

PCM310203 - Triple Tower with Turbo Challenge, Physical, Banister Bars

CLIMBING

SLIDING

MEETING

EXPERIMENTING

Product Description

School aged children report in surveys, that they really enjoy spinning and rotating movements, closely followed by climbing and sliding. This huge, triple tower unit offers a variety of spinning, rotating, balancing, climbing and sliding together with friends. It welcomes players from age 6 – 12 years and up and is roomy and sturdy enough to take other ages, too. This means that parents and care givers are welcome to play along with their children. Apart from being a lot of fun, this unit stimulate the child's muscle strength in arms, legs and core, when they use the Turbo Challenge. The jumping up and down from the activity, the children build on their bone density. The climbing, gliding and rotating stimulate the child's motor skill development.

ELE400060 - Multispinner Carousel

ELE400060 - Multispinner Carousel

SPINNING

MEETING

Product Description

The KOMPAN Multispinner carousel is a thoroughly tested piece of fun social play and balance training, unique in function: the five seats are comfortable to get in and out. Here children lie, sit and the older and more agile children stand as the carousel spins. Younger children invent simple games according to which colour seat you get. Children can work the carousel up to a quite speedy spin - thrilling and fun.

ROCKING

THEME AND ROLE PLAY

MEETING

BALANCING

Product Description

Flowers, bees and butterflies hand out an invitation for a beautiful trip around the garden. Safely seated at both ends with hands and feet positioned on secure bars, the youngest will enjoy a good rocking. The more experienced player can sit or stand on the center plate, from where they can influence the ride considerably. All involved players will have to cooperate, to find out how to make the ride a success for all. The soothing movement makes one want to sing and enjoy the rhythm.

PCM101600 - Play tower with climbing pole, steel posts, st. steel slide

Product Description

This play tower offers activities in different levels for both physical play and cognitive challenges for the growing mind. The climbing pole and the inclined climbing wall are both fun physical activities while the abacus panel prompts children to use numbers and to manipulate the counters thus training their fine-motor skills. To exit the play tower children can use the slide. At ground level, children can also play under the structure, and a bench offers a setting for social interactions.

PCM101600 - Play tower with climbing pole, steel posts, st. steel slide

PRODUCT SHEETS & TUV CERTIFICATES
PCM300800 - Three towers with net & bridge, steel posts, st. steel slide

Product Description

This triple tower connected by a net bridge and a climbing net provides a fun way to move around. Once on the platforms there are other activities than just the slide or the fireman's pole. These include the faces and time panel and a port window panel, which are great for encouraging social interactions. At ground level, children can play with the talk tubes, which are two tubes that you can speak into. This is great for children's understanding of sound, and encourages their language use.
