three (3) Business Days of receiving the decision.
- d. Where supply of Contractor Deliverables comes within the scope of UK VAT, but the Contractor is not required by UK VAT law to be registered for UK VAT (and has not registered voluntarily), the Authority shall be responsible for assessing and paying over directly to HMRC any UK output VAT due in respect of the Contractor Deliverables. The Contractor shall be responsible for ensuring they take into account any changes in VAT law regarding registration.
- e. Where Contractor Deliverables are deemed to be supplied to the Authority outside the UK, the Contractor may be required by the laws of the country where the supply takes place to register there for EU (or non-EU) turnover or similar tax. Authority Changes

- 1.The Authority shall be entitled to propose any change to the Contract (a " Change") or (subject to Clause 2) Changes in accordance with this Schedule 4.
- 2.Nothing in this Schedule shall operate to prevent the Authority from specifying more than one Change in any single proposal, provided that such changes are related to the same or similar matter or matters.

Notice of Change

- 3.If the Authority wishes to propose a Change or Changes, it shall serve a written notice (an "Authority Notice of Change") on the Contractor.
- 4.The Authority Notice of Change shall set out the Change(s) proposed by the Authority in sufficient detail to enable the Contractor to provide a written proposal (a "Contractor Change Proposal") in accordance with clauses 7 to 9 (inclusive).
- 5.The Contractor may only refuse to implement a Change or Changes proposed by the Authority, if such change(s):
 - a.would, if implemented, require the Contractor to deliver any Contractor Deliverables under the Contract in a manner that infringes any applicable law relevant to such delivery; and/or
 - b.would, if implemented, cause any existing consent obtained by or on behalf of the Contractor in connection with their obligations under the Contract to be revoked (or would require a new necessary consent to be obtained to implement the Change(s) which, after using reasonable efforts, the Contractor has been unable to obtain or procure and reasonably believes it will be unable to obtain or procure using reasonable efforts); and/or
 - c.would, if implemented, materially change the nature and scope of the requirement (including its risk profile) under the Contract;

and:

 - d.the Contractor notifies the Authority within 10 (ten) Business Days (or such longer period as shall have been agreed in writing by the parties) after the date of the Authority Notice of Change that the relevant proposed Change or Changes is/are a Change(s) falling within the scope of Clauses 5.a, 5.b and/or 5.c providing written evidence for the Contractor's reasoning on the matter; and
 - e.further to such notification:
 - (1) either the Authority notifies the Contractor in writing that the Authority agrees, or (where the Authority (acting reasonably) notifies the Contractor that the Authority disputes the Contractor's notice under Clause 5.d) it is determined in accordance with Condition 40 (Dispute Resolution), that the relevant Change(s) is/are a Change(s) falling within the scope of Clauses 5.a, 5.b and/or 5.c; and
 - (2) (where the Authority either agrees or it is so determined that the relevant Change(s) is/are a Change(s) falling within the scope of Clauses 5.a, 5.b and/or 5.c) the Authority fails to make sufficient adjustments to the relevant Authority Notice of Change (and issue a revised Authority Notice of Change) to remove the Contractor's grounds for refusing to implement the relevant Change under Clauses 5.a, 5.b and/or 5.c within 10 (ten) Business Days (or such longer period

as shall have been agreed in writing by the parties) after:

- i) the date on which the Authority notifies in writing the Contractor that the Authority agrees that the relevant Change(s) is/are a Change(s) falling within the scope of Clauses 5.a, 5.b and/or 5.c); or
- ii) the date of such determination.

6. The Contractor shall at all times act reasonably, and shall not seek to raise unreasonable objections, in respect of any such adjustment.

Contractor Change Proposal

7. As soon as practicable, and in any event within:

- a. (where the Contractor has not notified the Authority that the relevant Change or Changes is/are a Change(s) falling within the scope of Clauses 5.a, 5.b and/or 5.c in accordance with Clause 5) fifteen (15) Business Days (or such other period as the Parties agree (acting reasonably) having regard to the nature of the Change(s)) after the date on which the Contract shall have received the Authority Notice of Change; or

(2) the Authority has disputed such conclusion and it has been determined in accordance with Condition 40 (Dispute Resolution) that the relevant Change(s) is/are not a Change(s) falling within the scope of Clauses 5.a, 5.b and/or 5.c) fifteen (15) Business Days (or such other period as the parties shall have agreed (both parties acting reasonably) having regard to the nature of the Change(s)) after the date of such determination,

the Contractor shall deliver to the Authority a Contractor Change Proposal. 11.As soon as practicable after the Authority has evaluated the Contractor Change Proposal (amended as necessary) the Authority shall:

Schedule 10 – Statement of Requirements

STATEMENT OF REQUIREMENT for PROVISION OF GUIDED PHYSICAL PREPARATION FOR ROYAL NAVY (RN) AND ROYAL MARINE (RM) CANDIDATES

Introduction

The Authority (Royal Navy Recruit and Attract) requires a solution to better enable and guide the physical preparation of candidates for entry into the Royal Navy (RN) and Royal Marines (RM) so that physical fitness failures and MSKI incidence in early weeks training can be reduced.

Any solution must reach a nationally dispersed audience of up to 8,000 candidates aged 16 to 38 in any one calendar year who may or may not have access to digital and web-based services and provide them with bespoke guidance that complies with the 9 protected characteristics legislation.

Minimum levels of acceptable support must be accessible 24 hours a day to meet the demands of all candidates and be tailored towards Officer and Rating career paths for all Branches of the RN/RM.

The aim of the Solution is to increase the number of candidates who meet the minimum levels of fitness for entry in the RN and RM and reduce the number of physical failures during the early weeks of New Entry Training at the respective centres: Britannia Royal Naval College (BRNC), HMS RALEIGH and the Commando Training Centre Royal Marines (CTCRM)¹. The solution will also mitigate risk to life activity during physical assessment serials.

Success will be measured against key physical assessment milestones along respective RN and RM candidate pipelines; predominantly at points where a “fit to proceed” policy is in place.

The contract must commence November 2023 and will cease October 25, with 4 x 6-month options to extend ending 31 October 2027.

Background

All candidates who aspire to join the RN and RM are subject to a rigorous multi-stage application process and must meet specific standards if they wish to enter the Service. In any one calendar year there are approximately 45,000 individual applications to join the Service which gradually distils down to approximately 4,500 new entrants a year. All must meet exacting physical standards but these standards will vary depending on whether a candidate is entering the RN as either an Officer (Commissioned) or Rating (non-Commissioned) or joining the RM as an Officer (Commissioned) or as a member of the General Service (GS) (non-Commissioned).

The length of time a candidate spends in the pipeline can vary significantly and depends on the broadest set of variables including: chosen career path and Branch, medical background, and critically individual proactivity to complete each stage of the selection process as quickly as possible. Candidates can spend as little as 3 months and up to 3 years in the pipeline. However, the current average time from application to date of entry is approx. 6 months.

Candidates commencing training at any one of the New Entry Training Schools (NETS), will be subject to confirmatory fitness assessments on the first day or very soon after their first day of training.

¹ Collectively referred to as NETS: New Entry Training Schools.

At CTCRM RMGS candidates enter a 4-week induction and integration period known as The Recruit Orientation Phase (ROP) once they have successfully completed the recruitment process. On Day one they conduct the Multi-Stage Fitness Test (MSFT) to Level 10.5 and must pass to proceed. Individuals who fail are removed from training, provided remedial advice and given a 3-month return date.

Candidates then undergo a 4-week graduated training programme at the end which they undertake a fitness assessment.

Candidates must pass this to proceed into mainstream. If they fail, they re-commence the 4-week ROP before being re-tested. If they do not pass on the second attempt they are withdrawn from training.

All RM and RN candidate physical assessment activities apply Universal Training Precautions (UTP) and are sub-maximal in nature; they are designed to mitigate candidates from exertional collapse. A Pace-Pass-Stop methodology is adopted, and once candidates reach minimum levels of fitness the assessment activity ceases.

There is clear correlation between candidate fitness levels on entry and: time spent in training, Muscular Skeletal Injury Incidence rate and overall training success. The fitter and more conditioned a candidate is the day they commences training, the more likely they are to complete training in the shortest possible time (which saves cost and resource) and the less likely they are to sustain a significant MSKI. Effective and coherent physical preparation of candidates prior to entry is therefore key with standardised guided preparation optimising

Requirement and Deliverables

The Authority requires a fitness and conditioning solution that will:

1. Increase the flow of physically fit candidates into RN NETS
2. Reduce physical failures and therefore wastage in early weeks training
3. Reduce the incidence of MSKI in NETS Phase one training

The solution must:

1. **Increase first time success rates** of all candidate physical fitness assessments across all recruiting journeys year on year. Current rates 80% success rate for the RN fitness assessment and 71% for the RM CPC fitness assessment.
2. **Maintain candidate fitness to pass into service once achieved.** Candidates may pass the required physical assessments of the recruiting process several months prior to their training commencement date. It is essential that candidates physical fitness and preparedness to commence training is maintained up to the entry into Service.
3. **Have National reach.** As an equitable employer, the RN must ensure every candidate has access to the same levels of support regardless of where they reside in the UK. Candidates should have access to elements of virtual one-to-one support 24 hours a day to offer maximum flexibility and accommodate all working patterns of current employment or domestic demands. Once established the solution must be run independently; it cannot rely on access to RN or RM personnel.
4. **Support all Candidates.** Support must be independent of how long a candidate has been in the pipeline. Instead, the support should be dependent on at what stage they are at on their individual recruiting journey. The solution must be able to support all active candidates in the RN/RM recruitment process (up to around 8000 at any one time).

5. **Provide one-to-one candidate mentoring.** The solution must provide on demand one-to-one training support for candidates. It is not sufficient to provide an application that candidates can choose not to engage with. The solution must track and positively encourage engagement and use by the candidate.
6. **Transcend digital poverty.** The solution should be web or app based but allow for the provision of face to face support if and where required. Candidates must be able to access support with or without technology and the solution should not require the provision of any IT hardware or software by the Authority.
7. **Be visually representative of the RN and RM.** The solution must be branded and designed for the RN and RM: It must be "White Labelled". Any digital elements must carry RN or RM branding and content.
8. **Meet gender, age and branch specific training requirements** All Branches of the Armed Forces are open to males and females. Candidates also range in age from 16 to 38 for the RN and 16 to 32 for the RM. Physical development needs of individuals however differs depending on age and sex so the Solution must be optimised to meet the needs of each user. Current physical assessments and pass criteria are as per Annexes to the SOR.
9. **Be adaptable to changing/future fitness requirements.** The Royal Navy reserves the right to adjust physical fitness entry standards. It is essential that the solution keeps pace with these changes and remains relevant in its ability to train candidates to meet these requirements.

Training Requirements

A user guide for any platform-based elements of the supplier's solution should be provided for both Authority personnel and candidate users. However, a plug and play methodology should be the founding principle of any solution.

Milestones

The solution must be in place until 31 March 2025.

A soft launch to a test cohort should be released.

A performance review should occur every 6 months against specified Key Performance Indicators.

From 31 October 2025 there are 34 x 6-month options to extend ending to 31 October 2027

Locations

The solution should not be dependent on access to or the location of RN or RM establishments. It is at the supplier's discretion whether they use 3rd party facilities or locations to deliver their solution and any associated costs will be at the supplier's responsibility.

Software

Any software used by the Supplier will be owned, managed and governed by the supplier.

There is no requirement for it to interface with MoD software, IT application or platform.

The Supplier is to ensure that support for the solution is maintained throughout the life of the contract, ensuring it remains compatible with all operating systems and devices, now and future, to retain full functionality.

IPR

The Supplier will own the IPR of their Solution.

All content developed by the Supplier using Service locations, personnel, imagery or branding will be subject to Crown copyright law.

Governance

The Supplier is to:

1. Provide a dedicated project manager throughout the contract.
2. Contribute to design and development meetings initially on a minimum of fortnightly basis; to be reviewed at the 3-month point of delivery.
3. Communicate with each candidate online or where required in person to ensure the solution is delivered effectively and equitably across the national footprint
4. Produce a monthly report to the Customer, to include details on any technical issues affecting delivery, candidate usage and candidate survey feedback
5. Supplier Staff, in application of the contract, must comply with the following legislation:
 - a. Human Rights Act 1988
 - b. Equality Act 2010
 - c. Children Act 1989
 - d. Data Protection Act 2018 and GDPR.

Acceptance

There must be a User trial prior to acceptance, conducted by the Supplier and with the ability of the Authority to review. The trial should include:

1. A demonstration of the User experience at three key stages of physical assessment along the candidate journey: prior to any recruitment process physical assessment; prior to CPC and prior to entry.
2. Feedback from a sample of the User cohort. The feedback should include Likert grading on questions agreed between the Supplier and the Authority and scores must reach levels agreed between the Supplier and Authority

Performance Management

The Supplier's Solution will be measured against the agreed KPIs outlined in Annex C to the SOR.

Government Furnished Assets

There is no requirement for the supplier to be provided with any government furnished assets throughout the lifetime of the solution.

Security

Suppliers may be required to visit MoD establishments to develop the Solution and create content online content. Supplier will not require any special clearances as they will be hosted and escorted at all times. The supplier will be exposed to Official classified material only.

Personal Data

The supplier solution should operate a closed system. Personal data exchange between the Supplier and the Authority will be limited to URN and the Authority will provide the Supplier with a list of active URNs on a fortnightly basis.

Candidates will register with the Supplier using their URN.

The Supplier will be responsible for managing user personal data in accordance with GDPR and the Data Protection Act 2018.

The Supplier will provide fortnightly performance reports using URN identifiers. The reports will determine candidate levels of engagement and readiness for each of the 3 stages of physical assessment.

Please see DEFFORM 532 (Edn 10/19) Personal Data Particulars at Annex D to the Contract.

Quality & Standards

All supplier physical training instructors must be accredited to a UK recognised governing body. It is expected that instructors should be qualified to MVQ L2 as a minimum.

Health & Safety

The Supplier's solution must comply with HSE legislation.

Due to the requirement to work with minors; the Supplier must meet DBS requirements across all elements of their solution

Implementation

There is no existing contract. The supplier needs to be on contract ASAP, ready to deliver services from Jan 24.

Exit

At the end of contract service provision will cease. Royal Navy and Royal Marines recruiting is due to be absorbed within the tri-Service Armed Forces Recruiting programme and single Service pipeline processes and activities will be standardised. Transition dates may slip as this project progresses hence the requirement for options to extend the contract.

All supplier engagement with users beyond the end of contract date must not be on behalf of the RN or RM. It is up to the Supplier whether they wish to continue providing a service to RN and RM users but this must be agreed directly between the supplier and the individual.

Final registration of candidates will be 1-month prior to the end of the contract period.

Swimming - PJST (pass/fail event) - Requires all candidates to enter the pool unaided, swim 50m without touching the bottom or sides of the pool, then climb out of the pool unaided without using the steps; all elements must be conducted within 4 minutes. This test is conducted in a 33m swimming pool and candidates will wear their own swimwear.

The 50m swim element must be conducted within 4 minutes and is conducted in a 33m swimming pool. The below table defines the level of fitness candidates demonstrate when completing the 2.4km run/MSFT while attending RN CPC. The notes below provide guidance on what actions should be taken to ensure appropriate CRM, dependent on performance.

Notes:

Inclement Weather: Should the 2.4km run be unable to take place due to inclement weather, candidates will undertake the MSFT, required standards can be found in the above table.

RNFT Pass/MSFT Pass: The candidate is to be congratulated and advised to maintain their fitness regime. All diver candidates must achieve this standard as a **minimum**.

PJFT Pass (+10%)/MSFT Pass (+1 Lvl): The candidate is to be advised that while they are doing adequately they will have to improve their fitness before they pass out of Phase 1 training and should strongly consider increasing their exercise routine so their run time improves by up to 10%.

RNFA Pass (+25%)/MSFT Pass (+2 Lvl): The candidate must be instructed to improve their fitness and to take full opportunity of the time between attending CPC and joining. They must follow a healthy regime of diet and exercise in accordance with '[Get Fit To Join](#)' and '[My Fitness Plan](#)'. The candidate must be warned their fitness has deteriorated since completing the PJFT and that if they do not take exercise and fitness seriously, they are at risk of failing Phase 1 training at a very early stage.

Fail: If a candidate completes the 2.4km run/MSFT outside of the required **RNFA Pass (+25%)/MSFT Pass (+2 Lvl)** standard, the candidate will fail CPC and be rejected or deferred until they have passed PJFT and re-attended CPC. They must complete these elements before they receive their confirmed offer of a joining date. The candidate must be warned their fitness has significantly deteriorated since originally completing the PJFT and that if they do not take exercise and fitness seriously, it is highly likely their entry date will be delayed and, ultimately, they are at risk of failing to meet the entry standards and having their application rejected.

Diver Candidates: All diver candidates attending CPC will have passed PJFT+. A higher standard of fitness is essential if a recruit is to be successful at Potential Divers Assessment (post Phase 1) and on the subsequent diver training. Therefore, diver candidates must be identified and must complete the RNFT, as opposed to the RNFA, utilising Polar HR Equipment, should they not meet the RNFT time, they will fail CPC and be rejected or deferred.

NOTE: The RNFA/MSFT timings in the table above are not to be disclosed to candidates. They are a minimum standard for commencing Phase 1 training, not a target.

Annex B to SOR: Example of Recent Fitness Assessment (Royal Marines Pre Joining Fitness Test Plus Requirements)

PJFT+
The PJFT+ is a continuous circuit that is made up of four exercises, 3 sets for OR Candidates and 4 sets for Officer Candidates. Followed by 5 reps of Pull-ups after a 2 min rest.
Exercise 1 - Burpees - Repetitions x 20
1. From the standing start position with feet together and hands by the side, and head up eyes looking forward, the Candidate will squat down so the hands are either side of the feet with knees bent and together with the glutes as close to the ankles as possible. 2. Both feet jump back together at speed into a press-up start position, head looking slightly forward with back and hips straight. 3. The feet then return at speed to the squat position, knees bent and together. 4. Standing up to finish. Point to note: One complete repetition is as follows and is to be done as per the audio timing. 1-2-3-4 = 1 1-2-3-4 = 2 1-2-3-4 = 3 etc...finishing on 1-2-3-4 = 20 and then moving onto Sit-Ups. Key Form points to note as the candidate fatigues: 1. Ensure candidates perform the 4 distinct movements throughout, they tend to merge the movements of 1 & 2 or 3 & 4 into an almost single movement when and as they fatigue. 2. Ensure full extension to the rear of the feet on movement 2, throughout the 20 reps, again when fatigued the legs either, don't extend fully, there is a gradual bending at the knees, hips and lower back are not engaged into a flat position (the backside is pushed upward or an arch in the back develops). 3. Breathing can become uncontrolled and standing up straight as well as the leg extension can become uncoordinated as the candidate struggles to engage the core.
Exercise 2 - Sit-Ups - Repetitions x 30
The exercises will be conducted to the <i>bleep</i> and are performed once the Burpees have been completed. The feet are fixed in place, by a fixed support or a partner holding the ankles in place. 1. Start position - Knees bent and held together, head and shoulders resting on the floor with fingers touching the temples with elbows bent. 2. <i>Bleep</i> – Moving a fraction of a second after hearing the bleep, at speed, the elbows close together at the top of the movement and touch the top of the knees on the upward motion, with the fingers in contact with the temples at all times and knees squeezed together throughout. 3. Ensuring there is no rest at the top, you then sit back again at speed to the start position with elbows flat and fingers in contact with the temples. Point to note: This is one repetition. At all times the knees are required to be squeezed together. There is a slight pause once in the start position waiting for the next bleep. Key Form points to note as the candidate fatigues: 1. Candidates will shorten or/and be unable to maintain the pause after/before each repetition.

2. Candidates are unable to maintain the squeeze of their knees or the elbows coming together at the top of the movement.
 3. Candidates will try to gain momentum from elsewhere, instead of the full engagement of the hip flexors to perform the exercise one or a combination of the following will be observed:
 - a. Fingers coming away from the temples on the initial movement.
 - b. Lower back raising off the floor slightly before the movement commences aiding the initial inertia.
 - c. A lack of a pause resulting in one consistent movement.
- A few reps of the above at the end of the 2nd or 3rd sets can still result in a pass, but consistent failure to maintain the pause will result in a fail on this element and a failed attempt of the test.

Exercise 3 - Press – Ups - Repetitions x 20

The exercises will again be conducted to the *bleep* as per the RM technique and be performed immediately once the Sit-Ups have been completed.

1. Start position - Body straight, by engaging the hips, lower back, glutes into a neutral flat position, feet together, hands shoulder-width apart with the head looking to the ground approximately one metre away.
2. *Bleep* – At speed the body drops so the elbows are bent to a **ninety-degree angle** in the lower position before raising up to fully locked out the arms and elbows, keeping the elbows as close as possible to the lats at all times. There will be a slight pause before the next bleep. Chest should be approx. 4 inches from the ground.

Points to Note: You must not rest your knees. Wearing a T-shirt or training top that fits close to the body will aid the accurate counting of press ups.

A rolled small towel that is approximately 4 inches in diameter which is placed in such a way that when you lower your chest, it touches just above the sternum. The towel should run down the midline of your body on the floor – chest to stomach.

Key Form points to note as the candidate fatigues: A close eye on the hip and body position is crucial, failure to maintain for more than 95% of the reps must end in a failed attempt!

1. The candidates may start to arch the lower back and/or push the hips through, showing a clear weakness in this area. This results in either a pivot motion in the hips during the press-up or the hips following up a fraction of a second after the arms have extended at the end of the movement.
2. The glutes are raised in the air from the neutral starting position. Again, showing a weakness in this area, again press-ups are conducted with a pivot motion in the hips, or the hips held high throughout the movement resulting in an easier to conduct exercise
3. Candidates are unable to conduct a complete 90-degree flex of the elbow on each rep; it often starts to present with a turn of the head to one side on the lowering of the body as one of the triceps starts to fatigue.
4. Elbows must remain close to the sides of the body as possible; it is more of a triceps press-up; elbows can start to widen during fatigue as the candidate wants to engage the chest more. Again, resulting in a fail.

Exercise 4 - Plank - Time = 1 Minute

The exercises will last one minute and be performed immediately once the Press-Ups have been completed.

1. Start position – Similar to the Press-Up, the Body and hips are neutral, feet together with elbows shoulder-width apart taking the weight of the body. Head again looking to the ground approximately one metre away.

Point to note – There is to be no movement for the one-minute exercise duration. This should be performed on an exercise mat. Be aware of the hip position before first set commences.

Key Form points to note as the candidate fatigues:

1. Candidates will start to move in the hip and/or shoulder area, this may be subtle to start with, slight rocking or circular motion gradually increasing or the constant need to adjust as if they are “slipping”.
2. Glutes may start to raise, or an arch in the lower back develops (similar to the press-ups). Candidates must be able to maintain the neutral flat start position from the shoulders to the feet at least 95%+ of the duration of the exercise.
3. One or two adjustment may be allowed if they do slip due to sweat or trainers slip on the surface for example, however this must not be mistaken for continued adjustment for weakness in area which must result in a failure on this element.
4. Be vigilant on Candidates not moving the knees away quick enough to the audio or resting the knees a fraction early.

Pull – Ups – Conducted after the PJFT+ - Rest of 2 minutes - Repetitions 5.

Candidates will be given 2 minutes to recover from the PJFT+ exercises, encouraged not to stand still, they can stretch, rehydrate and dry their hands prior to attempting the pull-ups.

The exercise is conducted in time with the bleep on the audio, Candidates must conduct 5 confident reps in order to achieve a pass.

1. Jumping onto the bar or being aided by a boxed platform if required, an overhand grip just slightly wider than shoulder with apart, full extension of the arms a “dead hang” is the initial start point. Legs uncrossed, straight, with the knees and feet squeezed together. Ideally the bar is set high enough the feet clear the ground, if this is unachievable due to equipment available, Candidates may be allowed a bend in the knees to clear the floor.
2. On the first bleep candidates must confidently pull themselves from the dead hang position without any kipping or any swing in the legs or feet. The chin must clear the bar, it must not rest or be in line with the bar.
3. A pause/hold must be maintained in this position before the second bleep to extent is heard.
4. On extension of the arms must be swift but controlled, the Candidate must ensure they return to the dead hang position, with no flex in the arm or engagement of the lats. This is very important; the candidate must be able to have the ability to break the position at the longest part of the lever on each and every rep.

Key Form points to note as the candidate fatigues:

1. Candidates will try to skip or perform more than one single movement as they flex the arms on the initial movement.
2. Candidates are unable to perform the isometric hold at the top of the movement before they hear the bleep to return to the start position.
3. The chin is unable to clear the bar.
4. The candidate may try to disguise the fact that they are not in the full extension “dead hang” position before the first or next rep is about to commence, usually by having the slightest of bend/flex in the elbow, or engaging of the lats before the movement is to be conducted.

ANNEX B

Theme 3: Fighting Climate Change - MAC 4.2 Explain how you will Influence staff, suppliers, customers, and communities through the delivery of the contract to support environmental protection and improvement.

1. **Commitment.** As a new and aspirant SME in the technology and health arena, we are deeply committed to environmental protection and improvement through the delivery of the contract. We have a deep understanding of the influence that can be exerted on staff, suppliers, customers, and communities for positive environmental impact. To further our commitment, the team will continue to work with Blue Marble, a carbon offset certification company, to certify the business as carbon neutral. For this contract, a carbon impact assessment will be conducted to allow operations to be conducted with carbon neutral status.

Method Statement:

2. **Understanding of Influence.** We recognise our responsibility to influence staff, suppliers, customers and communities in support of environmental protection and improvement very seriously. This is demonstrated through our values that hold dear the principles of outdoor exercise, engaging with nature and fostering an appreciation for our environment.

Best evidenced by our history as British Military Fitness, founded in 1999, which became Europe's largest outdoor fitness provider employing 350 Military veterans across 140 locations in the UK. As the sister company, HPO Technologies continues many of the founding company's values and culture.

3. **Activities for Influence and Engagement within the Community.** Through online training platforms, live classes, on-demand content, and physical face-to-face events, the business will showcase the advantages of training outdoors in nature, underlining the positive impact on mental well-being and physical health.

Our digital platforms will offer a seamless transition to outdoor settings, guiding participants in effective outdoor workouts, while fostering a deeper connection with the environment.

Both digital and physical platforms will be used to educate our community on how to protect and preserve the local environment. Emphasis will be placed on the role each individual plays in environmental stewardship by providing practical guidance and awareness-building activities both online and our face-to-face events. A simple example by educating how appreciation of one's natural surroundings is critical in supporting good mental health and preventing stress.

By integrating the mental and physical benefits of outdoor training with environmental awareness and responsibility, our digital and physical initiatives will empower stakeholders to make conscious choices that benefit both their well-being and the environment.

4. **Training and Education.** The business is committed to influencing behaviour through training and education. Our educational initiatives emphasise the importance of preserving the environment and reducing ecological footprint.
5. **Partnering and Collaborating.** The leadership team will actively seek opportunities for partnering and collaborations in support of environmental objectives. An example might be to collaborate with the NETS and the HESTIA contractor to run a nutritional outreach programme for the candidates, and, possibly, draw-in local institutions such as schools, local welfare groups, cadets/CCF, etc. In promoting a healthier diet, instructors will be promoting the reduced consumption of red meat and the reduction in processed foods. Additionally, by promoting consumption of locally sourced products, this reduces the haulage and air miles

on each food item.

6. **Volunteering Opportunities.** HPO are open to providing volunteering opportunities for our contract workforce to encourage direct positive environmental impact.
7. **Timed Action Plan:**
 - *Oct:* Develop detailed plans for engagement, training, and collaboration initiatives to influence stakeholders effectively.

 - *Jan 24 – Dec 24:* Continuously monitor, evaluate, and adjust our influence strategies based on the feedback received and the outcomes achieved.
8. **Metrics.** We are committed to measuring and reporting the number of people-hours spent protecting and improving the environment under the contract. This includes a minimum of 4 hours per week (832 hours over the contract) will be allocated in support of environmental initiatives, protection and improvement objectives.
9. **Feedback and Improvement Process.** The team values feedback from customers, end users and suppliers. This will be proactively collected via surveys, consultations, and forums. This feedback will be instrumental in refining and enhancing our influence strategies to better support environmental goals.
10. **Transparency.** HPO is committed to transparency in all environmental influence efforts. Information will be shared about initiatives, progress, and environmental impact through accessible media channels, ensuring that the broader public and relevant stakeholders are well-informed about our work.

ANNEX C

Theme 4: Equal Opportunity - MAC 6.1 Explain how you will demonstrate action to identify and tackle inequality in employment, skills, and pay in the contract workforce.

1. **Commitment:** We are committed to addressing inequality in employment, skills, and pay within the contract workforce. We are dedicated to ensuring transparency, conducting regular equal pay audits, and actively working to eliminate disparities.

Method Statement:

2. **Understanding of Inequality.** Our understanding of the issues affecting inequality in employment, skills, and pay extends beyond recognising the challenges; it is rooted in a commitment to action.

We recognise that underrepresented groups face disparities in access to training and employment opportunities within the Physical Preparation and Performance industry. For example; minority populations have historically encountered hurdles in accessing high-quality, tailored fitness training programmes. Understanding these challenges empowers us to address them proactively.

We have conducted internal assessments, revealing areas where diversity and inclusivity could be enhanced. This analysis showed that individuals from marginalised backgrounds were underrepresented in leadership roles. We recognise these disparities not as insurmountable obstacles but as opportunities for improvement.

Our greatest success to date, was in supporting the physical preparation for Army Recruitment. During the pilot phase, we were able to lift the first-time success rate of female candidates from 68% to an impressive 93%. This achievement was made possible by a commitment to employing and contracting individuals who could fully understand and support the unique challenges faced by females and minority groups, particularly in physically demanding roles.

3. **Measures to Tackle Inequality.** We are committed to addressing inequality in employment, skills, and pay. Already in place are mentorship programmes aimed at providing career development support to individuals from underrepresented groups within the fitness industry. Through these programmes, experienced trainers serve as mentors, offering guidance and access to resources that facilitate career progression.

Additionally, action has been taken to ensure training programmes are accessible to and delivered by a diverse audience. This includes the development of tailored content designed to meet the unique needs of individuals from different backgrounds. For example, following a comprehensive physical and mental needs analysis conducted in partnership with Royal Hospital Chelsea in 2023, specialised training modules have been launched that cater specifically for senior citizens and individuals with disabilities. These pioneering efforts have not only expanded the skillset of our trainees but have also played a pivotal role in promoting inclusivity within the fitness industry.

4. **Inclusive Recruitment and Retention.** From the outset, we prioritise inclusivity, offering flexible working options to all our team members. The nature of our work (content creation and delivery of live digital classes/webinars) allows for a highly adaptable and personalised working pattern that caters to individual needs and locations. Our overarching goal is to cultivate an environment where everyone, regardless of their circumstances or location, enjoys equal opportunities for growth and advancement.
5. **Transparency and Equal Pay.** HPO values transparency in promotion, pay, and reward processes which is clearly outlined in our Equal Opportunities & Diversity Policy. Regular equal pay audits are conducted to ensure fairness. This commitment to transparency ensures

that the HPO workforce understands the fairness and equity of our employment practices.

6. **Timed Action Plan:**

- *Oct:* Conduct a thorough review of our current workforce to identify any existing disparities in employment, skills, and pay.
- *Nov-Dec:* Implement targeted measures to address identified inequalities, including skills development programs and initiatives to promote inclusivity.
- *Jan 24 – Dec 24:* Continuously monitor and assess the representation of underrepresented groups within the workforce, apprenticeship schemes, and training initiatives. Adjustment of strategies based on feedback and outcomes to ensure significant progress is being made in reducing inequality.

7. **Metrics.** We commit to measuring and reporting the representation of underrepresented groups within the contract workforce. We commit to:

- Continue to employ a minimum of 10% of full-time equivalent (FTE) workforce from underrepresented groups.
- Tracking the representation of underrepresented groups in our apprenticeship and training schemes under the contract.

8. **Data Gathering Tools and Reporting.** We will use HR and Payroll systems to track and assess progress in addressing inequality in employment, skills, and pay within the contract workforce. This includes regular diversity and inclusion surveys, skills development progress reports, and equal pay audit results.

9. **Feedback and Improvement Process.** We value feedback from the workforce and stakeholders. This feedback will be instrumental in refining and enhancing our initiatives to better support equal opportunity and inclusivity.

10. **Transparency.** We are committed to transparency in all efforts to tackle inequality. All information surrounding initiatives, progress, and outcomes will be shared through accessible media channels, ensuring that the workforce and stakeholders are well-informed about commitment work to promote equal opportunity.
