

# The 'Superfast 3 Inclusive Growth' programme has launched!

## Broadband grants are now available!

For further information, visit [superfastcornwall.org](http://superfastcornwall.org)

Superfast Cornwall has helped make Cornwall one of the best-connected places in the world since 2011. Funded by the EU, Cornwall Council and HM Government, and managed by Cornwall Development Company; Superfast Cornwall has now launched the “Superfast 3 – Inclusive Growth” programme, providing broadband grants to assist eligible businesses in Cornwall to thrive post pandemic.

Businesses that still aren’t able to receive a superfast speed (30+Mbps) can now apply for a fully funded grant to connect to superfast, enabling their business to operate more productively, as well as assisting with opening new opportunities.

Grants are available for broadband solutions such as fibre, wireless, 4G mobile antenna or the new Starlink solutions.

If you receive less than 30Mbps and wish to apply for a grant, please contact: [info@superfastcornwall.org](mailto:info@superfastcornwall.org)

*You can use superfast connectivity to reduce your commuting and business travel and widen your employee base – see*
