Site Information

Background:

Allerdean Mills MWTS is an existing minewater treatment scheme located close to Camphouses, Berwick upon Tweed. The original works involved the construction and installation of a new passive MWTS.

Site Location and Access

In addition to the information in the works information:

The site Address is Land off B6354 North of Camphouses, Near Berwick Upon Tweed TD15 2NQ

Mining Information

- The whole area in the vicinity of the MWTS has been subject to opencast workings (see accompanying file showing extent of open cast mining in area).
- The extents of opencast are shown in the Health and Safety File contained on Conject (*H & S / O & M Manuals /Allerdean Mills*)

All the abandonment plans are held on The Coal Authority's nVision system so copies of these can be requested by e-mailing thecoalauthority@coal.gov.uk and requesting an abandonment plan search.

Geo-Environmental Issues

Based on the information available to The Coal Authority, Geo-Environmental Issues are not anticipated.

Landscape and Ecology

Based on the information available to The Coal Authority, Landscape and Ecology issues are not anticipated.

Site Services

- There are old land drain services in the vicinity of the works required, See file available in Conject: (*H & S / O & M Manuals /Allerdean Mills*) and attachment supplied with tender package.

Hydrogeology

Based on the information available to The Coal Authority, Hydrogeology issues are not anticipated.

Ground Conditions

From the available information there are no applicable ground investigations previously undertaken.

It is known that there are old land drainage pipes in the fields and these need to be located while installing the new system.

Previous Studies, Surveys and Reports

None

Health and Safety

The Pre-Construction Information required under the CDM Regulations 2015 is supplied via Conject under the filename "**07-07-17 Official PCI EV00334 Allerdean Mills Drainage Remediation**".

The Health and Safety File and the as built drawings for the scheme are contained on Conject (*H & S / O & M Manuals / Allerdean Mills*), notable:

- As Built Drawings (pdf and dwg file formats)
- Site location (pdf and dwg file formats)
