The specialty of Oral Surgery (OS) deals with the diagnosis and management of pathology of the mouth and jaws that requires surgical intervention. Oral Surgery involves the treatment of children, adolescents and adults, and the management of dentally anxious and/or medically complex patients. Oral Surgery care is provided by Oral Surgeons and by Oral & Maxillofacial Surgeons as the clinical competencies of these two specialties overlap.

The service is known/commissioned as Intermediate Minor Oral Surgery (IMOS) including treatment under Conscious Sedation and is aimed at those patients who require Level 2 care – that is ‘procedural and/or patient complexity requiring a clinician with enhanced skills and experience who may or may not be on the specialist register.’

The current contracts are due to end on 31st May 2025, the new contracts are expected to commence on 01st June 2025 for a period of 7 years with an option to extend for up to a further 3 years (total contract duration 10 years) under Personal Dental Services Agreements.
