7 Access to APHA for Preventative and Corrective Maintenance

An FM Provider controls access to APHA locations and requires confirmation of contractor's insurance and certificates of competency / training, plus they will retain a copy of the contractor's RAMS.

RAMS must be received by the FM Provider two (2) weeks prior to an on-site visit. An updated version will also be required on an annual basis.

The FM Provider will administer the 'Permit to Work' process in the Permit Office / FM Provider office on site. They will provide the contractor's engineer with copies of Building Entry permits that must be signed on arrival and departure of the required building by APHA. The Contractor's staff will be escorted to and from the Permit Office by a designated officer from the Authority.

When arriving on site for the first time, the Contractor's staff will be required to attend a site safety induction (before commencing their work) and they must allow time within their schedule for this to take place. Inductions usually take no more than forty-five (45) minutes and are valid for twelve (12) months.

The Contractor, whilst on site, shall adhere to the Authority's and FM Provider's health and safety policies and procedures.

8 Performance Management Framework (including Key Performance Indicators and Service Credits)

As part of the Customer's continuous drive to improve the performance of all Contracts, this PMF will be used to monitor, measure and control all aspects of the Contractor's performance of contract responsibilities.

The purpose of the PMF is to set out the obligations on the Contractor, to outline how the Contractor's performance will be evaluated and to detail the sanctions for performance failure. The Contractor is responsible for the performance of any sub-contractors.

KPIs are essential in order to align Contractor performance with the requirements of the Customer and to do so in a fair and practical way. KPIs have to be realistic, measurable and achievable; they also have to be met otherwise indicating that the service is failing to deliver. Without the use of service credits in such a situation, this service failure places strain on the relationship as delivery falls short of agreed levels.

The proactive approach to correcting failures and addressing their cause improves the relationship and enables a partnership rather than a confrontational style of working. Its focus is on managing and improving service.

The Customer shall review performance against KPI's and, if appropriate, instigate meetings and work closely with the Contractor to agree action plans. The Customer expects the Contractor to agree and implement these plans. If this does not happen, only then shall service credit principles be applied.

The KPIs for this Contract are set out at Annex 4.

Service Credit Principles

The use of service credits is governed by the following principles:

Service credits sit within the wide service management approach being pursued by the Contractor and the Customer. Use of service credits does not preclude any other remedy for failure of performance available to the Customer under the terms and conditions of the contract.

The service credit regime shall be instigated on each occasion where there is a service failure. Failure to meet a KPI may also give rise to a remediation plan.

- KPIs with a service credit rating of one (1) will have a service credit of three per cent (3%) of the invoice amount for the monitoring period (the previous six (6) months), applied for each KPI failure.
- KPIs with a service credit rating of two (2) will have a service credit of five per cent (5%) of the invoice amount for the monitoring period (the previous six (6) months), applied for each KPI failure.
- The maximum annual service credit to be applied will be no more than ten per cent (10%) of the total annual contract value per Contractor.

The Authority has full and complete discretion on whether to claim all, part or none of a service credit to which it is due.

Service credits claimed shall be paid to APHA as a credit note within one (1) month following the date at which the service credits were applied.

The full, agreed service credit regime will operate from the Contract start date until the end of the contract period. The KPIs may be adjusted to ensure that they are appropriate and achievable.
