DEFFORM 47
(Edn 04/22)

Construction of Tenders

C1. Your Tender must be written in English, using Arial font size 11. Prices must be in GBP ex VAT. Prices must be Firm Price. A price breakdown must be provided in the Tender.

C2. To assist the Authority's evaluation, you must set out your Tender response in accordance with Section E (Tender Composition).

Validity

C3. Your Tender must be valid and open for acceptance for 180 days from the Tender return date. In addition, the winning Tender must be open for acceptance for a further 30 calendar days once the Authority announces its decision to award the Contract. In the event that legal proceedings challenging the award of the Contract are instituted, before entry into Contract, you must hold your Tender open for acceptance during this period, and for up to fourteen (14) calendar days after any legal proceedings have concluded.

Section D - Tender Evaluation

DEFFORM 47

(Edn 04/22)

D1. This section details how your Tender will be evaluated, the tools used to evaluate the Tender and the evaluation criteria.

D2. This section also provides further details on the negotiation process.

General

D3. An Evaluation Team made up of MOD staff and Subject Matter Experts (SME's) will be established to undertake a detailed assessment of the Tenders submitted for this ITN. In order that common standards are applied to the evaluation of this ITN, the Evaluation Team remains the same throughout the evaluation process where possible. Evaluators will ensure that confidentiality and commercial sensitivity is observed. They will conduct themselves in a manner that gives no advantage to any Tender above another while assessing the relative merits of all Tenders impartially.

D4. Tenderers should note that the evaluation will be undertaken by the Authority with additional subject matter experts and external advisers as required.

D5. Tenderers are reminded that all Tender submissions will ONLY be evaluated on the information and evidence provided within the Tender. Tenderers must not assume any prior knowledge that the Authority may have, as this will not be taken into account in the evaluation process. In addition, Tenderers are to note that different elements of all Tender submissions will be evaluated by different members of the Authority's evaluation team in isolation. Therefore, the Tenderer must ensure all cross-references to other sections within its Tender are clear and accurate, and not assume that an evaluator has had sight of other sections of its Tender. Where sections of the Tender rely on or are linked to information included within other sections the Tenderer is to clearly identify these relationships within all sections.

D6. Tenderers should note that any comments/footnotes/square brackets/ambiguous language etc. included in the Tender response and following closure of the clarifications process (whether set out as annotations to Schedules or elsewhere in the Tender) will be disregarded for the purposes of evaluation. Tenderers should provide their complete and final drafting only.

D7. This Contract will be awarded using the Negotiated Procedure under Regulation 18 of the Defence and Security Public Contract Regulations (DSPCR) 2011 (the "Negotiate Procedure"). Using the Negotiated Procedure enables the Authority to act flexibly not only at the time it awards the Contract but also during prior discussions. This allows the Authority to conduct negotiations with Tenderers and a phased down-selection may form part of the process (where appropriate).

Clarification Process

D8. All questions requesting clarification of any aspect of the Invitation to Negotiate should be submitted via the Defence Sourcing Portal (DSP) using the 'Messages' function.

Stages of Evaluation – Summary

D9. The stages of evaluation are broken down as follows: -

- Stage 1 - Technical Envelope Evaluation
- Stage 2 - Commercial Envelope Evaluation
- Stage 3 – Negotiation

Stage 4 - Revised Tender – Best and Final Offer (BAFO)
Stage 5 - Final Tender Evaluation
Stage 6 - Contract Award

D10. The procedure to award the Contract shall be conducted in accordance with the procedure set out in this ITN and shall be based on the offer which is the most economically advantageous tender (MEAT) from the point of view of the Authority using the Value for Money Index. This Value for Money Index will be multiplied by 100,000 to five decimal places to get a readable score.

D11. The Value for Money Index divides the total score of the non-cost (quality) criteria by the tender cost. It ranks tenders on the quality (represented by the non-cost score) for each £ (or £k or £m) of cost. This is referred to as the absolute method which evaluates an individual tender exclusively on its own merits.

D12. An example of a Value for Money Index calculation is set out at Appendix 2 to this Section D.

Evaluation of Tenderers Responses in Defence Sourcing Portal (DSP)

Initial checks will be made to ensure that a tender is complete and that all requested documentation was provided, including all completed documentation requested under the mandatory declarations as part of the DEFFORM 47 Annex A.

D13. The Authority will evaluate the Tenderer's proposal in the Defence Sourcing Portal (DSP) under two envelopes:

- a. **Technical Envelope – non-cost (quality) criteria** *(this refers to all 'non-cost' elements of the tender evaluation including; technical evaluation, engineering evaluation, commercial evaluation (excluding cost or price), safety evaluation, quality evaluation etc. Essentially it includes all aspects of the tender evaluation other than the cost or price).*

i. Question Section 1.1 - Commercial Deliverables

This is a check to ensure the Tender submission is Commercially Compliant with the Terms and Conditions.

ii. Question Section 1.2 – Technical Compliancy Matrix

This is a check to ensure the Tender submission is Technically Compliant with the Statement of Work.

This Question Section applies to DEFFORM 47, Annex B, Technical Compliancy Matrix.

iii. Question Section 1.3 – Technical Questions - General

This is the evaluation of the Tender in accordance with DEFFORM 47, Annex C, Technical Questions, 1.3.1, 1.3.2 and 1.3.3.

The Authority's estimated number of hours can be found on Tab 6 (Hours by Year) and is fixed information inserted by the Authority. The Tenderer is also required to provide firm prices for Travel & Subsistence and Profit Rate for each Contract Year; however, these prices will not be included in Tab 1 (Calculations).

Firm Prices (£) should be entered to 2 decimal points.

Evaluation of Tenderers Responses

Stage 1 – Technical Envelope Evaluation

Question Section 1.1 – Commercial Deliverables

D14. In this stage of Tender Evaluation, the Authority will evaluate the Tender submission for Commercial Compliance.

D15. Tenderers are required to confirm their unqualified acceptance of all the Terms and Conditions of Contract, including Schedules, in the accompanying ITN Material. Any offers made subject to additional or alternative conditions may not be considered and may be rejected. Should the Tenderer state 'No' to this unqualified acceptance, this will result in a 'Not Acceptable' score in Table 1 below.

D16. Upon Tender return, the Commercial Assessment Team shall record their decision based on the Compliance Scale shown in Table 1 below.

Table 1 – Commercial Deliverables – Capability Assessment Scoring Scale

Compliance Scale	Characteristic
Acceptable	Full Compliance: Tender valid for further evaluation.
Not Acceptable	Non-Compliance: Tender valid for further evaluation, however any non-compliance shall be addressed during Evaluation Stage 3 – Negotiation.

D17. In order for the Tenderer's tender to meet the requirements of this Question Section 1.1 – Commercial Deliverables, the Tenderer shall have met all of the evaluation criteria listed below in Table 2 (Commercial Deliverables):

Table 2 – Commercial Deliverables

DSP Ref	Tender Document	Evaluation Criteria
1.1.1	Statement of Acceptance of Terms and Conditions and Schedules	The Tenderer shall confirm their unqualified acceptance of all the Terms and Conditions of Contract, including Schedules, in the accompanying ITN Material. Any offer made subject to additional or alternative conditions may not be considered and may be rejected on the grounds of such conditions alone. The Tenderer may, however, present their understanding or interpretation via clarification questions regarding Conditions of Contract, which they seek to clarify understanding.
1.1.2 to 1.1.7	UNPRICED DEFFORM 47 Annex A – Tender Submission Document (Offer)	The Tenderer shall submit an UNPRICED completed DEFFORM 47 Annex A - Tender Submission Document (Offer) - including all of the Mandatory Declarations (further details are contained in Appendix 1 to DEFFORM 47 Annex A (Offer).

This only applies where the Tenderer identifies a potential Conflict of Interest arising from this Contract and any you currently carry out.

Question Section 1.2 – Technical Compliancy Matrix – Annex B to DEFFORM 47

D18. Tenderers are required to complete and return the Compliancy Matrix as part of their Tender. Tenderers shall confirm compliance by adding Compliant or Non-Compliant in the Compliancy Status column for each SoW Serial Number.

D19. The Tenderer must demonstrate compliance with the requirement through self-assessment of their own abilities to complete and adhere to each element of the Statement of Work and in doing so provide confirmation of their understanding and commitment to deliver the required Contractor Deliverables.

- i. A Compliancy Status should be included against each Criteria using one of the following:
 1. 'Compliant' – the Tenderer considers that its proposed Technical Solution is fully compliant with the Criteria, providing robust explanation within the Tender documentation. The Tenderer must provide a reference to the Tender where the appropriate compliancy evidence can be found.
 2. 'Non-Compliant' – the Tenderer considers that its proposed Technical Solution does not provide the required level of performance required by the Criteria, providing explanation within the Tender documentation. The Tenderer must provide a reference to the Tender where the appropriate explanation can be found.

D20. If the Tenderer is non-compliant against any element within the Compliancy Matrix this shall be addressed during Evaluation Stage 3 – Negotiation (one or more rounds).

Question Section 1.3 – Technical Questions-General and Question Section 1.4 Technical Questions-Quality and Question Section 1.5 Technical Questions–Safety

D21. The Authority shall evaluate the Tenderers Technical Responses against the Scoring Guidance in Table 3 below. The Tenderer is required to complete questions 1.3.1, 1.3.2, 1.3.3, 1.4.1 and 1.5.1 on the DSP.

D22. Full details of the characteristics sought are contained in Annex C to DEFFORM 47 – Technical Questions, in the Evidence Requirement Column.

D23. The Technical Evaluation Team, which is made up of multiple Subject Matter Experts (SME), will assess the specific responses and supporting evidence for each question and place a score against each of the Technical Questions using Table 3 below. The score will be dependent upon the answer and supporting evidence provided by the Tenderer.

Table 3 – Technical Questions – Capability Assessment Scoring Scale

Confidence Status	Confidence Characteristics	Score
Good	Is Technically accurate, detailed and robust, and credible evidence is provided to demonstrate that the proposed solution meets the required standard set out in the Statement of Work to Schedule 9 to the ITN. Evidence is provided against all of the Evidence Requirement criteria stated for the question, demonstrates a good understanding and is at the standard required to meet the required level of confidence either in detail or design.	100
Satisfactory	Evidence is provided against all Evidence Requirement criteria stated and is adequately detailed, demonstrating an adequate understanding. Provides sufficient detail to demonstrate that the proposed solution meets the required standard set out in the Statement of Work to Schedule 9 to the ITN.	70
Concerns	The evidence provided in the Tenderer's response fails to meet all or some of the Evidence Requirement criteria stated above. The limited detail or evidence provided does not demonstrate that the proposed solution meets the required standard set out in the Statement of Work to Schedule 9 to the ITN.	30
Unacceptable	There is no detail or evidence provided in the Tenderer's response and therefore does not demonstrate that the proposed solution meets the required standard set out in the Statement of Work to Schedule 9 to the ITN.	0

D24. Each Technical Question has been assigned a percentage weighting indicating the relative importance the Authority places on that criterion, as detailed in Table 4 below. The maximum page count for each Technical Question is also listed in Table 4 below. Pages over this maximum limit will not be evaluated.

Table 4 – Technical Questions Weightings and Word Count

- a) This Question Section is weighted and equates to 75% of the overall non-cost (quality) score.

Technical Questions General	Weighting	Maximum Page Count
TQ 1.3.1 Project Management & Resources	25.00%	1 side of A4
TQ 1.3.2 Technical Support	50.00%	1 side of A4
TQ 1.3.3 Non-Core Support	25.00%	1 side of A4

- b) This Question Section is weighted and equates to 7.5% of the overall non-cost (quality) score.

Technical Questions Quality	Weighting	Maximum Page Count
TQ 1.4.1 Quality	100%	1 side of A4

c) This Question Section is weighted and equates to 7.5% of the overall non-cost (quality) score.

Technical Questions Safety	Weighting	Maximum Page Count
TQ 1.5.1 Safety	100%	1 side of A4

D25. The score against each Technical Question is the product of the Technical Question score and the relevant weighting for the Technical Question as detailed at Table 4 above. These scores will be totalled to give an overall score for Technical Questions. This overall score will be multiplied by 75% to give the non-cost score for Technical Questions-General, 7.5% to give the non-cost score for Technical Questions-Quality and 7.5% to give the non-cost score for Technical Questions-Safety. These 3 elements will be totalled together to give the overall non-cost score for Technical Questions.

D26. A worked example is shown below:

Technical Question Evaluator score = 70 for TQ 1.3.1 (Project Management & Resources)

Weighting = 25.00%

Technical Question mark = Technical Question Capability Assessment mark x Weighting

= 70 x 25.00%

= 17.50

Technical Question Evaluator score = 30 for TQ 1.3.2 (Technical Support)

Weighting = 50.00%

Technical Question mark = Technical Question Capability Assessment mark x Weighting

= 30 x 50.00%

= 15.00

Technical Question Evaluator score = 100 for TQ 1.3.3 (Non-Core Support)

Weighting = 25.00%

Technical Question mark = Technical Question Capability Assessment mark x Weighting

= 100 x 25.00%

= 25.00

Total non-cost score for Technical Question-General = 57.50 x 75% = **43.13**

Question Section 1.5 - Social Value

D27. This Question Section is weighted and equates to 10% of the overall non-cost (quality) score.

D28. In order for the Tenderer's Tender to meet the requirements of this Question Section 1.5 – Social Value, the Tenderer shall describe the commitment their organisation will make to ensure that opportunities under the contract deliver the following Policy Outcome and Award Criteria under each Theme identified in Table 5 (Social Value Themes). The guidance instructions for this Question Section are set out in Appendix 1 to Section D – Tender Evaluation and contains:

1. Model Evaluation Question;
2. Model Award Criteria (MAC); and
3. Model Response Guidance for tenderers and evaluators

Table 5 – Social Value Themes

DSP Ref	Theme	Policy Outcome	Award Criteria	Weighting
1.5.1	Tackling Economic Inequality	Increase supply chain resilience and capacity	Collaboration throughout the supply chain Effective measures to deliver any/all of the following benefits through the contract: Demonstrate collaboration throughout the supply chain, and a fair and responsible approach to working with supply chain partners in delivery of the contract.	50%
1.5.2	Fighting Climate Change	Effective stewardship of the environment	Influence Environmental Protection and Improvement Effective measures to deliver any/all of the following benefits through the contract: Influence staff, suppliers, customers and communities through the delivery of the contract to support environmental protection and improvement	25%
1.5.3	Equal Opportunity	Tackle workforce inequality	Tackling inequality in the contract workforce Effective measures to deliver any/all of the following benefits through the contract: Demonstrate action to identify and tackle inequality in employment, skills and pay in the contract workforce.	25%

D29. Each Award Criteria of each Theme of the Social Value will be reviewed and evaluated for compliance with the Authority's Social Value requirement. The Tenderer's response to each Award Criteria is to be limited to a maximum of six sides of A4. Pages over this maximum limit will not be evaluated.

D30. Each Award Criteria under each Theme will be evaluated using the criteria in the scoring matrix at Table 6 (Social Value Capability Assessment Scoring Scale).

D31. Each Award Criteria under each Theme of the Social Values Question Section has a weighting expressed as a percentage (%) allocated to it, which are disclosed on Table 5 (Social Value Themes) above. The Capability Assessment Score gained in the Evaluation of each Award Criteria will be multiplied by the relevant weighting available to give a score for each Award Criteria. These scores will be totalled to give an overall score for Social Value. This overall score will be multiplied by 10% to give the non-cost score for Social Value.

Table 6 – Social Value Capability Assessment Scoring Scale

The response therefore shows: <ul style="list-style-type: none"> • Good understanding of the requirements. • Sufficient competence demonstrated through relevant evidence. • Some insight demonstrated into the relevant issues. • The response addresses most of the social value policy outcome and also shows general market experience. 	30

Poor: (meets some of the Model Award Criteria (MACs))	<p>The response meets elements of the requirement but gives concern in a number of significant areas. There are reservations because of one or all of the following:</p> <ul style="list-style-type: none"> • There is at least one significant issue needing considerable attention. • Proposals do not demonstrate competence or understanding. • The response is light on detail and unconvincing. • The response makes no reference to the applicable sector but shows some general market experience. • The response makes limited reference (naming only) to the social value policy outcome set out within the invitation. 	10
Fail	The response completely fails to meet the required standard or does not provide a proposal.	0

Stage 3 - Negotiation

D36. Once each Tender has been evaluated in accordance with Stage 1 and Stage 2 any elements requiring clarification will be raised as Authority Clarification Questions Post Tender Return (ACQPTR), which will be forwarded to the Tenderer for a response to be submitted in their revised Tender as detailed at Stage 4 (Revised Tender) at paragraphs D39. to D42. below.

D37. It is anticipated that the Negotiation will consist of one round. If subsequent rounds are required all Tenderers will be notified accordingly via the DSP.

D38. At the end of the ACQPTR Response Period the Authority reserves the right to hold face-to-face clarification meetings with each Tenderer at a location determined by the Authority. The intention of the face-to-face meetings is to discuss Tenderers' proposals and ACQPTR responses. The face-to-face meetings will be Tenderers final opportunity to engage with the Authority prior to submitting their revised Tender. The Authority reserves the right to hold more than one Clarification meeting and to raise further questions at the Clarification meeting(s).

Stage 4 – Revised Tender – Best and Final Offer (BAFO)

D39. Following the completion of Stage 3 - Negotiation, Tenderers will be invited by the Authority to submit a revised Tender on or before a date to be notified by the Authority, in accordance with the negotiated position. Any revisions to Tenders must be clearly identified using the tracked changes tool. Revised Tender submissions shall be submitted through the DSP.

D40. The evaluation will be based solely on the marked up tracked changes and in accordance with the Evaluation Criteria in Stage 1 and Stage 2 above. Tenderers are only to submit the sections of their tender that have been revised following the negotiations, and do not need to resubmit their entire tender.

D41. Tenderers are requested to mark up their Revised Tender to make it clear to the evaluators where evidence has changed. Tenderers must provide a table that summarises the changes that have been made in their revised Tender for reference purposes noting that the Authority will only evaluate those changes that have been clearly highlighted and referenced. The Authority will use this information and its own examination of the Tender to decide whether evidence provided in the original Tender has changed.

D42. Evidence that has not changed will retain the evaluation scoring from the original Tender. Evidence that has changed will be re-evaluated according to the relevant criteria set out in Stage 1 and 2 above as well as the additional criteria set out at Stage 5 below.

Stage 5 - Final Tender Evaluation

D43. Following submission of revised Tender Documentation, the Authority will carry out a re-evaluation of the amended documentation in accordance with Stage 1 (Technical Envelope Evaluation) to determine the final non-cost score. The total non-cost score will be calculated as the total scores for Question Sections 1.3 – Technical Questions-General, 1.4 – Technical Questions-Quality, 1.5 – Technical Questions-Safety and 1.6 – Social Value.

D44. Table 9 below confirms the minimum threshold the Tenderer shall meet at Stage 5. Any Tenderer deemed non-compliant at Stage 5 in accordance with Table 9 below shall be removed from the procurement process.

Table 9 – Minimum Threshold Criteria

<u>Assessment Criteria - Minimum Threshold</u>	
To meet the Minimum Threshold:	
I.	If any element of the Technical Compliancy Matrix is marked as Non-compliant at this stage the Tenderer will be removed from the Tender Evaluation.
II.	If a Tenderer is evaluated as scoring a '0' for any of the Technical Questions at this stage they will be removed from the Tender Evaluation.
III.	If the Tenderer cannot confirm their unqualified acceptance of all the Terms and Conditions of Contract, including Schedules, in the accompanying ITN Material at this stage they will be removed from the Tender Evaluation.
IV.	Failure to fully price <u>all</u> pricing schedules at this stage will result in the Tenderer being removed from the Tender Evaluation.

D45. If the Tenderer is fully compliant in accordance with Table 9 above, the Authority will proceed to carry out a re-evaluation of the amended documentation in accordance with Stage 2 (Commercial Envelope Evaluation) to determine the final total price.

D46. The total tendered cost is to be the figure taken from DEFORM 47 Annex D – Cost Breakdown Proposal-Calculation Sheet cell G11 as entered under question section 2.2.

D47. The successful Tenderer will be the Tenderer with the highest Value for Money Index score that is fully compliant as above and shall be deemed to have offered the Most Economically Advantageous Tender(s) (MEAT). The Value for Money Index divides the total score of the non-cost (quality) criteria by the tender cost.

D48. In the event two or more Tenders result in the same VFM Index Score then the Tenderer with the highest Technical Questions-General score will be the winning bidder.

Stage 6 – Contract Award

D49. Following the successful approval of internally approved DE&S Full Business Case and the standstill period ends, the Contract will be awarded to the successful Tenderer.

Social Value Overview

Social value has a lasting impact on individuals, communities, and the environment. Government has a huge opportunity and responsibility to maximise benefits effectively and comprehensively through its commercial activity. It cannot afford not to. A missed opportunity to deliver social value may lead to costs that the taxpayer has to absorb elsewhere through public procurement.

A competitive and diverse supply landscape can help to deliver innovation in public services, manage risk and provide greater value for taxpayers' money.

As a result, the Social Value Model (SVM) has been created which details 5 Themes, 8 Policy Outcomes and 24 Model Award Criteria (MACs). The SVM MACs are questions which relate to Social Value. The use of the SVM is mandatory in all central government procurements using Public Contracting Regulations (PCR) 2015 and Defence and Security Public Contracting Regulations (DSPCR) 2011 above financial threshold and exempt procurements.

In Defence we are focusing on three, out of the five, priority Social Value themes that are most relevant for Defence:

- Tackling economic inequality.
- Fighting climate change; and
- Equal opportunity.

The scoring mechanism is listed below. Please use this and the information provided within the SVM to compile your responses to the SVM MAC questions asked. In compiling your answer, please refer to the SVM Quick Reference Table. Under Model Response Guidance for tenderers and evaluators examples of types of evidence the tender evaluators are looking for can be found.

Social Value Key Performance Indicators (KPIs) will be used within this contract. KPIs will be generated from the Potential Provider's social value response and will be agreed between the parties and included in the contract.

In accordance with the DEFFORM 47, please ensure that your written submission is in 11pt Arial.

For this procurement, the following SVM MAC have been selected as being appropriate.

Theme		Policy Outcome	MAC Reference	MAC Title
2	Tackling economic inequality	Increase supply chain resilience and capacity	3.4	Demonstrate collaboration throughout the supply chain, and a fair and responsible approach to

				working with supply chain partners in delivery of the contract.
3	Fighting climate change	Effective stewardship of the environment	4.2	Influence staff, suppliers, customers and communities through the delivery of the contract to support environmental protection and improvement.
4	Equal opportunity	Tackle workforce inequality	6.1	Demonstrate action to identify and tackle inequality in employment, skills and pay in the contract workforce.

A list of some of the key response documents that the Authority would expect you to provide are provided below. However, within the overall limit of pages you should supplement your written submission with other documents you consider will build confidence in your ability to maximise ROI.

You should provide, for each question:

- your 'Method Statement,' stating how you will achieve this and how your commitment meets the SVM Model Award Criteria (MAC), and
- a timed project plan and process, including how you will implement your commitment and by when. Also, how you will monitor, measure and report on your commitments/the impact of your proposals. You should include but not be limited to:
 - timed action plan
 - use of metrics
 - tools/processes used to gather data
 - reporting
 - feedback and improvement
 - transparency
- how you will influence your: staff, supply chains, 3rd party suppliers, customers, and communities through the delivery of the contract to support the Policy Outcome, e.g., engagement, co-design/creation, training, and education, partnering/collaborating, volunteering.

Section F - Conditions of Tendering

DEFFORM 47
(Edn 04/22)

F1. The issue of ITN Documentation or ITN Material is not a commitment by the Authority to place a Contract as a result of this competition or at a later stage. Neither does the issue of this ITN or subsequent Tender submission create any implied Contract between the Authority and any Tenderer and any such implied Contract is expressly excluded.

F2. The Authority reserves the right, but is not obliged to:

- a. vary the terms of this ITN in accordance with applicable law;
- b. seek clarification or additional documents in respect of a Tenderer's submission during the Tender evaluation where necessary for the purpose of carrying out a fair evaluation. Tenderers are asked to respond to such requests promptly;
- c. visit your site;
- d. disqualify any Tenderer that submits a non-compliant Tender in accordance with the instructions or conditions of this ITN;
- e. disqualify any Tenderer that is guilty of misrepresentation in relation to its Tender, expression of interest, the dynamic PQQ or the tender process;
- f. re-assess your suitability to remain in the competition, for example where there is a material change in the information submitted in and relating to the PQQ response, see paragraphs A31 to A34;
- g. withdraw this ITN at any time, or choose not to award any Contract as a result of this tender process, or re-invite Tenders on the same or any alternative basis;
- h. re-issue this ITN on a single source basis, in the event that this procurement does not result in a 'competitive process' as defined in the Single Source Contract Regulations 2014, making such adjustments as would be required by the application of the Defence Reform Act 2014 and/or the Single Source Contract Regulations 2014;
- i. choose not to award any Contract as a result of the current tender process;
- j. where it is considered appropriate, ask for an explanation of the costs or price proposed in the Tender where the Tender appears to be abnormally low;

F3. The Contract will be effective when both parties sign the Contract. The Contract will be issued by the Authority via a DEFFORM 8, to the address you provide, on or before the end of the validity period specified in paragraph C3.

Conforming to the Law

F4. You must comply with all applicable UK legislation and any equivalent legislation in a third state.

F5. Your attention is drawn to legislation relating to the canvassing of a public official, collusive behaviour and bribery. If you act in breach of this legislation your Tender may be disqualified from this procurement. Disqualification will be without prejudice to any civil remedy available to the Authority or any criminal liability that your conduct may attract.

Bid Rigging and Other Illegal Practices

F6. You must report any bid rigging, fraud, bribery, corruption, or any other dishonest irregularity in connection to this tendering exercise to:

Defence Regulatory Reporting Cell Hotline

0800 161 3665 (UK) or

+44 1371 85 4881 (Overseas)

Conflicts of Interest

F7. Any attempt by Tenderers or their advisors to influence the contract award process in any way may result in the Tenderer being disqualified. Specifically, Tenderers shall not directly or indirectly at any time:

- enter into any agreement or arrangement with any other person as to the form or content of any other Tender, or offer to pay any sum of money or valuable consideration to any person to effect changes to the form or content of any other Tender;

- enter into any agreement or arrangement with any other person that has the effect of prohibiting or excluding that person from submitting a Tender;

- canvass the Authority or any employees or agents of the Authority in relation to this procurement; or

- attempt to obtain information from any of the employees or agents of the Authority or their advisors concerning another Tenderer or Tender.

F8. Where you have advised the Authority in relation to this procurement procedure or otherwise have been or are involved in any way in the preparation or conduct of this procurement procedure or where any other actual or potential conflict of interest (COI) exists or arises at any point before the Contract award decision, you must notify the Authority immediately.

F9. Where an actual or potential COI exists or arises, you must provide a proposed Compliance Regime within seven (7) calendar days of notifying the Authority of the actual or potential COI. The proposal must be of a standard which, in the Authority's sole opinion, appropriately manages the conflict, provides sufficient separation to prevent distortion of competition and provides full details listed in F9 a to g below. Where the Contract is awarded and the COI is still relevant post-Contract award decision, your proposed Compliance Regime will become part of the Contract Terms and Conditions. As a minimum, the Compliance Regime must include:

F13. If you wish to make an announcement regarding this procurement, you must seek approval from the named Commercial Officer and Press Office and such permission will only be given at the sole discretion of the Authority. Requests must be made in writing to the named Commercial Officer and a copy of the draft announcement provided. This shall then be forwarded to the Press Office and their contact details will be provided for further follow up.

You must provide details of any information / technical data that is deliverable or delivered under the Contract where it is, or may be, subject to any IPR restrictions (or any other type of restriction which may include export restrictions) affecting the Authority's ability to use or disclose the Information / technical data in accordance with the conditions of any resulting Contract. You must also identify any Contractor Deliverables subject to IPR which have been funded exclusively or in part by private venture, foreign investment or otherwise than by the Authority.
2. In particular, you must identify:
 - a. any restriction on the provision of information to the Authority; any restriction on disclosure or the use of information by, or on behalf of, the Authority; any obligations to make payments in respect of IPR, and any Patent or Registered Design (or application for either) or other IPR (including unregistered Design Right) owned or controlled by you or a Third Party;
 - b. any allegation made against you, whether by claim or otherwise, of an infringement of Intellectual Property Rights (whether a Patent, Registered Design, unregistered Design Right, Copyright or otherwise) or of a breach of confidence, which relates to the performance of any resultant Contract or subsequent use by or for the Authority of any Contractor Deliverables;
 - c. the nature of any allegation referred to under sub-paragraph 2.b., including any obligation to make payments in respect of the Intellectual Property Right of any confidential information; and / or
 - d. any action you need to take, or the Authority is required to take to deal with the consequences of any allegation referred to under sub-paragraph 2.b.
3. You must provide the Authority with details of every restriction and obligation referred to in paragraphs 1 and 2. The Authority will not acknowledge any such restriction unless so notified using DEFFORM 711 or as otherwise agreed under any resultant Contract. You must also provide, on request, any information required for authorisation to be given under Section 2 of the Defence Contracts Act 1958.
4. You should refer to the DEFFORM 711 Explanatory Notes for further information on how to complete the form.

Notification of Foreign Export Control Restrictions

5. If, in the performance of the Contract, you need to import into the UK or export out of the UK anything not supplied by or on behalf of the Authority and for which a UK import or export licence is required, you will be responsible for applying for the licence. The Authority will provide you with all reasonable assistance in obtaining any necessary UK import or

export licence.

6. In respect of any Contractor Deliverables, likely to be required for the performance of any resultant contract, you must provide the following information in your Tender:

Whether all or part of any Contractor Deliverables are or will be subject to:

- a. a non-UK export licence, authorisation or exemption; or
- b. any other related transfer control that restricts or will restrict end use, end user, re-transfer or disclosure.

You must complete DEFFORM 528 (or other mutually agreed alternative format) in respect of any Contractor Deliverables identified at paragraph 6 and return it as part of your Tender. If you have previously provided this information you can provide details of the previous notification and confirm the validity.

7. You must use reasonable endeavours to obtain sufficient information from your potential supply chain to enable a full response to paragraph 6. If you are unable to obtain adequate information, you must state this in your Tender. If you become aware at any time during the competition that all or part of any proposed Contractor Deliverable is likely to become subject to a non-UK Government Control through a Government-to-Government sale only, you must inform the Authority immediately by updating your previously submitted DEFFORM 528 or completing a new DEFFORM 528.

This will allow the Authority to make a decision whether the export can or cannot be made under the US-UK Defense Trade Co-operation Treaty. The Authority shall then convey its decision to the Tenderer. If the Authority decides that use of the Treaty for the export is permissible, it is your responsibility to make a final decision whether you want to use that route for the export concerned if you are awarded the contract.

12. For the purpose of this competition, for any deliverables not yet imported into the UK, you are required to provide details of your plans to address customs compliance, including the Customs procedures to be applied (together with the procedure code) and the estimated Import Duty to be incurred and / or suspended.

13. You should note that it is your responsibility to ensure compliance with all regulations relating to the operation of the accounting for import duties. This includes but is not limited to obtaining the appropriate Her Majesty's Revenue & Customs (HMRC) authorisations.

The process will require submission of the single page document either directly to the MOD Project Team or, where specified, to the DE&S Security Advice Centre. Form 1686 and further guidance can be found in the Cabinet Office's Contractual Process.

Small and Medium Enterprises

16. The Authority is committed to supporting the Government's Small and Medium-sized Enterprise (SME) policy, and we want to encourage wider SME participation throughout our supply chain. Our goal is that 25% of the Authority's spending should be spent with SMEs by 2022; this applies to the money which the Authority spends directly with SMEs and through the supply chain. The Authority uses the European Commission definition of SME.

17. A key aspect of the Government's SME Policy is ensuring that its suppliers throughout the supply chain are paid promptly. All suppliers to the Authority and their sub-contractors are encouraged to make their own commitment and register with the Prompt Payment Code.

18. Suppliers are also encouraged to work with the Authority to support the Authority's SME initiative, however this is not a condition of working with the Authority now or in the future, nor will this issue form any part of the Tender evaluation. Information on the Authority's purchasing arrangements, our commercial policies and our SME policy can be found at Gov.UK and the DSP.

19. The opportunity also exists for Tenderers to advertise any sub-contract valued at over £10,000 on the Defence Sourcing Portal and further details can be obtained directly from: <https://www.gov.uk/guidance/subcontract-advertising>. This process is managed by the Strategic Supplier Management team who can be contacted at: [REDACTED]

Transparency, Freedom of Information and Environmental Information Regulations

20. The Authority shall publish notification of the Contract and publish Contract documents where required following a request under the FOI Act except where publishing such information would hinder law enforcement; would otherwise be contrary to the public interest; would prejudice the legitimate commercial interest of any person or might prejudice fair competition between suppliers.

21. The Authority may publish the contents of any resultant Contract in line with government policy set out in the Government's Transparency Principles and in accordance with the provisions of either DEFCON 539, SC1B Conditions of Contract Clause 5 or SC2 Conditions of Contract Clause 12.

22. Before publishing the Contract, the Authority will redact any information which is exempt from disclosure under the Freedom of Information Act 2000 ("the FOIA") or the Environmental Information Regulations 2004 ("the EIR").

23. You must complete the attached Tenderer's Sensitive Information Form (DEFFORM 539A, SC1B Schedule 4 or SC2 Schedule 5) explaining which parts of your Tender you consider to be Sensitive Information. This includes providing a named individual who can be contacted with regard to FOIA and EIR.

24. You should note that while your views will be taken into consideration, the ultimate decision whether to publish or disclose information lies with the Authority. You are advised to provide as much detail as possible on the form. It is highly unlikely that a Tender will be exempt from disclosure in its entirety. Should the Authority decide to publish or disclose information against your wishes, you will be given prior notification.

Electronic Purchasing

25. Tenderers must note that use of the Contracting, Purchasing and Finance (CP&F) electronic procurement tool is a mandatory requirement for any resultant contract awarded following this Tender. By submitting this Tender, you agree to electronic payment. You may consult the service provider on connectivity options. Failure to accept electronic payment will result in your Tender being non-compliant and excluded from the tender process.

Change of Circumstances

26. In accordance with paragraph A31, if your circumstances have changed, please select 'Yes' to the appropriate question on DEFFORM 47 Annex A and submit a Statement Relating to Good Standing with your Tender.

Asbestos, Hazardous Items and Depletion of the Ozone Layer

27. The Authority is required to report any items that use asbestos, that are hazardous or where there is an impact on the Ozone. Where any Contractor Deliverables fall into one of these categories select 'Yes' to the appropriate question on DEFFORM 47 Annex A and provide further details in your Tender.

Defence Safety Authority (DSA) Requirements

28. Tenderers are required to comply with any applicable DSA military regulatory policy and regulation. Tenderers who wish to propose an alternative acceptable means of compliance must obtain agreement in principle from the relevant defence regulator (through the Project Team) in advance of submitting their Tender. Acceptable Means of Compliance (AMC) are strongly recommended practices and a justification will be required if they are not followed. Tenderers must consult the relevant defence regulator where there is more than one AMC. You must confirm how you intend to comply with the regulatory articles, and the date you consulted with the relevant defence regulator.

Bank or Parent Company Guarantee –

29. You will be informed whether you are required to provide a Bank or Parent Company Guarantee. In the event that you are selected as the winning Tenderer, you must provide your Bank or Parent Company Guarantee (in the form of DEFFORM 24/24A as appropriate) during the standstill period. No Contract will be awarded until a suitable Bank or Parent Company Guarantee, as appropriate, is in place. Failure to provide a Bank or Parent Company Guarantee during the standstill period, will result in you being de-selected as the winning Tenderer. The Authority reserves the right to re-evaluate the Tenders, (if necessary) to take into account the absence of the de-selected Tenderer, enabling the Authority to establish the next winning Tenderer and award a Contract.

- a. If, in the performance of the Contract, the Contractor needs to import into the UK or export out of the UK anything not supplied by or on behalf of the Authority and for which a UK import or export licence is required, the responsibility for applying for the licence shall rest with the Contractor. The Authority shall provide the Contractor with sufficient information, certification, documentation and other reasonable assistance in obtaining any necessary UK import or export licence.
- b. When an export licence or import licence or authorisation either singularly or in

combination is required from a foreign government for the performance of the Contract, the Contractor shall as soon as reasonably practicable consult with the Authority on the licence requirements. Where the Contractor is the applicant for the licence or authorisation the Contractor shall:

(1) ensure that when end use or end user restrictions, or both, apply to all or part of any Contractor Deliverable (which for the purposes of this Condition shall also include information, technical data and software), the Contractor, unless otherwise agreed with the Authority, shall identify in the application:

(a) the end user as: Her Britannic Majesty's Government of the United Kingdom of Great Britain and Northern Ireland (hereinafter "HM Government"); and

c. If the Contractor or any Subcontractor in the performance of the Contract needs to export materiel not previously supplied by or on behalf of the Authority for which an export licence or import licence or authorisation from a foreign government is required, the responsibility for instituting expeditious action to apply for and obtain the licence shall rest with the Contractor or that Subcontractor. For the purposes of this Condition materiel shall mean information, technical data and items, including Contractor Deliverables, components of Contractor Deliverables and software.

d. Where the Contract performance requires the export of materiel for which a foreign export licence or import licence or authorisation is required, the Contractor shall include the dependencies for the export licence or import licence or authorisation application, grant and maintenance in the Contract risk register and in the risk management plan for the Contract, with appropriate review points. Where there is no requirement under the Contract for a risk management plan the Contractor shall submit this information to the Authority's representative.

e. During the term of the Contract and for a period of up to 2 years from completion of the Contract, the Authority may make a written request to the Contractor to seek a variation to the conditions to a foreign export licence or import licence or authorisation to enable the Authority to re-export or re-transfer a licensed or authorised item or licensed or authorised information from the UK to a non-licensed or unauthorised third party. If the Authority makes such a request it will consult with the Contractor before making a determination of whether the Authority or the Contractor is best placed in all the circumstance to make the request. Where, subsequent to such consultation the Authority notifies the Contractor that the Contractor is best placed to make such request:

(1) the Contractor shall, or procure that the Contractor's Subcontractor shall, expeditiously consider whether or not there is any reason why it should object to making the request and, where it has no objection, file an application to seek a variation of the applicable export licence or import licence or authorisation in accordance with the procedures of the licensing authority. Where the Contractor has an objection, the Parties shall meet within five (5) working days to resolve the issue and should they fail the matter shall be escalated to an appropriate level within both Parties' organisations, to include their respective export licensing subject matter experts; and

(2) the Authority shall provide sufficient information, certification, documentation and other reasonable assistance as may be necessary to support the application for the requested variation.

f. Where the Authority determines that it is best placed to make such request the Contractor shall provide sufficient information, certification, documentation and other reasonable assistance as may be necessary to support the Authority to make the application for the requested variation.

g. Where the Authority invokes clause 32.e or 32.f the Authority will pay the Contractor a fair and reasonable charge for this service based on the cost of providing it.

h. Where the Contractor subcontracts work under the Contract, which is likely to be subject to foreign export control, import control or both the Contractor shall use reasonable endeavours to incorporate in each subcontract equivalent obligations to those set out in this Condition. Where it is not possible to include equivalent terms to those set out in this Condition, the Contractor shall report that fact and the circumstances to the Authority.

i. Without prejudice to HM Government's position on the validity of any claim by a foreign government to extra-territoriality, the Authority shall provide the Contractor with sufficient information, certification, documentation and other reasonable assistance to facilitate the granting of export licences or import licences or authorisations by a foreign Government in respect of the performance of the Contract.

j. The Authority shall provide such assistance as the Contractor may reasonably require in obtaining any UK export licences necessary for the performance of the Contract.

k. The Contractor shall use reasonable endeavours to identify whether any Contractor Deliverable is subject to:

- (1) a non-UK export licence, authorisation or exemption; or
- (2) any other related transfer or export control,

that imposes or will impose end use, end user or re-transfer or re-export restrictions, or restrictions on disclosure to individuals based upon their nationality. This does not include the Intellectual Property-specific restrictions of the type referred to in Condition 33 (Third Party Intellectual Property – Rights and Restrictions).

l. If at any time during the term of the Contract the Contractor becomes aware that all or any part of the Contractor Deliverables are subject to clause 32.k.(1) or 32.k.(2), they shall notify the Authority of this as soon as reasonably practicable by providing details in the DEFFORM 528 or other mutually agreed alternative format. Such notification shall be no later than thirty (30) days of knowledge of any affected Contractor Deliverable and in any event such notification shall be not less than thirty (30) days prior to delivery of the Contractor Deliverables.

m. If the information to be provided under clause 32.l has been provided previously to the Authority by the Contractor under the Contract, the Contractor may satisfy these requirements by giving details of the previous notification and confirming they remain valid and satisfy the provisions of clause 32.l.

n. During the term of the Contract, the Contractor shall notify the Authority as soon as reasonably practicable of any changes in the information notified previously under clauses 32.l or 32.m of which they become or are aware that would affect the Authority's ability to use, disclose, re-transfer or re-export an item or part of it as is referred to in those clauses by issuing an updated DEFFORM 528 to the Authority.

o. For a period of up to 2 years from completion of the Contract and in response to a specific request by the Authority, the Contractor shall notify the Authority as soon as reasonably practicable of any changes in the information notified previously under clause 32.l or 32.m of which they become aware that would affect the Authority's ability to use, disclose, re-transfer or re-export an item or part of it as is referred to in those clauses by issuing an updated DEFFORM 528 to the Authority.

p. Where following receipt of materiel from a Subcontractor or any of their other suppliers restrictions are notified to the Contractor by that Subcontractor, supplier or other third party or are identified by the Contractor, the Contractor shall immediately inform the Authority by issuing an updated DEFFORM 528. Within [X] days of such notification, the Contractor shall propose to the Authority actions to mitigate the impact of such restrictions. Such proposals may include, where appropriate, mutually supported attempts to obtain removal or modification to the restrictions or to obtain appropriate authorisations from the relevant foreign government. The Authority shall notify the contractor within [X] days of receipt of a proposal whether it is acceptable and where appropriate the Contract shall be modified in

accordance with its terms to implement the proposal.

q. If the restrictions prevent the Contractor from performing their obligations under the Contract and have not been removed, modified or otherwise satisfactorily managed within a reasonable time, the Authority may at its absolute discretion elect to amend the contract in accordance with Condition 6 or as otherwise may be provided by the Contract, or to terminate the Contract. Except as set out in clause 32.r, in the event of termination in these circumstances termination shall be on fair and reasonable terms having regard to all the circumstances including payments already made and that would otherwise be due under the Contract, costs incurred by the Contractor and benefits received by the Authority. The Parties, acting in good faith, will use all reasonable endeavours to agree such fair and reasonable terms failing which either Party may refer the matter to dispute resolution in accordance with the provisions in the Contract.

r. In the event that the restrictions notified to the Authority pursuant to clause 32.l were known or ought reasonably have been known by the Contractor (but were not disclosed) at contract award or if restrictions notified to the Authority pursuant to clauses 32.n or 32.p were known or ought reasonably to have been known by the Contractor at the date of submission of the most recent DEFFORM 528 submitted to the Authority in accordance with clause 32.l, termination under clause 32.t will be in accordance with Condition 42 (Material Breach) and the provisions of clause 33.v will not apply.

s. The Authority shall use reasonable endeavours to identify any export control restrictions applying to materiel to be provided to the Contractor as Government Furnished Assets (GFA). Where the Authority is to provide materiel necessary to enable the Contractor to perform the Contract or in respect of which the Services are to be provided, and that materiel is subject to a non-UK export licence, authorisation, exemption or other related transfer or export control as described in the provisions of clause 32.k, the Authority shall provide a completed DEFFORM 528 or will provide a new or updated DEFFORM 528 to the Contractor within thirty (30) days of the date of knowledge and in any case not later than thirty (30) days prior to the delivery of such materiel to the Contractor.

t. In the event that the Authority becomes aware that the DEFFORM 528 disclosure was incomplete or inaccurate or in the event additional such materiel is identified then the Authority shall provide, as soon as reasonably practicable a new or revised DEFFORM 528. In the event that the Authority becomes aware that a prior disclosure included in DEFFORM 528 submitted to the Contractor was incomplete or inaccurate less than thirty (30) days prior to the delivery to the Contractor of any materiel to which the updated or new disclosure relates, the Parties will meet as soon as reasonably practicable to discuss how to mitigate the impact of the incomplete or inaccurate disclosure.

u. Where:

(1) restrictions are advised by the Authority to the Contractor in a DEFFORM 528 provided pursuant to clauses 32.s or 32.t or both; or

(2) any of the information provided by the Authority in any DEFFORM 528 proves to be incorrect or inaccurate;

the Authority and the Contractor shall act promptly to mitigate the impact of such restrictions or incorrect or inaccurate information. Such mitigation shall include, where appropriate, mutually supported attempts to obtain removal or modification to the restrictions or to obtain appropriate authorisations from the relevant foreign government. If the restrictions or incorrect or inaccurate information adversely affect the ability of the Contractor to perform their obligations under the Contract, the matter shall be handled under the terms of Condition 6 (Formal Amendments to the Contract) or as may otherwise be provided by the Contract as appropriate and if no alternative solution satisfies the essential terms of the Contract and the restrictions have not been removed, modified or otherwise satisfactorily managed within a reasonable time the Authority may terminate the Contract. Termination under these circumstances will be under the terms of Condition 41 (Termination for Convenience) and as referenced in the Contract.

v. Pending agreement of any amendment of the Contract as set out in clause 32.q or 32.u, provided the Contractor takes such steps as are reasonable to mitigate the impact, the Contractor shall be relieved from their obligations to perform those elements of the Contract directly affected by the restrictions or provision of incorrect or incomplete information.

d. The indemnity in clause 33.c does not extend to use by the Authority of anything supplied under the Contract where that use was not reasonably foreseeable at the time of the Contract.

e. In the event that the Authority has entered into negotiation in respect of a claim for compensation, or legal proceedings in respect of the Crown Use have commenced, the Authority shall forthwith authorise the Contractor for the purposes of performing the Contract (but not otherwise) to utilise a relevant invention or design in accordance with

Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949 and to use any model, document or information relating to any such invention or design which may be required for that purpose.

f. For all other Contractor Deliverables patents and registered designs in the UK, if a relevant invention or design has been notified to the Authority by the Contractor prior to the Effective Date of Contract, then unless it has been otherwise agreed, under the provisions of Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949, the Contractor is hereby authorised to utilise that invention or design, notwithstanding the fact that it is the subject of a UK Patent or UK Registered Design, for the purpose of performing the Contract.

g. If, under clause 33.a, a relevant invention or design is notified to the Authority by the Contractor after the Effective Date of Contract, then:

(1) if the owner (or its exclusive licensee) takes or threatens in writing to take any relevant action against the Contractor, the Authority shall issue to the Contractor a written authorisation in accordance with the provisions of Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949, and

h. The Authority shall assume all liability and shall indemnify the Contractor, their officers, agents and employees against liability, including the Contractor's costs, as a result of infringement by the Contractor or their suppliers of any patent, utility model, registered design or like protection outside the United Kingdom in the performance of the Contract when such infringement arises from or is incurred by reason of the Contractor following any specification, statement of work or instruction in the Contract or using, keeping or disposing of any item given by the Authority for the purpose of the Contract in accordance with the Contract.

i. The Contractor shall assume all liability and shall indemnify the Authority, its officers, agents and employees against liability, including the Authority's costs, as a result of infringement by the Contractor or their suppliers of any patent, utility model, registered design or like protection outside the UK in the performance of the Contract when such infringement arises from or is incurred otherwise than by reason of the Contractor following any specification, statement of work or instruction in the Contract or using, keeping or disposing of any item given by the Authority for the purpose of the Contract in accordance with the Contract.

j. The Contractor shall not be entitled to any reimbursement of any royalty, licence fee or similar expense incurred in respect of anything to be done under the Contract, where:

- (2) alleged misuse of any confidential Information, trade secret or the like by the Contractor as a result of use of Information provided by the Authority for the purposes of the Contract, but only to the extent that Contractor's use of that Information is for the purposes intended when it was disclosed by the Authority.

- (1) clauses 33.a – 33.m represents the total liability of each Party to the other under the Contract in respect of any infringement or alleged infringement of patent or other Intellectual Property Right (IPR) owned by a third party;
- (2) neither Party shall be liable, one to the other, for any consequential loss or damage arising as a result, directly or indirectly, of a claim for infringement or alleged infringement of any patent or other IPR owned by a third party;
- (3) a Party against whom a claim is made or action brought, shall promptly notify the other Party in writing if such claim or action appears to relate to an infringement which is the subject of an indemnity or authorisation given under this Condition by such other Party. The notification shall include particulars of the demands, damages and liabilities claimed or made of which the notifying Party has notice;
- (4) the Party benefiting from the indemnity or authorisation shall allow the other Party, at its own expense, to conduct any negotiations for the settlement of the same, and any litigation that may arise therefrom and shall provide such information as the other Party may reasonably require;
- (5) following a notification under clause 33.n.(3), the Party notified shall advise the other Party in writing within thirty (30) Business Days whether or not it is assuming conduct of the negotiations or litigation. In that case the Party against whom a claim is made or action brought shall not make any statement which might be prejudicial to the settlement or defence of such a claim without the written consent of the other Party;
- (6) the Party conducting negotiations for the settlement of a claim or any related litigation shall, if requested, keep the other Party fully informed of the conduct and progress of such negotiations.

o. If at any time a claim or allegation of infringement arises in respect of copyright, database right, Design Right or breach of confidence as a result of the provision of any Contractor Deliverable by the Contractor to the Authority, the Contractor may at their own expense replace the item with an item of equivalent functionality and performance so as to avoid infringement or breach. The Parties will co-operate with one another to mitigate any claim or damage which may arise from use of third party IPR.

p. Nothing in Condition 33 shall be taken as an authorisation or promise of an

authorisation under Section 240 of the Copyright, Designs and Patents Act 1988.

q. Notwithstanding any other provisions of the Contract and for the avoidance of doubt, award of the Contract by the Authority and placement of any contract task under it does not constitute an authorisation by the Crown under Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949. The Contractor acknowledges that any such authorisation by the Authority under its statutory powers must be expressly provided in writing, with reference to the acts authorised and the specific intellectual property involved.

Pricing and Payment

34.Contract Price

a. The Contractor shall provide the Contractor Deliverables to the Authority at the Contract Price. The Contract Price shall be a Firm Price unless otherwise stated in Schedule 3 (Contract Data Sheet).

b. Subject to clause 34.a the Contract Price shall be inclusive of any UK custom and excise or other duty payable. The Contractor shall not make any claim for drawback of UK import duty on any part of the Contract Deliverables supplied which may be for shipment outside of the UK.

35.Payment and Recovery of Sums Due

a. Payment for Contractor Deliverables will be made by electronic transfer and prior to submitting any claims for payment under clause 35.b the Contractor will be required to register their details (Supplier on-boarding) on the Contracting, Purchasing and Finance (CP&F) electronic procurement tool.

b. Where the Contractor submits an invoice to the Authority in accordance with clause 35.a, the Authority will consider and verify that invoice in a timely fashion.

c. The Authority shall pay the Contractor any sums due under such an invoice no later than a period of 30 days from the date on which the Authority has determined that the invoice is valid and undisputed.

d. Where the Authority fails to comply with clause 35.a and there is undue delay in considering and verifying the invoice, the invoice shall be regarded as valid and undisputed for the purpose of clause 35.c after a reasonable time has passed.

e. The approval for payment of a valid and undisputed invoice by the Authority shall not be construed as acceptance by the Authority of the performance of the Contractor's obligations nor as a waiver of its rights and remedies under the Contract.

f. Without prejudice to any other right or remedy, the Authority reserves the right to set off any amount owing at any time from the Contractor to the Authority against any amount payable by the Authority to the Contractor under the Contract or under any other contract with the Authority, or with any other Government Department.

36. Value Added Tax

a. The Contract Price excludes any UK output Value Added Tax (VAT) and any similar EU (or non-EU) taxes chargeable on the supply of Contractor Deliverables by the Contractor to the Authority.

b. If the Contractor is required by UK VAT law to be registered for UK VAT (or has registered voluntarily) in respect of their business activities at the time of any supply, and the circumstances of any supply are such that the Contractor is liable to pay the tax due to HM Revenue and Customs (HMRC), the Authority shall pay to the Contractor in addition to the Contract Price (or any other sum due to the Contractor) a sum equal to the output VAT chargeable on the tax value of the supply of Contractor Deliverables, and all other payments under the Contract according to the law at the relevant tax point.

c. The Contractor is responsible for the determination of VAT liability. The Contractor

shall consult their Client Relationship Manager or the HMRC Enquiries Desk (and not the Authority's Representative (Commercial)) in cases of doubt. The Contractor shall notify the Authority's Representative (Commercial) of the Authority's VAT liability under the Contract, and any changes to it, within twenty (20) Business Days of becoming aware the liability is other than at the standard rate of VAT. In the event of any doubt about the applicability of the tax in such cases, the Authority may require the Contractor to obtain, and pass to the Authority, a formal ruling from HMRC. The Contractor shall comply promptly with any such requirement. Where the Contractor obtains a ruling from HMRC, they shall supply a copy to the Authority within three (3) Business Days of receiving that ruling unless they propose to challenge the ruling. Where the Contractor challenges the ruling they shall supply to the Authority a copy of any final decisions issued by HMRC on completion of the challenge within three (3) Business Days of receiving the decision.

d. Where supply of Contractor Deliverables comes within the scope of UK VAT, but the Contractor is not required by UK VAT law to be registered for UK VAT (and has not registered voluntarily), the Authority shall be responsible for assessing and paying over directly to HMRC any UK output VAT due in respect of the Contractor Deliverables. The Contractor shall be responsible for ensuring they take into account any changes in VAT law regarding registration.

e. Where Contractor Deliverables are deemed to be supplied to the Authority outside the UK, the Contractor may be required by the laws of the country where the supply takes place to register there for EU (or non-EU) turnover or similar tax. In that event, the Authority shall pay to the Contractor in addition to the Contract Price (and any other sum due to the Contractor under the Contract) a sum equal to the tax the Contractor is liable to pay to the tax authorities of the country in question in relation to the Contractor Deliverables within thirty (30) calendar days of a written request for payment of any such sum by the Contractor.

f. In relation to the Contractor Deliverables supplied under the Contract the Authority shall not be required to pay any sum in respect of the Contractor's input VAT (or similar EU or non-EU or both input taxes). However, these input taxes will be allowed where it is established that, despite the Contractor having taken all reasonable steps to recover them, it has not been possible to do so. Where there is any doubt that the Contractor has complied with this requirement the matter shall be resolved in accordance with Condition 39 (Dispute Resolution).

g. Should HMRC decide that the Contractor has incorrectly determined the VAT liability, in accordance with clause 36.b above, the Authority will pay the VAT assessed by HMRC. In the event that HMRC so determines, the Contractor shall pay any interest charged on any assessment or penalties or both directly to HMRC. Such interest or penalties or both shall not be recoverable from the Authority under the Contract or any other contract. The Contractor shall supply the Authority with a copy of all correspondence between HMRC and the Contractor's advisors regarding the VAT assessment within three (3) Business Days of a written request from the Authority for such correspondence.

37. Debt Factoring

a. Subject to the Contractor obtaining the prior written consent of the Authority in accordance with Condition 11 (Assignment of Contract), the Contractor may assign to a third Party ("the Assignee") the right to receive payment of the Contract Price or any part thereof due to the Contractor under the Contract (including interest which the Authority incurred through late payment under the Late Payment of Commercial Debts (Interest) Act 1998 ("the Act")). Any assignment of the right to receive payment of the Contract Price (or any part thereof) under this Condition 37 shall be subject to:

- (1) reduction of any sums in respect of which the Authority exercises its right of recovery under clause 35.f;
- (2) all related rights of the Authority under the Contract in relation to the recovery of

sums due but unpaid; and

(3) the Authority receiving notification under both clauses 37.b and 37.c.(2).

b. In the event that the Contractor obtains from the Authority the consent to assign the right to receive the Contract Price (or any part thereof) under clause 37.a, the Contractor shall notify the Authority in writing of the assignment and the date upon which the assignment becomes effective.

c. The Contractor shall ensure that the Assignee:

(1) is made aware of the Authority's continuing rights under clauses 37.a.(1) and 37.a.(2); and

(2) notifies the Authority of the Assignee's contact information and bank account details to which the Authority shall make payment, subject to any reduction made by the Authority in accordance with clauses 37.a.(1) and 37.a.(2).

d. The provisions of Condition 35 (Payment and Recovery of Sums Due) shall continue to apply in all other respects after the assignment and shall not be amended without the prior approval of the Authority.

38.Subcontracting and Prompt Payment

a. Subcontracting any part of the Contract shall not relieve the Contractor of any of the Contractor's obligations, duties or liabilities under the Contract.

b. Where the Contractor enters into a subcontract, they shall cause a term to be included in such subcontract:

(1) providing that where the Subcontractor submits an invoice to the Contractor, the Contractor will consider and verify that invoice in a timely fashion;

(2) providing that the Contractor shall pay the Subcontractor any sums due under such an invoice no later than a period of thirty (30) days from the date on which the Contractor has determined that the invoice is valid and undisputed;

(3) providing that where the Contractor fails to comply with clause 38.b.(1) above, and there is an undue delay in considering and verifying the invoice, that the invoice shall be regarded as valid and undisputed for the purposes of clause 38.b.(2) after a reasonable time has passed; and

(4) requiring the counterparty to that subcontract to include in any subcontract which it awards, provisions having the same effect as clauses 38.b.(1) to 38.b.(4).

Termination

39.Dispute Resolution

a. The Parties will attempt in good faith to resolve any dispute or claim arising out of or relating to the Contract through negotiations between the respective representatives of the Parties having authority to settle the matter, which attempts may include the use of any alternative dispute resolution procedure on which the Parties may agree.

b. In the event that the dispute or claim is not resolved pursuant to clause 39.a the dispute shall be referred to arbitration. Unless otherwise agreed in writing by the Parties, the arbitration and this clause 39.b shall be governed by the Arbitration Act 1996. For the purposes of the arbitration, the arbitrator shall have the power to make provisional awards pursuant to Section 39 of the Arbitration Act 1996.

c. For the avoidance of doubt, anything said, done or produced in or in relation to the arbitration process (including any awards) shall be confidential between the Parties, except as may be lawfully required in judicial proceedings relating to the arbitration or otherwise.

40. Termination for Insolvency or Corrupt Gifts

d. (1) to terminate the Contract and recover from the Contractor the amount of any loss resulting from the termination;

(2) to recover from the Contractor the amount or value of any such gift, consideration or commission; and

(3) to recover from the Contractor any other loss sustained in consequence of any breach of this Condition, where the Contract has not been terminated.

e. In exercising its rights or remedies under this Condition, the Authority shall:

(1) act in a reasonable and proportionate manner having regard to such matters as the gravity of, and the identity of the person performing, the prohibited act;

(2) give all due consideration, where appropriate, to action other than termination of the Contract, including (without being limited to):

(a) requiring the Contractor to procure the termination of a subcontract where the prohibited act is that of a Subcontractor or anyone acting on their behalf;

41. Termination for Convenience

a. The Authority shall have the right to terminate the Contract in whole or in part at any time by giving the Contractor at least twenty (20) Business Days written notice (or such other period as may be stated in Schedule 3 (Contract Data Sheet)). Upon expiry of the notice period the Contract, or relevant part thereof, shall terminate without prejudice to the rights of the parties already accrued up to the date of termination. Where only part of the Contract is being terminated, the Authority and the Contractor shall owe each other no further obligations in respect of the part of the Contract being terminated, but will continue to fulfil their respective obligations on all other parts of the Contract not being terminated.

- (1) the Contractor taking all reasonable steps to mitigate such loss; and
- (2) the Contractor submitting a fully itemised and costed list of such loss, with supporting evidence, reasonably and actually incurred by the Contractor as a result of the termination of the Contract or relevant part.

e. The Authority's total liability under the provisions of this Condition shall be limited to the total price of the Contractor Deliverables payable under the contract (or relevant part), including any sums paid, due or becoming due to the Contractor at the date of termination.

46.1.1.2. 46.1.2. The Authority shall not be obliged to exercise the options.

46.2 Earned Value Management Requirements

A table of milestones based on payment milestones may be agreeable with the Authority.

46.2.1.2 Analysis and Reporting

The Contractor shall provide a spending forecast by fiscal year and shall indicate to the Authority within five business days if at any time the Contractor expects that the funds required to complete the contract will exceed the agreed Line Item value. Additionally, if the funds required within any fiscal year are expected to exceed the amount authorised by the Authority, the Contractor shall notify the Authority within no more than five business days.

46.3 Intellectual Property Register

46.3.1 The Contractor shall maintain a register of all relevant IPR licences including licences enjoyed by the Contractor and the Authority as well as the identity of all third party IPR owners with respect to any equipment including software used in relation to the delivery of the service and equipment. The IPR register shall be maintained by the Contractor and a copy of the register shall be delivered to the Authority annually as part of a Progress Report or otherwise upon request of the Authority.

46.3.2 It is the Contractor's obligation to notify the Authority of any changes to information contained within the IPR Register (Schedule 17). Changes will be implemented through a formal Contract amendment.

46.4 Key Performance Indicators

Performance Measurement and Monitoring

46.4.1 Actual performance for each KPI will be assessed quarterly using data submitted by the Contractor on the Progress Reports and in accordance with the KPIs at Schedule 16 to the Contract. This score shall determine the relevant KPI performance band.

46.4.2 If the KPI Performance Band indicates an AMBER or RED level of performance for the Contract period that the KPI applies, then the performance payment value for each AMBER or RED indication shall not be claimed by the Contractor.

46.4.3 Where a KPI shows a GREEN level of performance and the previous Contract period KPI was GREEN then the Contractor may claim full payment.

46.4.4 Where a KPI shows a GREEN level of performance and the previous Contract quarter KPI was AMBER then the Contractor may claim payment of the amount not claimed in the previous period.

46.4.5 Where a KPI Performance Band shows an AMBER level of performance and the previous Contract period KPI Performance Band was AMBER the value of the performance payment not claimed in the previous period shall cease to be available for payment and shall be permanently deducted from the total Contract Price.

46.4.6 Where a KPI Performance Band shows a RED level of performance in the Contract period for which the KPI applies, the value of the performance payment shall cease to be available for payment and shall be permanently deducted from the total Contract Price.

46.4.7 The Authority and the Contractor agree that any deduction in any quarterly payment calculated in accordance with this Clause (Key Performance Indicators) has been calculated as, and is, a genuine pre-estimate of the loss likely to be suffered by the Authority in relation to each or any breach by the Contractor of any KPI.

46.4.8 The abatement value held for an AMBER performance is 5% of the quarterly core payment value and the abatement value deducted for a RED performance is 5% of the quarterly core payment value, in accordance with the Core Payment Plan at Schedule 11 to the Contract.

Unsatisfactory Performance

46.4.9 The Contractor's performance shall be judged unsatisfactory where any or all KPI(s) are RED for a period of 2 (two) or more consecutive periods. This shall constitute a Material Breach of the Contract.

46.4.10 Where unsatisfactory performance occurs, the Contractor shall deliver a report to the Authority within 3 (three) Working Days of the event causing the breach detailing the circumstances and any mitigating factors, together with a plan for improvement. The Authority reserves the right to call a meeting, at no cost to the Authority, within 5 (five) Working Days following the report to discuss the failure and agree a programme for resolution with the Contractor.

46.4.11 The Authority may exercise its further rights of remedy under the Contract if the Contractor remains in breach, and for the purposes of Condition 42 – Material Breach in the

event of persistent unsatisfactory performance, this shall constitute a Material Breach.

46.4.12 Performance payments in any quarter will be dependent on the latest quarter's performance and comparison with the previous quarter as follows:

Contract No: 701580392

Authority Changes

1. The Authority shall be entitled to propose any change to the Contract (a "Change") or (subject to Clause 2) Changes in accordance with this Schedule 4.
2. Nothing in this Schedule shall operate to prevent the Authority from specifying more than one Change in any single proposal, provided that such changes are related to the same or similar matter or matters.

Notice of Change

3. If the Authority wishes to propose a Change or Changes, it shall serve a written notice (an "Authority Notice of Change") on the Contractor.
4. The Authority Notice of Change shall set out the Change(s) proposed by the Authority in sufficient detail to enable the Contractor to provide a written proposal (a "Contractor Change Proposal") in accordance with clauses 7 to 9 (inclusive).
5. The Contractor may only refuse to implement a Change or Changes proposed by the Authority, if such change(s):
 - a. would, if implemented, require the Contractor to deliver any Contractor Deliverables under the Contract in a manner that infringes any applicable law relevant to such delivery; and/or
 - b. would, if implemented, cause any existing consent obtained by or on behalf of the Contractor in connection with their obligations under the Contract to be revoked (or would require a new necessary consent to be obtained to implement the Change(s) which, after using reasonable efforts, the Contractor has been unable to obtain or procure and reasonably believes it will be unable to obtain or procure using reasonable efforts); and/or
 - c. would, if implemented, materially change the nature and scope of the requirement (including its risk profile) under the Contract;

and:

 - d. the Contractor notifies the Authority within 10 (ten) Business Days (or such longer period as shall have been agreed in writing by the parties) after the date of the Authority Notice of Change that the relevant proposed Change or Changes is/are a Change(s) falling within the scope of Clauses 5.a, 5.b and/or 5.c providing written evidence for the Contractor's reasoning on the matter; and
 - e. further to such notification:
 - (1) either the Authority notifies the Contractor in writing that the Authority agrees, or (where the Authority (acting reasonably) notifies the Contractor that the Authority disputes the Contractor's notice under Clause 5.d) it is determined in accordance with Condition 40 (Dispute Resolution), that the relevant Change(s) is/are a Change(s) falling within the scope of Clauses 5.a, 5.b and/or 5.c; and
 - (2) (where the Authority either agrees or it is so determined that the relevant Change(s) is/are a Change(s) falling within the scope of Clauses 5.a, 5.b and/or 5.c) the Authority fails to make sufficient adjustments to the relevant Authority Notice of Change (and issue a revised Authority Notice of Change) to remove the Contractor's grounds for refusing to implement the relevant Change under Clauses 5.a, 5.b and/or 5.c within 10 (ten) Business Days (or such longer period as shall have been agreed in writing by the parties) after:
 - i) the date on which the Authority notifies in writing the Contractor that the Authority agrees that the relevant Change(s) is/are a Change(s) falling within the scope of Clauses 5.a, 5.b and/or 5.c); or

ii) the date of such determination.

6. The Contractor shall at all times act reasonably, and shall not seek to raise unreasonable objections, in respect of any such adjustment.

b. (where the Contractor has notified the Authority that the relevant Change or Changes is/are a Change(s) falling within the scope of Clauses 5.a, 5.b and/or 5.c in accordance with Clause 5 and:

(2) the Authority has disputed such conclusion and it has been determined in accordance with Condition 40 (Dispute Resolution) that the relevant Change(s) is/are not a Change(s) falling within the scope of Clauses 5.a, 5.b and/or 5.c) fifteen (15) Business Days (or such other period as the parties shall have agreed (both parties acting reasonably) having regard to the nature of the Change(s)) after the date of such determination,

- a. evaluate the Contractor Change Proposal; and

b. where necessary, discuss with the Contractor any issues arising (and (in relation to a Change(s) proposed by the Authority) following such discussions the Authority may modify the Authority Notice of Change) and the Contractor shall as soon as practicable, and in any event not more than ten (10) Business Days (or such other period as the Parties shall have agreed in writing) after receipt of such modification, submit an amended Contractor Change Proposal.

11. As soon as practicable after the Authority has evaluated the Contractor Change Proposal (amended as necessary) the Authority shall:

b. serve Notice on the Contractor rejecting the Contractor Change Proposal and withdrawing (where issued in relation to a Change or Changes proposed by the Authority) the Authority Notice of Change (in which case such notice of change shall have no further effect).

12. If the Authority rejects the Contractor Change Proposal, it shall not be obliged to give its reasons for such rejection.
