OFFICIAL SENSITIVE-COMMERCIAL (when completed) Schedule 2B - Schedule of Requirements - Specification for Contract No. 704354453

GR GENERAL REQUIREMENTS				
	Any defects or concerns arising from an inspection should be raised with the Authority immediately			
	Workshop facilities are required to assist with any defect not repairable in situ			
	Storage facilities required to receive delive 24 hr point of contact for emergency sup			
	Boat charter facilities available if requested by range staff (average 8 weeks per financial year whilst range boat in refit)			
R-06				
D No	ITEM	ITEM DESCRIPTION	COMMENTS	
D	DAILY		Daily inspection of Ship's draught. Report any changes to	
D-01	Draught indicators Navigation lights	Inspect Port and Stbd draught indicators Visual inspection	Authority immediately Notify Authority of any major defects	
W	WEEKLY	Visual inspection		
N-01	General walk round	Walk round ship to inspect for emergent issues	Rectify minor defects. Notify Authority of any major defects	
N-02	Accommodation and bilge inspection	General walk through and inspection	Rectify minor defects. Notify Authority of any major defects	
N-03	Shaft seals	Inspect condition and water ingress	Report to authority if excessive water found	
V-04	Bilge areas	Inspect condition and water ingress	Report to authority if excessive water found Re-grease mechanism and renew seal if required. Check	
N-05	Inspect all watertight doors	Inspect watertight doors, re-grease if necessary	doors open and close	
N-06	Mooring chains and smit locks	Visual check of Fore and Aft mooring chains and smit locks		
V-07 V-08	Sewage collection and disposal	Removal of black water from ship Supply of fresh water	Allow for 2000 litres per week Allow for 2000 litres per week	
		Hire water cooler to be changed every 6 months. Supply		
N-09	Supply of drinking water and cooler	one 20 litre water bottle per week	Remove empty bottles and return to supplier	
V-10 N-11	Emergency lighting and alarm Fire extinguishers	Visual inspection and testing to ensure all working Check pressure, condition and correct stowage		
M	MONTHLY	Toneok pressure, contaition and correct stowage		
M-01	Stern door	Inspect structure, locking mechanism and seals.	Grease, check seals and replace if required. Ensure door opens and closes securely	
M-02	External doors	Inspect and carry out greasing routine	Grease, check seals and replace if required. Ensure door opens and closes securely	
M-03	Internal doors	Inspect and carry out greasing routine	Grease, check seals and replace if required. Ensure door opens and closes securely	
M-04	Portacabins	Inspect deck fittings for security and check cabins for		
M-05	Toilets	Inspect deck fittings and check operation of system		
M-06	Vermin control	Inspect anti bird netting and remove any dead birds	Re-attach netting and spikes if required	
M.07	AAOv evetore	Inspect condition of extractor fan motor		
	440v system 240v system	Inspect condition of extractor fan motor Check lamps and replace as necessary		
M-07 M-08 M-09	240v system	Check lamps and replace as necessary Inspect lighting necklaces and check securing		
M-08 M-09	240v system 110v system	Check lamps and replace as necessary		
M-08 M-09 3M	240v system 110v system 3 MONTHLY	Check lamps and replace as necessary Inspect lighting necklaces and check securing arrangements and condition of all lights in Tristram	Rectify minor defects. Notify Authority of any major defect	
M-08 M-09 3M 3M-01	240v system 110v system	Check lamps and replace as necessary Inspect lighting necklaces and check securing arrangements and condition of all lights in Tristram	Rectify minor defects. Notify Authority of any major defects	
M-08 M-09 3M 3M-01	240v system 110v system 3 MONTHLY Upper deck	Check lamps and replace as necessary Inspect lighting necklaces and check securing arrangements and condition of all lights in Tristram
