Call-Off 2 - Wales and Devon

Call Off Schedule 2 (Tender)

1 Network Diagram

1.1 Compliance of Network Technology against Reference Technical Solution

REDACTED UNDER FOIA SECTION 43: COMMERCIALLY SENSITIVE

1.2 Accuracy of, and Changes to the Network Design Proposal

REDACTED UNDER FOIA SECTION 43: COMMERCIALLY SENSITIVE

1.3 Description of Network Diagrams, and Interpretation

REDACTED UNDER FOIA SECTION 43: COMMERCIALLY SENSITIVE

1.4 Further Example network diagrams

REDACTED UNDER FOIA SECTION 43: COMMERCIALLY SENSITIVE

1.5 HTML whole-lot Network Diagrams

REDACTED UNDER FOIA SECTION 43: COMMERCIALLY SENSITIVE

2 Network Design and Data Network Topology – Layers 1-5

2.1 Specification of Key Network Elements: Active, passive equipment & Cable

REDACTED UNDER FOIA SECTION 43: COMMERCIALLY SENSITIVE

2.2 Specification of Headend and active components

REDACTED UNDER FOIA SECTION 43: COMMERCIALLY SENSITIVE

2.3 Specification of Network Components & Cables

REDACTED UNDER FOIA SECTION 43: COMMERCIALY SENSITIVE

2.4 Specification of Network Cables

REDACTED UNDER FOIA SECTION 43: COMMERCIALY SENSITIVE

2.5 Specification and layout of Active Network Elements – Subtended Headends

REDACTED UNDER FOIA SECTION 43: COMMERCIALY SENSITIVE

2.6 Specification of Passive Network elements

REDACTED UNDER FOIA SECTION 43: COMMERCIALY SENSITIVE

2.7 Specification of Exchange / Core Site terminations

REDACTED UNDER FOIA SECTION 43: COMMERCIALY SENSITIVE

2.8 Specification of Fixed Wireless assets – N/A

REDACTED UNDER FOIA SECTION 43: COMMERCIALY SENSITIVE

2.9 Rationale for deployment of solution components

REDACTED UNDER FOIA SECTION 43: COMMERCIALY SENSITIVE

2.10 Meeting the Access Line Speed requirements

REDACTED UNDER FOIA SECTION 43: COMMERCIALY SENSITIVE

2.11 Compliance with regulatory & Industry Standards (Joint Schedule 10) - Standards-Based Design

REDACTED UNDER FOIA SECTION 43: COMMERCIALY SENSITIVE

2.12 Design parameters and management of Jitter, Latency & Packet Loss

REDACTED UNDER FOIA SECTION 43: COMMERCIALY SENSITIVE

2.13 Radio and Interference planning

REDACTED UNDER FOIA SECTION 43: COMMERCIALY SENSITIVE

3. Access Network

3.1 Specification of Physical External Infrastructure Assets: Open access for the long term

REDACTED UNDER FOIA SECTION 43: COMMERCIALLY SENSITIVE

3.2 Specification of Active Network Elements: High reliability upgradeable infrastructure

REDACTED UNDER FOIA SECTION 43: COMMERCIALLY SENSITIVE

3.3 Specification of Passive Network Elements: Longevity with the scale for full fibre

REDACTED UNDER FOIA SECTION 43: COMMERCIALLY SENSITIVE

3.4 Specification of Exchange Site Terminations: Carrier-Class deployment supporting multiple RSPs

REDACTED UNDER FOIA SECTION 43: COMMERCIALLY SENSITIVE

3.5 Specification of Fixed Wireless assets – N/A

REDACTED UNDER FOIA SECTION 43: COMMERCIALLY SENSITIVE

3.6 A description of Openreach's FTTP architecture and approach to delivering a costed network proposal for the Authority

REDACTED UNDER FOIA SECTION 43: COMMERCIALLY SENSITIVE

3.7 Dimensioning the built physical infrastructure: support of dimensioned IA premises and Network Access

REDACTED UNDER FOIA SECTION 43: COMMERCIALLY SENSITIVE

4 Backhaul and Core Networks

4.1 Backhaul Infrastructure design – Solution Overview

REDACTED UNDER FOIA SECTION 43: COMMERCIALLY SENSITIVE

4.2 BT & Openreach products for backhaul –Technology, Infrastructure & Design Parameters

REDACTED UNDER FOIA SECTION 43: COMMERCIALLY SENSITIVE

4.3 Dimensioning Capacity of the Backhaul & thresholds for increasing capacity – Interconnect at the Headend (OLT)

REDACTED UNDER FOIA SECTION 43: COMMERCIALLY SENSITIVE

4.4 Resilience in the Backhaul and Core

REDACTED UNDER FOIA SECTION 43: COMMERCIALLY SENSITIVE

4.5 National Network, and Data Centre connections

REDACTED UNDER FOIA SECTION 43: COMMERCIALLY SENSITIVE

4.6 Network & Traffic Management

REDACTED UNDER FOIA SECTION 43: COMMERCIALLY SENSITIVE
