

Social Value - GMCVO Statement

GMCVO is committed to the following principles in developing social value through our work

1. optimising social, environmental and economic well-being in everything that we do both for young people and the wider community.
2. thinking long-term – turning investment into long-lasting outcomes
3. working together across sectors to provide social value outcomes
4. having values including inclusion, openness, honesty, social responsibility and caring for others
5. having a clear and current understanding of how social value can make the places we work in a better place to live

Working together to measure, evaluate and understand social value, as well as reporting publicly about the social value that we create.

Please also refer to the **Greater Manchester Social Value Network** link below for further information and guidance relating to Social Value.
