Dear Ms Park

**Construction (Design & Management) Regulations 2015
29640/30385: London Aquatics Centre – Access Control System
Pre-construction Information**

Please find enclosed a copy of our CDM Compliance Report for the above mentioned project for inclusion in the tender documentation. Within the Compliance Report a copy of the Project Information Register can be found which provides a summary of the Pre-Construction Information. Once appointed the contractor should respond by acknowledging, answering and making all due allowances against each item as the case may be.

The Pre-Construction Information referred to in the Project Information Register can also be used as a basis for the contractor to develop his Construction Phase Plan, i.e.; his method statements, risk assessments, programme of work, any descriptive plans and the like, can be appended to it.

Yours sincerely
