17.2 The Supplier shall:

17.2.1 comply with all the Customer's health and safety measures while on the Customer's premises; and

17.2.2 notify the Customer immediately in the event of any incident occurring in the performance of its obligations under the Agreement on the Customer's premises where that incident causes any personal injury or damage to property which could give rise to personal injury.

17.3 The Supplier shall:

17.3.1 perform its obligations under the Agreement in accordance with all applicable equality Law and the Customer's equality and diversity policy as provided to the Supplier from time to time; and

17.3.2 take all reasonable steps to secure the observance of clause 17.3.1 by all Staff.

17.4 The Supplier shall supply the Services in accordance with the Customer's environmental policy as provided to the Supplier from time to time.

17.5 The Supplier shall comply with, and shall ensure that its Staff shall comply with, the provisions of:

17.5.1 the Official Secrets Acts 1911 to 1989; and

17.5.2 section 182 of the Finance Act 1989.

18 Prevention of Fraud and Corruption

18.1 The Supplier shall not offer, give, or agree to give anything, to any person an inducement or reward for doing, refraining from doing, or for having done or refrained from doing, any act in relation to the obtaining or execution of the Agreement or for showing or refraining from showing favour or disfavour to any person in relation to the Agreement.

18.2 The Supplier shall take all reasonable steps, in accordance with good industry practice, to prevent fraud by the Staff and the Supplier (including its shareholders, members and directors) in connection with the Agreement and shall notify the Customer immediately if it has reason to suspect that any fraud has occurred or is

occurring or is likely to occur.

18.3 If the Supplier or the Staff engages in conduct prohibited by clause 18.1 or commits fraud in relation to the Agreement or any other contract with the Crown (including the Customer) the Customer may:

18.3.1 terminate the Agreement and recover from the Supplier the amount of any loss suffered by the Customer resulting from the termination, including the cost reasonably incurred by the Customer of making other arrangements for the supply of the Services and any additional expenditure incurred by the Customer throughout the remainder of the Agreement; or

18.3.2 recover in full from the Supplier any other loss sustained by the Customer in consequence of any breach of this clause.

19 Dispute Resolution

19.1 The Parties shall attempt in good faith to negotiate a settlement to any dispute between them arising out of or in connection with the Agreement and such efforts shall involve the escalation of the dispute to an appropriately senior representative of each Party.

19.2 If the dispute cannot be resolved by the Parties within one month of being escalated as referred to in clause 19.1, the dispute may by agreement between the Parties be referred to a neutral adviser or mediator (the "**Mediator**") chosen by agreement between the Parties. All negotiations connected with the dispute shall be conducted in confidence and without prejudice to the rights of the Parties in any further proceedings.

19.3 If the Parties fail to appoint a Mediator within one month, or fail to enter into a written agreement resolving the dispute within one month of the Mediator being appointed, either Party may exercise any remedy it has under applicable law.

20 General

20.1 Each of the Parties represents and warrants to the other that it has full capacity and authority, and all necessary consents, licences and permissions to enter into and perform its obligations under the Agreement, and that the Agreement is executed by its duly authorised representative.

20.2 A person who is not a party to the Agreement shall have no right to enforce any of its provisions which, expressly or by implication, confer a benefit on him, without the prior written agreement of the Parties.

20.3 The Agreement cannot be varied except in writing signed by a duly authorised representative of both the Parties.

20.4 The Agreement contains the whole agreement between the Parties and supersedes and replaces any prior written or oral agreements, representations or understandings between them. The Parties confirm that they have not entered into the Agreement on the basis of any representation that is not expressly incorporated into the Agreement. Nothing in this clause shall exclude liability for fraud or fraudulent misrepresentation.

20.5 Any waiver or relaxation either partly, or wholly of any of the terms and conditions of the Agreement shall be valid only if it is communicated to the other Party in writing and expressly stated to be a waiver. A waiver of any right or remedy arising from a breach of contract shall not constitute a waiver of any right or remedy arising from any other breach of the Agreement.

- 20.6 The Agreement shall not constitute or imply any partnership, joint venture, agency, fiduciary relationship or other relationship between the Parties other than the contractual relationship expressly provided for in the Agreement. Neither Party shall have, nor represent that it has, any authority to make any commitments on the other Party's behalf.
- 20.7 Except as otherwise expressly provided by the Agreement, all remedies available to either Party for breach of the Agreement (whether under the Agreement, statute or common law) are cumulative and may be exercised concurrently or separately, and the exercise of one remedy shall not be deemed an election of such remedy to the exclusion of other remedies.
- 20.8 If any provision of the Agreement is prohibited by law or judged by a court to be unlawful, void or unenforceable, the provision shall, to the extent required, be severed from the Agreement and rendered ineffective as far as possible without modifying the remaining provisions of the Agreement, and shall not in any way affect any other circumstances of or the validity or enforcement of the Agreement.

21 Notices

- 21.1 Any notice to be given under the Agreement shall be in writing and may be served by personal delivery, first class recorded or, subject to clause 21.3, e-mail to the address of the relevant Party set out in the Award Letter, or such other address as that Party may from time to time notify to the other Party in accordance with this clause:
- 21.2 Notices served as above shall be deemed served on the Working Day of delivery provided delivery is before 5.00pm on a Working Day. Otherwise delivery shall be deemed to occur on the next Working Day. An email shall be deemed delivered when sent unless an error message is received.
- 21.3 Notices under clauses 15 (Force Majeure) and 16 (Termination) may be served by email only if the original notice is then sent to the recipient by personal delivery or recorded delivery in the manner set out in clause 21.1.

22 Governing Law and Jurisdiction

The validity, construction and performance of the Agreement, and all contractual and non-contractual matters arising out of it, shall be governed by English law and shall be subject to the exclusive jurisdiction of the English courts to which the Parties submit.

Annex 3 – Specification

1. Project Aim

To provide data to underpin MPA site level assessment to ensure that MMO can accurately assess impacts to MPAs and fulfil conservation objectives.

2. Background

The MMO has an obligation under the Marine and Coastal Access Act (2009) to further the conservation objectives of Marine Protected Areas (MPAs), including using its byelaw making powers and marine planning policy to directly or indirectly manage non-licensable activities.

Non-licensable activities include a range of activities, from mooring and anchoring to recreational SCUBA diving. Non-licensable activities within MPAs are not well understood in terms of their intensity, both spatially and temporally, particularly in relation to protected features in MPAs. This makes it difficult to consider whether non-licensable activities are having a detrimental impact on an MPA.

In 2019 the [MMO1136](#) project developed a GIS dataset of non-licensable activities and PDF factsheets for 62 MPAs which included site description, designated features, current management, stakeholder concerns, an activity frequency/intensity table and interactive map. In addition there have been several projects looking specifically at the extent and impact of anchoring and mooring on features in MPAs (which weren't assessed in MMO1136): MMO1113/[ME6003](#) - Recreational and commercial anchoring and mooring impacts in marine protected areas in Wales and England - was published by Defra in 2017 and there are 2 further ongoing projects looking at priority sites and the impact of Eco-moorings.

There are currently 175 MPAs in UK non-devolved (MMO) waters, the MMO have identified 32 sites as having features potentially at risk from pressures caused by non-licensable activities. Types of non-licensable activity have been prioritised by the MMO for attention - anchoring and mooring has been identified as a priority activity to focus on, this includes the following:

1. Powerboating or sailing with an engine: mooring and/or anchoring
2. Sailing without an engine: mooring and/or anchoring.

The following activities have also been identified, but at a lower priority (in no specific order):

3. Powerboating or sailing with an engine: launching and recovery, participation
4. Sailing without an engine: launching and recovery, participation
5. Non-motorised water craft (e.g. kayaks, windsurfing, dinghies)
6. Recreational SCUBA diving
7. Swimming

Following on from previous work this project seeks to narrow down which MPAs have features most at risk from non-licensable activity and may require MMO management.

3. Objectives

The MMO has identified 32 priority MPAs for which the following is required (see Annex A for the full list of sites):

1. Collation of existing data for the 7 prioritised activities in the specified MPAs, from 1st January 2015 to present. Including:
 - a) Spatial and temporal distribution of non-licensable activities: location and count data over time for the listed activities, for example GIS, earth observation, AIS, sporting activity tracking data, RYA Coastal atlas, government and academic reports such as MMO1136. (Information on dates, times, weather conditions and overlap with features also useful)
 - b) Undertake stakeholder engagement to validate the findings on distribution of non-licensable activities.
2. Collection of new data for prioritised activities in the specified MPAs, throughout 2020/21 including:
 - a) Spatial and temporal distribution of non-licensable activities (desk exercise)
 - b) GPS locations of permanent moorings within each site
 - c) Stakeholder surveys regarding levels of each activity over time at the sites.
3. Collation of existing and new data into a GIS layer and production of activity maps for each MPA.

4. Outputs

The outputs from this project will include the following:

- Inception meeting; face to face or virtual
- Inception report minuting the inception meeting and reporting any actions (including by MMO), or changes or additions agreed to the project details as outlined under the project specification and proposal documents
- Fortnightly progress reports relating to completion of the objectives
- Draft final report
- Draft final GIS deliverables
- Final reports incorporating the comments and recommendations identified at the draft final stage.
- Final GIS deliverables incorporating the comments and recommendations identified at the draft final stage.
- Close out meeting

5. Timetable

This project will run for 4 months. Milestones are outlined below

Deliverable or milestone	Approximate date
Inception meeting	5 Nov 2020
Interim progress reports	Weekly
Draft report	w/c 22 Feb 2021
Final report	w/c 22 March 2021
Close out meeting	w/c 29 March 2021

6. Quality Assurance

It is essential that any evidence used in preparing the final report has been collected, processed and published with rigour and that appropriate quality assurance (QA) processes are in place, and embedded, within the contracting organisation. The Contractor will provide the MMO with relevant assurances around QA procedures and/or certifications from recognised standards providers (e.g. ISO). Please refer to the MMO's Quality Assurance of Evidence processes for guidance as to what the MMO will be looking for (<http://webarchive.nationalarchives.gov.uk/20140305093254/http://www.marinemanagement.org.uk/evidence/documents/qa-evidenceprocess.pdf>).

Annex B – Clarifications

MMO1243 Clarification questions

Clarification	Response
The Timetable states weekly progress reports, but the list of Outputs states fortnightly progress reports. Can you confirm frequency of progress reports?	Weekly
Objective (1) states “Collection of existing data from 1st Jan 2015 to present for the 7 prioritised activities”. Does “present” mean end of Sept 2020?	Yes
Objective (2) states “Collection of new data for prioritised activities throughout 2020/21”.	
a. Please can you clarify what you mean by the term “new data”	Yes - due to Covid new data would be the stakeholder surveys and anything done remotely. We have also asked for GPS locations of moorings, so that is potentially new data if possible to collect.
and the specific time period for this objective (e.g. does 2020/21 mean between Sep 2020 to Feb 2021?)	Yes
b. It is likely that activities will have been impacted to some extent by COVID for the majority of 2020. How will this impact Objective (2)?	Yes we anticipated a desk only exercise – Links with 3a
c. Is Objective (2) referring to all 7 higher priority activities, or just mooring and anchoring?	Should be the 7 prioritised activities as stated in objective 1
Objective (2c) states “Stakeholder surveys regarding levels of activity over time at each site”. Does “over time” mean 2020?	If the surveys go out in winter, current activity won't be too useful so it does need to be over time, the survey should therefore focus on 2020. We need the distinction

	between months regarding activity levels as summer is likely to be higher.
Objective 1 is to collect spatial and temporal data for the 7 prioritised activities from 1st January to present. Objective 2 contains the requirement to collect new spatial and temporal data for the prioritised activities for the time period 2020/21. As the draft report is due to be submitted on 1st February there will not be much opportunity to collect data for 2021. In addition collecting data up to the present day will include 2020. Is it therefore acceptable to combine these two objectives and just collect as recent data as is possible?	The desk based study be over time to as recent date as possible. This makes 2a) redundant as it is included in 1a) 2015 to present
Are there existing stakeholder databases from previous studies (e.g. MMO1136) that the MMO will make available or should the contractor assume development and utilisation of their own stakeholder database?	Due to GDPR we couldn't share the MMO1136 stakeholder contacts database. We could however share a list of relevant organisations we think appropriate as a starting point
Could contractor gain access to admiralty chart data via existing government agreements or will the contractor need to quote for mapping requirements?	PENDING UPDATED LICENSE AGREEMENT. However it is likely there will be no change to the previous agreement in which the following applied: This can be shared in GIS format for specific features. A Data Sharing Agreement would be signed prior to project start highlighting the data is only for use of the project and record of destruction post project completion must also be signed and returned.
Will the contractor be given access to the underlying datasets from relevant previous projects (e.g. MMO1136 and ME6003).	Yes

<p>Will the MMO be able to provide the contractor with access under an existing MMO/Central Government access agreement to existing data sources (e.g. RYA Coastal Atlas and AIS) or should the contractor include this within their quotation?</p>	<p>PENDING UPDATED LICENSE AGREEMENT. However it is likely there will be no change to the previous agreement in which the following applied:</p> <p>This can be shared in GIS format for specific features. A Data Sharing Agreement would be signed prior to project start highlighting the data is only for use of the project and record of destruction post project completion must also be signed and returned.</p>
