- The Supplier shall provide during Standard Service Hours a consultation service to aid the Buyer in the installation, operation, configuration and administration of the **REDACTED** where such use cannot reasonably be interpreted from the manuals or the prompts of the Application, as well as the Hosting service for the **REDACTED**.  - General queries, including the recording of requests or enhancements to the Customised Application Software and service improvements, which are to be delivered in-line with Schedule 1 – Section 2 – Application Enhancements.
- Standard Service Hours are defined as the hours from 9.00am to 5.30pm on Mondays to Fridays, excluding UK Bank and Public Holidays.

- **REDACTED**

Section 2) Application Enhancements

- The Buyer may request from time to time and the Supplier may agree that Changes are required to the **REDACTED**. With agreement from the Buyer, the Supplier will implement these Changes in one of the following ways. Such Changes may result in a variation to Service Management charges set out in "Call-Off Contract charges" and in such circumstances the Buyer will be notified prior to the Change being implemented.
 - **Small Service Improvements.** Suitable for low complexity work, such as basic functional or cosmetic enhancements. Small Service Improvements are undertaken on a time and materials basis against a valid call-off purchase order, a pre-agreed Minor Customisation and Enhancement provision or other pre-existing approved billing reference. An e-mail will be sent from the Supplier's Service Desk to the authorised Buyer's Principal Contact containing the estimated level of effort and a return email accepting this estimate from the authorized representative of the Client is sufficient to initiate activities. The following Small Service Improvement effort bandings are available against which work can be commissioned:
 - 1 to 10 days;
 - 10 to 20 days;
 - 20 to 30 days;
 - 30 to 40 days;
 - 40 to 50 days; and,
 - 50 to 100 days.
 - **Large Service Improvements.** A two stage process for large or technically complex changes that includes a rapid or full impact assessment of the Change on the Software. Firstly a Notification of Change (NoC) document is produced which summarises the request and specifies the level of effort that is required to produce a Request for Change (RfC) document. The RfC will fully qualify, specify and cost the implementation of the improvement. On written approval by the authorised Buyer representative, work will commence to schedule, develop, test, and deploy the Change. Large Service Improvements can be undertaken on a fixed price, firm price or time and materials basis.
 - **Standard Changes** efficiently deliver activities which are identified as being required more than once, either on a diarised or ad hoc basis. A prerequisite for such standard change is that an RfC must have been completed defining the scope, approach and cost of such a change. Once

specified in this manner they may be triggered through the exchange of pre-agreed e-mails between authorised The Supplier and authorised Buyer representative. Standard Changes can be undertaken on a fixed price, firm price or time and materials basis.

- **Emergency Service Requests** are those that require urgent and immediate response and are prioritised above all other existing requests. They may be of any size or complexity, their defining characteristic being urgency and priority. Emergency Service Requests are undertaken on an uncapped time and materials basis against a pre-agreed billing reference. Emergency Service Requests typically involve higher levels of management effort as they are critical in nature and often require the re-prioritisation of existing work commitments to accommodate the request. An email exchange between authorised The Supplier and the Buyer Business Sponsor will activate the process. An RfC is produced retrospectively to record the activities undertaken, including reference documentation.
- Where chargeable such changes will be costed using the Suppliers G-Cloud rate card outlined below with the following standards:
 - Consultant’s Working Day: 8 hours exclusive of travel and lunch
 - Working Week; Monday to Friday excluding national holidays
 - Office Hours: 09:00 – 17:00 Monday to Friday
 - Travel and Subsistence: Included in day rate within M25. Payable at department’s standard T&S rates outside M25
 - Mileage: As above
 - Professional Indemnity Insurance: included in day rate
