Schedule 1 – The Specification

Background and introduction

1. Effective and professional quality governance is critical to the long-term success of all schools – maintained and academy, those standing alone and those governed in groups (both federations and MATs). Effective governing boards are key to securing the improvements and efficiencies we need schools across the system to achieve over the coming years.
2. That means we need to leverage maximum impact from £1.5m p.a. to 2020 to build the capacity of governing boards across the country. Our aim is to achieve this through a focus on supporting chairs to drive change in their boards and professionalising the quality of clerking support; delivering a step change in the quality of governance and particularly for boards in the highest priority situations.
3. We have defined the key features of effective governance in the 2017 Governance Handbook; the new Competency Framework for Governance sets out the knowledge, skills and behaviours chairs and boards need; and the Clerking Competency Framework describes the knowledge, skills and behaviours required to provide professional clerking to governing boards. Our focus is on the training and development outcomes we want to see as defined by the competency framework and this specification.

The requirements

4. This Contract is for the provision of Clerking Development across the 8 Regional School Commissioner (RSC) regions of England up to the end of the financial year 2019–2020. The requirement is for:
 - Activity designed to professionalise the quality of clerking so that governing boards receive the administrative and procedural information, advice and support they need to operate effectively.
5. In addition, the Contract includes one-off funding in 2017-18 to cover set-up costs.
6. Other than the one-off funding for set-up costs, payments will be linked directly to the Contractor's success in securing business through a per-clerk funding model. The Contractor's income will therefore be directly linked to the volume of support they provide.
7. Further details of set-up and unit-funding arrangements are set out in Schedule 3.
8. The Contract is awarded for the delivery of activity that achieves the programme outcomes as set out below.
9. The Authority reserves the right to terminate or reduce the scope of any contracted agreement should the budget for the programme be withdrawn or changed or if there is a significant change in the direction of government

policy in relation to the programme and/or outcomes required as part of the Contract.

10. The Authority reserves the right to terminate the Contract should the Contractor fail to deliver any of their commitments under the contract and after a reasonable time to remedy any failure.

Programme outcomes

11. Funding for Clerking Development will be about professionalising the quality of clerking support available to governing boards. It will lead to:

- Increased clerking expertise in line with the Clerking Competency Framework to deliver professional quality clerking that ensures the efficient and effective functioning of governing boards.
- Greater involvement by clerks in sustainable and relevant peer-to-peer support networks that enable them to encourage, support and share good practice with each other.

12. The Contractor will be required to ensure that:

- Participants are supported and challenged to have an objective and fair assessment of their own strengths and development needs having reference to the Authority's Governance Handbook and the Clerking Competency Framework and in light of the specific circumstances in which they provide clerking services.
- Participants are supported and challenged to understand throughout and at the conclusion of the programme what progress they have made against their development needs and what development priorities remain.

Minimum volumes

13. The Contractor is expected to deliver impact of national significance, and must either:

- deliver at least £15,000 of funded activity in 2018–19 (the first full financial year of delivery) for clerking development; or
- deliver a service of national significance relating to the specific nature of the target audience or the level of innovation, as agreed with the Authority and set out in Schedule 10.

Delivery of programme outcomes

14. The Contractor is encouraged to adopt evidence-based and innovative solutions to deliver the programme outcomes, taking account of how this may vary for boards in different circumstances and geographies.

15. The Contractor must operate in the following regions:

- East of England and North-East London
 - East Midlands and the Humber
 - Lancashire and West Yorkshire
 - North of England
 - North-West London and South-Central England
 - South-East England and South London
 - South West England
 - West Midlands
16. The Contractor's proposals for the methods and activities by which they intend to deliver the programme outcomes have been agreed with the Authority, and are set out in Schedule 10.

Generating demand, marketing and branding

17. The Contractor is responsible for recruiting participants.
18. Marketing activity should focus on low-cost or no-cost in line with expectations for all government contracts, and in line with the Authority's marketing and branding guidelines.
19. The Contractor can brand their programmes as they see fit, while making clear that they are approved and funded by the Authority.
20. The Contractor will have a web presence dedicated to development programmes in place within 1 month of commencement and will use this to make publicly available a clear description of their programmes and outcomes, including (but not limited to) the:
- Cost of participation by programme or activity offered.
 - Detail of what will be included in the programme or activity offered.
 - Duration of programme, including expectations of time allocated to each type of learning in the programme or activity i.e. face-to-face, peer learning, online learning, individual activities, work-based learning etc.
 - Any quantitative and qualitative performance data which will give prospective participants an indication of the quality of the programme or activity.
21. The Contractor will engage with the Authority and with wider regional/sub-regional school-led improvement initiatives and structures to ensure that boards in the most vulnerable and high-priority situations are targeted or prioritised for development.

Management Information

22. The Contractor must provide management information (MI) to meet the needs of the Authority's contract management process and for the purposes of quality assurance.
23. The Contractor is expected to establish processes for tracking and maintaining robust and comprehensive data about participant engagement, deferral, withdrawal and completion and are required to present this to the Authority as part of the delivery authorisation and payment processes. The information required by the Authority is set out in the Contractors invoice data spreadsheet and will be shared with the Authority using secure access to the Authority's SharePoint system.
24. In addition, Contractors should provide quarterly information to the Authority about any clerks participating in their programmes who are not funded by the Authority and any demand that they have been unable to meet.
25. The Authority or its Quality Assurance Contractor (see below) reserves the right to request additional MI during the course of the contract. Any additional MI requirements will be agreed with Contractors with at least 1 month's notice.

Quality assurance

26. Quality assurance is the means by which the Authority will ensure that all participants are provided with high-quality learning and development that brings about clear improvements in their practice regardless of the provider they choose. The quality assurance process plays a significant part in ensuring that all suppliers consistently meet the Authority's expectations and will inform any decision-making about whether providers continue to receive funding and/or any contract extension. The Authority's intention is to separately tender for an independent quality assurance Contractor to:
 - provide assurance to the Authority's contract manager, that each Contractor is delivering against the programme outcomes and other contractual delivery standards and in line with the Clerking Competency Framework, including keeping any learning material up to date;
 - generate evidence of what works best to build clerks' skills, behaviour and knowledge set out in the competency frameworks, enabling us to spread good practice across the system and to inform any future funding decisions;
 - assess the impact and value for money of each Contractor to help boards and clerks decide which contractor to use, and to inform the annual contract management cycle;
 - generate learning on the effectiveness of the overall delivery, operating and funding model of the programme;

- contacting a 10% sample of participants directly to verify their participation for financial control purposes.
27. The Contractor is required to establish proportionate arrangements for assessing and reporting to the Authority how successful they are in meeting boards' needs, including measures of how satisfied boards are with the quality of provision.
 28. The Contractor is required to have a strategy for continuous quality improvement which should include regular evaluation of provision, leadership and management; self-assessment; seeking and acting on feedback from personnel, participants and partners; taking account of new evidence and research; and working with the Authority on any additional reasonable and agreed measures to improve quality.
 29. Any third party engaged to carry out quality assurance will be appointed through a separate procurement process and due to the need for objectivity, the Contractor will not be eligible to bid, or be part of a consortium that bids, for the quality assurance contract.
 30. The activity of the quality assurance contractor may include examination of participant experience through different methodologies for example questionnaires, focus groups, interviews and observation of provision.
 31. The Contractor will be required to cooperate with the quality assurance body, including notifying participants that their contact details, and those of their referees, will be shared with this body as part of the process of quality assurance. For example, this may include a post-participation follow-up survey or checks to validate participant details.
 32. The Authority reserves the right to publish information based on the findings of the quality assurance body about the relative impact and effectiveness of Contractor's programmes in delivering programme outcomes. This may include, but is not limited to, a high-level description of the Contractor's model and methods of delivery; success rates in recruiting participants to projected volumes; participant feedback; participant completion rates.
 33. The Authority reserves the right to establish an expert reference group to provide feedback and challenge on the impact it is achieving from its investment in governance and clerking development programmes.

Working with the Authority

34. The Contractor is required to co-operate with the Authority including in relation to any contract management activity and to any requirements to amend provision in response to updates or changes to policy.
35. The Authority will put in place mechanisms for regular updates and communication with the Contractor and will undertake to share any data which is relevant to the successful delivery of these contracts as far as it is possible to do so.

- 35.2.3 if given or made by e-mail, at the time of transmission, provided that a confirming copy is sent by first class pre-paid post or (where being sent to an address in a different country to where posted) airmail to the other Party within 24 hours after transmission and that, in the case of transmission by e-mail where the time of transmission is not between 9.00 am and 5.00 pm, service shall be deemed to occur at 9.00 am on the next following Business Day (such times being local time at the address of the recipient).
- 35.3 If proceedings to which the Civil Procedure Rules apply have been issued, the provisions of Civil Procedure Rule 6 must be complied with in respect of the service of documents in connection with those proceedings.

35.DISPUTE RESOLUTION

- 36.1 Any Dispute shall be dealt with in accordance with this clause 36.
- 36.2 In the first instance, a representative of each Party will each use their reasonable endeavours to resolve the Dispute. If the Dispute cannot be resolved by such representatives within 15 days of the Dispute arising, it will be referred to a senior representative of each Party, who shall

each use their reasonable endeavours to resolve the Dispute.

- 36.3 If a Dispute cannot be resolved by negotiation as referred to in clause 36.2 within 30 days of the Dispute arising, either Party may refer the Dispute for determination in accordance with the mediation procedure administered by the Centre for Effective Dispute Resolution, the costs of the mediator being split equally between the Parties, who shall otherwise bear their own costs.

36. GOVERNING LAW AND JURISDICTION

- 37.1 The Contract and any non-contractual obligations arising out of or connection with it will be governed by and construed in accordance with English Law.
- 37.2 The courts of England shall have exclusive jurisdiction to settle any dispute which arises out of or in connection with the Contract.
- 37.3 If any provision of the Contract is held by any court or other competent authority to be void or unenforceable in whole or part, the other provisions of the Contract and the remainder of the affected provisions shall continue to be valid.

Schedule 3 – Financials

1. The DFE shall pay the Contractor the Charges in accordance with the Contract, subject to successful delivery of the Services against the KPIs or Service Levels set out in schedule 4. The Charges are inclusive of all expenses incurred by the Contractor in relation to its provision of the Services and unless agreed otherwise between the Contractor and the DFE, the Contractor shall not be entitled to claim any expenses in addition to the Charges.
2. The DFE may review the detailed costs set out in the Implementation Plan to ensure that the Contract is value for money.
3. Indexation shall not apply to the Charges.
4. The Contractor shall be entitled to invoice the Charges following acceptance by the DFE of satisfactory completion of the Services or, where performance of the Services will continue, either monthly in arrears or on satisfactory completion of milestones, outputs or outcomes.
5. Funds allocated to a particular expenditure heading are available for that expenditure heading only. Funds allocated to a particular accounting year are available for that accounting year only.
6. Contractors will be responsible for conducting their financial affairs in a compliant and transparent manner and should ensure that their charges are based on efficient models of delivery and costs are real, auditable and can be justified.
7. The Authority is not setting a Recommended Retail Price for programmes. Contractors are free to determine appropriate cost for their offer based on their own financial modelling work.

Funding model

8. Funding for governance development programmes will have two separate elements:
 - One-off funding for set-up costs.
 - Unit funding for delivery which will be linked directly to Contractors' success in securing business from clerks and to the volume of support they provide.

Funding for set-up costs

9. Intellectual Property for any programme materials will rest with the Contractor regardless of whether development of these materials is funded by the Authority. We will expect each contractor to develop their own course or programme materials, including any learning resources, in line with the Governance Handbook and Clerking Competency Framework. We may reserve the right for the materials to be licenced at no cost to the Authority in perpetuity with no limitation to their future use by the Authority.
10.

Unit funding rates

11. For governance clerking development we will pay £350 per participant.

Unit funding allocations

12. The Authority will divide available funding between Governance Development and the separate Clerking Development program. The Authority reserves the right to move funding between priorities over time, but our indicative funding split is as follows:

	2017–18	2018–19	2019–20
Leadership Development	£340,000	£1,150,000	£1,150,000
Clerking Development	£90,000	£300,000	£300,000

13. Our intention is to fund activity proportionately in all RSC regions of the country. This means dividing funding across the 8 regions. However, we will reserve the right to adjust regional allocations, particularly towards the end each financial year in order to avoid a situation in which there is both underspend in some regions and unfunded demand in others.
14. We have apportioned funding to each region based on the total number of schools per region. The indicative allocations are as follows:

RSC region	All schools	2017-18	2018-19
East Midlands & Humber	2,700	£11,000	£37,000
Lancashire & West Yorkshire	3,400	£14,000	£47,000
North	1,800	£8,000	£25,000
North East London & East	2,400	£10,000	£33,000
NW London & South Central	3,000	£12,000	£42,000
South London & South East	3,300	£14,000	£46,000
South West	2,300	£10,000	£33,000
West Midlands	2,700	£11,000	£37,000
Total	21,600	£90,000	£300,000

Unit-funding payment model

15. The available budget within each region will be awarded on a first-come, first-served basis to Contractors securing the commitment of participants to undertake their programmes. Authorisation to deliver must therefore be sought from the Authority prior to commencing delivery to each participant in order to confirm the eligibility of the participant for funding and the availability of sufficient remaining budget.
16. Each contractor will confirm a secure email address for authorisation correspondence: only emails from and to this mailbox will count as authorisation requests and confirmations.

17. [REDACTED]
18. Authorisation requests will be considered in the order in which they are received in the mailbox. The details of each proposed participant for whom Contractors are seeking authorisation to deliver training will be provided via a shared Excel workbook.
19. On receipt of authorisation requests, the Authority will:
- Check a sample of individual/school/board details in the Government's "Get information about schools" database to check their validity
 - Confirm eligibility for funding and the rate of funding
 - Confirm the availability of funding in the relevant region
 - Consider any case made by Contractors for re-participation.
20. The Authority will aim to email Contractors within 5 working days (and in most cases much more quickly) to confirm the eligibility of the proposed participant and the availability of sufficient funding, authorising the Contractor to commence delivery within the next 180 days, after which time the authorisation will expire.
21. The Authority reserves the right to terminate contracts in cases where providers submit data on fictitious boards; where on more than one occasion a Contractor puts in speculative claims for funding with no firm commitment from participants; where participants commence provision without having been authorised; or where Contractors fail to provide data for authorisation.
22. [REDACTED]
23. [REDACTED] We will claw back a proportion of the funding rate for any participant that withdraws from or otherwise does not complete the Contractors' programme.
24. We will recoup clawback over the following two quarterly payments. Any clawback amount due will be subtracted from the payments owing to contractors for that period. If the contract is due to come to an end within two quarters, the Authority will make arrangements to recoup any payments due from suppliers directly.
25. The clawback scale is laid out below.

Percentage of course completed by participant	Amount of clawback*
25% or less	80%

26% - 50%	60%
51% - 75%	30%
76% - 90%	15%
Over 90%	0%

**Percentage of clawback to be recouped from the contractor, equally split over the following two quarterly payments.*

26. The Authority will agree with the Contractor how the clawback scale applies to their specific offer.
27. Contractors may consider including reasonable charges to participants or the organisation they represent as a clerk in their terms and conditions of booking in the event of withdrawal from the course. This cannot exceed the amount of clawback applied by the Authority.
28. Contractors may offer participants the opportunity to defer completion in exceptional circumstances. Contractors should set out their conditions for deferral (for example, for maternity/paternity leave or ill-health) or withdrawal from programmes but should ensure that these are clearly communicated to participants ahead of them signing up to any provision. Deferral should be taken to mean instances in which a participant is unable to complete the whole of a Contractor's programme but plans to join the programme again at a later date. The period of deferral should be no longer than 12 months. Withdrawal should be taken to mean instances in which a participant decides not to complete the programme or a Contractor decides to terminate their involvement.
29. Participants who have deferred and then restarted provision should be recorded as such by adding a comment to the start date box on the invoice spreadsheet.
30. Payments will be made by BACS transfer within 30 days of receipt of a valid invoice.
31. Regularly, and on request, we will confirm to Contractors via their shared Excel workbook the funding that remains available in each region. We will notify Contractors as and when the full financial year's budget within a given region has been allocated.
32. Prior to the last quarter of the financial year we will require Contractors to forecast the demand they have identified and have the capacity to meet in each region over the final three months of the year. In light of this information, the Authority reserves the right to re-allocate remaining funding between the regions.

Schedule 4 – KPIs

1. This schedule 4 sets out the key performance indicators which will be used to assess the performance of the Contractor, and will serve as a basis for contract review discussions.
2. The Contractor shall monitor its performance against of each of the KPIs and send a report to the Authority, quarterly or as requested by the Authority.

Key Performance Indicators	
1	Progress in developing or re-purposing course materials: On target/Off target and mitigations in place. (Up to 31/03/2018).
2	Recruitment of numbers to planned cohorts is above 90% of target.
3	Number of training events delivered in the period.
4	Attendance levels of recruits in each live cohort at planned events is above 90% of target.
5	Drop out levels for valid reasons from each cohort (no clawback applied by DfE) not to exceed 5%.
6	Progress towards achieving the minimum contracted income level (cumulative).
7	90% of participants to rate the provider as good or above overall.

In addition, the contractor should provide a narrative of no more than 500 words on current issues and risks, continuous improvements on delivery methodologies and event materials, and their impact.

Schedule 5 – Implementation Plan

1. The Contractor shall provide the Services in accordance with the Implementation Plan set out below.
2. The Implementation Plan shall be sufficiently detailed as is necessary to manage the Services and any proposed changes are subject to the Change Control Procedure.
3. The Contractor shall be responsible for implementing and managing the Services and for taking all such steps as may be necessary so as to ensure that from the Service Commencement Date the Contractor is able to provide the Services:
 - 3.1. in accordance with the provisions of the Contract; and
 - 3.2. in a manner that maintains the continuity of Services to the DFE.

The Contractor shall monitor its performance against the Implementation Plan and report to the DFE monthly (or more frequently if so required by the DFE) on its performance.

Schedule 6 – Change Control Procedure

1. The Parties acknowledge that minor changes to the Contract may be necessary to reflect operational and administrative procedures during the Term and that such minor changes may be agreed in writing between the Parties' respective contract managers.
2. The Contractor shall use reasonable endeavours to incorporate minor changes requested by the DFE within the current Charges and shall not serve a Contractor Notice of Change unless the change involves a demonstrable material increase to the scope or delivery of Services, its costs or requires a material change to the Contract.
3. Either Party may request a Variation provided that such Variation does not amount to a material change.
4. The DFE may request a Variation by completing the Change Control Note and giving the Contractor sufficient information to assess the extent of the Variation and consider whether any change to the Charges are required in order to implement the Variation within a reasonable time limit specified by the DFE. If the Contractor accepts the Variation it shall confirm it in writing within 21 days of receiving the Change Control Note.
5. If the Contractor is unable to accept the Variation or where the Parties are unable to agree a change to the Charges, the DFE may allow the Contractor to fulfil its obligations under the Contract without Variation or if the Parties cannot agree to the Variation the Dispute will be determined in accordance with clause 36.
6. If the Contractor wishes to introduce a change to the Contract it may request a Variation by serving the Change Control Note on DFE.
7. The DFE shall evaluate the Contractor's proposed Variation in good faith, taking into account all relevant issues.
8. The DFE shall confirm in writing within 21 days of receiving the Change Control Note if it accepts or rejects the Variation.
9. The DFE may acting reasonably reject any request for a Variation proposed by the Contractor.

- 1 The Contractor shall comply with Departmental Security Standards for Contractors which include but are not constrained to the following clauses.
- 2 Where the Contractor will provide ICT products or Services or otherwise handle information at OFFICIAL on behalf of the Department, the requirements under Cabinet Office Procurement Policy Note – Use of Cyber Essentials Scheme certification - Action Note 09/14 25 September 2014, or any subsequent updated document, are mandated; that “contractors supplying products or services to HMG shall have achieved, and retain certification at the appropriate level, under the HMG Cyber Essentials Scheme”. The certification scope must be relevant to the services supplied to, or on behalf of, the Department.

(Guidance: The Department’s expectation is that the certification scope will be relevant to the services supplied to, or on behalf of, the Department. However, where a contractor or (sub) contractor is able to evidence a valid exception or certification to an equivalent recognised scheme or standard, such as ISO

27001, then certification under the Cyber Essentials scheme could be waived and this clause may be removed. Changes to the Cabinet Office Procurement Policy Note – Use of Cyber Essentials Scheme certification - Action Note 09/14 25 September 2014 will be tracked by the DSU)

(Guidance: The terms OFFICIAL and OFFICIAL-SENSITIVE are taken from the Government Security Classification Policy (GSCP). The Department's expectations are that all contractors shall handle the Department's information in a manner compliant with the GSCP – see 12.4 below. Details of the GSCP can be found on the GOV.UK website at:

<https://www.gov.uk/government/publications/government-security-classifications>.)

- 3 The Contractor shall have achieved, and be able to maintain, independent certification to ISO/IEC 27001 (Information Security Management Systems Requirements). The ISO/IEC 27001 certification must have a scope relevant to the services supplied to, or on behalf of, the Department. The scope of certification and the statement of applicability must be acceptable, following review, to the Department, including the application of controls from ISO/IEC 27002 (Code of Practice for Information Security Controls).

(Guidance: The Department's expectation is that suppliers claiming certification to ISO/IEC 27001 shall provide the Department with copies of their Scope of Certification, Statement of Applicability and a valid ISO/IEC 27001 Certificate issued by an authorised certification body. Where the provider is an SME that has a valid Cyber Essentials certification then certification under the ISO/IEC 27001 scheme could be waived and this clause may be removed.)

- 4 The Contractor shall follow the UK Government Security Classification Policy (GSCP) in respect of any Departmental Data being handled in the course of providing this service, and will handle this data in accordance with its security classification. (In the event where the Contractor has an existing Protective Marking Scheme then the Contractor may continue to use this but must map the HMG security classifications against it to ensure the correct controls are applied to the Departmental Data).

(Guidance: The Department's expectations are that all contractors shall handle the Department's information in a manner compliant with the GSCP. Details of the GSCP can be found on the GOV.UK website at:

<https://www.gov.uk/government/publications/government-security-classifications>.)

- 5 Departmental Data being handled in the course of providing the ICT solution or service must be segregated from other data on the Contractor's or sub-contractor's own IT equipment to both protect the Departmental Data and enable it to be identified and securely deleted when required. In the event that it is not possible to segregate any Departmental Data then the Contractor and any sub-contractor shall be required to ensure that it is stored in such a way that it is possible to securely delete the data in line with Clause 12.14.

(Guidance: Advice on HMG secure sanitisation policy and approved methods are described in HMG IS5.)

- 6 The Contractor shall have in place and maintain physical security and entry control mechanisms (e.g. door access) to premises and sensitive areas and separate logical access controls (e.g. identification and authentication) to ICT systems to ensure only authorised personnel have access to Departmental Data.

(Guidance: Where the contractor's and sub-contractor services are wholly carried out within Departmental premises and all access to buildings or ICT systems is managed directly by the Department as part of the service, the Department shall be responsible for meeting the requirements of this clause and it need not be included.)

- 7 The Contractor shall have in place and shall maintain procedural, personnel, physical and technical safeguards to protect Departmental Data, including but not limited to: physical security controls; good industry standard policies and process; anti-virus and firewalls; security updates and up-to-date patching regimes for anti-virus solutions; operating systems, network devices, and application software, user access controls and the creation and retention of audit logs of system use.

(Guidance: Where the contractor's and sub-contractor services are wholly carried out using Departmental ICT resources or locations managed directly by the Department as part of the service, the Department shall be responsible for meeting the requirements of this clause and it need not be included.)

- 8 Any electronic transfer methods across public space or cyberspace, including third party provider networks must be protected via encryption which has been certified to a minimum of FIPS 140-2 standard or a similar method approved by the Department prior to being used for the transfer of any Departmental Data.

(Guidance: The terms "public space" and "cyberspace" are used to describe the internet and any commercially provided third party network used to transmit Departmental information. Even where the contractor's and sub-contractor services are wholly carried out using Departmental ICT resources managed directly by the Department as part of the service, if there is still the possibility of emails being sent to external addresses, this clause should be included.)

- 9 Storage of Departmental Data on any portable devices or media shall be limited to the absolute minimum required to deliver the stated business requirement and shall be subject to Clause 12.10 and 12.11 below.
- 10 Any portable removable media (including but not constrained to pen drives, flash drives, memory sticks, CDs, DVDs, or other devices) which handle, store or process Departmental Data to deliver and support the service, shall be under the control and configuration management of the contractor or (sub-)contractors providing the service, shall be both necessary to deliver the

service and shall be encrypted using a product which has been certified to a minimum of FIPS140-2 standard or use another encryption standard that is acceptable to the Department.

(Guidance: Where the use of removable media as described at Clause 12.9 above is either prohibited or not required in order to deliver the service this clause shall be revised as follows: - 'The use of removable media in any form is not permitted'.)

- 11 All portable ICT devices, including but not limited to laptops, tablets, smartphones or other devices, such as smart watches, which handle, store or process Departmental Data to deliver and support the service, shall be under the control and configuration management of the contractor or sub-contractors providing the service, and shall be necessary to deliver the service. These devices shall be full-disk encrypted using a product which has been certified to a minimum of FIPS140-2 standard or use another encryption standard that is acceptable to the Department.

(Guidance: Where there is no suitable FIPS140-2 encryption product available to provide the necessary full-disk encryption, the Department shall agree a suitable alternative product that meets 'industry good practice' in this area with the contractor or sub-contractor. Where the contractor's and sub-contractor services are wholly carried out using Departmental ICT resources managed directly by the Department as part of the service, the Department shall be responsible for meeting the requirements of this clause and it need not be included.)

- 12 Whilst in the Contractor's care all removable media and hardcopy paper documents containing Departmental Data must be handled securely and secured under lock and key when not in use and shall be securely destroyed when no longer required, using either a cross-cut shredder or a professional secure waste paper organisation.

(Guidance: The term 'lock and key' is defined as: "securing information in a lockable desk drawer, cupboard or filing cabinet which is under the user's sole control and to which they hold the keys".)

- 13 When necessary to hand carry removable media and/or hardcopy paper documents containing Departmental Data, the media or documents being carried shall be kept under cover and transported in such a way as to ensure that no unauthorised person has access to the material being carried. This clause shall apply equally regardless of whether the material is being carried inside or outside of company premises.

(Guidance: The term 'under cover' means that the information is carried within an opaque folder or envelope within official premises and buildings and within a closed briefcase or other similar bag or container when travelling outside of official premises or buildings).

- 14 At the end of the contract or in the event of equipment failure or obsolescence, all Departmental information and data, in either hardcopy or

electronic format, that is physically held or logically stored on the Contractor's ICT infrastructure must be securely sanitised or destroyed in accordance with the current HMG policy (HMG IS5) using a CESG approved product or method. Where sanitisation or destruction is not possible for legal, regulatory or technical reasons, such as a Storage Area Network (SAN) or shared backup tapes, then the Contractor or sub-contractor shall protect the Department's information and data until the time, which may be long after the end of the contract, when it can be securely cleansed or destroyed.

(Guidance: Where no departmental information or data shall be held by the Contractor or sub-contractor, in either physical or logical form this clause may be removed.)

(Guidance: Where there is no acceptable secure sanitisation method available for a piece of equipment, or it is not possible to sanitise the equipment due to an irrecoverable technical defect, the storage media involved shall be destroyed using an approved method described in HMG IS5.)

- 15 Access by Contractor or sub-contractor staff to Departmental Data shall be confined to those individuals who have a "need-to-know" and the appropriate level of security clearance, as required by the Department for those individuals whose access is essential for the purpose of their duties. All employees with direct or indirect access to Departmental Data must be subject to pre-employment checks equivalent to or higher than the Baseline Personnel Security Standard (BPSS)

*(Guidance: Further details of the requirements for BPSS clearance are available on the website at:
<https://www.gov.uk/government/publications/security-policy-framework>)*

- 16 All Contractor or sub-contractor employees who handle Departmental Data must have annual awareness training in protecting information.

- 17 The Contractor shall, as a minimum, have in place robust and ISO 22301 conformant Business Continuity arrangements and processes including IT disaster recovery plans and procedures to ensure that the delivery of the contract is not adversely affected in the event of an incident. An incident shall be defined as any situation that might be, or could lead to, a disruption, loss, emergency or crisis. When a certificate is not available it shall be necessary to verify the ongoing effectiveness of the ISO 22301 conformant Business Continuity arrangements and processes including IT disaster recovery plans and procedures, to the extent that the Contractor must have tested/exercised these plans within the last 12 months and produced a written report of the test/exercise, outcome and feedback, including required actions.

(Guidance: The creation of robust business continuity and disaster recovery plans are aligned with industry good practice and it is the Department's expectation that all vendors providing services or infrastructure to the Department will have plans that are aligned to the ISO 22301 standard in place. Further information on the requirements of ISO 22301 may be found in the standard.)

- 18 Any non-compliance with these Departmental Security Standards for Contractors, or other Security Standards pertaining to the solution, or any suspected or actual breach of the confidentiality, integrity or availability of Departmental Data being handled in the course of providing this service, shall be investigated immediately and escalated to the Department by a method agreed by both parties.
