Beth sy'n bwysig i arweinwyr GIG ydy galluogi trawsnewid, diogelu cleifion yn well a chael budd am arian. Mae angen i bynciau hyfforddi gael y cydbwysedd cywir rhwng y technegol a'r ymarferol.

Ffynhonnell: Cyfarwyddwr Digidol, Iechyd

For leader's in the NHS it is about enabling transformation, increasing patient safety and getting a return on investment. Training topics must strike the right balance between technical and practical application.

Cyd-destun Awdurdod Lleol

Local Authority context

Mae'r ALL yn wynebu setliadau ariannol heriol - llai o arian ac angen i ymateb i'r agenda hinsawdd. Felly, mae'n dipyn i ofyn wrthyn nhw ganolbwyntio ar 'ddigidol'.

Rydym angen eu cynorthwyo i sylweddoli fod trawsnewid digidol yn arwain at ddarparu'n fwy effeithlon a phan mae'n cael ei wneud yn dda, gall leihau gwastraff / datgarboneiddio.

LAs are facing challenging financial settlements = less money and a need to respond to the climate agenda. So expecting them to focus on 'digital' is a big ask.

We need to help make the links that digital transformation helps deliver more efficiently and when done well can reduce waste/decarbonise.

Ble gychwynnwn ni?

Where do we start?

- 22 Awdurdod Lleol
- 7 Bwrdd Iechyd
- 51 Corff Noddedig

- 22 Local Authorities
- 7 Health Boards
- 51 Sponsored Bodies

**"Mae gennym un cyfle i wneud hyn yn iawn neu
mae perygl y byddwn yn colli arweinwyr cyn
dechrau'r daith"**

[Ffynhonnell: Arweinydd Iechyd]

**"We have one chance at getting this right or we risk
losing leaders at the outset of this journey"**

Atodiadau

Appendices

Mae'n **rhaidd i hyfforddiant** gael ei gynnig
yn **Gymraeg** ac yn Saesneg

Training **must be delivered in Welsh** and
English.

Gan ddefnyddio y themâu lefel-uchel, mae'n rhaid i'r **hyfforddiant gael ei ddylunio ar y cyd** gydag arweinwyr Cymreig i sicrhau ei fod yn datrys y problemau cywir.

Using the high-level themes, the content of **training must be co-designed** with Welsh leaders to ensure it solves the right problems.

Mae angen i gyflenwyr ystyried **cyd-destun a aeddfedrwydd digidol** sefydliad, gan y bydd hyn yn gosod cyflymder a pha mor aml fydd hyfforddiant yn cael ei gynnal.

Suppliers must take into account the **digital maturity and context** of organisations as this will set the pace and sequence of training.

Mae angen i gyflenwyr ddeall sut mae **ffrydiau ariannu gwahanol yn cyd-fynd gyda arweinyddiaeth ddigidol** a'r tirlun caffael.

Suppliers need to understand how different **funding streams fit with digital leadership** and the procurement landscape.

Mae angen **cydbwysedd** mewn hyfforddiant rhwng cynnwys technegol a cymhwysiad ymarferol.

Training must **strike the right balance** between technical content and practical application.

Cynigwch ystod o hyfforddiant **manwl** a **byr**

Provide a range of **in-depth** and **bitesize** training.

Byddwch yn **gynhwysol** ac yn **hygyrch** e.e mae aelod yn dechrau teimlo yn sâl ar ôl edrych ar sgrin am yn rhy hir ac angen deunyddiau hyfforddi mewn fformat arall.

Be **inclusive** and **accessible** e.g. a delegate suffers from motion sickness due to prolonged time on screen and needs training materials in an alternative format.

Rhyngweithiol a diddorol

Interactive and engaging.

Seiliwch ar **fethodoleg** ac **arfer da cadarn**,
wedi ei dystio gan ymchwil.

Be based on **sound methodologies** and
best practice, evidenced by research.

Angen mapio i'r **Safonau Gwasanaeth Digidol** (pan yn berthnasol). Hwn yw asgwrn cefn gwasanaethau cyhoeddus digidol da.

Must map to the **Digital Service Standard** for Wales (where relevant). This is the backbone to good public services.

Mae angen i ddarparwyr ddeall y cyswllt rhwng hyfforddiant a swyddogaethau a sgiliau yn y fframwaith DDaT.

Suppliers must understand the link between training and the roles and skills in the **DDaT** framework.

Datblygu adnoddau dysgu unigryw fyddai'n 'IP'
i Gymru.

Develop bespoke learning products that would be
the IP of Wales.

Hyfforddi'r Hyfforddwr – gweithio gydag unigolion o fewn y sector gyhoeddus yng Nghymru i'w harfogi i ddarparu cyrsiau hyfforddi.

Train the trainer – work with individuals within the Welsh public sector to upskill them in delivering training courses.

Dylai hyfforddeion gael **deunyddiau** i fynd adref i edrych yn ôl arno a'u defnyddio gyda'u timoedd e.e sleidiau, tasgau ymarferol.

Trainees should be given take-away **materials** that they can refer back to and use with their teams e.g. slides, practical exercises.
