Service Level Agreement

This Service Level Agreement is subject to the terms and conditions of Client's agreement with Cornerstone (the "Agreement"), and does not become operative until Client has signed off on Implementation, training is completed for all products purchased, and Client's portal is live on Cornerstone's production environment. For clarity, this Service Level Agreement applies only to "live" portals.

DEFECTS

A "Defect" is a technical defect with the Cornerstone application and/or those portions of software integrations within Cornerstone's control. Defects fall into two general categories: major (Severity 1 and Severity 2) and minor (Severity 3). The "Severity" of a Defect is determined by Cornerstone, subject to the following definitions and parameters.

Major Defects

- Severity 1 (S1): A Defect that results in at least one of the following: (i) the Cornerstone URL produces no results, or (ii) Client's authorized users cannot log in to Cornerstone's application after repeated attempts. "Severity 1" does not include downtime for maintenance.
- Severity 2 (S2): A Defect that results in any of the following: (i) an entire application module (e.g., Learning Cloud, Performance Cloud, Extended Enterprise Cloud, etc.) is inaccessible; (ii) no course is being delivered; (iii) no queue will process any transactions; (iv) no report within the application produces any data or the data has not been refreshed in fewer than twenty-four (24) hours; or (v) no tasks will launch.

S1		S2	

Initial Notification	One (1) hour via an Incident Report	
Status Updates	Every two (2) hours until resolution or as indicated in the Incident Report	
Resolution	Twelve (12) hours	Twenty-four (24) hours
Remedy	In the event that Cornerstone has not complied with its "Resolution" obligations set forth above, then, for each calendar day (or portion thereof) that Cornerstone has not so complied, Client shall be entitled, as its sole and exclusive remedy therefor, to a credit against Client's next invoice equal to 1/365th of the annual fees for the affected Software set forth in the Agreement.	

Minor Defects

- Severity 3 (S3): A Defect in one or more application features. For "Severity 3" Defects, Client determines its priority in having the Defect resolved (i.e., Priority 1 (P1), Priority 2 (P2), or Priority 3 (P3)). Any issue not clearly labeled "Priority 1" or "Priority 2" by Client at the time of initial submission will be deemed a "Priority 3" issue.

As a guideline, below are some examples of the three priority levels:

- Priority 1 = A prominent feature I routinely use that is important to my business, where multiple users are prevented from progressing with important tasks. There is no work-around. "I get mad whenever I think about it not working." *An example: The submit button on a task is greyed out and a user cannot submit a performance review.*
- Priority 2 = A feature that is annoying when it doesn't work, but multiple users are not prevented from progressing with important tasks. A work-around exists. "I get annoyed but can deal with it not working." *An example: Users' transcripts do not accurately reflect course completions. A temporary work-around is available via Cornerstone manually running reports for the client to access this data.*
- Priority 3 = A feature issue that is neither Priority 1 nor Priority 2, including without limitation, cosmetic issues with the application. "I can deal with it." *An example: An image is scaled too large on certain printed transcripts.*

	S3/P1	S3/P2	S3/P3
Case Generation	Upon submission		
Status Updates	Available 24/7 via self-service portal.		
Resolution	Thirty (30) calendar days	Sixty (60) calendar days	Within a reasonable time period

Remedy	In the event that Cornerstone has not complied with its "Resolution" obligations for S3/P1 and S3/P2 set forth above, then Client shall give Cornerstone prompt, written notice of such non-compliance. If, after five (5) business days from receipt of such notice of non-compliance, Cornerstone still has not resolved the problem, then Client shall be entitled, as its sole and exclusive remedy therefor, to a one-time credit against Client's next invoice equal to 1/365th of the annual fees for Software set forth in the Agreement.	N/A
--------	---	-----

UPGRADE/DOWNGRADE OF PRIORITY LEVEL

If, during the case submission process, Cornerstone reasonably determines the issue either warrants assignment of a higher priority level than currently assigned or no longer warrants the priority level currently assigned based on its current impact on the production operation of application, then the priority level will be upgraded or downgraded accordingly to the priority level that most appropriately reflects its current impact.

GENERAL QUERIES

Cornerstone endeavors to respond to all general queries about the application within one (1) business day.

OFFLINE PLAYER SUPPORT

For Offline Player, Cornerstone support is limited to troubleshooting one model PC in the client's environment that meets the minimum technical requirements specified by Cornerstone (available in the Cornerstone Success Center). It is the responsibility of the primary administrator to ensure all other machines in their environment conform to the model PC requirements. Should the client desire troubleshooting assistance with issues other than on the model PC, Cornerstone may be available to provide support services for an additional fee. Cornerstone will periodically release new versions of Offline Player. Accordingly, technical support will be available for the then-current version and immediately prior version only. In addition, if a code change is required to resolve the issue, the client may be required to upgrade to the then-current version of Offline Player. The primary administrator is responsible for ensuring that the Offline Player is kept up-to-date, including applying available software updates. The client agrees to provide WebEx access (or other means of remote diagnostics) to the model PC upon request to aid troubleshoot efforts.

SOFTWARE AVAILABILITY

Cornerstone will provide at least 99.5% availability per calendar month to Software (excluding reasonable and scheduled maintenance periods, which usually occur at or after 5:30pm US Pacific Standard Time on Fridays). In the event that Cornerstone has not complied with this Software availability obligation, then, for each 0.3% (or portion thereof) of availability below 99.5%, Client will be entitled, as its sole and exclusive remedy therefor, to a credit against Client's next invoice equal to 1/365th of the annual fees for Software set forth in the Agreement.

To claim a credit, Client must submit a credit request within thirty (30) days of the event giving rise to a credit. Upon receiving the request, Cornerstone shall have five (5) business days to respond.

Hosting Locations

The following list below shows the available hosting location options for each Cornerstone Group Product. At the start of its relationship with Cornerstone, customers must select a single hosting location where each purchased Cornerstone Group Products are available. The customer's physical data shall remain hosted in the selected location(s) and processed in accordance with the terms of the service.

Support Locations

Cornerstone may rely on Cornerstone affiliates and/or other processors (“Subprocessors”) listed below to provide support or perform technical or other types of services for its customers. The use of specific Subprocessors is subject to the master agreement, data processing addendum (“DPA”), adequacy decisions and/or Standard Contractual Clauses Cornerstone executed internally or with (or on behalf of) a given customer (collectively, the “Agreement”).

Third parties

Cornerstone's software may include certain optional features provided by third parties ("Optional Features"), listed below, which are either available for purchase, or embedded and can be disabled by the client.
