LIST OF CONTENTS

1   Introduction

1.1   Scope of Service

1.1.1   The *Contractor* complies with the Network Occupancy requirements as set out in GM702 in **Appendix 2** and this Annex.

1.2   Purpose and Objectives

1.2.1   This **Annex 5** assigns responsibility for the activities described in the *Client's* Requirements to the Parties for this contract.

1.3   The Client's Requirements

1.3.1   The *Client's* Requirements comprise the following document in **Appendix 2**:

- GM 702 - Operational requirements for network occupancy,

1.4   Responsibilities Tables

1.4.1   The responsibilities for each activity in the *Client's* Requirements are assigned to the Parties using the "responsibilities tables" in the appendix to this Annex.

2   Operational Requirements - Network Occupancy

2.1   Scope of Service

2.1.4   The *Contractor* complies with the requirements in GM 702 - Operational requirements for network occupancy.

2.1.5   GM702 specifies the planning and delivery requirements to achieve the required outcomes including the development of the network occupancy plan.

2.1.6   GM702, Appendix E/A contains the managing network occupancy requirements relaxation application form, where the *Project Manager's* acceptance is required for relaxations to occupancy requirements.

2.2   Responsibilities Table

2.2.1   The activities for the delivery of the network occupancy operational service for the Parties are detailed in appendix 1 of this Annex**.** The table identifies which party is responsible for each activity, together with those requirements which require a joint and collaborative approach by both Parties.
