- 4.2 In the event of a late or non-payment of a Key Sub-Contractor pursuant to Paragraph 3.1.5, the Customer shall not exercise any of its rights or remedies under Paragraph 4.3 without first giving the Supplier 10 Working Days to:
- 4.2.1 rectify such late or non-payment; or
 - 4.2.2 demonstrate to the Customer's reasonable satisfaction that there is a valid reason for late or non-payment.

4.6 Where the Supplier reasonably believes that the relevant Financial Distress Event under Paragraph 4.1 (or the circumstance or matter which has caused or otherwise led to it) no longer exists, it shall notify the Customer and the Parties may agree that the Supplier shall be relieved of its obligations under Paragraph 4.5.

4.7 The Supplier shall use reasonable endeavours to put in place the necessary measures to ensure that the information specified at Paragraph 4.3.2(ii) is available when required and on request from the Customer and within reasonable timescales. Such measures may include:

The Supplier shall ensure that it uses the following general and specific methodologies for calculating the Financial Indicators against the Financial Target Thresholds:

General methodology

Financial Indicator	Specific Methodology

1. *Terminology*: The terms referred to in this Annex are those used by UK companies in their financial statements. Where the entity is not a UK company, the corresponding items should be used even if the terminology is slightly different (for example a charity would refer to a surplus or deficit rather than a profit or loss).
1. *Groups*: Where the entity is the holding company of a group and prepares consolidated financial statements, the consolidated figures should be used.
2. *Foreign currency conversion*: Figures denominated in foreign currencies should be converted at the exchange rate in force at the relevant date for which the Financial Indicator is being calculated.
3. *Treatment of non-underlying items*: Financial Indicators should be based on the figures in the financial statements before adjusting for non-underlying items.

They include guarantees and security given in support of the borrowings of other group companies, often as part of group borrowing arrangements. Where no cap or maximum is specified, the relevant Financial Target Threshold should automatically be regarded as not having been met.</p> <p>In many cases an entity may not have assumed any contingent liabilities in support of Group Undertakings, in particular where an entity is not a member of a group or is itself the ultimate holding company of the group.</p> <p><u>Gross Assets</u>: Both Fixed assets and Current assets are shown on the face of the Balance Sheet]</p>

QUESTION 2: Learner Engagement

Describe how you will engage learners throughout the Skills Bootcamp (**recruitment, enrolment, delivery of training, and offer of an interview**) to ensure they reach completion and achieve a positive outcome. Describe how you will adapt your approach to support under-represented groups.

RESPONSE REQUIREMENTS

Your response should:

Describe how you will...

- Attract and recruit potential learners, including those in underrepresented groups who might not otherwise apply.
- Screen potential learners to ensure that the Skills Bootcamp is appropriate for them and that they have a good understanding of what will be involved and what employers are looking for in candidates.
- Support learners throughout the Skills Bootcamp to promote learner retention. This should include details of the Wraparound Support that you will provide to help learners complete training.
- Support learners throughout the Skills Bootcamp to promote positive outcomes. This should include how you will coach learners for specific interviews and support them to ensure they are well prepared for the vacancies/opportunities available. This should also take into account where a learner is moving into a new organisation, staying within their own organisation or a self-employed learner looking to increase their business/entrepreneurial skills/market themselves to secure new contracts.
- Ensure that your training is available and accessible to a diverse cohort representative of the communities in which you will deliver.

Recruitment

Recruitment will be targeted towards areas with a high Index of Multiple Deprivation (IMD) surrounding employers, such as Lockleaze, Aztec West and Patchway. We will engage a range of local partners in the promotion of the Skills Bootcamp and to access learners from socially disadvantaged backgrounds. Organisations will include Patchway Community Association and Lockleaze Community Association who work closely with their respective local communities, as well as the Brandon Trust, which works with children, young people and adults with learning disabilities and autism. We will also engage with HMP Bristol to engage potential learners currently serving short sentences and are being prepared for release. We have a track record of consistently achieving >45% representation from people from lower socioeconomic backgrounds in Wales, which has a cross-cutting correlation with other EDI characteristics.

We will work with regional charities such as Black South West Network who deliver enterprise and employability projects with Black and Asian Ethnic Minority (BAME) groups, to specifically engage a BAME audience in a region with [significant employment inequality](#) (Manchester, 2017). We have a track record of consistently achieving >40% BAME representation in Wales by working with similar partner organisations.

Screening & Enrolment

We will hold regular virtual Open Events for potential learners to understand the application process, programme structure, employer involvement, and ask questions. Our screening process will include an application with qualifications and relevant experience indicators, a CV review, and a competency and attributes ("AAA" - Attitude, Aptitude, Ambition) interview to determine the suitability of the Skills Bootcamp an appropriate training pathway for the learner.

If successful, learners will be invited to complete an Enrolment Form which will include declaring any Additional Learning Needs (ALN) or learning preferences to enable us to support the learner effectively. All learners will be invited to attend an induction two weeks before the programme commences.

Wraparound Support

Attendance, engagement and performance expectations will be set during the induction to include the minimum 90% attendance requirement. Learner attendance will be monitored closely and learners will be contacted within two hours of any unauthorised absence to reestablish engagement.

Laptops will be provided to learners who don't have access to a minimum specification device, to ensure that they can participate fully in the programme. All learners will have access to the Google Workspace collaborative learning environment via a secure learner account.

Learners will be provided with one-to-one coaching at designated intervals during the programme to foster engagement, communication and positive outcomes. A three hour group tutorial will take place every Friday with the Programme Tutor. Additional assessment support will be provided in week 11 and on an ad-hoc basis in the form of online masterclasses where appropriate.

Competitive paid (real living wage) placement opportunities will be sourced from the employer network to provide learners with 6 weeks (60 hours) or real-world experience. CV and personal statement writing support will be provided in week 1 and week 12 to effectively prepare learners for interviews. All learners will be guaranteed at least one interview on completion of the programme.

Positive Outcomes

During their exit interview, learners will have a discussion regarding their possible progression routes (employment, self-employment, apprenticeship and FE/HE). They will also receive a one-to-one coaching session with their Programme Tutor in the lead up to each interview, to prepare them for the specific vacancy.

We will create opportunities for learners to meet and build relationships with employers at the earliest opportunity. This includes employer involvement in screening, weekly Lunch & Learns, social or networking events, and employer delivery where appropriate. We will also work with employers to match learners to vacancies, taking into consideration knowledge, skills and behavioural attributes, to maximise the opportunity for positive interview outcomes. Apprenticeships and additional upskilling possibilities will be discussed with the employer to de-risk their investment in the Bootcamp Graduate and encourage retention.

Accessibility

Accessibility will be guided by declarations made in the ALN and learning preferences section of the enrolment form. As a minimum, this will include course notes, terminology guides, and independent exercises, to support programme delivery. Sessions will be recorded and made available on demand through Google Workspace. Additional support such as English language support may be provided if deemed necessary.

Classroom sessions will be planned in accordance with local public transport timetables, to ensure learners are able to participate fully in their training programme. Hybrid deliveries will be facilitated where appropriate and in support of learners who may experience specific barriers to in-person attendance, such as childcare.

QUESTION 3: Employer Engagement

Describe how you will engage employers to ensure that the training is targeted to meet employer needs, that employers are engaged with the Skills Bootcamp prior and throughout delivery, and how you will secure learners the offer of an interview for an actual vacancy and help them to achieve positive outcomes.

RESPONSE REQUIREMENTS

Please complete the Employer Engagement sheet on the template attachment. This element does not count towards the 750-word count.

In addition, please provide a written response to the question on a separate document. Your response should:

Describe how you will...

- Work with employers to ensure that the Skills Bootcamps including curriculum design provides learners with the technical and soft skills that those employers are looking for to meet the needs of vacancies.
- Maintain high levels of employer-learner engagement throughout the lifetime of the Skills Bootcamp. This should include how employers will help learners to gain insight of what their new jobs/roles will involve.
- Secure learner interviews from employers that are for vacancies which are relevant to and match the skills level of that Skills Bootcamp or work with employers who want their own employees to gain new skills for different roles and / or opportunities within their organisation.
- Ensure that you engage Small and Medium Enterprises (SMEs).

Curriculum Design

We have sourced a small group of local Small and Medium Enterprises (SMEs) who have committed to supporting the co-design and co-creation of the content. These include BotHive, Filton Systems Engineering, Ground Waves who are based in the Bristol & South Gloucester regions who collectively have skills requirements that span data science, software development, software engineering and games development.

We are also in discussions with larger cross-border employers including Deloitte, AspenTech (formerly ination UK), and PwC, with whom we have successfully worked on the co-design and co-creation of the content for Priority Sector Skills Academies (PSSA) Bootcamps in Wales. These employers also have skills requirements in the South West that collectively span the four areas.

The curriculum design process involves:

- Extrapolate the priorities and skills shortages from the [West of England Combined Authority Regional Skills Plan](#) in advanced manufacturing, digital and creative industries and other sector reports and industrial plans;
- Co-creation workshop and one-to-one meetings with employers to validate the skills priorities and develop initial content;
- Develop outline programme syllabus based on our Onion Skin Learning (OSL) model which comprises three layers: core employer and industry knowledge, specialist technical skills, and work-ready behaviours;

- Circulate with a wider group of employers via sector membership organisations for feedback and content validation;
- Refine, update and iterate accordingly.

Employer Engagement

We will work with local authorities and sector partners to market the Skills Bootcamps 3 months in advance of each launch to engage employers with upcoming recruitment requirements. We will deliver a series of in-person launch events for each Skills Bootcamp with sector partners to create a forum for potential employers to engage with the programme.

We will engage employers in the screening process for learner applications. This includes a CV review and/or participation in the interview process. We will also source real-world project briefs from the employers for the learners to tackle during the course of the Skills Bootcamp. Learners will be required to present their solutions to the employers during the tenth week. This ensures that employers are invested in the programme and the cohort of learners early on and have regular contact with learners throughout, demonstrating to learners what their potential employment relationship would be like.

We will engage employers in the delivery of the programme by scheduling weekly Lunch & Learn sessions, with a minimum of 10 employers over 10 weeks. This provides employers with an opportunity to talk about their organisation, share vacancies and gauge interest in their roles. Where feasible, we will identify opportunities for employers to deliver content in a masterclass style session. This can range from a half-day slot to a full week of delivery in an employer's tech stack, simulating a real environment in which learners will gain insight into their potential new employer and job role.

In addition, we will host a minimum of two networking events in collaboration with a partner organisation, in which learners and employers are invited to attend. This creates a relaxed social environment where employers and learners can connect and build relationships, increasing engagement and investment in the Bootcamp.

Job Interviews

Given the dynamicity of the labour market, we will survey our employer pool for vacancies and hold a monthly meeting to assess the current and future recruitment requirements of the employer cluster. We will match learners to roles based on their CVs, individual performance assessments and other metadata that we hold in our learner database.

The first round of job interviews will take place in a "speed interview" format, where a minimum of 10 employers will attend to engage in short 10 minute interviews with all learners. We will utilise a scoring system in which employers will rank their top three candidates for second interview, and we will recommend two further "wild card" candidates based on our metadata.

We will hold information sessions for employers on apprenticeships and professional upskilling pathways to support their investment in hiring a Bootcamp graduate.

SME Engagement

To engage additional local SMEs we will leverage our relationships with local and national sector organisations including FinTech West (introduced FinTech Wales), British Chambers

of Commerce South West (introduced by Chambers Wales), and Make UK (introduced by Make UK Wales). We have developed and demonstrated a successful model with membership organisations in Wales, whereby they provide access to their members for content validation purposes as part of their sectoral role. 16 out of 22 (72%) employers who engaged in our FinTech PSSA Bootcamps were SMEs.

Recruitment: Contributing to the learner screening process and/or to ensure employer skills needs have informed the learner recruitment process (e.g. employer helps to confirm any learner eligibility requirements needed in addition to the standard Skills Bootcamps eligibility requirements; or helps to inform the recruitment criteria; or helps to conduct learner recruitment activities)					
Content: Helping to co-design or co-develop the Skills Bootcamp to ensure that course provision will meet their existing skills need (e.g. employer provides feedback on the course design; or the supplier carries out a needs analysis on the employer's business to help develop the Skills Bootcamp and the employer approves the solution; or the employer confirms that the course content will help meet their skills needs)					
Delivery: Helping to deliver the Skills Bootcamp (e.g., employer delivers a presentation, delivers some of the course content, helps to deliver mock interviews)					
Outcomes: the employer would be interested in employing learners who complete the proposed Skills Bootcamps. (This can include being interested in employing learners in new roles/responsibilities within the organisation for employers who would be co-funding their employees to participate in the Skills Bootcamp.) In column G, please state what types of roles they would be interested in employing learners in.					

2b: Employer Engagement

RESPONSE REQUIREMENTS

Your response should:

- Based on your discussions with employers, state the number of learners you will support and your rationale for this cohort size.

Describe how...

- Your proposal aligns with and does not duplicate the skills priorities and delivery of Mayoral Combined Authorities/Local Authorities and/or Local Enterprise Partnership(s) and their Skills Boards or comparable bodies.
- You will ensure that you have a clear curriculum which sets out what skills the learner will gain.
- You will ensure that training is delivered by suitable, high quality, experienced practitioners, and that you have sufficient trainer resource to deliver all your proposed Skills Bootcamps.
- You will ensure that you stay on track to deliver positive outcomes for learners, both in terms of delivering to time and in terms of meeting the relevant performance measure targets.
- The training resources or equipment that you will use will successfully deliver the Skills Bootcamp provision for all learners.

Learner cohort sizes

Based on discussions, SME employers intend to recruit a small number of learners in sequential cohorts. We estimate that in each Skills Bootcamp delivery, 15 employers will support content co-design, 10 will actively engage in delivery via the Lunch & Learn model, employer-set projects and employer masterclasses, and 5 will recruit between 3 - 4 learners each. This yields a cohort size of 15 - 20 that balances supply with demand.

Based on our experience of delivering Skills Bootcamps in Wales, the optimum number of learners in a cohort is 18 including up to 25% with Additional Learning Needs (ALN) to ensure a high quality delivery. Each cohort will be supported in-class by two experienced TutorPractitioners, and a Programme Tutor to oversee programme delivery and performance.

Alignment to Regional Skills Priorities

The [West of England Combined Authority Regional Skills Plan](#) identifies advanced manufacturing, construction and digital and creative industries as key growth sectors within its regional economy. We are proposing to deliver a series of Skills Bootcamps that address 2 out of the 3 priority growth sectors identified in the plan. The plan outlines top-level measures to align and integrate the supply and demand of skills with employment opportunities in the region but does not have a specific strategy to address the roll out of Skills Bootcamps Our proposed work within the region will complement and strengthen the delivery of this objective, in conjunction with other programmes.

We will work directly with the South West Careers Hub to provide accessible information, advice and guidance (IAG) to young people about Skills Bootcamps as part of the integrated regional skills approach in the South West. We will build upon the work of the West of England CLA to address the educational attainment gaps and employment inequalities of BAME people in the region by working in partnership with community and charitable organisations to attract learners from BAME groups.

Clear Curriculum

Our approach to designing Skills Bootcamp Curriculum includes research insights obtained from the Regional Skills Plan, UK Government [21st Century Skills Report](#), and [Lightcast](#)

[Digital Skills Report](#) (2021) to ensure alignment to regional, national and international skills priorities, enabling transferability and portability of skills and talent.

Employer engagement in the co-design, co-creation and validation of Skills Bootcamp content ensures that the curriculum is aligned to the needs of local employers, maximising the potential for successful outcomes for learners ([example of programme syllabus here](#)).

Learners will be provided with clarity of their curriculum through a Skills Bootcamp Handbook ([example here](#)) which outlines the modules, qualifications, assessment deadlines and wraparound support provided. It also outlines expectations of learners in completing the Skills Bootcamp to maximise engagement and successful outcomes.

Capacity & Capability to Deliver

We employ a bank of specialist 26 Tutor-Practitioners (TPs) on a full-time, part-time and casual basis to suit the individual and the level of demand we have internally for their skills. This gives us capacity to deliver multiple Skills Bootcamps in parallel with 2 TPs allocated to each. TPs spend 70% of their time delivering and iterating programme content, and 30% of their time working on technical projects to continually refresh and enhance their practitioner skills. This gives us a unique advantage of providing industry-led training that leverages current and emerging best-practice. 50% of our Tutor-Practitioners hold Assessor and/or Internal Quality Assurance (IQA) certifications. All of our Tutor-Practitioners are DBS checked every 12 months.

We provide continual upskilling opportunities to all of our employees in technical fields and educational pedagogy, assessment and quality assurance, and coaching and mentoring.

Delivering Positive Outcomes

We will ensure that we remain on track to deliver positive outcomes by creating formal and informal opportunities for employer engagement, tracking employer vacancies on a monthly basis, and proposing learners for roles on a skills/attributes match basis throughout the delivery of the programme and in the six months beyond completion.

We will manage attendance, engagement and performance of learners closely. Providing monthly one-to-ones and tailoring additional learning and assessment support to meet the needs of individual learners and the cohort, ensuring that the bootcamp is delivered on time. We will commence recruitment three months in advance to prevent late starts. All performance criteria will be tracked through our MIS system, reviewed weekly internally, and reported monthly.

Training Resources & Equipment

- Classroom/venue
- Tutor Laptops
- Learner laptops on loan
- Google Workspace licences
- Industry software licences (AWS, Tableau)
- “Bootcamp in a Box” in-class delivery materials/consumables
- Course notes and independent activities
- Assessment materials
- Kahoot licence (formative assessment)

QUESTION 5: Quality Assurance & Continuous Improvement

Describe your quality assurance and continuous improvement processes to ensure that you deliver a high-quality service. Include how you will collect, manage, report, and use data to evidence and improve your own performance, and meet the Department for Education's data requirements.

RESPONSE REQUIREMENTS

Your response should:

Describe your overall approach to your quality assurance and continuous improvement processes, including how you will:

- Ensure that all required data, including from subcontractors, is collected, and reported to the Department for Education, and reported in a way that is timely, accurate, and complete.
- Use your data to evidence, review and improve your performance (e.g., employer engagement, learner dropouts, completions, outcomes, quality of training etc) and to develop new ways of working, to maximise efficiency.
- Implement robust and auditable procedures for logging, managing, escalating, and resolving issues, complaints, and risks.

Data Collection and Reporting

To unify our data collection and reporting systems we have adopted Google Workspace. This allows us to produce all our contractual reports and KPIs in the required format to suit each of the funding organisations. We systematically collect demographic data and analyse this in the following areas: geographical, age, race, gender, disability, neurodiversity, socioeconomic status, prior attainment and prior learning.

All performance criteria will be tracked through our MIS system, reviewed weekly internally, and reported monthly.

Review and Continuous Improvement

During the Skills Bootcamp, we record data on attendance patterns, learner support requirement changes, and learner satisfaction data. This is addressed through the Quality team at weekly debrief meetings. Learners who withdraw during the programme are interviewed to understand the reasons for wanting to withdraw and preventative actions are taken if applicable.

Upon module and programme completion, learner satisfaction data is gathered and reported to the Quality team. Improvements are identified and explored after each module to continually improve learner experience. Root causes are identified and processes and procedures are evolved and implemented prior to the next delivery. The Senior Leadership Team reviews all Quality Reports and will implement cross-organisational changes, if applicable.

We support the quantitative data gathering processes with additional qualitative processes. We have tutorial time built into the weekly delivery timetable, giving all participants an opportunity to expand further on the data that has been collected to date. Information is gained on the quality of the delivery, the learner's experience of the content and support they have received.

Robust, auditable procedures

To support the learning we have a range of policies and procedures that support the identification and prevention of risks both for safety and for experience delivery. We have a strict auditable process for managing safety at our delivery sites and, if applicable, at the learner's employers. These assessments are reviewed prior to each delivery or 6 monthly for longer experiences. We have a comprehensive complaints procedure that includes reporting the complaint, the recording process, the issuing of the investigation responsibilities and the report completion. Once the report has been completed by the Quality team the recommended actions would be discussed, adjusted and implemented as applicable. Once the outcome has been completed the reports are updated and the complaint closed. This is then filed in the relevant quality area and made available for auditing by funding and awarding bodies.

QUESTION 6: Social Value

Demonstrate effective measures to the following objectives through the Contract:

- Support employment and training opportunities, particularly for those who face barriers to employment and/or who are located in deprived areas, and for those in industries with known skill shortages or in high growth sectors.

RESPONSE REQUIREMENTS:

Your response should:

- Describe how you will engage and recruit under-represented groups within your workforce employed under the contract, such as those with protected characteristics, and those who might face barriers to employment e.g. veterans or serving prisoners due to be released within 6 months of completion of the Skills Bootcamp and those on Temporary Release
- State how you will monitor, measure and report on this commitment.

The core principle of our Social Value Policy is to embed a culture of identifying opportunities to enhance, equipping representatives with the tools to enable and hold ourselves to account for delivering multidimensional social value.

We recruit learners from underrepresented and socially diverse talent pools by partnering directly with local organisations who support the interests of underrepresented groups. Examples of these partnerships include the Muslim Council for Wales representing BAME individuals, the Prince's Trust who work with young people Not in Employment, Education or Training (NEETs) and Darogan who work with underemployed graduates. We aim to create similar partnerships in the South West of England with Black South West Network and Community Associations. We also intend to work directly with HMP Bristol to identify suitable learners who are due to be released within 6 months of completion of the Skills Bootcamp and those on Temporary Release.

We strive to recruit learners fairly and equitably based on potential wherever possible to eliminate barriers for those without formal qualifications or experience. We utilise our inhouse "AAA" framework to assess Attitude, Aptitude and Ambition, enabling us to holistically assess their potential to be developed through the Skills Bootcamp. We use this metadata to make contextualised recommendations to employers regarding the suitability of candidates for their vacancies to maximise successful outcomes and retention.

We are proud that our own workforce is representative of the learners and employers we are serving. 30% of our Tutor-Practitioners are from BAME backgrounds and 50% are female. Within our workforce, we speak 5 languages.

We measure the diversity of learners through an EDI survey undertaken before the programme commences and map and report all successful outcomes against these EDI characteristics to demonstrate the social value created.
