## **2. EMPLOYMENT REGULATIONS EXIT PROVISIONS**

- 2.1 DFID and the Supplier acknowledge that subsequent to the commencement of the provision of the Services, the identity of the provider of the Services (or any part of the Services) may change (whether as a result of termination or Partial Termination of this Contract or otherwise) resulting in the Services being undertaken by a Replacement Supplier and/or a Replacement Sub-Contractor. Such change in the identity of the Supplier of such Services may constitute a Relevant Transfer to which the Employment Regulations and/or the Acquired Rights Directive will apply. DFID and the Supplier further agree that, as a result of the operation of the Employment Regulations, where a Relevant Transfer occurs, the contracts of employment between the Supplier and the Transferring Supplier Employees (except in relation to any contract terms disapplying through operation of regulation 10(2) of the Employment Regulations) will have effect on and from the Service Transfer Date as if originally made between the Replacement Supplier and/or a Replacement Sub-Contractor (as the case may be) and each such Transferring Supplier Employee.
- 2.2 The Supplier shall, and shall procure that each Sub-Contractor shall, comply with all its obligations in respect of the Transferring Supplier Employees arising under the Employment Regulations in respect of the period up to (but not including) the Service Transfer Date and shall perform and discharge, and procure that each Sub-Contractor shall perform and discharge, all its obligations in respect of all the Transferring Supplier Employees arising in respect of the period up to (and including) the Service Transfer Date (including the payment of all remuneration, benefits, entitlements and outgoings, all wages, accrued but untaken holiday pay, bonuses, commissions, payments of PAYE, national insurance contributions and pension contributions and all such sums due as a result of any Fair Deal Employees' participation in the Schemes which in any case are attributable in whole or in part to the period ending on (and including) the Service Transfer Date) and any necessary apportionments in respect of any periodic payments shall be made between: (i) the Supplier and/or the Sub-Contractor (as appropriate); and (ii) the Replacement Supplier and/or Replacement Sub-Contractor.
- 2.3 Subject to Paragraph 2.4, where a Relevant Transfer occurs the Supplier shall indemnify DFID and/or the Replacement Supplier and/or any Replacement Sub-Contractor against any Employee Liabilities arising from or as a result of:
  - 2.3.1 any act or omission of the Supplier or any Sub-Contractor in respect of any Transferring Supplier Employee or any appropriate employee representative (as defined in the Employment Regulations) of any Transferring Supplier Employee whether occurring before, on or after the Service Transfer Date;
  - 2.3.2 the breach or non-observance by the Supplier or any Sub-Contractor occurring on or before the Service Transfer Date of:
    - (a) any collective agreement applicable to the Transferring Supplier Employees; and/or
    - (b) any other custom or practice with a trade union or staff association in respect of any Transferring Supplier Employees which the Supplier or any Sub-Contractor is contractually bound to honour;
  - 2.3.3 any claim by any trade union or other body or person representing any Transferring Supplier Employees arising from or connected with any failure by the Supplier or a Sub-Contractor to comply with any legal obligation to such trade union, body or person arising on or before the Service Transfer Date;
  - 2.3.4 any proceeding, claim or demand by HMRC or other statutory authority in respect of any financial obligation including, but not limited to, PAYE and primary and secondary national insurance contributions;

- (a) in relation to any Transferring Supplier Employee, to the extent that the proceeding, claim or demand by HMRC or other statutory authority relates to financial obligations arising on and before the Service Transfer Date; and
  - (b) in relation to any employee who is not identified in the Supplier's Final Supplier Personnel List, and in respect of whom it is later alleged or determined that the Employment Regulations applied so as to transfer his/her employment from the Supplier to DFID and/or Replacement Supplier and/or any Replacement Sub-Contractor, to the extent that the proceeding, claim or demand by HMRC or other statutory authority relates to financial obligations arising on or before the Service Transfer Date;
- 2.3.5 a failure of the Supplier or any Sub-Contractor to discharge or procure the discharge of all wages, salaries and all other benefits and all PAYE tax deductions and national insurance contributions relating to the Transferring Supplier Employees in respect of the period up to (and including) the Service Transfer Date);
- 2.3.6 any claim made by or in respect of any person employed or formerly employed by the Supplier or any Sub-Contractor other than a Transferring Supplier Employee identified in the Supplier's Final Supplier Personnel List for whom it is alleged DFID and/or the Replacement Supplier and/or any Replacement Sub-Contractor may be liable by virtue of this Contract and/or the Employment Regulations and/or the Acquired Rights Directive; and
- 2.3.7 any claim made by or in respect of a Transferring Supplier Employee or any appropriate employee representative (as defined in the Employment Regulations) of any Transferring Supplier Employee relating to any act or omission of the Supplier or any Sub-Contractor in relation to its obligations under regulation 13 of the Employment Regulations, except to the extent that the liability arises from the failure by DFID and/or Replacement Supplier to comply with regulation 13(4) of the Employment Regulations.
- 2.4 The indemnities in Paragraph 2.3 shall not apply to the extent that the Employee Liabilities arise or are attributable to an act or omission of the Replacement Supplier and/or any Replacement Sub-Contractor whether occurring or having its origin before, on or after the Service Transfer Date, including any Employee Liabilities:
  - 2.4.1 arising out of the resignation of any Transferring Supplier Employee before the Service Transfer Date on account of substantial detrimental changes to his/her working conditions proposed by the Replacement Supplier and/or any Replacement Sub-Contractor to occur in the period on or after the Service Transfer Date; or

- 2.5 If any person who is not identified in the Supplier's Final Supplier Personnel List claims, or it is determined in relation to any person who is not identified in the Supplier's Final Supplier Personnel List that his/her contract of employment has been transferred from the Supplier or any Sub-Contractor to the Replacement Supplier and/or Replacement Sub-Contractor pursuant to the Employment Regulations or the Acquired Rights Directive, then:
  - 2.5.1 DFID shall procure that the Replacement Supplier shall, or any Replacement Sub-Contractor shall, within five (5) Working Days of becoming aware of that fact, give notice in writing to the Supplier; and
  - 2.5.2 the Supplier may offer (or may procure that a Sub-Contractor may offer) employment to such person within fifteen (15) Working Days of the notification by the Replacement Supplier and/or any and/or Replacement Sub-Contractor or take such other reasonable steps as it considers appropriate to deal with the matter provided always that such steps are in compliance with Law.
- 2.6 If such offer is accepted, or if the situation has otherwise been resolved by the Supplier or a Sub-Contractor, DFID shall procure that the Replacement Supplier shall, or procure that the Replacement Sub-Contractor shall, immediately release or procure the release of the person from his/her employment or alleged employment.
- 2.7 If after the fifteen (15) Working Day period specified in Paragraph 2.5.2 has elapsed:
  - 2.7.1 no such offer of employment has been made;
  - 2.7.2 such offer has been made but not accepted; or
  - 2.7.3 the situation has not otherwise been resolved

the Replacement Supplier and/or Replacement Sub-Contractor, as appropriate may within five (5) Working Days give notice to terminate the employment or alleged employment of such person.
- 2.8 Subject to the Replacement Supplier and/or Replacement Sub-Contractor acting in accordance with the provisions of Paragraphs 2.5 to 2.7, and in accordance with all applicable proper employment procedures set out in applicable Law, the Supplier shall indemnify the Replacement Supplier and/or Replacement Sub-Contractor against all Employee Liabilities arising out of the termination of employment pursuant to the provisions of Paragraph 2.7 provided that the Replacement Supplier takes, or shall procure that the Replacement Sub-Contractor takes, all reasonable steps to minimise any such Employee Liabilities.

- 2.9 The indemnity in Paragraph 2.8:
- 2.9.1 shall not apply to:
- (a) any claim for:
- (i) discrimination, including on the grounds of sex, race, disability, age, gender reassignment, marriage or civil partnership, pregnancy and maternity or sexual orientation, religion or belief; or
- (ii) equal pay or compensation for less favourable treatment of part-time workers or fixed-term employees,
- in any case in relation to any alleged act or omission of the Replacement Supplier and/or Replacement Sub-Contractor; or
- (b) any claim that the termination of employment was unfair because the Replacement Supplier and/or Replacement Sub-Contractor neglected to follow a fair dismissal procedure; and
- 2.9.2 shall apply only where the notification referred to in Paragraph 2.5.1 is made by the Replacement Supplier and/or Replacement Sub-Contractor to the Supplier within six (6) months of the Service Transfer Date.
- 2.10 If any such person as is described in Paragraph 2.5 is neither re-employed by the Supplier or any Sub-Contractor nor dismissed by the Replacement Supplier and/or Replacement Sub-Contractor within the time scales set out in Paragraphs 2.5 to 2.7, such person shall be treated as a Transferring Supplier Employee.
- 2.11 The Supplier shall comply, and shall procure that each Sub-Contractor shall comply, with all its obligations under the Employment Regulations and shall perform and discharge, and shall procure that each Sub-Contractor shall perform and discharge, all its obligations in respect of any person identified in the Supplier's Final Supplier Personnel List before and on the Service Transfer Date (including the payment of all remuneration, benefits, entitlements and outgoings, all wages, accrued but untaken holiday pay, bonuses, commissions, payments of PAYE, national insurance contributions and pension contributions and such sums due as a result of any Fair Deal Employees' participation in the Schemes and any requirement to set up a broadly comparable pension scheme which in any case are attributable in whole or in part in respect of the period up to (and including) the Service Transfer Date) and any necessary apportionments in respect of any periodic payments shall be made between:
- 2.11.1 the Supplier and/or any Sub-Contractor; and
- 2.11.2 the Replacement Supplier and/or the Replacement Sub-Contractor.

- 2.13.4 any proposal by the Replacement Supplier and/or Replacement Sub-Contractor to change the terms and conditions of employment or working conditions of any Transferring Supplier Employees identified in the Supplier's Final Supplier Personnel List on or after their transfer to the Replacement Supplier or

- 2.13.5 any statement communicated to or action undertaken by the Replacement Supplier or Replacement Sub-Contractor to, or in respect of, any Transferring Supplier Employee identified in the Supplier's Final Supplier Personnel List on or before the Service Transfer Date regarding the Relevant Transfer which has not been agreed in advance with the Supplier in writing;

The Supplier shall ensure that each of the Insurances is effective no later than the Commencement Date.
- 1.2 The Insurances shall be maintained in accordance with Good Industry Practice and (so far as is reasonably practicable) on terms no less favourable than those generally available to a prudent Contractor in respect of risks insured in the international insurance market from time to time.
- 1.3 The Insurances shall be taken out and maintained with insurers who are of good financial standing and of good repute in the international insurance market.
- 1.4 The Supplier shall ensure that the public and products liability policy shall contain an indemnity to principals clause under which DFID shall be indemnified in respect of claims made against DFID in respect of death or bodily injury or third party property damage arising out of or in connection with the Services and for which the Supplier is legally liable.

#### **2.GENERAL OBLIGATIONS**

- 2.1 Without limiting the other provisions of this Contract, the Supplier shall:
  - 2.1.1 take or procure the taking of all reasonable risk management and risk control measures in relation to the Services as it would be reasonable to expect of a prudent Contractor acting in accordance with Good Industry Practice, including the investigation and reports of relevant claims to insurers;
  - 2.1.2 promptly notify the insurers in writing of any relevant material fact under any Insurances of which the Supplier is or becomes aware; and
  - 2.1.3 hold all policies in respect of the Insurances and cause any insurance broker effecting the Insurances to hold any insurance slips and other evidence of placing cover representing any of the Insurances to which it is a party.

#### **3.FAILURE TO INSURE**

- 3.1 The Supplier shall not take any action or fail to take any action or (insofar as is reasonably within its power) permit anything to occur in relation to it which would entitle any insurer to refuse to pay any claim under any of the Insurances.
- 3.2 Where the Supplier has failed to purchase any of the Insurances or maintain any of the Insurances in full force and effect, DFID may elect (but shall not be obliged) following written notice to the Supplier to purchase the relevant Insurances, and DFID shall be entitled to recover the reasonable premium and other reasonable costs incurred in connection therewith as a debt due from the Supplier.

#### **4.EVIDENCE OF POLICIES**

- 4.1 The Supplier shall upon the Commencement Date and within 15 Working Days after the renewal of each of the Insurances, provide evidence, in a form satisfactory to DFID, that the Insurances are in force and effect and meet in full the requirements of this Framework Schedule 2. Receipt of such evidence by DFID shall not in itself constitute acceptance by DFID or relieve the Supplier of any of its liabilities and obligations under this Agreement.

#### **5.AGGREGATE LIMIT OF INDEMNITY**

- 5.1 Where the minimum limit of indemnity required in relation to any of the Insurances is specified as being "in the aggregate":
  - 5.1.1 if a claim or claims which do not relate to this Contract are notified to the insurers which, given the nature of the allegations and/or the quantum claimed by the third party(ies), is likely to result in a claim or claims being paid by the insurers which could reduce the level of cover available below that minimum, the Supplier shall immediately submit to DFID:
    - (a) details of the policy concerned; and
    - (b) its proposed solution for maintaining the minimum limit of indemnity specified; and
  - 5.1.2 if and to the extent that the level of insurance cover available falls below that minimum because a claim or claims which do not relate to this Contract are paid by insurers, the Supplier shall:
    - (a) ensure that the insurance cover is reinstated to maintain at all times the minimum limit of indemnity specified for claims relating to this Contract; or
    - (b) if the Supplier is or has reason to believe that it will be unable to ensure that insurance cover is reinstated to maintain at all times the minimum limit of indemnity specified, immediately submit to

DFID full details of the policy concerned and its proposed solution for maintaining the minimum limit of indemnity specified.

## 6.CANCELLATION

- 6.1 The Supplier shall notify DFID in writing at least five (5) Working Days prior to the cancellation, suspension, termination or non-renewal of any of the Insurances.

## 7.INSURANCE CLAIMS

- 7.1 The Supplier shall promptly notify to insurers any matter arising from, or in relation to, the Services and/or this Contract for which it may be entitled to claim under any of the Insurances. In the event that DFID receives a claim relating to or arising out of the Services or this Contract, the Supplier shall co-operate with DFID and assist it in dealing with such claims including without limitation providing information and documentation in a timely manner.
- 7.2 Except where DFID is the claimant party, the Supplier shall give DFID notice within twenty (20) Working Days after any insurance claim in excess of **£100,000** relating to or arising out of the provision of the Services or this Contract on any of the Insurances or which, but for the application of the applicable policy excess, would be made on any of the Insurances and (if required by DFID) full details of the incident giving rise to the claim.
- 7.3 Where any Insurance requires payment of a premium, the Supplier shall be liable for and shall promptly pay such premium.
- 7.4 Where any Insurance is subject to an excess or deductible below which the indemnity from insurers is excluded, the Supplier shall be liable for such excess or deductible. ## DFID Supply Partner Code of Conduct

### Principles

DFID aims to create an inclusive culture of best practice with the delivery partners with whom it engages and which receive UK taxpayers' funds. All Supply Partners should adhere to the overarching principles of the Supply Partner Code of Conduct (hereafter "the Code").

#### Overarching Principles for Supply Partners

- ✓ **Act responsibly and with integrity**
- ✓ **Be transparent and accountable**
- ✓ **Seek to improve value for money**
- ✓ **Demonstrate commitment to poverty reduction and DFID priorities<sup>1</sup>**
- ✓ **Demonstrate commitment to wider HMG priorities<sup>2</sup>**

### DFID Supply Partner responsibilities

Supply Partners and their subcontractors (delivery chain partners) should ensure they have read and understood the Code and their required compliance level and seek clarification from DFID where necessary. In particular, it is important that the Supply Partners and their subcontractors (delivery chain partners) understand any risks and have systems in place to manage them. The 3 compliance levels are:

**Compliance Level 1** - Supply Partners with an individual contract value of £1m or above, or two or more contracts/grants with DFID with a combined value of £5m or above;

**Compliance Level 2** - Supply Partners with an individual contract value below £1m, or two or more contracts /grants with DFID with a value of less than £5m;

**Compliance Level 3** - Supply Partners with an individual Contract value, or component of a Contract/Grant, with a value below the EU contracting threshold. At this level Supply Partners are required to adhere to the overarching Code principles and recognise, mitigate and manage risks. These Supply Partners will not be monitored against the contractual KPIs.

## Scope

This Code forms part of DFID's standard contractual terms and conditions and full compliance and annual verification via a signed declaration, to be found at Annex 1b, is mandatory for contracted Supply Partners. Adherence to the Code at the appropriate level is also a requirement for DFID direct and delivery chain Supply Partners in receipt of funding. DFID will monitor Supply Partners in six priority areas as set out below using a set of Key Performance Indicators (KPIs) as referenced in Annex 1a and 1b.

### 1. Value for Money and Governance Key Performance Indicators KPI 1 a - c

Value for Money and financial transparency is an essential requirement of all DFID commissioned work. All Supply Partners must seek to maximise development results, whilst driving cost efficiency, throughout the life of commissioned programmes. This includes budgeting and pricing realistically and appropriately to reflect delivery requirements and levels of risk over the life of the programme. It also includes managing uncertainty and change to protect value in the often challenging environments that we work in.

Supply Partners must demonstrate that they are pursuing continuous improvement and applying stringent financial management and governance to reduce waste and improve efficiency in their internal operations and within the delivery chain. DFID expects Supply Partners to demonstrate openness and honesty and to be realistic about capacity and capability at all times, accepting accountability and responsibility for performance along the full delivery chain, in both every-day and exceptional circumstances.

## Specific requirements include:

- ✓ Provision of relevant VfM and governance policies and a description of how these are put into practice to meet DFID requirements (e.g. Codes on fraud and corruption, due diligence);
- ✓ A transparent, open book approach, which enables scrutiny of value for money;

<sup>1</sup> <https://www.gov.uk/government/organisations/department-for-international-development/about#priorities>

<sup>2</sup> <https://www.gov.uk/government/organisations/hm-treasury/about#priorities>

- ✓ Strict adherence to all UK and in-country government tax requirements;
- ✓ Processes for timely identification and resolution of issues and for sharing lessons learned which might be requested by DFID at any time.

## 2. Ethical Behaviour

### Key Performance Indicators KPI 2 a- f

DFID Supply Partners and their delivery chain partners act on behalf of the UK government and interact globally with country governments, other aid donors and their delivery partners, many stakeholders including citizens and directly and indirectly with aid beneficiaries. These interactions must therefore meet the highest standards of ethical and professional behaviour in order to uphold the reputation of the UK government.

Arrangements and relationships entered into, whether with or on behalf of DFID, must be free from bias, conflict of interest or the undue influence of others. Particular care must be taken by Supply Partner and delivery chain staff who:

- a) are directly involved in the management of a programme or procurement of services; or
- b) who engage with i) frontline DFID staff ii) other deliverers of aid iii) beneficiaries (of aid)

Where those in a) and b) could be susceptible to undue negative or detrimental influence.

Supply Partners and their delivery chain partners must declare to DFID where there may be instances or allegations of previous unethical behaviour by an existing or potential staff member or where there is a known or suspected conflict of interest. Where a potential or existing staff member has been employed by DFID or the Crown in the preceding two years Supply Partners and their delivery chain partner must provide proof of compliance with the HMG approval requirements under the Business Appointment Rules.

Supply Partners and their delivery chain partners must have the following policies and procedures in place:

- ✓ Development and proof of application and embedding of a Staff Recruitment, Management and Retention policy (which must address circumstances where there may be potential or actual conflict of interest and embedding of a Whistleblowing Policy)
- ✓ Ongoing monitoring of potential or existing personal, business or professional conflict of interest and their mitigation and management
- ✓ Ethical training for every staff member and staff updates in ethical working practices suitable to the development sector (e.g. UN Global Compact principles) including awareness of modern day slavery and human rights abuses
- ✓ Procedures setting out how, staff involved in DFID funded business, can immediately report all suspicions or allegations of aid diversion, fraud, money laundering or counter terrorism finance to the DFID Counter Fraud and Whistleblowing Unit (CFWU) at [reportingconcerns@dfid.gov.uk](mailto:reportingconcerns@dfid.gov.uk) or on +44(0)1355 843551

### 3. Transparency and Delivery Chain Management

Key Performance Indicators KPI 3 a – f

DFID requires full delivery chain transparency from all Supply Partners. All direct Supply Partners and their delivery chain partners must adhere to wider HMG policy initiatives including the support and capacity building of micro, small and medium sized enterprises (MSMEs), prompt payment, adherence to human rights and modern slavery policies and support for economic growth in developing countries.

DFID recognises the critical value that downstream delivery partners contribute. Direct Supply Partners must engage their delivery chain partners in a manner that is consistent with DFID's treatment of its direct Supply Partners. This includes, but is not limited to: appropriate pricing of services; fiduciary and financial risk management processes; applying transparent and responsive measures where delivery chain partners underperform against the KPI areas; taking a zero tolerance approach to tax evasion, corruption, bribery and fraud in subsequent service delivery or in partnership agreements. Direct Supply Partners must cascade the principles of the Code throughout their delivery chain to ensure DFID ethical behaviour standards are embedded and maintained.

#### Specific requirements for direct Supply Partners include:

- ✓ Provide assurance to DFID that the policies and practices of their delivery chain Supply Partners and affiliates comply with the Code;
- ✓ Maintaining and sharing with DFID up-to-date and accurate records of all downstream partners in receipt of DFID funds and/or DFID funded inventory or assets. This should map how funds flow from them to end beneficiaries and identify risks and potential risks along the delivery chain;
- ✓ Ensuring delivery chain partner employees are expressly notified of the DFID 'reporting concerns' mail box<sup>3</sup> found on DFID's external website and of the circumstances in which this should be used;
- ✓ Publication of DFID funding data in accordance with the International Aid Transparency Initiative (IATI)<sup>4</sup>
- ✓ Supply Partners shall adhere to HMG prompt payment policy and not use restrictive exclusivity agreements with sub-partners.

### 4. Environmental issues

Key Performance Indicators KPI 4 a – b

DFID Supply Partners must be committed to high environmental standards, recognising that DFID's activities may change the way people use and rely on the environment, or may affect or be affected by environmental conditions. Supply Partners must demonstrate they have taken sufficient steps to protect the local environment and community they work in, and to identify environmental risks that are imminent, significant or could cause harm or reputational damage to DFID.

#### Commitment to environmental sustainability may be demonstrated by:

- ✓ Formal environmental safeguard policies in place;
- ✓ Publication of environmental performance reports on a regular basis

<sup>3</sup> <https://www.gov.uk/government/organisations/department-for-international-development/about#reporting-fraud>

<sup>4</sup> <http://www.aidtransparency.net/>

- ✓ Membership or signature of relevant environmental Codes, both directly and within the delivery chain such as conventions, standards or certification bodies (e.g. the Extractive Industries Transparency Initiative<sup>5</sup>).

## 5. Terrorism and Security

Key Performance Indicators KPI 5 a – d

DFID Supply Partners must implement due diligence processes to provide assurance that UK Government funding is not used in any way that contravenes the provisions of the Terrorism Act 2000, and any subsequent regulations pursuant to this Act.

DFID Supply Partners must maintain high levels of data security in accordance with the Data Protection Act 1998 and any subsequent regulations pursuant to this Act, or new Act and with the General Data Protection Regulation (Directive 95/46/EC).

### Specific requirements:

- ✓ Development and proof of application and embedding of a comprehensive Terrorism and Security Policy
- ✓ Development and proof of application and embedding of personal data processing processes within a Data Protection Policy
- ✓ DFID Supply Partners must safeguard the integrity and security of their IT and mobile communications systems in line with the HMG Cyber Essentials Scheme<sup>6</sup>. Award of the Cyber Essentials or Cyber Essential Plus badges would provide organisational evidence of meeting the UK Government-endorsed standard;
- ✓ All DFID Supply Partners who manage aid programmes with a digital element must adhere to the global Principles for Digital Development<sup>7</sup>, which sets out best practice in technology-enabled programmes
- ✓ Ensure that DFID funding is not linked to terrorist offences, terrorist activities or financing.

## 6. Safeguarding, Social Responsibility and Human Rights

Key Performance Indicators: KPI 6 a – d

Safeguarding, social responsibility and respect for human rights are central to DFID's expectations of its Supply Partners. Supply Partners must ensure that robust procedures are adopted and maintained to eliminate the risk of poor human rights practices within complex delivery chain environments funded by DFID. These practices include sexual exploitation, abuse and harassment; all forms of child abuse and inequality or discrimination on the basis of race, gender, age, religion, sexuality, culture or disability. Supply Partners must place an emphasis on the control of these and further unethical and illegal employment practices, such as modern day slavery, forced and child labour and other forms of exploitative and unethical treatment of workers and aid recipients. DFID will expect a particular emphasis on the management of these issues in high risk fragile and conflict affected states (FCAS), with a focus on ensuring remedy and redress if things go wrong.

### Specific requirements:

- ✓ Development and proof of application and embedding of a Safeguarding Policy;

<sup>5</sup> <https://eiti.org/>

<sup>6</sup> <https://www.gov.uk/government/publications/cyber-essentials-scheme-overview>

<sup>7</sup> <http://digitalprinciples.org/>

- ✓ Delivery of Social Responsibility, Human Rights and Safeguarding training throughout the delivery chain;
- ✓ Compliance level 1 Supply Partners must be fully signed up to the UN Global Compact<sup>8</sup>;
- ✓ Practices in line with the International Labour Organisation (ILO) 138<sup>9</sup> and the Ethical Trading Initiative (ETI) Base Code<sup>10</sup> are to be encouraged throughout the delivery chain;
- ✓ Policies to embed good practice in line with the UN Global Compact Guiding Principles 1 & 2 on business and human rights throughout the delivery chain are required, as detailed in Annex 2;
- ✓ Compliance level 1 Supply Partners to submit a Statement of Compliance outlining how the organisation's business activities help to develop local markets and institutions and further how they contribute to social and environmental sustainability, whilst complying with international principles on Safeguarding and Human Rights labour and ethical employment, social inclusion and environmental protection;
- ✓ Overarching consideration given to building local capacity and promoting the involvement of people whose lives are affected by business decisions.

### Compliance KPIs and contractual checking mechanisms - DFID Contracts

Maintaining standards of assurance and driving sustainable improvements, in connection with the Code's principles through Supply Partner relationships is a key focus for DFID.

Supply Partner and delivery chain compliance checking processes will take place in accordance with the agreed compliance levels and the specific contractual clauses down the delivery chain, DFID shall undertake compliance checks.

Where appropriate, a plan setting out the Code of Conduct delivery methodology for the Supply Partner arrangements during the contract term may be jointly developed with DFID during Contract mobilisation.

**UN Global Compact – Human Rights**

**Principle 1:** businesses should support and respect the protection of internationally proclaimed Human Rights

**Principle 2:** businesses should ensure they are not complicit in Human Rights abuse

Organisations should do this by giving attention to vulnerable groups including women, children, people with disabilities, indigenous groups, migrant workers and older people.

Organisations should comply with all laws, honouring international standards and giving particular consideration to high risk areas with weak governance.

Examples of how suppliers and partners should do this are set out below:

**In the workplace**

- by providing safe and healthy working conditions
- by guaranteeing freedom of association
- by ensuring non-discrimination in personnel practices
- by ensuring that they do not use directly or indirectly forced labour or child labour
- by providing access to basic health, education and housing for the workers and their families, if these are not provided elsewhere
- by having an affirmative action programme to hire victims of domestic violence
- by making reasonable accommodations for all employees' religious observance and practices

**In the community**

- by preventing the forcible displacement of individuals, groups or communities
- by working to protect the economic livelihood of local communities
- by contributing to the public debate. Companies interact with all levels of government in the countries where they operate. They therefore have the right and responsibility to express their views on matters that affect their operations, employees, customers and the communities of which they are a part
- through differential pricing or small product packages create new markets that also enable the poor to gain access to goods and services that they otherwise could not afford
- by fostering opportunities for girls to be educated to empower them and also helps a company to have a broader and more skilled pool of workers in the future, and
- perhaps most importantly, a successful business which provides decent work, produces quality goods or services that improve lives, especially for the poor or other vulnerable groups, is an important contribution to sustainable development, including human rights
- If companies use security services to protect their operations, they must ensure that existing international guidelines and standards for the use of force are respected

## Section 3 – Terms of Reference

### Introduction

1. The Department for International Development (DFID) leads the UK's work to end extreme poverty. We are tackling the global challenges of our time including poverty and disease, mass migration, insecurity and conflict. Our work is building a safer, healthier, more prosperous world for people in developing countries and in the UK too.
2. Ending Violence against Women and Girls is a high priority for the UK government as set out in the Call to End Violence against Women and Girls (2010) and in DFID's revised Strategic Vision for Women and Girls (2016). The DFID Malawi's Business Plan (2016-2021) has made preventing and responding to VAWG a cross-office priority.
3. Globally, Violence against Women and Girls (VAWG) is one of the most systematic and widespread human rights violations. In Malawi, nearly 1 in 3 women has experienced physical violence and 1 in 4 has experienced sexual violence in their lifetime (Malawi Demographic Health Survey 2015/16). Children are not spared: 1 in 5 girls and 1 in 7 boys under 18 years have experienced sexual violence. Survivors of violence face significant barriers to access justice and related services.
4. DFID Malawi has designed a new six year VAWG Prevention and Response Programme, and seeks to appoint an appropriately qualified Supplier to manage and deliver the programme. This TOR outlines the objectives, the scope of work, detailed requirements and reporting procedure for the programme.
5. The programme will build on UK's investment in improving access to justice services in Malawi, and will draw on the UK's learning from violence prevention programmes in other countries in the region.
6. The duration of this contract is envisaged for 72 months. Subject to need assessment, review recommendations and satisfactory performance of the Supplier, extension could be exercised for up to 24 months. The programme will be delivered in two phases. In the first phase (years 1-3), the Supplier will develop, test and adapt a comprehensive local level package(s) of GBV prevention and response interventions in different community contexts. The package of interventions would help to shift social norms and help to ensure improved justice outcomes for women and child survivors of GBV/VAC. The approaches/models in these prevention and response packages will vary across impact areas as they will depend on what is already happening in the impact areas. These will be rigorously evaluated and the most successful package of interventions will be scaled up in the second phase (years 4-6). National level interventions will seek to improve justice outcomes of VAWG survivors.

### Objective

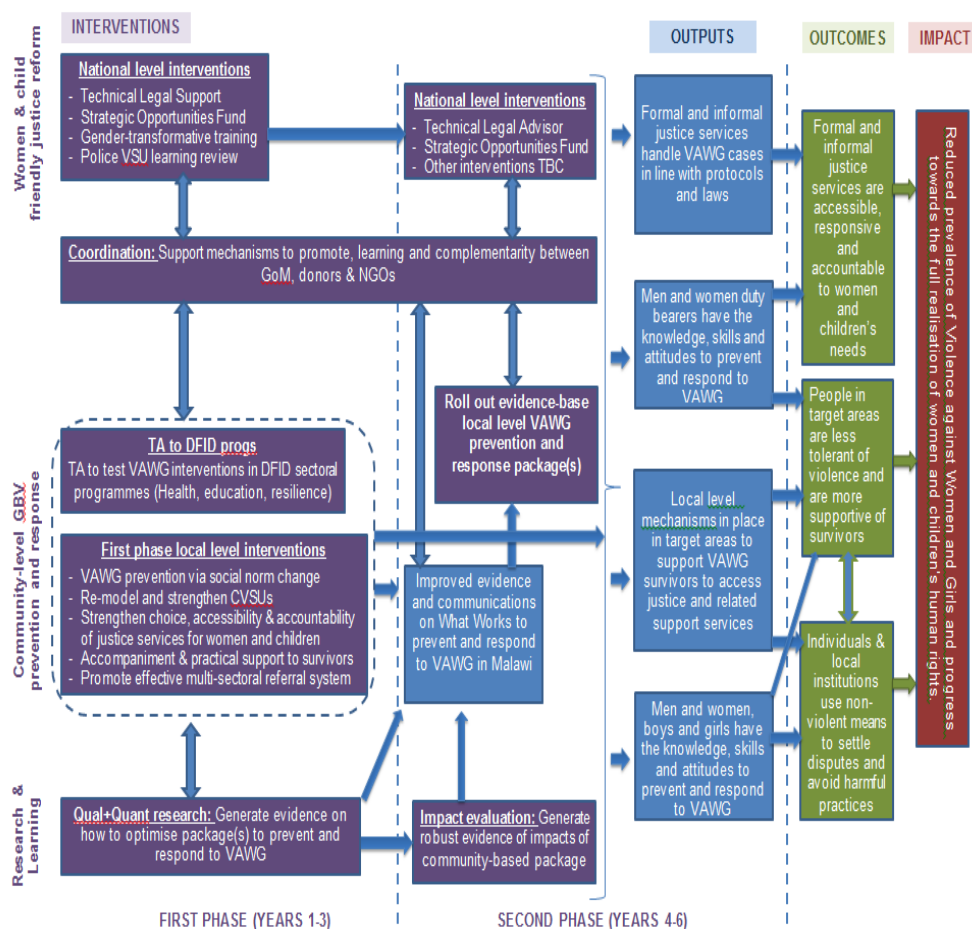

7. The objective of this programme is to reduce the prevalence of violence against women and girls and improve the justice system for women and girls living with violence. It has three outcomes:
  - Formal and informal justice services are accessible, responsive and accountable to women and children's needs;
  - People in target areas are less tolerant of violence and are more supportive of survivors;
  - Individuals and local institutions use non-violent means to settle disputes and avoid harmful practices.

## The Recipient

8. The main recipient of the services will be the Government of Malawi, national and local organizations providing VAWG prevention and response services and the Malawian population.

## Scope of work

9. The Supplier will be responsible for the achievement of all the outputs and outcomes outlined in paras. 17-35. The envisaged theory of change guiding the overall Scope is presented below:

10. In addition, the Supplier will:

- Conduct due diligence assessment on all partners (delivery and others as applicable).
- Facilitate coherence between all the programme components.
- **Leave no one behind:** Ensure that other intersecting inequalities including women and girls with disabilities and other vulnerable women and girls are considered and that the programme is designed to address these through appropriate prevention and response interventions. Proposals should demonstrate how the programme will identify marginalised groups, how they intend to engage them in the activities, and how they will disaggregate the data. This should be based on robust evidence, best practices, and lessons learnt from similar programmes.
- **Working with men and boys:** Interventions that seek to prevent and to respond to VAWG carry a risk of alienating men. Thus, the Supplier will need to consider how men will be engaged in programme activities to mitigate negative consequences. The proposal submitted by the Supplier should also clearly indicate how boys (both in-school and out-of-school) will be engaged in the programme.
- **Impact district and areas:** The programme will work in at least six districts to test, adapt and evaluate approaches to stopping violence in different geographical and cultural

contexts. It is expected that during the first phase, the programme works in at least 12 impact areas (average community size of 15,000 people) in at least 3 districts, scaling up in Phase 2 to at least an additional three districts.

- Apart from the above references, the geographical focus more broadly for the programme has not been defined. Tenderers should propose impact areas taking into consideration prevalence rates of violence, previous DFID investments and the need for having a mixture of different geographical and socio-cultural contexts (e.g. patrilineal and matrilineal societies, urban/peri-urban and rural contexts, religion). In selecting the impact sites, tenderers should also take into consideration what others are doing to ensure complementarity or to avoid duplication. DFID will need sound evidence and strong justification for the selected impact areas.
- In addition, the programme should co-locate in some impact areas with other DFID funded programmes (health, education and resilience) with a view to include community structures/actors under these programmes in some prevention and response activities (e.g. STAR and SASA! groups).
- **Understanding the local context:** Understanding the local context is key. The Supplier is therefore expected to incorporate a political economy analysis into its approach throughout implementation in order to effect maximum change and mitigate risks.

## Outputs and Suggested Methodology

To achieve the outcomes outlined above, the following outputs must be satisfied.

**Output 1: Formal and informal justice services handle VAWG cases in line with protocols and laws** (Expected to be less than 15% of budget in Phase 1)

11. For this output, the Supplier will be expected to, inter alia,
  - Ensure that officers handling VAWG cases are following the laid down procedures as stipulated in the applicable laws such as the Prevention of Domestic Violence Act and the Child Care, Protection and Access to Justice Act. The Supplier may need to review the existing guidelines/protocols to ensure they are fit for purpose or work collaboratively with stakeholders to develop new ones;
  - Develop protocols that will strengthen the referral mechanisms between different formal and informal justice providers, and ensure that the health, social welfare and justice providers are working in a joined up way. The interventions should seek to prevent cases slipping through the cracks by facilitating seamless referral of clients through the justice systems.
12. The programme is also expected to improve Police Victim Support Units (VSU) approach to dealing with VAWG cases. In the business case, a review of existing guidelines and protocols of VSU is envisaged but tenderers can suggest alternative interventions to meet this objective. Proposals should take into account existing evidence and what has worked/not worked in Malawi and elsewhere in presenting how this component will be implemented.

**Output 2: Men and women duty bearers have the knowledge, skills and attitudes to prevent and respond to VAWG** (Expected to be between 25% and 30% of budget in Phase 1, including Strategic Opportunities Fund) For this output, the Supplier is expected to use gender transformative approaches to design appropriate curriculum and deliver training packages on VAWG for approximately 400 - 450 police and judicial officers including senior officers such as commanding officers and magistrates/judges. Among other objectives, the interventions should seek to change attitudes of police and judicial officers on VAWG so that female survivors of violence are able to receive fair and quality services. The training approaches to be used should be those which have proved successful in similar contexts. The tenderers should indicate how the curriculum will be developed and key areas that will be covered by the curriculum, and how they will select the beneficiaries in these agencies.

13. The Supplier, in consultation with DFIDM and the Malawi Judiciary, will also recruit a Technical Legal Advisor to be based within the Malawi Judiciary to provide technical support to the Malawi Judiciary. The Technical Legal Advisor will help coordinate the programme related activities in the Malawi Judiciary including helping them to develop means for fast-tracking sexual violence cases, delivery of professional training for judicial officers and support the implementation of the Prevention of Domestic Violence Act and related legislations. The Technical Legal Advisor will report to the Supplier and to a designated official in the Malawi Judiciary. It is expected that this position will contribute to at least Outputs 1 and 2.
14. The Supplier will also develop interventions aimed at shifting social norms on VAWG of chiefs, village tribunal counsellors, religious leaders and other locally based judicial officers in the selected community impact areas. The intervention could also seek to promote their understanding of gender equality and women's rights and its attendant obligations. The Supplier will propose the most effective delivery mechanism for this work.

#### **Strategic Opportunities Fund (£800,000 ceiling)**

15. The Supplier will establish a flexible "Strategic Opportunities Fund" which will be used to address emerging barriers to effective and efficient justice service provision in Malawi. The fund will support innovative and specific justice sector initiatives/reforms that are in line with the programme's overall objectives.
16. It is expected that the Strategic Opportunities Fund will be managed by an accountable committee mechanism comprising DFID, the Technical Legal Advisor (embedded by the programme in the Malawi Judiciary), the Supplier, civil society representative, and GoM representatives. Spending decisions will need to be ratified by the SRO for the programme. DFID will consult the Supplier before arriving at a decision to ratify any proposed investment. A TOR for the fund will be developed by the Supplier during the inception phase and agreed by DFID.

#### **Output 3: Local level mechanisms in place in target areas to support VAWG survivors to access justice and related support services** (Expected to be c. 15-20% budget in Phase 1, including support fund for survivors)

17. For this output, the Supplier will be expected to strengthen the appropriateness and responsiveness of the informal and formal justice system for women and girls living with violence. The Supplier will need to map the existing justice structures in impact areas including their capacities and lack thereof and design tailor made capacity initiatives to address these gaps. The Supplier will develop materials (e.g. curriculum) for these capacity building initiatives and identify methodologies for delivery of this work.
18. This output will also require the Supplier to facilitate access to care and support services to survivors of violence through remodelling and repurposing the existing Community VSUs (where these exist) into safe spaces/refuges for women and children. The Supplier should set out clearly how this component will be implemented, drawing on best practice and learning from the Justice for Vulnerable Groups Programme and other similar programmes in the region. Some areas to clarify are (though this is not an exhaustive list):
  - Identify safe space facilitators and the skills needed to enable them to fulfil their roles;
  - Ascertain the precise number of remodelled CVSUs/safe spaces that will operate under this programme making sure that the spaces selected are within the selected impact districts;
  - Develop protocols/guidelines for dealing with clients and empowering survivors.

#### **Accompaniment of survivors of VAWG**

19. It is expected that the Supplier will institute a process that informs VAWG survivors of available justice and clinical remedies, and then accompany them on their chosen path through the justice system and related services as appropriate. The Supplier should provide details how this component will be delivered drawing lessons from similar programmes. The Supplier should indicate what training will be required for those providing accompaniment. In the event that identified local partners already have this arrangement in place, the Supplier will carry out an assessment to ascertain if there is need for additional capacity.

## Survivors Support Fund

20. The Supplier will also establish a Survivors Support Fund that will cover poor survivors' incidental (e.g. travel expenses) and court costs to enable them to access the appropriate justice and related services. Tenderers should propose an appropriate budget for the fund. It is expected that the fund will be administered locally (at a community level) by the implementing local SME/NGO with the active engagement of chiefs and paralegals. Together, these will review and approve or reject each request for assistance from survivors or their representatives. The Supplier will ensure funds are accounted for properly.

21. Supplier can propose an alternative way of managing the fund, and must include criteria for assessing need and ways for accounting for the resources provided.

### **Output 4: Men and women, boys and girls have the knowledge, skills and attitudes to prevent and respond to VAWG** (Expected to be between 22% and 27% of budget in Phase 1)

22. This output requires the Supplier to implement proven attitude and behavioral change VAWG prevention interventions working directly with women and girls and men and boys. Interventions/approaches may include SASA and STAR with groups and/or couples that help to shift social norms/attitudes towards violence but tenderers can suggest other more equally effective approaches. Tenderers will need to indicate which different prevention approaches will be tested and evaluated in different geographical and cultural contexts in Malawi.

23. Tenderers should also propose a clear methodology that will be used to implement this component including strategies for scaling up successful approaches in VAWG prevention or stopping those that are less successful. Consideration should be given, but not limited to, the following:

- How the facilitators will be identified and indicate the training they will require to deliver this work;
- Key areas that will be covered by the curriculum;
- How the beneficiaries will be selected; and
- The locations where these discussions will take place.

### **Output 5: Improved evidence and communications on what works to prevent and respond to VAWG in Malawi** (Expected to be between approximately 13% and 18% of budget for both this output and impact evaluation in Phase 1)

24. Outputs 1-4 will be underpinned by a strong monitoring, evaluation and learning component. Tenderers are expected to show how, over the first three years of the programme, this component will drive programme learning and delivery through the following activities:

- Mapping of existing VAWG and justice interventions, providers and services in the selected impact areas including the range of informal and formal justice providers, levels of interaction and coordination between them and referral mechanisms with other Suppliers. This is in order to design appropriate packages of interventions and technical assistance based on an analysis of existing interventions, partners, capacities and gaps.
- Formative research in each intervention area on most prevalent forms of VAWG, prevalent attitudes and practices, influential actors and their interests i.e. stakeholder/political economy analysis, opportunities and entry points for change and challenges and risks.
- Baseline stud(ies) – including a representative quantitative baseline survey across target areas and duty bearers in targeted justice institutions to measure prevalent knowledge, attitudes and norms around gender, VAWG and justice. This would also include some baseline qualitative research.
- Ongoing qualitative research – to gather key data and case studies to triangulate, explain and expand on the quantitative data collection. This will be key to keeping track of how and why change is happening or not and the role of external contextual factors in change processes.

- Ongoing operations research and real time evaluation – to track the quality and fidelity of programme implementation, and make course correction changes in real time.
25. Additionally, phase one of the programme will be rigorously evaluated to measure the impacts of the local intervention package(s) and build the evidence on which interventions to scale up in Phase 2. Annex 1 contains a full terms of reference for this impact evaluation. The tenderer is expected to propose a detailed methodology and budget for this evaluation (taking into account the overall budget available for output 5 and deliverables expected) as part of their response to this ToR.
  26. The Supplier should also set out an approach for gathering learning across all the outputs and how the lessons will support programme adaptation.
  27. The proposals should also detail an approach for ensuring the sufficient independence of the MEL component including impact evaluation from the lead supplier in order to guarantee the independence of delivery of MEL activities and mitigate risk of conflict of interests.

## Supply chain for the programme

The Supplier will set out their supply chain for delivery of the contract where possible. The number of partners and the levels of the supply chain will be determined by the lead supplier/consortium/JV. Implementing partners are likely to include international or national NGOs/SMEs who have the capacity and experience to manage and /or deliver goods and services through local level organisations. It is expected that the supply chain will include local NGOs/SMEs with strong community networks, experienced and skilled staff, excellent contextual knowledge and good presence at local level to deliver much of the local level prevention and response activities. The Supplier should outline the approach used (or that they plan to use) to select/identify partners.

## Financial and Risk Management

It is expected that a maximum of 40% of the budget will be allocated to Phase 1, with the remainder used for scale up in Phase 2. Budget split between outputs for phase 2 will be informed by the results of the monitoring, learning and evaluation. It is expected however that expenditure on prevention activities will increase in Phase 2. The supplier will be required to do the following during the course of the contract:

28. **Fraud and corruption:** adhere to DFID's zero tolerance for fraud and corruption. The proposal should clearly outline what systems they will put in place to prevent and adequately respond to any incidents of fraud and or corruption.
29. **Risk Management:** develop and implement a risk management policy for the programme. Tenderers are required to profile possible risks of the programme and identify mitigation measures.
30. **Value for money:** Value for Money (VfM) in DFID is about maximizing the impact of every pound spent to improve poor peoples' lives. This means more than just the benefits of our work outweighing the costs. It means that in everything we do we try to maximize impact given the financial, political and human resources we have available. At the project level, this requires us to think about whether we are getting the most value out of our activities with the best use of resources. This influences how we procure our inputs (economy), how we use inputs to deliver activities (efficiency) and, most importantly, what overall value we are generating for the intended beneficiaries and at what cost (cost effectiveness).
31. Therefore, we expect the Supplier to outline a VfM analysis framework covering, how they will demonstrate VfM in relation to the VfM enablers and how VfM will be evidenced and analyzed during programme implementation, with particular reference to key indicators for VfM analysis over the life of the programme, the programme results and potential measurement/monitoring approaches.

## Constraints and Dependencies

### **Coordination with other DFID Programmes**

32. There are three DFID programmes (namely resilience, health and education) currently under design that plan to integrate some activities to tackle violence against women and children in their business cases. This programme will co-locate in some impact areas with these new programmes and the Supplier should work collaboratively with those managing these programmes on VAWG related activities. Possible areas of collaboration include involving local health workers, school management committees, mother groups, and agriculture workers in group prevention interventions (e.g. STAR and SASA! groups); and information sharing to facilitate referrals.
33. This programme will also provide some technical support for the design and oversight of specific VAWG activities in sectoral programmes e.g. GBV training in savings and loans interventions. Ultimately, the Supplier should adopt a collaborative way of working with these programmes-one that will advance the efforts to prevent and respond to violence against women and girls in Malawi and promote the programme's sustainability. Tenderers should indicate how they will cooperate with Suppliers managing these programmes especially at community level. Details will be confirmed during inception phase.

### **Coordination with other Gender Based Violence Programmes/projects**

34. The Supplier will be expected to coordinate with other relevant justice and VAWG programmes such as EU's Chilungamo programme, and the USAID funded GBV project in order to maximize results from this investment. Ensuring no duplication will be critical.
35. The design team of the programme identified significant levels of existing VAWG response activities and limited VAWG prevention activities at community levels. There is a generalised problem of poor coordination between actors. Interventions at community level will need to build on what is there and encourage more effective collaboration with other actors. This will likely mean a slightly different set of interventions in each community impact area.

### **Partnerships with key stakeholders**

36. Strong coherence, consistency and coordination are paramount in the implementation of the programme. It is therefore critical to identify, invest and nurture relevant and quality partnerships that will enable the programme to achieve its outputs and outcomes and ensure complementarity of efforts. In line with this, the Supplier will develop a clear plan of engagement with principal partners at national and local levels and seek agreement on these plans.
37. In particular, the Supplier will be expected to liaise closely in the delivery of this programme with the Government of Malawi especially with the Malawi Judiciary, the Ministry of Justice and Constitutional Affairs, the Malawi Police Services and the Ministry of Gender, Children and Social Welfare. The Supplier will also propose additional stakeholders they will engage directly and indirectly and outline the nature of the partnerships.
38. If requested, the Supplier will offer technical support to the Ministry of Gender to strengthen their GBV coordination and operational capacities. Support should help increase their abilities to review and develop national GBV policies, monitor GBV programmes, improve information sharing and its use.

### **Sustainability**

39. The Supplier is expected to develop an exit strategy at the outset of the programme. The exit strategy will include: 1) A mid-term assessment of the capacity and maturity of local authorities and community level structures that have been supported by the programme and their potential sustainability; 2) A mid-term assessment of the capacity and maturity of GoM district and central level GBV coordination structures including the national and district level technical working group on GBV. Sustainability and exit plans will be developed with communities over the duration of the programme. Sustainability planning will be introduced and negotiated at the outset with every community and will set out what the project will provide, what the community will provide, and an agreement between the project and the community about how the prevention and response work will be continued once project funding and support rounds off.

### Programme Advisory Panel

40. The business case states that the National Technical Working Group (TWG) on Gender Based Violence has been designated as the programme advisory panel (business case is available in annex 3). The advisory panel will be co-chaired by the Ministry of Gender (likely to be the Principal Secretary) and DFID and the Supplier will act as the Secretariat of the advisory panel. The panel will meet twice a year but dates for meetings could change at short notice owing to unavailability of senior government officials.

## Implementation Requirements

### Inception Phase

41. The Supplier will be required to complete a 3 months inception phase (before the commencement of the implementation phase) during which a number of activities will be completed. The deliverables for the inception phase will include, but will not be limited to:

42.

1. Team for implementation recruited and office preferably in Lilongwe fully established and operational with all requisite operational manuals in place
2. Terms of Reference agreed with the Judiciary and recruitment of Technical Legal Advisor underway
3. Defined governance and management arrangement for the programme including on how the independence of MEL outputs will be ensured.
4. Updated risk matrix agreed, including how programme risks identified in the scope of work will be addressed
5. Finalisation of selection of intervention districts and agreements in place with relevant downstream partners that will work in each selected district
6. Value for money strategy and metrics agreed. This should cover efficiency, effectiveness, economy and equity
7. Detailed inception report on Monitoring, Evaluation and Learning activities to be delivered. This will be quality assured by DFID's Evaluation Quality Assurance and Learning Service (EQUALS)
8. Monitoring and data collection framework and plan including initial baselines underway to monitor implementation. Agreement on working level arrangements with Monitoring, Evaluation and Learning partner in place
9. TORs and operational modalities for Strategic Opportunities Fund and the Survivors Support Fund Agreed
10. Updated Theory of Change (up to output level) and Programme logframe that responds to the outputs identified
11. Communication strategy that ensures that the outputs and learning from the programme are well communicated to a variety of different audiences
12. One appropriate curriculum developed to be used for training facilitators of local level VAWG prevention approaches e.g. SASA
13. A detailed list of deliverables for Year 1 with some high-level outputs projected for outer years

14. Costs for implementation split into different categories to allow easy analysis by DFID of cost drivers and value for money. A more detailed projection of costs will be required for Year 1 of implementation with projections for outer years
15. A final suite of KPIs for programme implementation agreed with DFID
16. Inception report that includes political economy analysis of VAWG in Malawi in a format agreed with DFID

## Implementation Phase Deliverables

43. The Details of the implementation phase deliverables will be confirmed by the end of the inception phase to respond to the programme outputs, and these ToR will be revised to reflect these changes.
44. Although the scope of work and deliverables for the implementation phase is indicative, and will be reviewed at the end of the inception phase, the Supplier's technical proposal is expected to propose some indicative deliverables which may be refined during the inception phase.
45. During the implementation phase, the Supplier will be responsible for the overall management, implementation and monitoring of the programme components. As such, the Supplier will be responsible for integrating the different outputs of the programme, ensuring that the mechanisms, arrangements and systems developed during the inception phase are on schedule and to cost. Using the programme management tools set up in the inception phase, the Supplier will monitor the progress of all interventions.
46. The Supplier will be responsible for ensuring that the programme meets its milestones as set out in the logframe. Each year, the work plan, budget and log-frame will be updated, realigned and formally approved by DFID. The Supplier will maintain appropriate financial records of all programme activities. They will also provide the necessary support and information to DFID Malawi to ensure timely annual, mid-term and end-term reviews of the programme.
47. Additional formal activities, deliverables and outputs from the implementation phase may be determined as part of the inception phase. The milestones agreed in the revised programme logical framework and the annual business plan will form the basis upon which performance will be monitored and tracked.

## Performance Requirements

48. The supplier will be part of DFID's performance management system. Performance will be assessed during DFID's Annual Review and commercial performance reviews. The supplier will be expected to provide inputs into these reviews. There will be annual contract performance reviews and one at the end of the inception period. The implementation plan will be required to be approved by DFID following the inception period before proceeding to full scale implementation.
49. The performance of the Suppliers will be jointly assessed by DFID through specifically/ mutually agreed Key Performance Indicators (KPIs). If need be, at any point in time, a change in activities or outputs is indicated (additional, change in scope or scale or agreement to stop work on a deliverable), the DFID Malawi will agree with the Suppliers revision and if and where relevant will revise the contract in accordance with the current provisions of the EU Directives relating to additional works.
50. DFID reserves the right to request changes to the contract, including services, the ToRs and the contract cost to reflect lessons learned, or change in circumstances, policies or objectives relating to or affecting the programme. DFID will also have the right to terminate the contract at any point where it has strong justification that the programme is not delivering the intended results and/ or does not offer value for money to DFID.

51. Due to the long duration of the programme, the contract will have adequate provision for variation to adapt to changes that occur during the life of the programme. To support this, there will be one break point at the end of the inception period, and another after 3 years, and then performance reviews annually of the supplier during DFID annual review processes. These reviews will assess whether or not the programme has delivered the desired results and continues to offer good value for money for DFID.
52. DFID reserves the right to amend (scale down), re-tender/cancel the contract if the Supplier's performance during the inception phase or during the first 33 months of implementation does not explicitly and satisfactorily meet the conditions and performance milestones set forth in the contract. DFID also reserves the right to amend for scale up within the scope of work and due to the need to adapt to context.
53. In the case of a consortium, the Lead Supplier(s) will be responsible for managing and tackling poor performance of consortium partners.
54. All expenditure will be against pre-agreed fee rates and project costs. All fee rates, costs and expenses should be clearly set out in the proposal in line with DFID's Transparency and Accountability agenda and must be justified in terms of value for money.
55. Personnel: The Supplier(s) will strive for continuity of its core personnel over the life of the programme. Any changes that need to be made to the core team during implementation shall be agreed with DFID in advance.
56. DFID will institute regular structured key supplier/partner contract performance management system to monitor contract progress linked to delivery of results and client relations. This is detailed in the Reporting Requirements section. Partners will be expected to comply with this process.
57. DFID intends to use Key Performance Indicators (KPIs) with a view to managing the Supplier's performance throughout the life of this contract to allow the measurement of aspects such as work planning, service provision and programme delivery. A suite of KPIs will be discussed and agreed with the Supplier by the end of inception. The Supplier will develop annual work plans, linked to KPIs, procurement plans and budgets, to be approved by DFID. They are intended to be working documents which will specify a time table for implementation of planned activities and may be updated or revised subject to approval by DFID.
58. The table below presents generic KPIs that we propose at this stage:

KPI 1 Management, Strategy & Financial	Milestones/ Deliverables on time to the satisfaction of the Client
	Robust cost control in line with the contract and reporting on VFM metrics
	Accurate and timely submission of forecasting and invoices
KPI 2 Team performance	Team leader performance
	Performance of other key leads
KPI 3 Customer Relationship	Active engagement of DFID throughout (monthly coherence and check-in meetings with stakeholders)

	Good relationship management with client governments (as agreed)
KPI 4 Innovation and continuous improvement	Supplier has delivered new ideas which have benefited the programme

59. These will be discussed and agreed during the inception phase. The agreed KPIs will be linked to the milestone matrix. The inception phase will not be subjected to any cost escalation.

### **Deliverables for the Close out phase**

60. The Supplier will ensure that all aspects of the programme are properly concluded. This entails completion of all planned closeout activities. The deliverables for the close out phase include:

- A clear plan for the close out phase agreed with DFID;
- Sustainability plan developed in consultations with key stakeholders and is widely shared with relevant stakeholders;
- End line Surveys completed and findings disseminated;
- Programme learning piece completed and lessons learned disseminated;
- Programme completion report summarising the achievements of the programme, challenges, key learnings, and recommendations completed and submitted to DFID. The report also assures DFID that all the work packages agreed with DFID have been completed;

### **Do No Harm**

61. DFID does not envisage the necessity to conduct any environmental impact assessment for the implementation of VAWG. However, it is important to adhere to principles of “Do No Harm” to the environment.

62. In addition, the programme is targeting a highly sensitive area of work. The Supplier should demonstrate a sound understanding of the ethics in working in this area and applying these principles throughout the lifetime of the programme to avoid doing harm to beneficiaries. In particular, the design of interventions including research and programme evaluations should recognise and mitigate the risk of negative consequence for women and girls. Tenderers will be required to include a statement that they have duty of care to informants, other programme stakeholders and their own staff, and that they will comply with the ethics principles in all programme activities.

63. An ethical commitment to the design and delivery of evaluations including the duty of care to informants, other programme stakeholders and their own staff.

## **Reporting Requirements**

64. The Supplier will prepare quarterly and annual reports based on an agreed format, for DFID to comment and approve. Reports will focus on, but not limited to, progress against work plans and KPIs, risk management and value for money. Any need for additional reporting will be discussed and agreed during the contract and formally covered by amendment to these ToRs.

65. At the programme mid-point and end-point, the Supplier will be required to synthesize learning across different programme components and disseminate lessons learned. The format and content of these reports will be agreed closer to the time of these reviews.

66. Due diligence reporting—prior to confirming partnerships with any local delivery partners or others, the Supplier will notify the SRO of the programme and provide assurance that the proposed partner meets agreed due diligence requirements. These should be reviewed and updated annually and fed into the risk matrix.

67. Annual audited financial statements will be commissioned and managed directly by the Supplier.

68. The table below sets out requirements for regular programme reporting:

- a. The reports to be provided by the Supplier during the Inception Phase are listed in the table below.

Timeframe	Report
Monthly	<ul style="list-style-type: none"> <li>Monthly catch-up meetings (financial and progress). Frequency may change as the programme progresses. These changes will be agreed with the Supplier.</li> </ul>

DFID can provide exceptions on a case by case when this contributes to platforms for knowledge and sharing, acting as a conduit of information and best practice between partners, and to key stakeholders.</li> </ul>

## Payments

69. Payments will be based on a mixture of PbR (successful delivery of agreed outputs/deliverables) and reimbursement of fees and expenses and progress against KPIs.
70. Payment claims will be made to DFID in line with the milestone structure agreed with DFID.
71. Supplier is encouraged to apply the principle of SMART outputs upon which to propose their PbR models.
72. DFID may deviate from the payment model stated in the TOR for reasons that may be attributed to (but not limited to) value for money, changing context, availability of new information, etc. in that event, DFID will discuss and agree there revisions with the Supplier.

## Other Requirements

### UK Aid Branding and Transparency

73. Transparency, value for money, and results are top priorities for the UK Government. DFID has a duty to show UK taxpayers where their money is being spent, its impact, and the results achieved. DFID has guidance on the use of its logos, which will be shared with the Supplier(s) as necessary.
74. DFID has transformed its approach to transparency, reshaping our own working practices and pressuring others across the world to do the same. DFID requires suppliers receiving and managing funds, to release open data on how this money is spent, in a common, standard, re-usable format and to require this level of information from immediate sub-contractors, sub-agencies and partners. It is a contractual requirement for all Suppliers to comply with this, and to ensure they have the appropriate tools to enable routine financial reporting, publishing of accurate data and providing evidence of this DFID – further IATI information is available from: <http://www.aidtransparency.net>.

### Digital Spending Policy

75. Any expenditure on digital services will fall under DFID's Digital Spending Policy. Expenditure on such item(s) will need to be approved by the DFID SRO through DFID's internal systems.
76. Digital in DFID is defined as *any external-facing service provided through the internet or mobile to citizens, businesses, and civil society or non-government organisations*. It can range from text messaging to enable mobile cash transfers, satellite mapping to identify the spread of deforestation or disease, databases of beneficiaries and their feedback, knowledge portals to share programme research, web applications and mobile applications (apps)<sup>11</sup>. It does not apply to internal-facing digital tools between DFID and the supplier or within the supplier organisations/consortium.

### Delivery Chain Mapping

77. Delivery chain mapping is part of DFID's Due Diligence Framework and DFID's programme cycle management. However, the Supplier will identify and directly manage the implementing partners.
78. The Supplier shall provide and maintain an up to date and accurate record (map of the supply chain) of named downstream delivery partners in receipt of DFID funds and/or DFID funded inventory or assets. This record must demonstrate how funds/Assets flow from the initial source to end beneficiaries. This record needs to be updated regularly by the Supplier and when there are material changes to the delivery chain. Delivery Chain Mapping should be included as a standing agenda item in the regularly scheduled (no less than quarterly) progress meetings, for discussion and review.

### Small to Medium sized Enterprises (SMEs)

79. The successful delivery of the programme especially local level interventions will require strong knowledge of local context and experience of working with, and/or delivering through local level organizations. Thus, it is expected that the supplier will work with SMEs/NGOs to deliver some of the local level VAWG prevention and response activities.

### Scale Up/Down

80. The programme is flexible and adaptive. It will invest significantly in learning to support scale up of activities that are delivering the best results, and scaling down or stopping those that are not. Therefore, DFID expects that flexibility, innovation and learning will be integral to the programme especially for activities under output 4, enabling interventions to be adapted quickly to address new information or changing circumstances. In this regard, we expect the Supplier to be able to

anticipate potential changes within their regular risk management process and effectively plan ahead to minimise disruptions to programme implementation and achievement of results. The programme should be structured to facilitate this, with sound evidence to buttress proposed adaptations (e.g. scaling up or scaling down some components of the programme or stopping them where necessary) which will ultimately rest with DFID to approve.

81. While it is understood that elements of the theory of change may change (only at output level) owing to the iterative process and the need for the programme to be flexible and adaptable, the programme will at all times retain a tight focus on how it will deliver the outcomes agreed and continuously strengthen the tools used for monitoring and evaluation.
82. Depending on successful phase 1 interventions, it is possible that other donors could be interested in contributing resources to further scale up of phase 2 activities.

## Timeframe

83. The programme duration is 6 years (72 months), with a 3-month inception and possible extension for additional 2 years (24 months).

The implementation of the programme will be structured as follows:

Phase 1					Phase 2				
YEAR 1			YEAR 2	YEAR 3	YEAR 4	YEAR 5	YEAR 6		
Inception Phase	Break Point	Implementation Phase			Break Point	Implementation Phase			Close-out Phase
		3 months	9 months	12 months		12 months	12 months	12 months	

84. Inception phase will start soon after issue of contract. The contract will be structured as a 6 year requirement however there will be two formal break points in the contract: one at the end of the inception phase and the other at the end of phase 1 (years 1-3). Phase 1 will have a 3 months inception period which will be used to develop and agree programme direction and launch pilot initiatives as well as establish programme operations. This will be followed by a 33-month actual implementation period with ongoing operation research, and monitoring. Continuation of the services after these periods will be based on satisfactory performance and the progress of the Supplier against the specified outputs and milestones. Phase 2 (years 4-6), scale up of successful phase 1 interventions, will last for up to 33 months with the final three months culminating as close-out phase.

### DFID co-ordination

85. The Governance Team Leader in DFID Malawi will be the Senior Responsible Officer (SRO) for the programme while a Justice and VAWG Adviser/Social Development Adviser will lead the day-to-day management of the programme assisted by a Programme Manager.

## Do No Harm

86. DFID requires assurances regarding protection from violence, exploitation and abuse through involvement, directly or indirectly, with DFID suppliers and programmes. This includes sexual exploitation and abuse, but should also be understood as all forms of physical or emotional violence or abuse and financial exploitation.
87. The programme is targeting a highly sensitive area of work. The Supplier must demonstrate a sound understanding of the ethics in working in this area and applying these principles throughout the lifetime of the programme to avoid doing harm to beneficiaries. In particular, the design of interventions including research and programme evaluations should recognise and

mitigate the risk of negative consequence for women, children and other vulnerable groups. The supplier will be required to include a statement that they have duty of care to informants, other programme stakeholders and their own staff, and that they will comply with the ethics principles in all programme activities. Their adherence to this duty of care, including reporting and addressing incidences, should be included in both regular and annual reporting to DFID;

88. A commitment to the ethical design and delivery of evaluations including the duty of care to informants, other programme stakeholders and their own staff must be demonstrated.
89. DFID does not envisage the necessity to conduct any environmental impact assessment for the implementation of the Issue based programme. However, it is important to adhere to principles of “Do No Harm” to the environment.

## Duty of Care

90. The Supplier is responsible for the safety and well-being of their Personnel and Third Parties affected by their activities under this Contract. They will also be responsible for the provision of suitable security arrangements for their domestic and business property.
91. The Supplier is responsible for ensuring appropriate safety and security briefings for all their Personnel working under the Contract and ensuring that their Personnel register and receive security briefings. Travel advice is also available on the FCO website (<https://www.gov.uk/foreign-travel-advice/malawi>) and the Supplier must ensure they (and their Personnel) are up to date with the latest position.
92. Tenderers must develop their SQ Response and ITT response (if invited to Tender) on the basis of being fully responsible for Duty of Care in line with the details provided above. They must confirm that:
  - They fully accept responsibility for Security and Duty of Care.
  - They understand the potential risks and have the knowledge and experience to develop an effective risk plan.
  - They have the capability to manage their Duty of Care responsibilities throughout the life of the contract.
93. The subjective assessment of Duty of Care is placed at Annex 2 to this Terms of Reference. Please note that this risk assessment will be re-examined at the point of transition between the design phase and the implementation phase. If at any stage there are concerns that the Supplier cannot manage Duty of Care then they may be precluded from operating in that region. The ability of the Supplier to manage Duty of Care shall remain a pre-condition of the contract.

## Risk Matrix

94. Malawi is rated as a low risk country. See annex 2 for more details.

## General Data Protection Regulations (GDPR)

95. Please refer to the details of the GDPR relationship status and personal data (where applicable) for this project as detailed in Appendix A and the standard clause 33 in section 2 of the contract.

## Background

96. Violence against Women and Girls (VAWG) is one of the most systematic and widespread human rights violations. The most common forms of VAWG include physical, sexual, and emotional/psychological violence. Women and girls with disabilities are more vulnerable: 'they are twice as likely to experience domestic violence as non-disabled women and girls, and to suffer more severe injuries as a result of the violence.'
97. Malawi does not escape this scourge. Nearly 1 in 3 women has experienced physical violence and 1 in 4 has experienced sexual violence in their lifetime (Malawi Demographic Health Survey 2015/16). There are also harmful traditional practices that impact on women especially widows and women with disabilities.
98. There are also particularly high rates of violence against girls (and boys) in Malawi – 1 in 5 girls and 1 in 7 boys under 18 have experienced sexual violence. Malawi also has one of the highest rates of child marriages in the world with approximately 50% of girls married before they are 18 years of age.<sup>12</sup> Trafficking of children is also widespread.
99. Women and children continue to face significant barriers to access the formal justice system. Few women are able to speak out about violence due to the stigma that surrounds VAWG. Even when a woman wishes to report violence, she often lacks the knowledge of how to claim her legal rights. Women with disabilities in particular face greater difficulties that prevent them from seeking help, including dependence on the abuser, fear and gaps in services.
100. Formal justice providers are not always responsive to the particular needs of the women and children living with violence who seek their services. Most judicial officers view gender-specific forms of violence as being less serious than other forms of violence. Furthermore, Magistrates Courts in Malawi are geographically inaccessible, and poorer women, in particular may also lack the financial resources to pay for transport to get to a court and to pay for services where necessary. These physical and social barriers combine to reinforce the reluctance of many women to report violations against themselves or their children to the relevant authorities.
101. Additional challenges include a lack of forensic facilities: this is an obstacle given the common law requirement of corroborating evidence in rape cases. A shortage of trained magistrates with jurisdiction to pass sentence for more serious VAWG offences means that the judicial process can be particularly slow and costly in terms of time, cash and lost production. Although Child Justice Courts exist in many district capitals, currently they hear only cases where the perpetrator is a child, and most child victims where the alleged offender is an adult are heard in regular courts which lack special "child-friendly" facilities.
102. The preference of most women in rural areas who seek help beyond their families is to turn to informal justice mechanisms such as Village Tribunals (VT)<sup>13</sup> or mediation services provided by NGOs. These mechanisms are more geographically accessible and affordable for women. However, the low status of women in society, mean that women do not always receive effective remedies.
103. In 2010, the Malawi Parliament passed the Local Courts Act which established local courts with jurisdiction to decide on civil matters and on minor criminal offences. These courts will have the power to apply both customary and statutory law. However, given resource constraints it is unlikely that they will become operational anytime soon, and most people will continue to rely on Village Tribunals for several years to come.
104. The legislative framework in Malawi to promote gender equality, protect women and children's rights, is quite robust. However, many laws (e.g. the Prevention of Domestic Violence Act, Gender Equality Act as well as laws relating to marriage and inheritance) are relatively new and are neither fully embedded nor well understood by officials or citizens. Some older law has been partially updated but there are still gaps and inconsistencies in the legislation, compounded by weak enforcement due to budgetary and capacity constraints.

<sup>13</sup> The VTs fill an important gap since the disbandment in 1994 of the controversial Traditional Courts which were widely perceived to have been manipulated for political ends. In many locations, the VTs effectively constitute a formalisation of the Chief's Court and have merged into one and the same body. In others the VTs and Chief's Court run in parallel.

105. The Government of Malawi's policy commitments to tackling VAWG are set out in the National Plan of Action (NPA) to combat Gender-Based Violence 2014-2020 and in the NPA for Vulnerable Children in Malawi: 2015-2019. The Ministry of Gender, Children, Disabilities and Social Welfare (MoGCDSW) is responsible for implementation of both the above-mentioned NPAs. However, at present it has limited capacity and there is no specific budget in place to implement commitments in the GBV NPA<sup>14</sup> and implementation structures are not functioning effectively.

### Business case background (business case available in annex 3)

106. Addressing VAWG is a high priority for the UK government as set out in the Call to End Violence against Women and Girls (2010) and in DFID's revised Strategic Vision for Women and Girls (2015). DFID has also made a global commitment to work with vulnerable groups and to 'leave no one behind' in meeting the sustainable development goals. In recognition of DFID promising work to date, the inquiry by the International Development Committee (2013) as well as the recent ICAI report (2016) on VAWG have urged DFID to scale up its efforts to prevent VAWG. In its 2015 review of security and justice programming ICAI underlined the importance of giving more attention to tackling attitudes which enable VAWG, including working with men and boys.<sup>15</sup>

107. In its Business Plan 2016-2021, DFID Malawi has made preventing and responding to VAWG a cross-office priority. In line with DFID's focus on addressing VAWG through sectoral as well as specific programmes, DFID Malawi is using an innovative twin-track approach:

- **VAWG specific:** Building on the recently completed DFIDM's Justice for Vulnerable Groups (JVG) programme, DFID will invest in a new **VAWG Prevention and Response Programme**, focused on prevention of VAWG and improved justice services for VAWG survivors.
- **Integrated:** Embedding VAWG components and activities into key sectoral programmes, such as resilience programming (village loans and savings, access to credit); education; health and humanitarian work. These sectoral programmes will be submitted separately to Ministers. This programme only includes technical assistance to support them deliver these objectives.

108. As part of the Business Case design, DFID commissioned two queries from the DFID VAWG Helpdesk in 2016 (on the types of VAWG and trends in Malawi, and the actors and programmes on VAWG in Malawi), and engaged a multi-disciplinary team comprising two international experts, a Malawi gender justice expert and a DFID Justice and VAWG Advisor to design inputs for the business case. The design team undertook field visits to all the three regions of the country and held 24 meetings with a range of stakeholders including:

- UN agencies in Malawi (UNFPA, UN Women, UNICEF)
- (I)NGOs working on access to justice and on violence against women and children
- Development partners (RNE, EU Delegation to Malawi, USAID)
- Malawi Government official (Ministry of Gender, Children, Disability and Social Welfare; Ministry of Justice and Constitutional Affairs; Ministry of Health, the Malawi Judiciary and the Malawi Police).

109. Feedback from these engagements helped to shape the business case including the need to focus on local level programming, including work to shift attitudes that tolerate VAWG, as well as a need to strengthen the capacity of the government coordination structures.

110. In February 2017, DFID Malawi held an Early Market Engagement event in Malawi and London to engage and warm up the market. A total of 64 prospective suppliers from the private sector, I/NGOs and the UN attended the event. Feedback from the EME caused the refinement of the

<sup>14</sup> A recent review of the earlier National Response to Combat VAW/C 2008–2013 concluded that while the strategy was successful in changing the government's approach to VAW/C and VAW, poor dissemination and the lack of a budget to support the response affected its implementation at all levels. business case and ensuring a reasonable budget for MEL activities as well as influenced the design of the TORs for this procurement.

111. The Business Case was signed off by ministers on 18 July 2017. HMT signed it off on 3 October 2017 as the Business Case goes beyond the Spending Review.

112. The business case and the other attached documents/papers provide a detailed discussion on violence against women and girls in Malawi, past and ongoing work of key stakeholders (including efforts by other development partners) in tackling violence against girls and the progress and gaps in tackling this issue more generally in Malawi.

## TERMS OF REFERENCE FOR THE IMPACT EVALUATION OF PHASE ONE OF THE VIOLENCE AGAINST WOMEN AND GIRLS (VAWG) PREVENTION AND RESPONSE PROGRAMME

### Background and context

1. DFID Malawi has designed a new six year VAWG Prevention and Response Programme to strengthen the capacities of communities and institutions to prevent and respond to violence against women and girls and to improve the accessibility, responsiveness and accountability of the justice system for women and girls living with violence.
2. The programme will be delivered in two phases. In the first phase (years 1-3), the Service Provider will develop, test and adapt comprehensive local level package(s) of GBV prevention and response interventions in different community contexts. The package of interventions would help to shift social norms and help to ensure improved justice outcomes for women and child survivors of GBV/VAC.
3. The intervention (phase 1 and 2 including inception period) is valued at **£19 million**. It is expected that a maximum of 40% of the budget will be allocated to Phase 1, with the remainder used for scale up in Phase 2. These will be rigorously evaluated and the most successful package of interventions will be scaled up in the second phase (years 4-6).
4. The programme will have a Monitoring, Evaluation and Learning (MEL) component that is expected to represent around 13%-18% of the programmes budget during Phase 1. This MEL component is being procured alongside the 'delivery' components of the programme under one tender exercise. Prospective suppliers are required to demonstrate how they will bring in MEL expertise to deliver the outputs, while maintaining sufficient levels of independence of the MEL component from the rest of the programme.
5. These terms of reference relate only to the impact evaluation deliverable of the MEL component- full details of other MEL outputs are detailed in the full programme terms of reference. Linkages are discussed further below.
6. For more in depth information on the programme and context please refer to the full programme terms of reference and business case (sections A and B) which include full details of the programme's theory of change, target groups, geographical coverage and a description of the local, national and international context within which this intervention will operate. The programme has a strong focus on equity and exclusion, which are detailed in the business case.
7. The programme has the following anticipated impact and outcomes:

**Impact:** Reduced prevalence of Violence against Women and Girls and progress towards the full realisation of women and children's human rights.

**Outcomes:**

- Formal and informal justice services are accessible, responsive and accountable to women and children's needs;
- People in target areas are less tolerant of violence and are more supportive of survivors;
- Individuals and local institutions use non – violent means to settle disputes and avoid harmful practices.

To achieve the impact and outcomes, the programme will deliver the following outputs:

- Formal and informal justice services handle VAWG cases in line with protocols and laws;
- Men and women duty bearers have the knowledge, skills and attitudes to prevent and respond to VAWG;
- Local level mechanisms in place in target areas to support VAWG survivors to access justice and related support services;
- Men and women, boys and girls have the knowledge, skills and attitudes to prevent and respond to VAWG, and
- Improved evidence and communications on what works to prevent and respond to VAWG in Malawi

8. A full theory of change and intervention logic, along with supporting evidence and discussion of assumptions is included in the programme business case (pg. 17, para 66-71). During the inception phase, DFID and the supplier (with strong input from the MEL supplier) are expected to review and finalise this theory of change.

#### Links to other programmes

9. DFID Malawi places strong emphasis on linkages between the different programmes in its portfolio. The main programme ToR outlines linkages to other DFID Malawi programmes where this programme may co-locate in terms of geographic and target group coverage (pg. 4). These linkages will be further developed during the programme's inception phase but are proposed to include alignment in working with community structures/actors in intervention areas across DFID Malawi programmes.

10. Given the purpose of the Phase 1 impact evaluation (detailed below) a joint or partnership-based evaluation has not been considered at this stage. A main function of the evaluation will be to build the evidence base of what works best to prevent violence against women and girls in Malawi which can then be used to inform and influence other actors in Malawi.

#### Paris Declaration Principles

11. The business case describes how this intervention is coherent with the partner government and wider international community response.

- Ownership:* The programme is aligned Government of Malawi's National Action Plans for addressing gender based violence and ending violence against children. The programme advisory board will include representation from senior Malawi Government officials.
- Alignment:* The programme will align with existing structures at community, local, district and national level, working in partnership to improve the way systems are run and services are delivered.
- Harmonisation:* the programme will complement other donors' programmes which largely focus on child protection (UNICEF), strengthening the accountability of the formal justice sector (EU) and a two year programme preventing and responding to gender based violence (USAID).
- Managing for Results:* The MEL component will support the generation of data and learning on VAWG in Malawi, and will support formal and informal justice actors and community groups to capture data on VAWG. As far as possible, the Supplier will link data captured with the Ministry of Gender's management information system.
- Mutual accountability:* The MEL team(s) will report directly to the programme advisory board, members of which include high level Malawi Government Officials and other relevant local stakeholders.

## Purpose

12. The primary purpose of the impact evaluation is *learning*. It will work to help DFID and programme partners identify which local level package(s) of interventions delivered in Phase 1 are the most effective to inform scale up in phase 2 of the programme. This will involve working in close partnership with programme implementers during the inception and delivery of phase one of the programme over a 3 year period.

13. The findings of the evaluation are also expected to contribute to the global evidence base on what works to prevent and respond to violence against women and girls.

14. The primary audience for the evaluation is DFID and its programme partners. This includes the supplier/programme manager, the community structures and actors, and the local, district and national government institutions that the programme will work with and support. The evaluation team will report directly to the Programme management committee which will include representation from all these stakeholders.

## Scope and objectives

15. This terms of reference relates only to the impact evaluation deliverable of the broader MEL component of the programme. The team responsible for the evaluation will be part of this broader MEL team and it is likely they will be responsible for some of the other deliverables under this component (depending on the structure of the successful implementing partners)—details of these deliverables are contained in the main programme terms of reference in paragraph 31.

16. The scope of the impact evaluation is limited to assessing the impact of the packages of interventions delivered at local levels. This includes the local level, social norms elements of output 2, and all deliverables under outputs 3 and 4, as outlined in the main terms of reference. Each of these outputs require a period of scoping and development before the specifics of implementation are finalised. Full descriptions are contained in the main programme ToR (para. 19-30)

-Output 2— Men and women duty bearers have the knowledge, skills and attitudes to prevent and respond to VAWG At a local level the supplier is expected to develop interventions aimed at shifting social norms on VAWG of chiefs, village tribunal counsellors, religious leaders and other locally based judicial officers in the selected community impact areas. This intervention may also seek to promote their understanding of gender equality and women's rights and its attendant obligations. As with the majority of outputs for this tender the Supplier is expected to propose the most effective delivery mechanism for this work, meaning there will be an initial period of scoping before implementation begins.

-Output 3— Local level mechanisms in place in target areas to support VAWG survivors to access justice and related support service: Under this output the implementer(s) is expected to work with formal and informal justice institutions in Malawi to strengthen their responsiveness and appropriateness for women and girls living with violence. One of the early learning outputs of the programme will be to map the coverage and capacity of these institutions to inform the specific capacity building initiatives required.

This output also requires the Supplier to facilitate access to care and support services to survivors of violence through remodelling and repurposing the existing Community VSUs (where these exist) into safe spaces/refuges for women and children. This will also require a period of

scoping to set out clearly how this will be implemented (areas requiring clarification are outlined in para. 25 of the main ToR).

This output also includes activities relating to survivor support. This includes raising awareness on available justice and clinical remedies, and a method for accompanying survivors on their chosen path through the justice system; and the administration of a survivor support fund. As above, a period of scoping is required to set out clearly how these will be delivered.

-Output 4 Men and women, boys and girls have the knowledge, skills and attitudes to prevent and respond to VAWG: This output requires the Supplier to implement proven attitude and behavioural change VAWG prevention interventions working directly with women and girls and men and boys. As above, at this stage the specific details on exactly how this output will be delivered are left to the supplier to suggest. Further details are outlined in the main ToRs (paras. 29-30).

17. The impact evaluation has the following objective:

-Provide DFID, programme implementers and other relevant stakeholders with relevant and actionable recommendations as to which interventions are most effective in preventing and responding to violence against women and girls, based on a rigorous assessment of the impact of a range of interventions during phase 1 of the programme.

18. The nature of the interventions to be evaluated, and the timescales involved present a number of challenges and risks for the evaluation. Firstly, it is unlikely that these interventions will lead to reduced prevalence of VAWG in the first phase of the programme, meaning collecting meaningful data on the programmes impact indicator will not be feasible. Instead, the evaluators will need to propose indicators that are realistic and measurable within the phase 1 timeframe, and that provide the most useful and relevant information for decisions on scale-up. More detail on this is provided below in the section on methodology.

19. Second, there are ethical issues relating to collecting data on VAWG, particular given that the use of an experimental or quasi-experimental design will necessitate collecting data on individuals not receiving the intervention. The evaluators will be expected to propose an appropriate methodology that deals with this risk, drawing on best practice in the monitoring, evaluation and research fields.

## Timing

20. The evaluation will be carried out during Phase 1 of the programme (Years 1-3). The evaluation team will work closely with the implementers during the inception phase to ensure that evaluation considerations are built into the design and implementation. Evaluation activities will be ongoing throughout Phase 1 of the programme, alongside the delivery of other monitoring and learning activities. Specific timings and work plans will be developed during the inception phase.

## Indicative Evaluation Criteria and Questions

21. The evaluation will assess the Phase 1 interventions against the OECD-DAC criteria of relevance, effectiveness, efficiency, impact and sustainability. The primary question for the evaluation to answer is:

*-What interventions are the most likely to be effective in reducing the prevalence of violence against women and girls in Malawi?*

22. Detailed evaluation questions will be developed during the inception phase in collaboration with DFID and the programme implementer(s). Some indicative questions at this stage include:

- Were the intervention(s) relevant and appropriate to the context of the target areas?
- What response interventions are deemed most relevant by survivors of violence?
- Did the intervention(s) successfully target those most at risk?
- Where there any unintended (positive or negative) effects of the intervention(s)?
- What were the specific factors of the intervention(s) that delivered the observed outcomes?
- To what extent are the results/outcomes of the intervention(s) generalizable/scalable to other contexts?
- Which interventions are the most cost-effective?
- What are the likely barriers to scale-up of these interventions?
- Do response initiatives help to *prevent* violence?

23. The evaluation should also provide an assessment of the validity of the assumptions underpinning the programmes theory of change (para 71 in the programme business case.)

#### *Cross-cutting issues*

24. The evaluation should also consider cross-cutting issues where relevant. Issues of gender relations, power relations, marginalisation and human rights are areas that the programme targets directly. However, responsiveness of justice institutions to persons with disability is a further area that the evaluation should consider.

#### **Methodology**

25. The successful MEL supplier will be responsible for developing an appropriate methodology for the Phase 1 impact evaluation. It is expected that this would employ a combination of experimental or quasi-experimental impact evaluation methods, alongside theory-based approaches in order to understand *what* works, *why* and for *whom*.

26. The MEL supplier will have some influence in the selection of intervention areas, but selection will primarily be driven by programmatic considerations (need, relevance to programme objectives). The evaluation team is expected to work closely with the programme implementers throughout the design and inception phase to ensure that implications for evaluation are considered throughout and that the programme is designed in such a way to allow for experimental or quasi-experimental evaluation methods to be used effectively.

27. As part of the methodology development, the MEL supplier will work with the implementing team to revise the theory of change and develop specific testable causal hypothesis and assumptions. This is particularly important given that it will not be possible to fully assess the programme's impact (as defined in the theory of change) by the end of phase 1. An assessment of the programme logic will assist in establishing the likelihood of impact, and provide information to inform the programme's scale-up.

#### **Data**

28. Limited data on VAWG exists in Malawi. There is some quantitative data on prevalence rates, which is of reasonable quality, but is not disaggregated to the levels that will be required by this

programme. The Malawi Demographic and Health Survey contains some information on prevalence rates. A national survey on violence against children and young women in Malawi was published in 2014 and contains information on prevalence rates<sup>16</sup>. However, it is unlikely that these data sources will provide sufficient data that will be suitable for the purposes of this evaluation.

29. The evaluation team will therefore be responsible for developing appropriate data collection instruments to collect the data required for the impact evaluation. This will include strengthening the capacity of organisations that the programme works with (e.g. formal and informal justice institutions, Victim Support Units) to collect high quality data on VAWG. The inception report should contain detailed proposals on data collection. Additionally, one of the inception phase deliverables for the MEL output (output 5) is the completion of a baseline survey across target areas and duty bearers in targeted justice institutions to measure prevalent knowledge, attitudes and norms around gender, VAWG and justice (para 31 of main ToR). Where possible this baseline survey should also serve as the baseline for the evaluation.

### Expected Outputs and indicative workplan

30. The table below outlines the proposed outputs for this impact evaluation, and rough timelines for their delivery. A full work plan will be developed by the partner during inception and will be included in the inception report for this evaluation (which will be quality assured by DFID's evaluation quality assurance service). The supplier will be responsible for sequencing this work plan with the other MEL outputs.

### Roles and responsibilities

31. As part of the MEL unit of the programme, the evaluation team will report to the Programme Management Committee (PMC), which will be the key decision making body of the programme comprising both DFID and service provider staff. It is expected that the majority of the working relationship will be managed between the MEL team and the lead supplier implementing the programme. However, the DFID governance team programme manager will be the day-to-day point of contact for the evaluation team, and will be the contact for any logistical or administrative support required from DFID.

32. The evaluation team will also be responsible for developing an evaluation communication/dissemination plan for this impact evaluation and ensuring that it is embedded in the broader research uptake strategy of the programme's MEL component.

33. DFID will have unlimited access to all material produced under the MEL component of this programme, including all material produced through this impact evaluation.

34. A full work plan for the impact evaluation, with detailed roles, responsibilities and deliverables, will be developed during the inception phase. The MEL team will be responsible for developing this as part of the inception report, which will be signed off by DFID.

35. All evaluation products (inception, mid-term/final reports etc) will be subject to quality assurance through DFID's Evaluation Quality Assurance Service (EQUALS).

36. The evaluation team, alongside the main supplier, will be responsible for all logistical arrangements relating to this evaluation, including, but not limited to travel and in-country appointments.

### Team composition

37. This will require, among other aspects:  
-An experienced team leader with experience of working on evaluations designed to inform scale-up decisions, partnering with governments and civil society.

- Past experience of measuring and evaluating behaviour change, ideally relating to VAWG and Gender inequality.
- Strong understanding of the Malawi context
- Strong knowledge and experience of implementing a range of impact evaluation methods including experimental/quasi-experimental approaches, and theory based impact evaluation methods.

38. The evaluation team should consider the use of local consultants, dependent on skills and availability. Building capacity on evaluation with local organisations involved in the community should also be considered, where this can be conducted alongside the evaluation activities (e.g. through improving partner organisation's ability to collect and analyse data on VAWG).

Host nation travel advice	Not available
Transportation	<p>Malawi has good tarmac roads over some of the country but you should be careful when driving off-road. Driving; particularly outside the major urban areas, can be dangerous as stray livestock can pose a serious hazard. Main roads/motorways are not fenced and people frequently walk on the road. Some trading towns have markets at the roadside. This is a particular risk at night and caution should be taken if driving outside major towns at night.</p> <p>Heavy duty trucks are a common sight on the roads. Zambian, Mozambican and Tanzanian hauliers drive through Malawi when ferrying goods across the region. Trucks that have broken down are a hazard on the road especially at night.</p> <p>Virtually all large cities and towns offer some form of public transportation including mini buses. There are two main airports: Kamuzu International Airport in Lilongwe and Chileka International Airport in Blantyre.</p>
Security	Country threat is assessed as low.
Civil unrest	You should avoid large demonstrations and gatherings. There were country-wide demonstrations in 2011 against the former regime and president Bingu wa Mutharika. During this period, there was loss of life and looting (police fired live ammunition at protestors). Police Crowd Management is poor. Tear gas is the main tool used to disperse crowds. This causes panic and violence ensues.
Violence/crime	<p>Attacks on tourists are rare, but petty and violent crime is increasing. House burglaries; often by armed gangs, are also increasing. There have been some cases of car-jacking. If you are attacked, do not resist. Theft from parked cars does occur. Safeguard valuables and cash. Deposit them in hotel safes, where practical. Keep copies of important documents, including passports, in a separate place to the documents themselves.</p> <p>Violence/crime is assessed as '3'.</p>
Espionage	D
Terrorism	There is a low threat from terrorism. But you should be aware of the global risk of indiscriminate terrorist attacks which could be in public areas, including those frequented by expatriates and foreign travellers. Terrorism risk is assessed as Echo.
War	No identified threat
Hurricane	Low Risk
Earthquake	Low Risk
Flood	Some localised flooding and damage to buildings
Medical Services	Health care in Malawi is poor. For serious medical treatment, medical evacuation to the UK or South Africa may be necessary. Private hospitals will not treat patients unless you can pay and health care may be expensive.
