

Certificate of Milestone Achievement

1. The purpose of a Certificate of Milestone Achievement is:
 - 1.1 to make the Authority aware of the Contractor's declaration that it has achieved a Milestone; and
 - 1.2 once executed by the Representative of the Authority, to authorise the Contractor to submit a Payment Claim.
2. On condition that all previous Milestones (where relevant) have been achieved, the Authority shall make payment to the Contractor in accordance with Schedule D (Pricing Plan), on account of the Contract Price, less any adjustments made for reimbursement, over payment.
3. In the event that a payment has been made against a Milestone and it subsequently transpires that the Milestone has not, in fact, been achieved as previously declared by the Contractor, then the amount of the Milestone shall be re-payable to the Authority on demand or recovered in accordance with DEFCON 509.
4. The Certificate of Milestone Achievement must accompany the Contractor's Payment Claim.

CERTIFICATE OF MILESTONE ACHIEVEMENT
