Section D – Tender Evaluation

This section details how your Tender will be evaluated, the tools used to evaluate the Tender and the evaluation criteria.

Mandatory Criteria:		
Mandatory Requirements		
Full completion of the table in DEFFORM 47 Annex A (Offer) (See section F, paragraph 19)		Pass / Fail
Minimum Technical Requirements met		Pass / Fail
Completed DEFFORM 539A (or a nil return)		Pass/Fail
Completed DEFFORM 528		Pass/Fail
Completed pricing schedules for Schedule 11, 12, 13 and 14 of Contract Terms and Conditions IRM16/1277		Pass/Fail
Failure to meet the Mandatory Criteria will result in your Tender being non-compliant.		
Criterion Scores*:		
Each individual criterion will be evaluated against the following scoring mechanisms.		
0	Concerns	Nil or inadequate response. Fails to demonstrate an ability to meet the requirement.
1	Low Confidence	The response addresses some of the elements of the requirement but does not fully detail or explain how the requirement will be fulfilled
2	Good Confidence	The response is sufficiently detailed and demonstrates a good understanding and provides details of how the requirement will be fulfilled
3	High Confidence	The response is comprehensive, unambiguous and demonstrates a thorough understanding of requirement and provides details of how the requirement will be met in full.

Where the Tender Evaluation is made on the basis of MEAT the Evaluation Criteria (as detailed in the evaluation questions below) shall be scored using the Criterion Scores in the above table.

Failure to meet mandatory Criteria will result in the Authority being unable to award a Contract.

You must ensure the prices are firm and inclusive of packaging and delivery as specified in schedule 2 of the Contract

The Tender Evaluation will be on the basis of:

MEAT Ratio – Highest combined technically and financially scored compliant tender

50% technical (400 marks available) and 50% Price.

This Tender will be evaluated using the MEAT method. This is a comparative score and the scoring method is worked out using the ratio and calculation above. The optimum is the highest technical score and the lowest pricing, this together would get the highest total score. If you had the highest technical score but you're pricing was double that of the lowest priced compliant tender, this would receive a lower score

In the event of two or more Tenders being awarded the same total the Authority shall choose the Tender with the lowest price.

To give a total score the following calculation shall be used:

Technical Scoring

The technical element of this tender will be scored using the answers provided on the technical evaluation questions below.

$$\begin{aligned} \text{Combined Average Technical Score} &= \text{Total Available Marks} \times \left[\frac{\text{Tender Technical Score}}{\text{Highest Possible Technical Score}} \right] \\ &= 50 \times \left[\frac{376}{400} \right] \\ &= 50 \times 0.94 \\ &= 47 \end{aligned}$$

Price Scoring

The pricing element for this ITT will be scored as follows:

Example

$$\begin{aligned} \text{Pricing Score} &= \text{Total Available Marks} \times \left[\frac{\text{Lowest Priced Technically and Commercially Compliant Tender}}{\text{Total Lot Value (TLV)}} \right] \\ &= 50 \times \left[\frac{\pounds 1,189,621}{\pounds 1,356,721} \right] \\ &= 50 \times 0.877 \\ &= 43.85 \text{ (43.9 rounded to one decimal place)} \end{aligned}$$

Total Combined Score = 47 + 43.9 = 90.9 points

A total combined score will be obtained for each Lot; each Lot will be awarded to the Tenderer scoring the highest combined score for that Lot.

The Authority will not acknowledge any such restriction unless so notified under paragraph 4 or as otherwise agreed under any resultant Contract. You must also provide, on request, any information required for authorisation to be given under Section 2 of the Defence Contracts Act 1958.
6. If you have previously provided information under paragraphs 4 and 5 you can provide details of the previous notification, updated as necessary to confirm their validity.

Notification of Foreign Export Control Restrictions

7. If in the performance of the Contract, you need to import into the UK or export out of the UK anything not supplied by or on behalf of the Authority and for which a UK import or export licence is required, you will be responsible for applying for the licence. The Authority will provide you with all reasonable assistance in obtaining any necessary UK import or export licence.
8. In respect of any Contractor Deliverables, likely to be required for the performance of any resultant contract, you must provide the following information in your Tender:
 - a. Whether all or part of any Contractor Deliverables are or will be subject to:
 - (1) a non-UK export licence, authorisation or exemption; or

If you are unable to obtain adequate information, you must state this in your Tender. If you become aware at any time during the competition that all or part of any proposed Contractor Deliverable is likely to become subject to a non-UK Government Control through a Government-to-Government sale only, you must inform the Authority immediately by updating your previously submitted DEFFORM 528 or completing a new DEFFORM 528.

This will allow the Authority to make a decision whether the export or cannot be made under the US-UK Defense Trade Co-operation Treaty. The Author shall then convey its decision to the Tenderer. If the Authority decides that use of the Treaty for the export is permissible, it is your responsibility to make a final decision whether you want to use that route for the export concerned if you are awarded the Contract.

Import Duty

13. European (EU) Legislation permits the use of various procedures to suspend customs duties.
14. For the purpose of this competition, for any Contractor Deliverable not yet imported into the EU, you are required to provide the details of your plans to address customs compliance, including the Customs procedures to be applied (together with the procedure code) and the estimated Import Duty to be incurred and/or suspended.
15. You should note that it is your responsibility to ensure compliance with all regulations relating to the operation of the accounting for import duties. This includes but is not limited to obtaining the appropriate authorisations from Her Majesty's Revenue and Customs (HMRC).

Sub-contracts Form 1686

16. [Form 1686](#) (also known as Appendix 5) is to be used in all circumstances where contractors wish to place a sub-contract with a contractor where the release of OFFICIAL-SENSITIVE information is involved. The process will require submission of the single page document either directly to the MOD Project Team or, where specified, to the DE&S Security Advice Centre. You can find further information in the [Security Policy Framework – Contractual Process](#)

Small and Medium Enterprises

17. The Authority is committed to supporting the Government's small and medium-sized enterprise (SME) initiative; its ambitious target is that every £1 in every £3 that the Government spends should be with small businesses by 2020. Our goal is that 25% of MOD spending should be spent with SMEs by 2020; this applies to the money which the MOD spends directly with SMEs and through the supply chain. The Authority uses the European Commission definition of an SME.
18. A key aspect of the Government's SME Policy is ensuring that its suppliers throughout the supply chain are paid promptly. All suppliers to the Authority and their sub-contractors are encouraged to make their own commitment and register with the [Prompt Payment Code](#).
19. Suppliers are also encouraged to work with the Authority to support the Authority's SME

initiative. Information on the Authority's purchasing arrangements, our commercial policies and our SME policy can be found at Gov.UK.

20. The opportunity also exists for Tenderers to advertise any sub-contract valued at over £10,000 in the MOD Contracts Bulletin and further details can be obtained directly from:

Transparency, Freedom of Information and Environmental Information Regulations

21. You should be aware that the contents of any resultant contract may be published in line with government policy set out in the Prime Minister's letter of May 2010 ([Government Transparency and Accountability](#)) and the information contained within Conditions of Contract Clause A14.

22. Before publishing the contract, the Authority will redact any information which is exempt from disclosure under the Freedom of Information Act 2000 ("the FOIA") or the Environmental Information Regulations 2002 ("the EIR").

23. You should complete the attached Tenderer's Commercially Sensitive Information Form (Schedule 6) explaining which parts of your Tender you consider to be commercially sensitive. This includes providing a named individual who can be contacted with regard to FOIA and EIR.

24. You should note that, while your views will be taken into consideration, the ultimate decision whether to publish or disclose information lies with the Authority. You are advised to provide as much detail as possible on the form. It is highly unlikely that a Tender will be exempt from disclosure in its entirety. Should the Authority decide to publish or disclose information against your wishes you will be given prior notification.

Electronic Purchasing

25. This clause does not apply in this instance, and you should refer to the payments details within the Terms and Conditions proposed for any resultant Contract.

Change of Circumstances

26. If you have not previously submitted a Statement Relating to Good Standing or circumstances have changed, select 'Yes' and submit a Statement Relating to Good Standing with your Tender.

Asbestos, Hazardous Items and Depletion of the Ozone Layer

27. The Authority is required to report any items that use asbestos, that are hazardous or where there is an impact on the Ozone. Where any Contractor Deliverables fall into one of these categories select 'Yes' and provide further details in your Tender.

Military Aviation Authority (MAA) Requirements

28. There are no MAA Requirements.

Bank or Parent Company Guarantee

29. A Parent Company or Bank Guarantee may be required. In the event that your tender is identified as the most favourable / compliant tender, but MOD assesses that a Parent Company or Bank Guarantee is required, then one will be requested (in the form of DEFFORM 24 / 24A as appropriate). No contract will be awarded until a suitable Parent Company or Bank Guarantee, as appropriate, is in place.

The Armed Forces Covenant

30. The Armed Forces Covenant is a public sector pledge from Government, businesses, charities and organisations to demonstrate their support for the Armed Forces community. The

Covenant was brought in under the Armed Forces Act 2011 to recognise that the whole nation has a moral obligation to redress the disadvantages the armed forces community face in comparison to other citizens, and recognise sacrifices made.

31. The Covenant's two principles are that:

- a. the Armed Forces community would not face disadvantages when compared to other citizens in the provision of public and commercial services; and
- b. special consideration is appropriate in some cases, especially for those who have given most such as the injured and the bereaved.

The Authority encourages all Tenderers, and their suppliers, to sign the Corporate Covenant, declaring their support for the Armed Forces community by displaying the values and behaviours set out therein.

32. [The Armed Forces Covenant](#) provides guidance on the various ways you can demonstrate your support through the Corporate Covenant.

33. If you wish to register your support you can provide a point of contact for your company on this issue to the Armed Forces Covenant Team at the address below, so that the MOD can alert you to any events or initiatives in which you may wish to participate. The Covenant Team can also provide any information you require in addition to that included on the website.

Email address: covenant-mailbox@mod.uk

Address: Armed Forces Covenant Team
Zone D, 6th Floor, Ministry Of Defence
Main Building, Whitehall, London, SW1A 2HB

34. Paragraphs 30-33 above are not a condition of working with the Authority now or in the future, nor will this issue form any part of the Tender Evaluation, Contract Award Procedure or any resultant Contract. However, the Authority very much hopes you will want to provide your support.

Cyber Essentials Accreditation

35. For all new requirements advertised from 1st January 2016 which entail the transfer of MOD identifiable information¹ from customer to supplier or the generation of information by a supplier specifically in support of the MOD contract, MOD will require suppliers to have a Cyber Essentials certificate by the contract start date at the latest, and for it to be renewed annually. This requirement must be flowed down the supply chain.

36. Please confirm in your tender that your organisation and all members of your supply chain and Group of Economic Operators (where applicable), comply with the following criteria:

- a. Your organisation currently has a current and valid Cyber Essentials certificate which has been awarded by one of the government approved Cyber Essentials accreditation bodies within the last 12 months.
- b. Your organisation does not currently have a current and valid Cyber Essentials certificate which has been awarded by one of the government approved Cyber Essentials accreditation bodies BUT you are working towards gaining it, and will be in a position to confirm that you have been awarded a current and valid Cyber Essentials certificate by one of the government approved accreditation bodies by the Commencement Date of the Contract.

¹ In this context 'information' shall have the meaning as defined in the contract.

c. Your organisation does not have a current and valid Cyber Essentials certificate which has been awarded by one of the government approved Cyber Essentials accreditation bodies, but you can demonstrate (or will be able to demonstrate by the Commencement Date of the Contract) that your organisation meets the technical requirements prescribed by the [Cyber Essentials Scheme](#).

and that you can provide evidence of verification by a technically competent and independent third party (which has taken place within the last 12 months) that your organisation demonstrates current compliance with Cyber Essentials technical requirements.

37. If applicable please confirm you are working with your proposed supply chain to ensure where appropriate that they either have a Cyber Essentials certificate, are working towards obtaining one or that they can demonstrate and provide evidence that they have the technical requirements prescribed by the Cyber Essentials Scheme as detailed in the Cyber Aware link above, and that you will have this in place by the Commencement Date of each of your supplier Contracts. Please notify the Authority as soon as you become aware of any issues with Supply Chain ability to comply with Cyber Essentials.
