Section 1 – About UK Shared Business Services

Putting the business into shared services

UK Shared Business Services Ltd (UK SBS) brings a commercial attitude to the public sector; helping our Contracting Authorities improve efficiency, generate savings and modernise.

It is our vision to become the leading service provider for the Contracting Authorities of shared business services in the UK public sector, continuously reducing cost and improving quality of business services for Government and the public sector.

Our broad range of expert services is shared by our Contracting Authorities. This allows Contracting Authorities the freedom to focus resources on core activities; innovating and transforming their own organisations.

Core services include Procurement, Finance, Grants Admissions, Human Resources, Payroll, ISS, and Property Asset Management all underpinned by our Service Delivery and Contact Centre teams.

UK SBS is a people rather than task focused business. It's what makes us different to the traditional transactional shared services centre. What is more, being a not-for-profit organisation owned by the Department for Business, Energy & Industrial Strategy (BEIS), UK SBS' goals are aligned with the public sector and delivering best value for the UK taxpayer.

UK Shared Business Services Ltd changed its name from RCUK Shared Services Centre Ltd in March 2013.

Our Customers

Growing from a foundation of supporting the Research Councils, 2012/13 saw Business, Energy and Industrial Strategy (BEIS) transition their procurement to UK SBS and Crown Commercial Services (CCS – previously Government Procurement Service) agree a Memorandum of Understanding with UK SBS to deliver two major procurement categories (construction and research) across Government.

UK SBS currently manages £700m expenditure for its Contracting Authorities. Our Contracting Authorities who have access to our services and Contracts are detailed [here](#).

Section 4 – Specification

1. Background

The Office of Manpower Economics (OME) provides support for the eight independent pay review bodies, which make evidence-based recommendations to the Government on levels of pay for their remit groups covering 2.5 million workers – around 45 per cent of public sector staff – and a pay bill of £100 billion. In making recommendations, review bodies consider the need to recruit, retain and motivate suitably able and qualified people as well as affordability.

In supporting these bodies, one of OME's key functions is to provide high quality research-based advice drawing on economic, pay, labour market, statistical and other technical data. More information about the OME, the bodies it supports, and the research it has undertaken, may be found on our website.¹

Three projects were commissioned as part of our 2020 open call for research:

- **The teacher labour market (NfER).** This project used the longitudinal ASHE panel dataset to track what occupations and industries teachers go to when they leave the teaching profession. It used this to develop a measure of teachers' outside pay and a model of teacher retention.
- **The reward system for senior civil servants (IfG).** This project looked at the remuneration and reward of senior civil servants, and the incentives this creates for progression and performance.
- **Pay and reward during the pandemic (IDR).** This project surveyed employers in autumn 2020 and spring 2021 to monitor the changing landscape for pay and to gather evidence on the longer-term impacts of the pandemic on pay setting and reward strategy.

Recent completed research commissioned by OME is published on the website.

We are looking to commission up to five separate projects. **The maximum total budget for all projects commissioned in this tender is £100,000 excluding VAT.**

2. Aims and objectives

OME is inviting proposals to undertake research on public sector pay and workforces that will provide objective new evidence to the pay review bodies to inform their advice to Government. These research projects will be in the following areas: aspects of pay and reward; factors influencing individual-level or organisational productivity; and understanding public sector labour markets.

The OME is looking to build the evidence base available to review bodies on public sector reward and workforce issues, and to encourage new and innovative research. The findings will therefore need to have relevance to at least one, but preferably more, remit group occupations (see below). Projects may cover one or more of the following research areas.

¹ Research at OME. Available at: <https://www.gov.uk/government/organisations/office-of-manpower-economics/about/research>

Potential areas for research

Research proposals should be in the areas of interest to the Pay Review Bodies and cover one or more remit groups, specifically:

(i) Aspects of pay and reward

- Setting of pay levels and total reward packages;
- The relative value and impact of different types of reward, eg pensions, market supplements;
- Analysis of pay and reward systems and structures, including performance pay, locality pay, and pay progression;
- Addressing recruitment and retention issues or skills shortages;
- The uses of, and limits to, pay and reward as a means for effective workforce management, motivation or engagement;
- The impact of changes to reward on recruitment and retention;
- Post-pandemic changes to remuneration practices.

(ii) Factors influencing individual-level or organisational efficiency, output and productivity

- Factors driving recruitment, retention, motivation, morale and staff quality eg the reasons individuals join or leave public sector roles;
- Potential dimensions for targeting pay awards (eg skills; location or performance);
- The relationships between pay levels/systems, motivation/morale/engagement, and individual productivity;
- The relationships between pay and outcomes (eg for patients, pupils);
- The impact of key skill shortages on output, productivity, quality or efficiency;
- The impact of changing technologies on public sector workforces.

(iii) Understanding public sector labour markets and interactions with the private sector:

- Demand for and supply of key skills across the public and private sectors, including in the post-Brexit and post-Covid labour market;
- Analysis and modelling of labour markets for individual public sector occupations;
- Identifying comparators for public sector jobs;
- Analysis of the graduate labour market and its relationship with remit group recruitment, retention and pay;
- Unique or particular aspects of public sector roles eg danger, monopsony labour markets, public service ethos;
- Understanding the impact of the pandemic on labour markets and pay setting
- The impact of large economic shocks on labour markets, especially public sector labour markets.
- Understanding the impact of increased remote working and how this may affect staff recruitment, retention, mobility, pay expectations, etc.

Remit groups and review body coverage

The workforces covered by the pay review bodies are:

- The UK armed forces, including senior military;
- The NHS, including *Agenda for Change* staff, hospital doctors and dentists, GPs, and dentists in general practice, and senior managers;
- The operational prison service in England and Wales, and Northern Ireland – governors, operational managers, officers and support grades;
- School teachers in the state-funded sector in England;
- Senior civil servants;
- The judiciary;
- Police officers, including chief police officers;
- National Crime Agency (NCA) officers with operational powers; and
- Police and Crime Commissioners.

While all our remit groups are UK-based (and some review bodies do not cover all four UK countries), we would welcome international comparisons for key staff groups. Regional/local approaches and UK-wide analyses beyond remits are also of interest.

3. Suggested methodology

We are open to all methodologies which offer a new contribution to the body of knowledge on public sector pay and workforces. We encourage proposals which involve innovative use of new techniques or under-exploited yet robust data (eg unstructured data sets or new ways of linking existing data sets). We would also welcome proposals that enable us to look at pay in a different way or provoke ideas and discussion.

4. Deliverables

Deliverables may vary according to individual projects but will include:

- A methodology paper;
- Regular updates on emerging findings and project progress;
- A draft final written report;
- A final written report incorporating comments from OME staff and review body members as appropriate;
- One or more presentations of the key aspects of the work;
- Key datasets as appropriate.

When finalised, all research reports will be published on the OME website.

Terms and conditions

Bidders are to note that any requested modifications to the Contracting Authority terms and conditions on the grounds of statutory and legal matters only, shall be raised as a formal clarification during the permitted clarification period.

Section 5 – Evaluation model

The evaluation model below shall be used for this ITQ, which will be determined to two decimal places.

Where a question is 'for information only' it will not be scored.

The evaluation team may comprise staff from UK SBS and the Contracting Authority and any specific external stakeholders the Contracting Authority deems required.

After evaluation and if required moderation scores will be finalised by performing a calculation to identify (at question level) the mean average of all evaluators (Example – a question is scored by three evaluators and judged as scoring 5, 5 and 6. These scores will be added together and divided by the number of evaluators to produce the final score of 5.33 ($5+5+6=16 \div 3 = 5.33$))

Pass / Fail criteria		
Questionnaire	Q No.	Question subject
Commercial	SEL1.2	Employment breaches/ Equality
Commercial	SEL1.3	Compliance to Section 54 of the Modern Slavery Act
Commercial	FOI1.1	Freedom of Information
Commercial	AW1.1	Form of Bid
Commercial	AW1.3	Certificate of Bona Fide Bid
Commercial	AW3.1	Validation check
Commercial	AW4.1	Compliance to the Contract Terms
Commercial	AW4.2	Changes to the Contract Terms
Price	AW5.1	Maximum Budget
Quality	AW6.1	Compliance to the Specification
Quality	AW6.2	Variable Bids
-	-	Invitation to Quote – received on time within e-sourcing tool
	In the event of a Bidder failing to meet the requirements of a Mandatory pass / fail criteria, the Contracting Authority reserves the right to disqualify the Bidder and not consider evaluation of any of the Award stage scoring methodology or Mandatory pass / fail criteria.	

Scoring criteria

Evaluation Justification Statement

In consideration of this particular requirement the Contracting Authority has decided to evaluate Potential Providers by adopting the weightings/scoring mechanism detailed within this ITQ. The Contracting Authority considers these weightings to be in line with existing best practice for a requirement of this type.

Questionnaire	Q No.	Question subject	Maximum Marks
Price	AW5.2	Price	10%
Quality	PROJ1.1	Relevance to review body remits and terms of reference	25%
Quality	PROJ1.2	Methodology and ability to add to the body of knowledge	40%
Quality	PROJ1.3	Deliverability including project plan, research team, risk management	25%

Evaluation of criteria

Non-price elements

Each question will be judged on a score from 0 to 100, which shall be subjected to a multiplier to reflect the percentage of the evaluation criteria allocated to that question.

Where an evaluation criterion is worth 20% then the 0-100 score achieved will be multiplied by 20%.

Example if a Bidder scores 60 from the available 100 points this will equate to 12% by using the following calculation:

$$\text{Score} = \{\text{weighting percentage}\} \times \{\text{bidder's score}\} = 20\% \times 60 = 12$$

The same logic will be applied to groups of questions which equate to a single evaluation criterion.

The 0-100 score shall be based on (unless otherwise stated within the question):

0	The question is not answered, or the response is completely irrelevant.
10	Extremely poor response which misses the point of the question.
20	Very poor response with major deficiencies and does not meet the requirements.
40	Poor response with significant deficiencies. Well below what is needed to meet the requirement.
50	Borderline. Weak overall, with some reasonable features, but deficiencies too.
60	Response is acceptable but remains basic and could have been expanded upon.
70	Good response which meets the requirements.
80	Very good response which meets the requirements in detail.
90	Excellent and detailed response which inspires confidence in the ability to deliver the requirement.
100	Response is exceptional and goes substantially beyond expectations.

All questions will be scored based on the above mechanism. Please be aware that there may be multiple evaluators. If so, their individual scores will be averaged (mean) to determine your final score as follows:

Example

Evaluator 1 scored your bid as 60
Evaluator 2 scored your bid as 60
Evaluator 3 scored your bid as 40
Evaluator 4 scored your bid as 40
Your final score will $(60+60+40+40) \div 4 = 50$

Once the above evaluation process has been undertaken and the scores are apportioned by evaluator(s) this will then be subject to an independent commercial review and moderation meeting, if required by the commercial lead, any and all changes will be formally recorded relative to the regulatory obligations associated with this procurement, so as to ensure that the procurement has been undertaken in a robust and transparent way.

Price elements will be judged on the following criteria.

The lowest price for a response which meets the pass criteria shall score 100.
All other bids shall be scored on a pro rata basis in relation to the lowest price. The score is then subject to a multiplier to reflect the percentage value of the price criterion.

For example - Bid 1 £100,000 scores 100.

Bid 2 £120,000 differential of £20,000 or 20% remove 20% from price scores 80

Bid 3 £150,000 differential £50,000 remove 50% from price scores 50.

Bid 4 £175,000 differential £75,000 remove 75% from price scores 25.

Bid 5 £200,000 differential £100,000 remove 100% from price scores 0.

Bid 6 £300,000 differential £200,000 remove 100% from price scores 0.

Where the scoring criterion is worth 50% then the 0-100 score achieved will be multiplied by 50.

In the example if a supplier scores 80 from the available 100 points this will equate to 40% by using the following calculation: $\text{Score/Total Points} \times 50$ ($80/100 \times 50 = 40$)

The lowest score possible is 0 even if the price submitted is more than 100% greater than the lowest price.

This evaluation criteria will therefore not be subject to any averaging, as this is a mathematical scoring criteria, but will still be subject to a commercial review.

Evaluation process

The evaluation process will feature some, if not all, the following phases.

Stage	Summary of activity
Receipt and Opening	<ul style="list-style-type: none">ITQ logged upon opening in alignment with UK SBS's procurement procedures.Any ITQ Bid received after the closing date will be rejected unless circumstances attributed to the Contracting Authority or the e-sourcing tool beyond the bidder control are responsible for late submission.

Scoring of the Bid	<ul style="list-style-type: none"> • Evaluation team will independently score the Bid and provide a commentary of their scoring justification against the criteria.
Clarifications	<ul style="list-style-type: none"> • The Evaluation team may require written clarification to Bids.
Re-scoring of the Bid and Clarifications	<ul style="list-style-type: none"> • Following Clarification responses, the Evaluation team reserve the right to independently re-score the Bid and Clarifications and provide a commentary of their re-scoring justification against the Evaluation criteria.

What makes a good bid – some simple dos

DO:

- 7.1 Do comply with Procurement document instructions. Failure to do so may lead to disqualification.
- 7.2 Do provide the Bid on time, and in the required format. Remember that the date/time given for a response is the last date that it can be accepted; we are legally bound to disqualify late submissions. Responses received after the date indicated in the ITQ shall not be considered by the Contracting Authority, unless the Bidder can justify that the reason for the delay, is solely attributable to the Contracting Authority
- 7.3 Do ensure you have read all the training materials to utilise e-sourcing tool prior to responding to this Bid. If you send your Bid by email or post it will be rejected.
- 7.4 Do use Microsoft Word, PowerPoint Excel 97-03 or compatible formats, or PDF unless agreed in writing by the Buyer. If you use another file format without our written permission, we may reject your Bid.
- 7.5 Do ensure you utilise the Delta eSourcing messaging system to raise any clarifications to our ITQ. You should note that we will release the answer to the question to all Bidders and where we suspect the question contains confidential information, we may modify the content of the question to protect the anonymity of the Bidder or their proposed solution
- 7.6 Do answer the question, it is not enough simply to cross-reference to a 'policy', web page or another part of your Bid, the evaluation team have limited time to assess bids and if they can't find the answer, they can't score it.
- 7.7 Do consider who the Contracting Authority is and what they want – a generic answer does not necessarily meet every Contracting Authority's needs.
- 7.8 Do reference your documents correctly, specifically where supporting documentation is requested e.g. referencing the question/s they apply to.
- 7.9 Do provide clear, concise and ideally generic contact details; telephone numbers, e-mails and fax details.
- 7.10 Do complete all questions in the questionnaire or we may reject your Bid.
- 7.11 Do ensure that the Response and any documents accompanying it are in the English Language, the Contracting Authority reserve the right to disqualify any full or part responses that are not in English.

- 7.41 All timescales are set using a 24-hour clock and are based on British Summer Time or Greenwich Mean Time, depending on which applies at the point when Date and Time Bids shall be submitted through the Delta eSourcing Portal.
- 7.42 All Central Government Departments and their Executive Agencies and Non-Departmental Public Bodies are subject to control and reporting within Government. In particular, they report to the Cabinet Office and HM Treasury for all expenditure. Further, the Cabinet Office has a cross-Government role delivering overall Government policy on public procurement - including ensuring value for money and related aspects of good procurement practice.

For these purposes, the Contracting Authority may disclose within Government any of the Bidders documentation/information (including any that the Bidder considers to be confidential and/or commercially sensitive such as specific bid information) submitted by the Bidder to the Contracting Authority during this Procurement. The information will not be disclosed outside Government. Bidders taking part in this ITQ consent to these terms as part of the competition process.

- 7.43 The Government introduced its new Government Security Classifications (GSC) classification scheme on the 2nd April 2014 to replace the current Government Protective Marking System (GPMS). A key aspect of this is the reduction in the number of security classifications used. All Bidders are encouraged to make themselves aware of the changes and identify any potential impacts in their Bid, as the protective marking and applicable protection of any material passed to, or generated by, you during the procurement process or pursuant to any Contract awarded to you as a result of this tender process will be subject to the new GSC. The link below to the Gov.uk website provides information on the new GSC:

<https://www.gov.uk/government/publications/government-security-classifications>

The Contracting Authority reserves the right to amend any security related term or condition of the draft contract accompanying this ITQ to reflect any changes introduced by the GSC. In particular where this ITQ is accompanied by any instructions on safeguarding classified information (e.g. a Security Aspects Letter) as a result of any changes stemming from the new GSC, whether in respect of the applicable protective marking scheme, specific protective markings given, the aspects to which any protective marking applies or otherwise. This may relate to the instructions on safeguarding classified information (e.g. a Security Aspects Letter) as they apply to the procurement as they apply to the procurement process and/or any contracts awarded to you as a result of the procurement process.
